**Persian Fire** Tom Holland 2005 In 480 BC, Xerxes, the King of Persia, led an invasion of mainland Greece. Its success should have been a formality. For seventy years, victory - rapid, spectacular victory - had seemed the birthright of the Persian Empire. In the space of a single generation, they had swept across the Near East, shattering ancient kingdoms, storming famous cities, putting together an empire which stretched from India to the shores of the Aegean. As a result of those conquests, Xerxes ruled as the most powerful man on the planet. Yet somehow, astonishingly, against the largest expeditionary force ever assembled, the Greeks of the mainland managed to hold out. The Persians were turned back. Greece remained free. Had the Greeks been defeated at Salamis, not only would the West have lost its first struggle for independence and survival, but it is unlikely that there would ever have been such an entity as the West at all. Tom Holland's brilliant new book describes the very first 'clash of Empires' between East and West. Once again he has found extraordinary parallels between the ancient world and our own. There is no competing popular book describing these events.

*True Stories of World War 1, Complete* Various 2016-02-19 World War I (WWI or WW1), also known as the First World War, or the Great War, was a global war centred in Europe that began on 28 July 1914 and lasted until 11 November 1918. More than 70 million military personnel, including 60 million Europeans, were mobilised in one of the largest wars in history. Over 9 million combatants and 7 million civilians died as a result of the war (including the victims of a number of genocides), a casualty rate exacerbated by the belligerents' technological and industrial sophistication, and the tactical stalemate caused by trench warfare, a grueling form of warfare in which the defender held the advantage. It was one of the deadliest conflicts in history, and paved the way for major political changes, including revolutions in many of the nations involved. The war drew in all the world's economic great powers, assembled in two opposing alliances: the Allies (based on the Triple Entente of the United Kingdom/British Empire, France and the Russian Empire) versus the Central Powers of Germany and Austria-Hungary. Although Italy was a member of the Triple Alliance alongside Germany and Austria-Hungary, it did not join the Central Powers, as Austria-Hungary had taken the offensive, against the terms of the alliance. These alliances were reorganised and expanded as more nations entered the war: Italy, Japan and the United States joined the Allies, while the Ottoman Empire and Bulgaria joined the Central Powers. The trigger for the war was the assassination of Archduke Franz Ferdinand of Austria, heir to the throne of Austria-Hungary, by Yugoslav nationalist Gavrilo Princip in Sarajevo on 28 June 1914. This set off a diplomatic crisis when Austria-Hungary delivered an ultimatum to the Kingdom of Serbia, and entangled international alliances formed over the previous decades were invoked. Within weeks, the major powers were at war and the conflict soon spread around the world. On 28 July, the Austro-Hungarians declared war on Serbia and subsequently invaded. As Russia mobilised in support of Serbia, Germany invaded neutral Belgium and Luxembourg before moving towards France, leading the United Kingdom to declare war on Germany. After the German march on Paris was halted, what became known as the Western Front settled into a battle of attrition, with a trench line that would change little until 1917. Meanwhile, on the Eastern Front, the Russian army was successful against the Austro-Hungarians, but was stopped in its invasion of East Prussia by the Germans. In November 1914, the Ottoman Empire joined the Central Powers, opening fronts in the Caucasus, Mesopotamia and the Sinai. Italy joined the Allies in 1915 and Bulgaria joined the Central Powers in the same year, while Romania joined the Allies in 1916, followed by United States in 1917. The Russian government collapsed in

March 1917, and a subsequent revolution in November brought the Russians to terms with the Central Powers via the Treaty of Brest Litovsk, which constituted a massive German victory. After a stunning German offensive along the Western Front in the spring of 1918, the Allies rallied and drove back the Germans in a series of successful offensives. On 4 November 1918, the Austro-Hungarian empire agreed to an armistice, and Germany, which had its own trouble with revolutionaries, agreed to an armistice on 11 November 1918, ending the war in victory for the Allies. By the end of the war, the German Empire, Russian Empire, Austro-Hungarian Empire and the Ottoman Empire had ceased to exist. National borders were redrawn, with several independent nations restored or created, and Germany's colonies were parceled out among the winners. During the Paris Peace Conference of 1919, the Big Four (Britain, France, the United States and Italy) imposed their terms in a series of treaties. The League of Nations was formed with the aim of preventing any repetition of such a conflict. This, however, failed with economic depression, renewed European nationalism, weakened member states, and the German feeling of humiliation contributing to the rise of Nazism. These conditions eventually contributed to World War II.

On the War for Greek Freedom Herodotus 2003-03-15 Designed for students with little or no background in ancient Greek language, history, and culture, this new abridgment presents those selections that comprise Herodotus' historical narrative. These are meticulously annotated, and supplemented with a chronology of the Archaic Age, Historical Epilogue, glossary of main characters and places, index of proper names, and maps.

**The Persian Wars** Herodotus 2023-11-19 Herodotus, the great Greek historian, wrote this famous history of warfare between the Greeks and the Persians in a delightful style. Herodotus portrays the dispute as one between the forces of slavery on the one hand and freedom on the other. This work covers the rise of the Persian influence and a history of the Persian empire, a description and history of Egypt, and a long digression on the landscape and traditions of Scythia. Because of the comprehensiveness of this work, it was considered the founding work of history in Western literature. A must-have for history enthusiasts.

The Historians' History of the World Vol.1 (of 25) (Illustrations) Henry Smith Williams A complete world history should, properly speaking, begin with the creation of the world as man's habitat, and should trace every step of human progress from the time when man first appeared on the globe. Unfortunately, the knowledge of to-day does not permit us to follow this theoretical obligation. We now know that the gaps in the history of human evolution as accessible to us to-day, vastly exceed the recorded chapters; that, in short, the period with which history proper has, at present, to content itself, is a mere moment in comparison with the vast reaches of time which, in recognition of our ignorance, we term "prehistoric." But this recognition of limitations of our knowledge is a quite recent growth—no older, indeed, than a half century. Prior to 1859 the people of Christendom rested secure in the supposition that the chronology of man's history was fully known, from the very year of his creation. One has but to turn to the first chapter of Genesis to find in the margin the date 4004 B.C., recorded with all confidence as the year of man's first appearance on the globe. One finds there, too, a brief but comprehensive account of the manner of his appearance, as well as of the creation of the earth itself, his abiding-place. Until about half a century ago, as has just been said, the peoples of our portion of the globe rested secure in the supposition that this record and this date were a part of our definite knowledge of man's history. Therefore, one finds the writers of general histories of the earlier days of the nineteenth century beginning their accounts with the creation of man, B.C. 4004, and coming on down to date with a full and seemingly secure chronology. Our knowledge of the world and of man's history has come on by leaps and bounds since then, with the curious result that to-day no one thinks of making any reference to the exact date of the beginnings of human history,—unless, indeed, it be to remark that it probably reaches back some hundreds of thousands of years. The historian can speak of dates anterior to 4004 B.C., to be sure. The Egyptologist is disposed to date the building of the Pyramids a full thousand years earlier than that. And the Assyriologist is learning to speak of the state of civilisation in Chaldea some 6000 or 7000 years B.C. with a certain measure of confidence. But he no longer thinks of these dates as standing anywhere near the beginning of history. He knows that man in that age, in the centres of progress, had attained a high stage of civilisation, and he feels sure that there were some thousands of centuries of earlier time, during which man was slowly climbing through savagery and barbarism, of which we have only the most fragmentary record. He does not pretend to know anything, except by inference, of the "dawnings of civilisation." Whichever way he turns in the centres of progress, such as China, Egypt, Chaldea, India, he finds the earliest accessible records, covering at best a period of only eight or ten thousand years, giving evidence of a civilisation already far advanced. Of the exact origin of any one of the civilisations with which he deals he knows absolutely nothing. "The Creation of Man," with its fixed chronology, is a chapter that has vanished from our modern histories. To be continue in this ebook...

**The Cambridge History of Classical Literature: Volume 1, Greek Literature, Part 3, Philosophy, History and Oratory** P. E. Easterling 1989-05-04 This volume ranges in time over a very long period and covers the Greeks' most original contributions to intellectual history. It begins and ends with philosophy, but it also includes major sections on historiography and oratory. Although each of these areas had functions which in the modern world would not be considered 'Literary', the ancients made a less sharp distinction between intellectual and artistic production, and the authors included in this volume are some of Europe's most powerful stylists: Plato, Herodotus, Thucydides and Demosthenes.

*The Greek and Persian Wars 499-386 BC* Philip de Souza 2004-08-02 This book covers one of the defining periods of European history. The series of wars between the Greeks and the Persian Empire produced the famous battles of Marathon, Thermopylae, and Salamis, as well as an ill-fated attempt to overthrow the Persian king in 400 BC, which helped to inspire the conquests of Alexander the Great. To tell the story of these momentous events--of the lives of great men and women, the societies and cultures that produced them, and how and why they came into conflict--was the aim of Herodotus. Known as the Father of History, Herodotus' account of the wars is the first book to be called a history, and is the principal source for this concise and accessible volume.

The History Herodotus 2010-05-15 David Grene, one of the best known translators of the Greek classics, splendidly captures the peculiar quality of Herodotus, the father of history. Here is the historian, investigating and judging what he has seen, heard, and read, and seeking out the true causes and consequences of the great deeds of the past. In his *History*, the war between the Greeks and Persians, the origins of their enmity, and all the more general features of the civilizations of the world of his day are seen as a unity and expressed as the vision of one man who as a child lived

through the last of the great acts in this universal drama. In Grene's remarkable translation and commentary, we see the historian as a storyteller, combining through his own narration the skeletal "historical" facts and the imaginative reality toward which his story reaches. Herodotus emerges in all his charm and complexity as a writer and the first historian in the Western tradition, perhaps unique in the way he has seen the interrelation of fact and fantasy. "Reading Herodotus in English has never been so much fun. . . . Herodotus crowds his fresco-like pages with all shades of humanity. Whether Herodotus's view is 'tragic,' mythical, or merely common sense, it provided him with a moral salt with which the diversity of mankind could be savored. And savor it we do in David Grene's translation."—Thomas D'Evelyn, *Christian Science Monitor* "Grene's work is a monument to what translation intends, and to what it is hungry to accomplish. . . . Herodotus gives more sheer pleasure than almost any other writer."—Peter Levi, *New York Times Book Review*

The Five "Confucian" Classics Michael Nylan 2008-10-01 The Five Classics associated with Confucius formed the core curriculum in the education of Chinese literati throughout most of the imperial period. In this book Michael Nylan offers a sweeping assessment of these ancient texts and shows how their influence spread across East Asia. Nylan begins by tracing the formation of the Five Classics canon in the pre-Han and Han periods, 206 B.C.–A.D. 220, revising standard views on the topic. She assesses the impact on this canon of the invention of a rival corpus, the Four Books, in the twelfth century. She then analyzes each of the Five Classics, discussing when they were written, how they were transmitted and edited in later periods, and what political, historical, and ethical themes were associated with them through the ages. Finally she deliberates on the intertwined fates of Confucius and the Five Classics over the course of the twentieth century and shows how the contents of the Five Classics are relevant to much newer concerns.

*Ferdowsi, the Mongols and the History of Iran* Robert Hillenbrand 2013-11-18 I.B.Tauris in association with the Iran Heritage Foundation Iran's rich cultural heritage has been shaped over many centuries by its rich and eventful history. This impressive book, which assembles contributions by some of the world's most eminent historians, art historians and other scholars of the Iranian world, explores the history of the country through the prism of Persian literature, art and culture. The result is a seminal work which illuminates important, yet largely neglected, aspects of Medieval and Early Modern Iran and the Middle East. Its scope, from the era of Ferdowsi, Iran's national epic poet and the author of the Shahnameh to the period of the Mongols, Timurids, Safavids, Zands and Qajars, examines the interaction between mythology, history, historiography, poetry, painting and craftwork in the long narrative of the Persianate experience. As such, *Ferdowsi, the Mongols and the History of Iran* is essential reading and a reference point for students and scholars of Iranian history, Persian literature and the arts of the Islamic World.

**Homer between History and Fiction in Imperial Greek Literature** Lawrence Kim 2010-09-23 Did Homer tell the 'truth' about the Trojan War? If so, how much, and if not, why not? The issue was hardly academic to the Greeks living under the Roman Empire, given the centrality of both Homer,

the father of Greek culture, and the Trojan War, the event that inaugurated Greek history, to conceptions of Imperial Hellenism. This book examines four Greek texts of the Imperial period that address the topic - Strabo's Geography, Dio of Prusa's Trojan Oration, Lucian's novella True Stories, and Philostratus' fictional dialogue Heroicus - and shows how their imaginative explorations of Homer and his relationship to history raise important questions about the nature of poetry and fiction, the identity and intentions of Homer himself, and the significance of the heroic past and Homeric authority in Imperial Greek culture.
