The Fear of Barbarians Tzvetan Todorov 2010-10-15 The relationship between Western democracies and Islam, rarely entirely comfortable, has in recent years become increasingly tense. A growing immigrant population and worries about cultural and political assimilation—exacerbated by terrorist attacks in the United States, Europe, and around the world—have provoked reams of commentary from all parts of the political spectrum, a frustrating majority of it hyperbolic or even hysterical. In *The Fear of Barbarians*, the celebrated intellectual Tzvetan Todorov offers a corrective: a reasoned and often highly personal analysis of the problem, rooted in Enlightenment values yet open to the claims of cultural difference. Drawing on history, anthropology, and politics, and bringing to bear examples ranging from the murder of Theo van Gogh to the French ban on headscarves, Todorov argues that the West must overcome its fear of Islam if it is to avoid betraying the values it claims to protect. True freedom, Todorov explains, requires us to strike a delicate balance between protecting and imposing cultural values, acknowledging the primacy of the law, and yet strenuously protecting minority views that do not interfere with its aims. Adding force to Todorov's arguments is his own experience as a native of communist Bulgaria: his admiration of French civic identity—and Western freedom—is vigorous but non-nativist, an inclusive vision whose very flexibility is its core strength. The record of a penetrating mind grappling with a complicated, multifaceted problem, *The Fear of Barbarians* is a powerful, important book—a call, not to arms, but to thought.

Bagheria Dacia Maraini 1994 In Bagheria, Dacia Maraini revisits the landscape of early memory. She describes Sicily in sensuous detail, the town of Bagheria, and the ancestral villa to which she returned as a child after two horrific years of imprisonment with her family in a Japanese concentration camp. The Villa Valguarnera and Maraini recalls the spiritual struggles and her rebellion against the elitism of her class. She also discusses her experience of child abuse. Bagheria is also a tale of corruption: centuries of the town's past unfold alongside Maraini's family history as she details the involvement of the Mafia in the architectural decimation of Bagheria in the 1970s.

Cultural Encounters in Translation from Arabic Said Faiq 2004 Translation is intercultural communication in its purest form. Its power in forming and/or deforming cultural identities has only recently been acknowledged, given the attention it deserves. The chapters in this unique volume assess translation from Arabic into other languages from different perspectives: the politics, economics, ethics, and poetics of translating from Arabic; a language often neglected in western mainstream translation studies.

Six Memos for the Next Millennium Italo Calvino 2013-04-04 Italo Calvino was due to deliver the Charles Eliot Norton lectures at Harvard in 1985-86, but they were left unfinished at his death. The surviving drafts explore the concepts of Lightness, Quickness, Multiplicity, Exactitude and Visibility (Constancy was to be the sixth) in serious yet playful essays that reveal Calvino's debt to the comic strip and the folktale. With his customary imagination and grace, he sought to define the virtues of the great literature of the past in order to shape the values of the future. This collection is a brilliant précis of the work of a great writer whose legacy will endure through the millennium he addressed. Italo Calvino, one of Italy's finest postwar writers, has delighted readers around the world with his deceptively simple, fable-like stories. Calvino was born in Cuba in 1923 and raised in San Remo, Italy; he fought for the Italian Resistance from 1943-45. His major works include *Cosmicomics* (1968), *Invisible Cities* (1972), and *If on a winter's night a traveler* (1979). He died in Siena in 1985, of a brain hemorrhage.

The Leopard Giuseppe Di Lampedusa 2007-11-06 Set in the 1860s, The Leopard tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private worlds, and the grasp of human frailty imbue The Leopard with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

English-Only Europe? Robert Phillipson 2004-04-28 English-Only Europe? explores the role of languages in the process of European integration. Languages are central to the development of an integrated Europe. The way in which the European Union deals with multilingualism has serious implications for both individual member countries and international relations. In this book, Robert Phillipson considers whether the contemporary expansion of English represents a serious threat to other European languages. After exploring the implications of current policies, Phillipson argues the case for more active language policies to safeguard a multilingual Europe. Drawing on examples of countries with explicit language policies such as Canada and South Africa, the book sets out Phillipson's vision of an inclusive language policy for Europe, and describes how it can be attained.

A startling act of self-reflection, In Other Words is Lahiri's meditation on the process of learning to express herself in another

language—and the stunning journey of a writer seeking a new voice.

The European Charter for Regional Or Minority Languages Council of Europe 2010-01-01 The European Charter for Regional or Minority Languages is one of the key conventions of the Council of Europe. Its aim is to protect and promote the linguistic diversity in each of the states parties. It is a unique legal instrument, the only one in the world specifically devoted to the protection and promotion of minority languages. The charter being a rather complex instrument, this document aims at providing a user-friendly compilation of basic texts on how the charter operates and how its monitoring mechanism works. This compilation is therefore addressed not only to government experts and central, local and regional authorities of the states parties to the charter, but also to representatives of regional or minority language speakers, non-governmental organisations, students, researchers and anyone else interested in the protection and promotion of minority languages.

Sprachliche Mittel im Unterricht der romanischen Sprachen Christoph Bürgel 2017-10-09 Im Zuge der Kompetenzorientierung ist die Relevanz der sprachlichen Mittel - Aussprache, Wortschatz, Morphosyntax - als Voraussetzungen für fremdsprachliche kommunikative Kompetenz vor allem in der deutschen Fremdsprachendidaktik mitunter aus dem Blick geraten. Es scheint daher an der Zeit, ein neuerliches Augenmerk auf die Funktion und Bedeutung der sprachlichen Mittel für eine effiziente Ausbildung der interkulturellen kommunikativen Handlungsfähigkeit zu richten. Diese Aspekte hat die hier in Auswahl publizierte Sektion des XXXIV. Deutschen Romanistentags in Mannheim untersucht.

Computational Power Massimo Durante 2021-03-11 We delegate more and more decisions and tasks to artificial agents, machine-learning mechanisms, and algorithmic procedures or, in other words, to computational systems. Not that we are driven by powerful ambitions of colonizing the Moon, replacing humans with legions of androids, creating sci-fi scenarios à la Matrix or masterminding some sort of Person of Interest-like

Machine. No, the current digital revolution based on computational power is chiefly an everyday revolution. It is therefore that much more profound, unnoticed and widespread, for it affects our customary habits and routines and alters the very texture of our day-to-day lives. This opens a precise line of inquiry, which constitutes the basic thesis of the present text: our computational power is exercised by trying to adapt not just the world but also our representation of reality to how computationally based ICTs work. The impact of this technology is such that it does not leave things as they are: it changes the nature of agents, habits, objects and institutions and hence it subverts the existing order, without necessarily generating a new one. I argue that this power is often not distributed in an egalitarian manner but, on the contrary, is likely to result in concentrations of wealth, in dominant positions or in unjust competitive advantages. This opens up a struggle, with respect to which the task of reaffirming the fundamental values, the guiding principles, the priorities and the rules of the game, which can transform, or attempt to transform, a fierce confrontation between enemies in a fair competition between opponents rests on us.
