A History of Modern Singapore, 1819-2005 C.M. Turnbull 2009-01-01 When C.M. Turnbull's *A History of Singapore, 1819-1975* appeared in 1977, it quickly achieved recognition as the definitive history of Singapore. A second edition published in 1989 brought the story up to the elections held in 1988. In this fully revised edition, rewritten to take into account recent scholarship on Singapore, the author has added a chapter on Goh Chok Tong's premiership (1990-2004) and the transition to a government headed by Lee Hsien Loong. The book now ends in 2005, when the Republic of Singapore celebrated its 40th anniversary as an independent nation. Major changes occurred in the 1990s as the generation of leaders that oversaw the transition from a colony to independence stepped aside in favour of a younger generation of leaders. Their task was to shape a course that sustained the economic growth and social stability achieved by their predecessors, and they would be tested towards the end of the decade when Southeast Asia experienced a severe financial crisis. Many modern studies on Singapore focus on current affairs or very recent events and pay a great deal of attention to Singapore's successful transition from the developing to the developed world. However, younger historians are increasingly interested in other aspects of the country's past, particularly social and cultural issues. *A History of Modern Singapore, 1819-2005* provides a solid

foundation and an overarching framework for this research, surveying Singapore's trajectory from a small British port to a major trading and financial hub within the British Empire and finally to the modern city state that Singapore became after gaining independence in 1965.

Building Resilient Neighbourhoods in Singapore Chan-Hoong Leong 2019-03-28 This book examines how institutional and environmental features in neighbourhoods can contribute to social resilience, highlighting the related socio-demographic issues, as well as the infrastructure, planning, design and policies issues. It is divided into three themes - infrastructure, planning, and community. Infrastructure examines how physical features such as parks and street patterns influence neighborliness and resilience, while planning studies how urban design enhances social interactions. Lastly, community discusses policies that can forge social bonds, either through racial integration, grassroots activities, or social service. Overall, the book combines research and empirical work with scholarly models of resilience and governance philosophy, focusing on Singapore's urban planning and social policies.

A City in Blue and Green Peter G. Rowe 2019-08-30 This open access book highlights Singapore's development into a city in which water and greenery, along with associated environmental, technical, social and political aspects have been harnessed and cultivated into a liveable sustainable way of life. It is also a story about a unique and thoroughgoing approach to large-scale and potentially transferable water sustainability, within largely urbanized circumstances, which can be achieved, along with complementary roles of environmental conservation, ecology, public open-space management and the greening of buildings, together with infrastructural improvements.

Integrated Air Quality Management Nguyen Thi Kim Oanh 2012-07-05 The steady growth in the number of vehicles on the road, heavy reliance on coal, use of dirty fuels for residential combustion, and extensive open burning are some of the major factors leading to the progressive deterioration of air quality in developing countries in Asia. And despite efforts to establish and implement air quality measurement systems, the development of infrastructure, environmental technology, and management practices continues to lag behind the rate of emission increase. Based on ten years of coordinated research, *Integrated Air Quality Management: Asian Case Studies* discusses technical and policy tools for the integrated air quality management of developing countries in Asia. The book begins with an overview of major issues of air quality management practices in developing Asia and potential approaches to reduce pollution, including opportunities for integration of air quality improvement and climate migration strategies. It covers the methodology and results of fine particulate matter monitoring using traditional filter-based and satellite monitoring techniques. It examines the applications of a 3D dispersion modeling tool for urban and regional air quality management focusing on surface ozone, fine particulate matter, and acid deposition. The final chapters discuss innovative control technologies for gaseous air pollutants and illustrate the integrated air quality management in developing Asia through case studies for target source categories including agricultural residue field burning, vehicle emissions, brick kilns, and industrial VOC emission. Illustrated with case studies, this book presents an integrated air quality management methodology that employs technical and policy tools to achieve air quality goals. It includes technical information and policy recommendations based on the outcomes of several multi-year air quality research programs coordinated by the Asian Institute of Technology. The text combines fundamental information and advanced knowledge useful to large audiences dealing with subjects of integrated air quality

management.

Civic Multiculturalism in Singapore Terri-Anne Teo 2019-06-05 This book is about multiculturalism, broadly defined as the recognition, respect and accommodation of cultural differences. Teo proposes a framework of multicultural citizenship that includes group-specific rights and intercultural dialogue, by problematising three issues: a) the unacknowledged misrecognition of non-citizens within the scholarship of multiculturalism; b) uncritical treatment of citizens and non-citizens as binary categories and; c) problematic parcelling of group-specific rights with

citizenship rights. Drawing on the case of Singapore as an illustrative example, where temporary labour migrants are culturally stereotyped, socioeconomically disenfranchised and denied access to rights accorded only to citizens, Teo argues that understandings of multiculturalism need to be expanded and adjusted to include a fluidity of identities, spectrum of rights and shared experiences of marginalisation among citizens and non-citizens. Civic Multiculturalism in Singapore will be of interest to students and scholars of multiculturalism, critical citizenship studies, migration studies, political theory and postcolonial studies.

The work is part of the ongoing LandLex initiative, originally developed as part of the COST ENeL - European Network for e-Lexicography - action. The group brings together researchers in lexicography and lexicology from across Europe and is dedicated to studying multilingual and diachronic issues in language. Singapore and Switzerland Yvonne Guo 2016-07-22 The cases of Singapore and Switzerland present a fascinating puzzle: how have two small states

achieved similar levels of success through divergent pathways? Are both approaches equally sustainable, and what lessons do they hold for each other? While Singapore is the archetypal developmental state, whose success can be attributed to strong political leadership and long-term planning, Switzerland's success is a more organic process, due to the propitious convergence of strong industries and a resilient citizenry. Yet throughout the course of their development, both countries have had to deal with the dual challenges of culturally heterogeneous populations and challenging regional contexts. Edited by Yvonne Guo and Jun Jie Woo, with forewords from Ambassadors Thomas Kupfer and Tommy Koh, *Singapore and Switzerland: Secrets to Small State Success* features contributions from distinguished scholars and policymakers who explore the dynamics of two small states which have topped international rankings in a dazzling array of policy areas, from economic competitiveness to education to governance, but whose pathways to success could not be more different. The Frangipani Tree Mystery Ovidia Yu 2017-06-01 First in a delightfully charming crime series set in 1930s Singapore, introducing amateur sleuth SuLin, a local girl stepping in as governess for the Acting Governor of Singapore. 1936 in the Crown Colony of Singapore, and the British

abdication crisis and rising Japanese threat seem very far away. When the Irish nanny looking after Acting Governor Palin's daughter dies suddenly - and in mysterious circumstances - mission school-educated local girl SuLin - an aspiring journalist trying to escape an arranged marriage - is invited to take her place. But then another murder at the residence occurs and it seems very likely that a killer is stalking the corridors of Government House. It now takes all SuLin's traditional skills and intelligence to help British-born Chief Inspector Thomas LeFroy solve the murders - and escape with her own life. 'Simply glorious. Every nook and cranny of 1930s Singapore is brought richly to life, without ever getting in the way of a classic puzzle plot. But what's a setting without a jewel? Chen Su Lin is a true gem. Her slyly witty voice and her admirable, sometimes heartbreaking, practicality make her the most beguiling narrator heroine I've met in a long while.' Catriona McPherson 'Charming and fascinating with great authentic feel. Ovidia Yu's teenage Chinese sleuth gives us an insight into a very different culture and time. This book is exactly why I love historical novels.' Rhys Bowen

Gone Case Dave Chua 2012 A touching yet unsentimental story about growing up in Singapore seen through the eyes of Yong, a 12-year-old, who experiences the paradoxes of life even if he doesn't always understand everything. Between the rigorous demands of school and taking care of his younger sibling, Yong deals with the death of Ah Por, upheavals in his family, run-ins with the neighbourhood gang leader, infatuation and finally, the end of a friendship. Set in a Housing Development Board (HDB) estate, Gone Case is a coming-of-age story with many memorable moments. It won the Singapore Literature Prize Commendation Award in 1996 and was on the National Library Board's Read! Singapore 2011 list. It was adapted into a telemovie, produced and written by Lee Thean Jeen, directed by Ler Jiyuan in 2013. Reader Reviews "GONE CASE might be the most underrated work of fiction in Singaporean letters... I love this book: the Singlish; the spare, sometimes lyrical and always unpretentious language; the silences and what they imply. The novel's episodic narrative even mirrors the TV serials of the era. I'm waiting for someone to make a proper film of it, and to render on screen, among many memorable images, the most poignant closing paragraph in Singaporean literature." - Alvin Pang, author of City of Rain and Testing The Silence, from Goodreads "A quietly disturbing novel on an HDB childhood in Singapore... An overlooked classic of local lit." - Ng Yi-Sheng, author of last boy "A thought-provoking bildungsroman that centralises itself around a twelve year old boy. Well written with varied use of figurative language and clearly described. Although the conversations are filled with vernacular terms, their usage makes the story extremely realistic. Excellent literature." - Apollos Michio, Goodreads

ASEAN Space Programs Quentin Verspieren 2022-01-12 This book presents the first-ever comprehensive analysis of ASEAN space development programs. Written by prominent actors in the region, it goes beyond a mere exposé of the history, current status and future plans of ASEAN space technology development and utilization programs, by analyzing the conditions in which a space program can be initiated in the region. It does so in two ways: on the one hand, it questions the relevance of and motivations behind the inception of space development programs in developing countries, and on the other hand, it focuses on the very specific context of ASEAN (a highly disaster-prone area shaped by unique political alliances with a distinctive geopolitical ecosystem and enormous economic potential, etc.). Last but not least, after having analyzed established and emerging space programs in the region, it provides concrete recommendations for any regional or extra-regional developing nation eager to gain a foothold in

space. As such, this book offers a valuable resource for researchers and engineers in the field of space technology, as well as for space agencies and government policymakers.

The Interpreter's Daughter Teresa Lim 2022-09-06 A beautiful, sweeping, multigenerational narrative that spans from nineteenth century south China to modern day Singapore. I would learn that when families tell stories, what they leave out re-defines what they keep in. With my family, these were not secrets intentionally withheld. Just truths too painful to confront. In the last years of her life, Teresa Lim's mother, Violet Chang, had copies of a cherished family photograph made for those in the portrait who were still alive. The photo is mounted on cream card with the name of the studio stamped at the bottom in Chinese characters. The place and date on the back: Hong Kong, 1935. Teresa would often look at this photograph, enticed by the fierceness and beauty of her great-aunt Fanny looking back at her. But Fanny never seemed to feature in the family stories that were always being told and retold. Why? she wondered. This photograph set Teresa on a journey to uncover her family's remarkable history. Through detective work, serendipity, and the kindness of strangers, she was guided to the fascinating, ordinary, yet extraordinary life of her great-aunt and her world of sworn spinsters, ghost husbands and the working-class feminists of nineteenth century south China. But to recover her great-aunt's past, we first must get to know Fanny's family, the times and circumstances in which they lived, and the momentous yet forgotten conflicts that would lead to war in Singapore and, ultimately, a long-buried family tragedy. *The Interpreter's Daughter* is a beautifully moving record of an extraordinary family history. For fans of *Wild Swans*, *The Hare With Amber Eyes*, and *Falling Leaves*, *The Interpreter's Daughter* is a classic in the making.

Dynamics of Community Formation Robert W. Compton, Jr. 2017-10-13 This interdisciplinary work discusses the construction, maintenance, evolution, and destruction of home and community spaces, which are central to the development of social cohesion. By examining how people throughout the world form different communities to establish a sense of home, the volume surveys the formation of identity within the context of rapid development, global and domestic neoliberal and political governmental policies, and various societal pressures. The themes of cooperation, conflict, inclusion, exclusion, and balance require negotiation between different actors (e.g., the state, professional developers, social activists, and residents) as homes and communities develop.

Corporate Social Responsibility in Asia Kyoko Fukukawa 2009-10-29 Corporate Social Responsibility (CSR) is an important issue in contemporary business, management and politics, especially since the launch of the United Nations Global Compact in 2000 as an initiative to encourage

businesses worldwide to adopt sustainable and socially responsible policies, and to report on them. This book examines the theory and practice of CSR in Asia. The philosophical and ideological underpinnings of CSR are rooted in Anglo-American and European principles of liberal democratic rights, justice and societal structures. This book not only considers the impact of Western CSR practices in Asia, but also provides much needed Asian perspectives on this issue. It investigates the operation of CSR in different countries across Asia, including China, Japan, Malaysia, Thailand and Bangladesh - comparing the different meanings given to CSR, and the varying degrees of success experienced in different national contexts. This book argues if CSR is ever to revolutionize the manner in which we trade then it needs to open itself up to the full variety of social responsibility as it occurs around the world. The book re-maps and refines debates about CSR as a global phenomenon, and will be of great value to professionals making strategic decisions in the global business environment.
