Alternative Modernities Giuseppe Vacca 2020-10-23 Antonio Gramsci lived the Great War as a “historic break,” a profound experience that left an indelible mark on the development of his political thought. Translated into English for the first time, *Alternative Modernities* reconstructs and analyses this critical period of Gramsci’s intellectual formation through a systematic analysis of his writings from 1915 to 1935. For Gramsci, Soviet Communism, “Americanism,” and the “new” Fascist State were the principle responses to the crisis of the old world order. He portrayed them as the three protagonists of twentieth-century modernity, alternatives destined to tragically clash in the worldwide struggle for hegemony. Among the arguments in his *Prison Notebooks*, Gramsci casts doubt on the political strategy of Soviet Communism and the theoretical underpinnings of “official Marxism.” Instead, he suggests a radical revision of Marxism by breathing life into a new interpretation whose fundamental concepts are: politics as the struggle for hegemony, the “passive revolution” as a historical paradigm of modernity, and the philosophy of praxis as the welding between visions of the worlds, historical analyses, and political strategies. Gramsci’s intuitions culminate in a new theory of the political subject, supported by a reflection upon the 20th century that still speaks to us today, pointing the way toward a new narrative of world history.

The Book of Judas Brendan Kennelly 1991 Brendan Kennelly's *Book of Judas*, a 400-page epic poem in twelve parts, became the number one bestselling book in Ireland. As well as receiving rapturous reviews, Brendan Kennelly won the Sunday Independent/Irish Life Award for the book and earned the ultimate accolade of 'Kerryman of the Year'. Not merely lost but irredeemable, Kennelly's bitterly articulate Judas speaks, dreams and murmurs - of past and present, history and myth, good and evil, of men, women and children, and of course money - until we realise that the unspeakable perpetrator of the apparently unthinkable, in penetrating the icy reaches of his own world, becomes a sly, many-voiced critic of ours. The full-sized *Book of Judas* is no longer available, usurped by *The Little Book of Judas*, a distillation of that literary monster, purged to its traitorous essence.

Beyond Leadership Scott Eacott 2017-11-06 This book systematically elaborates Scott Eacott’s “relational” approach to organizational theory in education. Contributing to the relational trend in the social sciences, it first surveys relational scholarship across disciplines before providing a nuanced articulation of the relational research program and key concepts such as organizing activity, auctors, and spatio-temporal conditions. It also includes critical commentaries on the program from key figures such as Tony Bush, Megan Crawford, Fenwick English, Helen Gunter, Izhar Oplatka, Augusto Riveros, and Dawn Wallin. As such, the text models an approach to, or social epistemology for building knowledge claims in relation rather than through parallel monologues. Eacott’s relational approach provides a distinctive, post-Bourdieuian variant of the relational sociological project. Shifting the focus of inquiry from entities (e.g., leaders, organizations) to organizing activity and recognizing how auctors generate – simultaneously emerging from and constitutive of – spatio-temporal conditions unsettles the orthodoxy of organizational theory in educational administration and leadership. By presenting its claims in the context of other approaches, the book stimulates intellectual debate among both relational sociologists and opponents of relational approaches. *Beyond Leadership* provides significant insights into the organizing of education. As it does not fit neatly into any one field, but instead blends educational administration and leadership, organizational studies, and relational sociology, among others, it charts new territory and promotes important dialogue and debate.

The Historic Imaginary Claudio Fogu 2003-01-01 Focusing on both ritual and mass-visual representations of history in 1920s and 1930s Italy, *The Historic Imaginary* unveils how Italian Fascism sought to institutionalize a modernist culture of history. The study takes a new historicist and microhistorical approach to cultural-intellectual history, integrating theoretical tools of analysis acquired from visual-cultural studies, art history, linguistics, and reception theory in a sophisticated examination of visual modes of historical representation - from commemorations to monuments to exhibitions and mass-media - spanning the entire period of the Italian-fascist regime. Claudio Fogu argues that the fascist historic imaginary was intellectually rooted in the actualist philosophy of history elaborated by Giovanni Gentile, culturally grounded in Latin-Catholic rhetorical codes, and aimed at overcoming both Marxist and liberal conceptions of the relationship between historical agency, representation, and consciousness. The book further proposes that this modernist vision of history was a core element of fascist ideology, encapsulated by the famous Mussolinian motto that "fascism makes history rather than writing it," and that its institutionalization constituted a key point of intersection between the fascist aesthetization and sacralization of politics. The author finally claims that his study of fascist historic culture opens the way to an understanding and re-evaluation of the historical relationship between the modernist critique of historical consciousness and the rise of post-modernist forms of temporality.

The Idea of the Republic Norberto Bobbio 2003-11-07 In this lively and engaging book, Norberto Bobbio, the distinguished contemporary Italian philosopher, and the political theorist Maurizio Viroli, explore a range of themes relating to the idea of the Republic and some of the major political and ethical issues of the day. A lively discussion of politics and political theory by one of the world’s most distinguished political theorists and philosophers. Provides an excellent introduction to the work of Bobbio for the newcomer. Explains the idea of the Republic and some of the major political and ethical themes of the day. Demonstrates philosophy in action, with a breadth of reference including Machiavelli, Hobbes, Locke, Kant, Rousseau, Pettit and Skinner.

Reimagining the Judiciary Maria C. Escobar-Lemmon 2021 This book examines the factors that facilitate the inclusion of women on high courts, while recognizing that many courts have a long way to go before reaching gender parity. Why did women start appearing on high courts when they did? Where have women made the most significant strides? To address these questions, the authors built the first cross-national and longitudinal dataset on the appointment of women and men to high courts. In addition, they provide five in-depth country case studies us to unpack the selection of justices to high courts in Canada, Colombia, Ireland, SouthAfrica, and the United States. The cross-national lens and combination of quantitative analyses and detailed country studies examines multiple influences across region and time. Focusing on three sets of

explanations - pipelines to high courts, domestic institutions, and international influences -analyses reveal that women are more likely to first appear on their country's high court when traditional ideas about who can and should be a judge erode. In some countries, international treaties, regional emulation, and women's international NGOs play a role in disseminating and linking global norms of gender equality in decision-making. Importantly, while informal institutions and reliance on men-dominated networks can limit access, women are making substantial strides in their countries' highest courts where the supply grows, and often where selectors have incentives to select women. Further, sustained pressure from advocacy organizations-at the local, national, and global levels-contributes to some gains. Agamben and the Signature of Astrology Paul Colilli 2015-10-16 The work of Giorgio Agamben, one of the world's most important living philosophers, has been the object of much scrutiny. Yet, there is one dimension of his thought that remains unexamined by scholars: the presence of the ancient science of astrology in his writings. This book, the first of its kind, identifies the astrological elements and explains the implications of their usage by Agamben. In so doing, this study challenges us to imagine Agamben's thought in a radically new light. A critical account of the presence of astrology and related themes in Agamben's writings, ranging from the earlier works to the more recent publications, illustrates that the astrological signature constitutes a mode of philosophical archaeology that allows for an enhanced understanding of concepts that are central to his works, such as potentiality, the signature, bare life and biopolitics.

The Imagined Immigrant Ilaria Serra 2009 Using original sources--such as newspaper articles, silent movies, letters, autobiographies, and interviews--Ilaria Serra depicts a large tapestry of images that accompanied mass Italian migration to the U.S. at the turn of the twentieth century. She chooses to translate the Italian concept of *immaginario* with the Latin *imago* that felicitously blends the double English translation of the word as "imagery" and "imaginary." *Imago* is a complex knot of collective representations of the immigrant subject, a mental production that finds concrete expression; impalpable, yet real. The "imagined immigrant" walks alongside the real one in flesh and rags.

Politicians Don't Pander Lawrence R. Jacobs 2000-06-21 In this provocative and engagingly written book, the authors argue that politicians seldom tailor their policy decisions to "pander" to public opinion. In fact, they say that when not facing election, contemporary presidents and members of Congress routinely ignore the public's preferences and follow their own political philosophies. 37 graphs.

The Complete Danteworlds Guy P. Raffa 2009-08-01 Dante Alighieri's *Divine Comedy* has, despite its enormous popularity and importance, often stymied readers with its multitudinous characters, references, and themes. But until the publication in 2007 of Guy Raffa's guide to the *Inferno*, students lacked a suitable resource to help them navigate Dante's underworld. With this new guide to the entire *Divine Comedy*, Raffa provides readers—experts in the Middle Ages and Renaissance, Dante neophytes, and everyone in between—with a map of the entire poem, from the lowest circle of Hell to the highest sphere of Paradise. Based on Raffa's original research and his many years of teaching the poem to undergraduates, *The Complete Danteworlds* charts a simultaneously geographical and textual journey, canto by canto, region by region, adhering closely to the path taken by Dante himself through Hell, Purgatory, and Paradise. This invaluable reference also features study questions, illustrations of the realms, and regional summaries. Interpreting Dante's poem and his sources, Raffa fashions detailed entries on each character encountered as well as on many significant historical, religious, and cultural allusions.

Excavating Modernity Joshua Arthurs 2013-09-20 The cultural and material legacies of the Roman Republic and Empire in evidence throughout Rome have made it the "Eternal City." Too often, however, this patrimony has caused Rome to be seen as static and antique, insulated from the transformations of the modern world. In *Excavating Modernity*, Joshua Arthurs dramatically revises this perception, arguing that as both place and idea, Rome was strongly shaped by a radical vision of modernity imposed by Mussolini's regime between the two world wars. Italian Fascism's appropriation of the Roman past—the idea of Rome, or *romanità*—encapsulated the Fascist virtues of discipline, hierarchy, and order; the Fascist "new man" was modeled on the Roman legionary, the epitome of the virile citizen-soldier. This vision of modernity also transcended Italy's borders, with the Roman Empire providing a foundation for Fascism's own vision of Mediterranean domination and a European New Order. At the same time, *romanità* also served as a vocabulary of anxiety about modernity. Fears of population decline, racial degeneration and revolution were mapped onto the barbarian invasions and the fall of Rome. Offering a critical assessment of *romanità* and its effects, Arthurs explores the ways in which academics, officials, and ideologues approached Rome not as a site of distant glories but as a blueprint for contemporary life, a source of dynamic values to shape the present and future.

Le stanze dei tesori Lucia Mannini 2011 English summary: Catalog from the 2012 Florentine exhibit on art collecting in nineteenth-century Florence, with critical texts examining the growth of the city's great collections, their transformation into museum, antiquarian artists, national and international trade, as well as descriptions of some of the region's most important museums to emerge from these collections. Italian and English text Italian description: *Il catalogo della mostra allestita a Palazzo Medici Riccardi tra il 3 ottobre 2011 e il 15 aprile 2012 e affronta il tema del collezionismo d'arte, che vede nella seconda metà dell'Ottocento Firenze protagonista nel panorama antiquario europeo, secondo una tradizione culturale che aveva illustri precedenti nelle corti granducali. La pubblicazione, introdotta da saggi di Antonio Paolucci e Cristina Acidini, affronta il fenomeno dagli esordi (Elisa Camporeale) alla comparsa di case-museo (Francesca Baldry), artisti antiquari (Lucia Mannini), dialoghi e traffici internazionali (Claudia Gennari) con particolare riferimento alla vicenda di Palazzo Davanzati (Roberta Ferrazza). Sono descritte e studiate le più importanti collezioni conservate oggi al Museo Bandini di Fiesole (Cristina Gnani Mavarelli), allo Stibbert (Simona Di Marco), al Castello di Vincigliata (Francesca Baldry) come pure gli scenografici allestimenti di Stefano Bardini (Antonella Nesi), Elia Volpi (Roberta Ferrazza), Salvatore Romano (Serena Pini) o le filologiche e austere scelte di vita di Herbert Percy Horne (Elisabetta Nardinocchi), Charles Loeser (Serena Pini), Arthur e Hortense Acton (Francesca Baldry). Saggi di Chiara Ulivi e Lucia Mannini fanno luce anche sul collezionismo d'arte moderna del primo Novecento e Laura Lucchesi si occupa, in particolare, della collezione di macchiaioli raccolta in quell'epoca dallo scultore Rinaldo Carnielo. Graziella Battaglia tratta il critico e collezionista Ugo Ojetti, ancora Lucia Mannini delinea personaggi come Luigi Bellini o i coniugi Alessandro e Vittoria Contini Bonacossi, Francesca Serafini fornisce un ultimo approfondimento sulle donazioni private ai musei fiorentini. Three Florentine Sacre Rappresentazioni Michael O'Connell 2011 "This is the first bilingual edition of a selection of plays from the fifteenth-century tradition of Florentine sacre rappresentazioni. These were plays produced by youth confraternities that elaborated biblical texts or saints' lives in ways that achieve a concentration of psychological realism that is frequently astonishing."--P. Geometry of the Passions Remo Bodei 2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the*

Passions, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

Eye of the Needle Ken Follett 2017-10-17 The worldwide phenomenon from the bestselling author of *The Pillars of the Earth*, *World Without End*, *A Column of Fire*, and *The Evening and the Morning* His code name was "The Needle." He was a German aristocrat of extraordinary intelligence—a master spy with a legacy of violence in his blood, and the object of the most desperate manhunt in history. . . . But his fate lay in the hands of a young and vulnerable English woman, whose loyalty, if swayed, would assure his freedom—and win the war for the Nazis. . . .

Imperial City Susan Vandiver Nicassio 2009-10-15 In 1798, the armies of the French Revolution tried to transform Rome from the capital of the Papal States to a Jacobin Republic. For the next two decades, Rome was the subject of power struggles between the forces of the Empire and the Papacy, while Romans endured the unsuccessful efforts of Napoleon's best and brightest to pull the ancient city into the modern world. Against this historical backdrop, Nicassio weaves together an absorbing social, cultural, and political history of Rome and its people. Based on primary sources and incorporating two centuries of Italian, French, and international research, her work reveals what life was like for Romans in the age of Napoleon. "A remarkable book that wonderfully vivifies an understudied era in the history of Rome. . . . This book will engage anyone interested in early modern cities, the relationship between religion and daily life, and the history of the city of Rome."—*Journal of Modern History* "An engaging account of Tosca's Rome. . . . Nicassio provides a fluent introduction to her subject."—*History Today* "Meticulously researched, drawing on a host of original manuscripts, memoirs, personal letters, and secondary sources, enabling [Nicassio] to bring her story to life."—*History*

Nationalists Who Feared the Nation Dominique Kirchner Reill 2012-02-01 We can often learn as much from political movements that failed as from those that achieved their goals. *Nationalists Who Feared the Nation* looks at one such frustrated movement: a group of community leaders and writers in Venice, Trieste, and Dalmatia during the 1830s, 40s, and 50s who proposed the creation of a multinational zone surrounding the Adriatic Sea. At the time, the lands of the Adriatic formed a maritime community whose people spoke different languages and practiced different faiths but identified themselves as belonging to a single region of the Hapsburg Empire. While these activists hoped that nationhood could be used to strengthen cultural bonds, they also feared nationalism's homogenizing effects and its potential for violence. This book demonstrates that not all nationalisms attempted to create homogeneous, single-language, -religion, or -ethnicity nations. Moreover, in treating the Adriatic lands as one unit, this book serves as a correction to "national" histories that impose our modern view of nationhood on what was a multinational region.

Federico Fellini Tullio Kezich 2007-03-06 A lively and authoritative journey into the world of a cinema master With the revolutionary *8 1/2*, Federico Fellini put his deepest desires and anxieties before the lens in 1963, permanently impacting the art of cinema in the process. Now, more than forty years later, film critic and Fellini confidant Tullio Kezich has written the work by which all other biographies of the filmmaker are sure to be measured. In this moving and intimately revealing account of a lifetime spent in pictures, Kezich uses his friendship with Fellini as a means to step outside the frame of myth and anecdote that surrounds him—much, it turns out, of the director's own making. A great lover of women and a meticulous observer of dreams, Fellini, perhaps more than any other director of the twentieth century, created films that embodied a thoroughly modern sensibility, eschewing traditional narrative along with religious and moral precepts. His is an art of delicate pathos, of episodic films that directly address the intersection of reality, fantasy, and desire that exists as a product of mid-century Italy—a country reeling from a Fascist regime as it struggled with an outmoded Catholic national identity. As Kezich reveals, the dilemmas Fellini presents in his movies reflect not only his personal battles but those of Italian society. The result is a book that explores both the machinations of cinema and the man who most grandly embraced the full spectrum of its possibilities, leaving his indelible mark on it forever.

Innovation, Economic Development, and Intellectual Property in India and China Kung-Chung Liu 2019-09-06 This open access book analyses intellectual property codification and innovation governance in the development of six key industries in India and China. These industries are reflective of the innovation and economic development of the two economies, or of vital importance to them: the IT Industry; the film industry; the pharmaceutical industry; plant varieties and food security; the automobile industry; and peer production and the sharing economy. The analysis extends beyond the domain of IP law, and includes economics and policy analysis. The overarching concern that cuts through all chapters is an inquiry into why certain industries have developed in one country and not in the other, including: the role that state innovation policy and/or IP policy played in such development; the nature of the state innovation policy/IP policy; and whether such policy has been causal, facilitating, crippling, co-relational, or simply irrelevant. The book asks what India and China can learn from each other, and whether there is any possibility of synergy. The book provides a real-life understanding of how IP laws interact with innovation and economic development in the six selected economic sectors in China and India. The reader can also draw lessons from the success or failure of these sectors.

Architecture and the Novel under the Italian Fascist Regime Francesca Billiani 2019-09-14 *Architecture and the Novel under the Italian Fascist Regime* discusses the relationship between the novel and architecture during the Fascist period in Italy (1922-1943). By looking at two profoundly diverse aesthetic phenomena within the context of the creation of a Fascist State art, Billiani and Pennacchietti argue that an effort of construction, or reconstruction, was the main driving force behind both projects: the advocated "revolution" of the novel form (realism) and that of architecture (rationalism). The book is divided into seven chapters, which in turn analyze the interconnections between the novel and architecture in theory and in practice. The first six chapters cover debates on State art, on the novel and on architecture, as well as their historical development and their unfolding in key journals of the period. The last chapter offers a detailed analysis of some important novels and buildings, which have in practice realized some of the key principles articulated in the theoretical disputes.

Advertising & Art Alessia Alberti 2007 This is neither a manual claiming to be a popular summary nor a systematic treatment of the art of the wall poster. It is an original work, of vast scope, structured into independent essays organised along a cohesive timeline, from 1880 to the second half of the twentieth century, reflecting on various aspects of artistic advertising graphics in an interdisciplinary dimension and with an

international perspective. From the establishment of the poster as an innovative form of large-circulation visual communication and from its emancipation from the painting aesthetics of the nineteenth century to the understanding of the influences of advertising on the Pop Art experiences of the 1960s, according to a logic of inverted relations. The constant points of reference show the relations not only with painting but also with graphic processing and design, publishing graphics, original prints and photography; in the background, there also is cinema, decorative arts and urban furnishing. Artists, schools, movements, trade magazines, the book industry, exhibitions and performances, business advertising, political and war propaganda, social topics: these are some of the subjects and phenomena that interact in the history of advertising languages, which have been framed here by the specialist expertise of six authors. There is also the recurrent emergence of the dialects around the instruments and purposes of advertising communication, between practice and experimentation, commercial requirements, professional training and creative demands.

Survivor Sam Pivnik 2013-06-18 Now in his eighties, Sam Pivnik tells for the first time the extraordinary story of how he survived the Holocaust Sam Pivnik is the ultimate survivor from a world that no longer exists. On fourteen occasions he should have been killed, but luck, his physical strength, and his determination not to die all played a part in Sam Pivnik living to tell his extraordinary story. In 1939, on his thirteenth birthday, Pivnik's life changed forever when the Nazis invaded Poland. He survived the two ghettos set up in his home town of Bedzin and six months on Auschwitz's notorious Rampe Kommando where prisoners were either taken away for entry to the camp or gassing. After this harrowing experience he was sent to work at the brutal Fürstengrube mining camp. He could have died on the 'Death March' that took him west as the Third Reich collapsed and he was one of only a handful of people who swam to safety when the Royal Air Force sank the prison ship Cap Arcona in 1945, mistakenly believing it to be carrying fleeing members of the SS. He eventually made his way to London where he found people too preoccupied with their own wartime experiences on the Home Front to be interested in what had happened to him. Now in his eighties, Sam Pivnik tells for the first time the story of his life, a true tale of survival against the most extraordinary odds.

EU Digital Law Reiner Schulze 2020-02-20 The European Commission adopted its Digital Single Market Strategy in May 2015. Three years later, legislative measures are emerging which aim to tackle the unique legal problems arising from the supply of digital content and which will shape the development of national and European law in the future. The Digital Content Directive is set to play a central role in this development. Its provisions on conformity and remedies for non-conforming digital content concern the heart of the protection for the consumer. Its rules will not only have to be transposed into national law over the coming years but will also interact with existing provisions from the Consumer Rights Directive 2011/83/EU, the E-Commerce Directive 2000/31/EU, and the Portability Regulation 2017/1128 in order for the legal framework on the supply of digital content to function. The Commentary contains an in-depth, article-by-article analysis of core provisions concerning the supply of digital content: from the pre-contractual information duties and cancellation rights to conformity and portability of digital content. The contributors are legal experts from across the EU. Their comments give not only detailed explanations of the background and purpose of the provisions in order to assist interpretation, but also indicate potential difficulties and solutions in order to ease transposition and implementation of the rules on the supply of digital content. It will be an essential guide for legislators, practitioners and scholars.
