Silver Light Matthew S. Cox 2018-07-07 From J.R. Rain and Matthew S. Cox, the bestselling duo that brought you *New Moon Rising* and *Convergence*, comes *Silver Light*, the first in a brand-new fantasy series starring Alexis Silver, mermaid detective! For centuries, tales have told of merfolk haunting the seas, strange creatures teasing or helping sailors at their whim, occasionally having them for dinner. And not in a cordial sense. Alexis Silver was ahead of her time, a woman too smart to fit into society at the turn of the century. She gave up her dreams of higher education for love, marrying young, but her husband, and the life she wanted, perished in World War I soon after. Heartbroken and restless, she booked passage on a cruise along the West Coast in search of adventure, but adventure found her. The ship capsized, killing everyone on board, except for her. As she drifted far beneath the waves, inexplicably alive, the reason for her survival flashed by in a streak of silver: a merman. He had passed along the curse-or gift as Alexis sees it. A century later, she breaks up the monotony of immortality in the Pacific Northwest working as a private investigator. The long-dormant maternal instincts of her resident Dark Master kick in when a nice older couple hire her to find their missing son and his family. Her instincts tell her this isn't like her usual jilted-spouse cases. If she doesn't work fast, a little girl is going to die.

Nomad's Force Craig Martelle 2017-09-08 They say that behind every great man is a great woman...but what if that woman is a Werewolf? THIS IS A MONSTER BOOK - We have taken pains to price the book low. (Craig is crying in the corner, don't mention I reduced it to what you see). The readers LOVE the Nomad! "This series is one of the best I've ever read." "This is the series that keeps on going with great writing and wonderful characters." "I absolutely love this series, and hate the wait at the same time between books." The Forsaken have gone into hiding, and Terry sends the Force de Guerre's tactical teams on missions around the globe to root the evil ones out. When Ted can no longer keep the pod flying, things heat up quickly in a race to corner and finish Mister Smith. *Nomad's Force* starts nearly one-hundred years before Michael's return to earth and the events that happen in *Justice Is Calling*. What does the mundane look like when gearing up for war? This snippet is a taste of that. How can TH keep the blade sharp when no enemy stands before him? What will his kids do? Always his children, but not children. The FDG finds out how small they

really are when they have to search the world for their enemy. And the New Schwabenland pod is getting old and doesn't charge like it used to. Is Terry's dominance waning?

Sean Royale also seems to have a few more surprises up his sleeve, and Maya Johnstone isn't going down without a fight, leaving the General very few options. Set on the foundation laid by the Kurtherian Gambit Series, *The Ascension Myth* tells an entirely new story in the Age of Expansion--when the Etheric Empire is fast becoming the Etheric Federation with all of the trials and tribulations that come with bringing together different peoples, systems, and ideals.

World's Worst Day Ever Craig Martelle 2017-05 A resource for fans of *The Kurtherian Gambit*. End of the world as we know it. Plausible. Scary in its simplicity. Horrible in its effect. Set in the Kurtherian Gambit Universe, this story explains how a few mistakes can have grave consequences. Unfortunately, the technology in the following short story is real. Yes, this could happen. Dammit. Who wants to really dwell on these things? This story was written by Craig Martelle, based on the original WWDE Document as authored by Jeff Morris. You get both in this one short story which gives you insight into how a fiction author takes a technical document and makes a story out of it. Otherwise, I would label this, "Crap, I don't want to ever, ever, ever think about."

Committed Ell Leigh Clarke 2021-05-27 Sean Royale is AWOL and in trouble. Molly's Mom is encroaching on the operation on Gaitune. And the university is under threat from a new player in the system. Tensions mount as secrets unfurl, culminating in Molly walking down the aisle to try and save her ruggedly handsome friend. Meanwhile, Paige and Maya stay behind to protect the home front as best they can: with only a few yoll-aritas, and a bad boy AI to help. There is no doubt: trouble is brewing in the Sark System. And it's bigger than any of them could imagine. --- PLEASE NOTE --- Inside this book is cursing, amusing cursing, but cursing nonetheless. If bad language offends you, perhaps this book is not for you.
