**Engineering** Unesco 2010-01-01 This report reviews engineering's importance to human, economic, social and cultural development and in addressing the UN Millennium Development Goals. Engineering tends to be viewed as a national issue, but engineering knowledge, companies, conferences and journals, all demonstrate that it is as international as science. The report reviews the role of engineering in development, and covers issues including poverty reduction, sustainable development, climate change mitigation and adaptation. It presents the various fields of engineering around the world and is intended to identify issues and challenges facing engineering, promote better understanding of engineering and its role, and highlight ways of making engineering more attractive to young people, especially women.--Publisher's description.

**Hani** Janet Smith 2011-01-18 Chris Hani's assassination in 1993 gave rise to one of South Africa's great imponderables: if he had survived, what impact would he have had on politics and government in South Africa? More pointedly, could this charismatic leader have risen to become president of the country? Hani was a hero of South Africa's liberation, a communist party leader and Umkhonto we Sizwe chief of staff who was both intellectual and fighter, a man who could inspire an army but carried a book of poetry in his backpack. Hani led MK into its earliest battles, and carved a formidable reputation as a thinker, debater and peacemaker. Hani: A Life Too Short tells the story of Hani's life, from his childhood in rural Transkei and education at Fort Hare University to the controversial Memorandum of 1969, the crisis in the ANC camps in Angola in the 1980s and the

heady dawn of freedom. Drawing on interviews and the recollections of those who knew him, this vividly written book provides a detailed account of the life of a great South African.

*Historical Dictionary of the Democratic Republic of the Congo* Emizet Francois Kisangani 2009-10-01 The third edition of the Historical Dictionary of the Democratic Republic of the Congo looks back at the nearly 48 years of independence, over a century of colonial rule, and even earlier kingdoms and groups that shared the territory. This is done through a chronology, an introductory essay, a bibliography, and over 800 cross-referenced dictionary entries on civil wars, mutinies, notable people, places, events, and cultural practices.

*The Mortality and Morality of Nations* Uriel Abulof 2015-07-24 Standing at the edge of life's abyss, we seek meaningful order. We commonly find this 'symbolic immortality' in religion, civilization, state and nation. What happens, however, when the nation itself appears mortal? The Mortality and Morality of Nations seeks to answer this question, theoretically and empirically. It argues that mortality makes morality, and right makes might; the nation's sense of a looming abyss informs its quest for a higher moral ground, which, if reached, can bolster its vitality. The book investigates nationalism's promise of moral immortality and its limitations via three case studies: French Canadians, Israeli Jews, and Afrikaners. All three have been insecure about the validity of their identity or the viability of their polity, or both. They have sought partial redress in existential self-

legitimation: by the nation, of the nation and for the nation's very existence.

*The Value of Academic Libraries* Megan Oakleaf 2010 This report provides Association of College and Research Libraries (ACRL) leaders and the academic community with a clear view of the current state of the literature on value of libraries within an institutional context, suggestions for immediate "Next Steps" in the demonstration of academic library value, and a "Research Agenda" for articulating academic library value. Its focus is to help librarians understand, based on professional literature, the current answer to the question, "How does the library advance the missions of the institution?" This report is also of interest to higher educational professionals external to libraries, including senior leaders, administrators, faculty, and student affairs professionals.

**Good and Cheap** Leanne Brown 2015-07-14 A perfect and irresistible idea: A cookbook filled with delicious, healthful recipes created for everyone on a tight budget. While studying food policy as a master's candidate at NYU, Leanne Brown asked a simple yet critical question: How well can a person eat on the \$4 a day given by SNAP, the U.S. government's Supplemental Nutrition Assistance Program informally known as food stamps? The answer is surprisingly well: Broiled Tilapia with Lime, Spicy Pulled Pork, Green Chile and Cheddar Quesadillas, Vegetable Jambalaya, Beet and Chickpea Salad—even desserts like Coconut Chocolate Cookies and Peach Coffee Cake. In addition to creating nutritious recipes that maximize every ingredient and use economical cooking methods, Ms. Brown gives tips on shopping; on creating pantry basics; on mastering certain staples—pizza dough, flour tortillas—and saucy extras that make everything taste better, like spice oil and tzatziki; and how to make fundamentally smart, healthful food choices. The idea for Good and Cheap is already proving itself. The author launched a Kickstarter campaign to self-publish and fund the buy one/give one model. Hundreds of thousands of viewers watched her video and donated \$145,000,

and national media are paying attention. Even high-profile chefs and food writers have taken note—like Mark Bittman, who retweeted the link to the campaign; Francis Lam, who called it “Terrific!”; and Michael Pollan, who cited it as a “cool kickstarter.” In the same way that TOMS turned inexpensive, stylish shoes into a larger do-good movement, Good and Cheap is poised to become a cookbook that every food lover with a conscience will embrace.

*A Common Hunger* Joan G. Fairweather 2006 The impact of colonial dispossession and the subsequent social and political ramifications places a unique burden on governments having to establish equitable means of addressing previous injustices. This book considers the efforts by both Canada and South Africa to reconcile the damage left by colonial expansion, in part, looking back with a critical eye, but also pointing the way towards a solution that will satisfy the common need for human dignity

*I Have Life* Alison 2002 In this inspiring tale, Alison, the victim of a brutal rape and attempted murder, shares the courage and philosophy that allowed her to turn her tragic experiences into something life-affirming and strong. With bravery and a keen sense of self-awareness, Alison recounts how she was car-jacked at knifepoint, raped, stabbed so many times that the doctors could not count her wounds, and left for dead miles away from her home. As she denied death that night she later denied her assailants the satisfaction of destroying her life by giving voice to her experiences and refusing to be victimized. In terrifying detail Alison describes her thoughts and feelings throughout the attack and shows how attitude, belief, and choice helped her to survive. Contributions from Alison’s family, friends, and the man who saved her from the side of the road add depth to Alison’s harrowing story.

**Irreparable** Mark Gerardot 2020-03-31 It's the age-old tale of a straying husband, a woman

scorned, and two dead bodies-or is it? By morning, the headlines and stories had circled the globe full of half-truths, misinformation and a potential coverup. The cheating husband who had driven his wife to such madness became the official account, forever etched into the annals of history. Yet the whole story of this brutal murder-suicide would lie hidden for months, only to be uncovered by Mark Gerardot himself in his aching quest to know what had led Jennair, his wife of 24 years, to such a violent act. In the process, he uncovers mounds of shocking proof of a wife's madness that was building for decades-one that had culminated in an unprecedented level of tracking and surveillance as she prepared to carry out her final act of revenge. Full of factual dialogue from hours of audio files, *Irreparable* recounts the intimate details of three people's lives, now forever linked, and seeks to move beyond labels, to equally honor the truth of all three souls impacted by the tragedy. More than an enthralling true-crime story, *Irreparable* is a memoir of a tumultuous marriage, a love affair, and one man's desperate efforts to reexamine the past as he recounts precious memories and early signs of trouble from the woman he knew and loved, but whose spiraling loss of control amid the high-tech surveillance she pursued took hold of her mind and life. Taking accountability for the choices he made, the signs he missed, and the better man he wishes to become Mark Gerardot reveals the truth and finds his way to a new life.

*Rethinking White Societies in Southern Africa* Duncan Money 2020-02-12 This book showcases new research by emerging and established scholars on white workers and the white poor in Southern Africa. *Rethinking White Societies in Southern Africa* challenges the geographical and chronological limitations of existing scholarship by presenting case studies from Angola, Mozambique, South Africa, Zambia and Zimbabwe that track the fortunes of nonhegemonic whites during the era of white minority rule. Arguing against prevalent understandings of white society as uniformly wealthy

or culturally homogeneous during this period, it demonstrates that social class remained a salient element throughout the twentieth century, how Southern Africa's white societies were often divided and riven with tension and how the resulting social, political and economic complexities animated white minority regimes in the region. Addressing themes such as the class-based disruption of racial norms and practices, state surveillance and interventions - and their failures - towards nonhegemonic whites, and the opportunities and limitations of physical and social mobility, the book mounts a forceful argument for the regional consideration of white societies in this historical context. Centrally, it extends the path-breaking insights emanating from scholarship on racialized class identities from North America to the African context to argue that race and class cannot be considered independently in Southern Africa. This book will be of interest to scholars and students of southern African studies, African history, and the history of race.

**Virtual Reality** Melanie Chan 2014-01-16 The idea of virtual realities has a long and complex historical trajectory, spanning from Plato's concept of the cave and the simulacrum, to artistic styles such as Trompe L'oeil, and more recently developments in 3D film, television and gaming. However, this book will pay particular attention to the time between the 1980s to the 1990s when virtual reality and cyberspace were represented, particularly in fiction, as a wondrous technology that enabled transcendence from the limitations of physical embodiment. The purpose of this critical historical analysis of representations of virtual reality is to examine how they might deny, repress or overlook embodied experience. Specifically, the author will contend that embodiment is a fundamental aspect of immersion in virtual reality, rather than something which is to be transcended. In this way, the book aims to challenge distorted ideas about transcendence and productively contribute to debates about embodiment and technology.

**The End of Apartheid** Robin Renwick 2015-01-29 In 2 February 1990, FW de Klerk made a speech that changed the history of South Africa. Nine days later, the world watched as Nelson Mandela walked free from the Viktor Verster prison. In the midst of these events was Lord Renwick, Margaret Thatcher's envoy to South Africa, who became a personal friend of Nelson Mandela, FW de Klerk and Chief Mangosuthu Buthelezi, acting as a trusted intermediary between them. He warned PW Botha against military attacks on neighbouring countries, in meetings he likens to 'calling on the führer in his bunker'. He invited Mandela to his first meal in a restaurant for twenty-seven years, rehearsing him for his meeting with Margaret Thatcher - and told Thatcher that she must not interrupt him. Their discussion went on so long that the British press in Downing Street started chanting 'Free Nelson Mandela'. In this extraordinary insider's account, Renwick draws on his diaries of the time, as well as previously unpublished material from the Foreign Office and Downing Street files. He paints a vivid, affectionate, real-life portrait of Mandela as a wily and resourceful political leader bent on out-manoeuvring both adversaries and some of his own colleagues in pursuit of a peaceful outcome.

Economic Origins of Dictatorship and Democracy Professor Daron Acemoglu 2006 This book develops a framework for analyzing the creation and consolidation of democracy. Different social

groups prefer different political institutions because of the way they allocate political power and resources. Thus democracy is preferred by the majority of citizens, but opposed by elites. Dictatorship nevertheless is not stable when citizens can threaten social disorder and revolution. In response, when the costs of repression are sufficiently high and promises of concessions are not credible, elites may be forced to create democracy. By democratizing, elites credibly transfer political power to the citizens, ensuring social stability. Democracy consolidates when elites do not have strong incentive to overthrow it. These processes depend on (1) the strength of civil society, (2) the structure of political institutions, (3) the nature of political and economic crises, (4) the level of economic inequality, (5) the structure of the economy, and (6) the form and extent of globalization.

*Humor, Seriously* Jennifer Aaker 2021-02-02 WALL STREET JOURNAL, LOS ANGELES TIMES, AND USA TODAY BESTSELLER • Anyone—even you!—can learn how to harness the power of humor in business (and life), based on the popular class at Stanford’s Graduate School of Business. Don’t miss the authors’ TED Talk, “Why great leaders take humor seriously,” online now. “The ultimate guide to using the magical power of funny as a tool for leadership and a force for good.”—Daniel H. Pink, #1 New York Times bestselling author of *When and Drive* We are living through a period of unprecedented uncertainty and upheaval in both our personal and professional lives. So it should come as a surprise to exactly no one that trust, human connection, and mental well-being are all on the decline. This may seem like no laughing matter. Yet, the research shows that humor and laughter are among the most valuable tools we have at our disposal for strengthening bonds and relationships, diffusing stress and tension, boosting resilience, and performing when the stakes are high. That’s why Jennifer Aaker and Naomi Bagdonas teach the popular course *Humor: Serious Business* at the Stanford Graduate School of Business, where they help some of the world’s most

hard-driving, blazer-wearing business minds infuse more humor and levity into their work and lives. In *Humor, Seriously*, they draw on findings by behavioral scientists, world-class comedians, and inspiring business leaders to reveal how humor works and—more important—how you can use more of it, better. Aaker and Bagdonas unpack the theory and application of humor: what makes something funny, how to mine your life for material, and simple ways to identify and leverage your unique humor style. They show how to use humor to rebuild vital connections; appear more confident, competent, and authentic at work; and foster cultures where levity and creativity can thrive. President Dwight David Eisenhower once said, “A sense of humor is part of the art of leadership, of getting along with people, of getting things done.” If Dwight David Eisenhower, the second least naturally funny president (after Franklin Pierce), thought humor was necessary to win wars, build highways, and warn against the military-industrial complex, then you might consider learning it too.

[Botsotso 14: Poetry, Essays, Photographs, Fiction, Reviews](#) Botsotso Botsotso 2017-12-29 The Botsotso literary journal started in 1996 as a monthly 4 page insert in the *New Nation*, an independent anti-apartheid South African weekly and reached over 80,000 people at a time largely politicized black workers and youth with a selection of poems, short stories and short essays that reflected the deep changes taking place in the country at that time. Since the closure of the *New Nation* in 1999, the journal has evolved into a stand-alone compilation featuring the same mix of genres, and with the addition of photo essays and reviews. The Botsotso editorial policy remains committed to creating a mix of voices which highlight the diverse spectrum of South African identities and languages, particularly those that are dedicated to radical expression and examinations of South Africa's complex society.

**Democracy in Africa** Nic Cheeseman 2015-05-12 This book provides the first comprehensive overview of the history of democracy in Africa and explains why the continent's democratic experiments have so often failed, as well as how they could succeed. Nic Cheeseman grapples with some of the most important questions facing Africa and democracy today, including whether international actors should try and promote democracy abroad, how to design political systems that manage ethnic diversity, and why democratic governments often make bad policy decisions. Beginning in the colonial period with the introduction of multi-party elections and ending in 2013 with the collapse of democracy in Mali and South Sudan, the book describes the rise of authoritarian states in the 1970s; the attempts of trade unions and some religious groups to check the abuse of power in the 1980s; the remarkable return of multiparty politics in the 1990s; and finally, the tragic tendency for elections to exacerbate corruption and violence.

The Bankers' New Clothes Anat Admati 2024-01-09 A Wall Street Journal, Financial Times, and Bloomberg Businessweek Book of the Year Why our banking system is broken—and what we must do to fix it New bank failures have been a rude awakening for everyone who believed that the banking industry was reformed after the Global Financial Crisis—and that we'd never again have to choose between massive bailouts and financial havoc. The Bankers' New Clothes uncovers just how little things have changed—and why banks are still so dangerous. Writing in clear language that anyone can understand, Anat Admati and Martin Hellwig debunk the false and misleading claims of bankers, regulators, politicians, academics, and others who oppose effective reform, and they explain how the banking system can be made safer and healthier. Thoroughly updated for a world where bank failures have made a dramatic return, this acclaimed and important book now features a new preface and four new chapters that expose the shortcomings of current policies and reveal how the

dominance of banking even presents dangers to the rule of law and democracy itself.

*The Asshole Survival Guide* Robert I. Sutton 2017-09-12 “This book is a contemporary classic—a shrewd and spirited guide to protecting ourselves from the jerks, bullies, tyrants, and trolls who seek to demean. We desperately need this antidote to the a-holes in our midst.”—Daniel H. Pink, best-selling author of *To Sell Is Human* and *Drive* How to avoid, outwit, and disarm assholes, from the author of the classic *The No Asshole Rule* As entertaining as it is useful, *The Asshole Survival Guide* delivers a cogent and methodical game plan for anybody who feels plagued by assholes. Sutton starts with diagnosis—what kind of asshole problem, exactly, are you dealing with? From there, he provides field-tested, evidence-based, and often surprising strategies for dealing with assholes—avoiding them, outwitting them, disarming them, sending them packing, and developing protective psychological armor. Sutton even teaches readers how to look inward to stifle their own inner jackass. Ultimately, this survival guide is about developing an outlook and personal plan that will help you preserve the sanity in your work life, and rescue all those perfectly good days from being ruined by some jerk. “Thought-provoking and often hilarious . . . An indispensable resource.”—Gretchen Rubin, best-selling author of *The Happiness Project* and *Better Than Before* “At last . . . clear steps for rejecting, deflecting, and deflating the jerks who blight our lives . . . Useful, evidence-based, and fun to read.”—Robert Cialdini, best-selling author of *Influence* and *Persuasion*

**Making Great Strategy** Glenn R. Carroll 2021-01-26 Making strategy requires undertaking major—often irreversible—decisions aimed at long-term success in an uncertain future. All leaders must formulate a clear course of action, yet many lack confidence in their ability to think systematically about their strategy. They struggle to apply the abstract lessons offered by

conventional approaches to strategic analysis to their unique contexts. Making Great Strategy resolves these challenges with a straightforward, readily applicable framework. Jesper B. Sørensen and Glenn R. Carroll show that one factor underlies all sustainably successful strategies: a logically coherent argument that connects resources, capabilities, and environmental conditions to desired outcomes. They introduce a system for formulating and managing strategy through a set of three core activities: visualization, formalization and logic, and constructive argumentation. These activities can be implemented in any organization and are illustrated through examples and case studies from well-known companies such as Apple, Walmart, and The Economist. This book shows that while great strategic thinking is hard, it is not a mystery. Widely applicable and relevant for managers and leaders at all levels, especially executive teams charged with setting the course of their organizations, it is essential reading for anyone faced with practical problems of strategic management.

*Making & Being* Susan Jahoda 2020-01-23 "Making and Being draws on the lived experience of Susan Jahoda and Caroline Woolard, visual arts educators who have developed a framework for teaching art with the collective BFAMFAPhD that emphasizes contemplation, collaboration, and political economy. The authors share ideas and pedagogical strategies that they have adapted to spaces of learning which range widely, from self-organized workshops for professional artists to Foundations BFA and MFA thesis classes. This hands-on guide includes activities, worksheets, and assignments and is a critical resource for artists and art educators today"--Page 4 of cover.

**Class, Race, and Inequality in South Africa** Jeremy Seekings 2005 The distribution of incomes in South Africa in 2004, ten years after the transition to democracy, was probably more unequal than it had been under apartheid. In this book, Jeremy Seekings and Nicoli Nattrass explain why this is so,

offering a detailed and comprehensive analysis of inequality in South Africa from the midtwentieth century to the early twenty-first century. They show that the basis of inequality shifted in the last decades of the twentieth century from race to class. Formal deracialization of public policy did not reduce the actual disadvantages experienced by the poor nor the advantages of the rich. The fundamental continuity in patterns of advantage and disadvantage resulted from underlying continuities in public policy, or what Seekings and Nattrass call the “distributional regime.” The post-apartheid distributional regime continues to divide South Africans into insiders and outsiders. The insiders, now increasingly multiracial, enjoy good access to well-paid, skilled jobs; the outsiders lack skills and employment.

**The Darkest Night** Ron Franscell 2014-12-09 Casper, Wyoming: 1973. Eleven-year-old Amy Burrige rides with her eighteen-year-old sister, Becky, to the grocery store. When they finish their shopping, Becky's car gets a flat tire. Two men politely offer them a ride home. But they were anything but Good Samaritans. The girls would suffer unspeakable crimes at the hands of these men before being thrown from a bridge into the North Platte River. One miraculously survived. The other did not. Years later, author and journalist Ron Franscell—who lived in Casper at the time of the crime, and was a friend to Amy and Becky—can't forget Wyoming's most shocking story of abduction, rape, and murder. Neither could Becky, the surviving sister. The two men who violated her and Amy were sentenced to life in prison, but the demons of her past kept haunting Becky...until she met her fate years later at the same bridge where she'd lost her sister.

**Anthropology of Landscape** Christopher Tilley 2017-02-01 An Anthropology of Landscape tells the fascinating story of a heathland landscape in south-west England and the way different individuals and groups engage with it. Based on a long-term anthropological study, the book emphasises four individual themes: embodied identities, the landscape as a sensuous material form that is acted upon and in turn acts on people, the landscape as contested, and its relation to emotion. The landscape is discussed in relation to these themes as both 'taskscape' and 'leisurescape', and from the perspective of different user groups. First, those who manage the landscape and use it for work: conservationists, environmentalists, archaeologists, the Royal Marines, and quarrying interests. Second, those who use it in their leisure time: cyclists and horse riders, model aircraft flyers, walkers, people who fish there, and artists who are inspired by it. The book makes an innovative contribution to landscape studies and will appeal to all those interested in nature conservation, historic preservation, the politics of nature, the politics of identity, and an anthropology of Britain.

**That Takes Ovaries!** Rivka Solomon 2010-06-02 Having ovaries: unabashed, gutsy, feisty, playful, challenging, full of chutzpah, mettlesome, naughty, victorious, straight from the hip, full-flavored, outrageous, righteous, loving, inspiring, bold as brass, self-assured, self-confident, self-possessed, daring, heroic, wild, wanton, crazy, optimistic, unflappable, pushy, unstoppable, impressive, rebellious, kick-ass, carefree, having moxie, having heart, having no fear . . . "That takes balls" are words of praise usually reserved for a man who has done something tough, fearless, and maybe a little crazy—someone who pushes the boundaries or breaks a few rules. But when it comes to hotheaded courage, impassioned activism, quirky wisdom, or bold confrontation, women have got what it takes—and then some! *That Takes Ovaries!* is a lively, fun, and often touching celebration of women and girls doing their thing their way: \* Kathleen, who reduced a would-be burglar to tears by lecturing him about black pride (all while standing in her underwear) \* Elaine, a sky surfer who plunges from airplanes on a 30-inch surfboard \* Rachel, a high school junior who organized 100 high school girls to take on the boys who harassed them \* Denise, a teenage cashier who faced down an irate, gun-wielding gangbanger in an inner-city fast-food joint \* Joani, a public health educator who opened the country's first women-oriented sex-toys store \* Eva, who made the dangerous, illegal journey from Central America to the United States in order to give her children a better life Now that takes ovaries!

*The walk without limbs: Searching for indigenous health knowledge in a rural context in South Africa* Gubela Mji 2019-12-12 In a country as diverse as South Africa, sickness and health often mean different things to different people □ so much so that the different health definitions and

health belief models in the country seem to have a profound influence on the health-seeking behaviour of the people who are part of our vibrant, multicultural society. This book is concerned with the integration of indigenous health knowledge (IHK) into the current Western--orientated Primary Health Care (PHC) model. The first section of the book highlights the challenges facing the training of health professionals using a curriculum that is not drawing its knowledge base from the indigenous context and the people of that context. Such professionals will later recognise that they are walking without limbs in matters pertaining to health. The area that was chosen for conducting the research was KwaBomvana in Xhora (Elliotdale), Eastern Cape province, South Africa. The people who reside there are called AmaBomvana. The area where the Bomvana peoples reside is served by Madwaleni Hospital and eight surrounding clinics. Qualitative ethnographic, feminist methods of data collection supported the research done for Section 1 of the book. Section 2 comprises the translation and implementation of PhD study outcomes and had contributions from various researchers. In the critical research findings of the PhD study, older Xhosa women identify the inclusion of social determinants of health as vital to the health problems they managed within their homes. For them, each disease is linked to a social determinant of health, and the management of health problems includes the management of social determinants of health. For them, it is about the health of the home and not just about the management of disease. They believe that healthy homes make healthy villages, and that the prevention of the development of disease is related to the strengthening of the home. Health and illness should be seen within both physical and spiritual contexts; without health, there can be no progress in the home. When defining health, the older Xhosa women add three critical components to the WHO health definition, namely, food security, healthy children and families, and peace and security in their villages. Prof. Mji further proposes

that these three elements should be included in the next revision of the WHO health definition because they are not only important for the Bomvana people where the research was conducted, but also for the rest of humanity. In light of the promise of National Health Insurance and the revitalisation of PHC, this book proposes that these two major national health policies should take cognisance of the IHK utilised by the older Xhosa women. In addition to what this research implies, these policies should also take note of all IHK from the indigenous peoples of South Africa, Africa and the rest of the world, and that there should be a clear plan as to how the knowledge can be supported within a health care systems approach.

The Interface of Orality and Writing Annette Weissenrieder 2015-10-13 How did the visual, the oral, and the written interrelate in antiquity? The essays in this collection address the competing and complementary roles of visual media, forms of memory, oral performance, and literacy and popular culture in the ancient Mediterranean world. Incorporating both customary and innovative perspectives, the essays advance the frontiers of our understanding of the nature of ancient texts as regards audibility and performance, the vital importance of the visual in the comprehension of texts, and basic concepts of communication, particularly the need to account for disjunctive and non-reciprocal social relations in communication. Thus the contributions show how the investigation of the interface of the oral and written, across the spectrum of seeing, hearing, and writing, generates new concepts of media and mediation.

**Recipes for a Sacred Life** Rivvy Neshama 2020-05-05 Winner of 5 national awards, Recipes for a Sacred Life is now available in a new, expanded edition. "Recipes for a Sacred Life left us moved—and changed. Wise, poignant, funny, and inspiring."—Redbook ON A DARK WINTER NIGHT with little to do, Rivvy Neshama took a "Find Your Highest Purpose" quiz. And the funny thing was,

she found it: to live a sacred life. Problem was, she didn't know how. But she set out to learn. And in the weeks and months that followed, she began to remember and encounter all the people and experiences featured in this book—from her father's jokes to her mother's prayers, from Billie in Harlem to a stranger in Salzburg, and from warm tortillas to the humble oatmeal. Each became a story, like a recipe passed down, beginning with her mother and her simple toast to life.

NESHAMA'S TRUE TALES, a memoir of sorts, are filled with love, warmth, and timeless wisdom. They ground us, and they lift us up. They make us laugh, and they make us cry. And most of all, they connect us more deeply with the grace and meaning of our lives. "Exquisite storytelling. Written in the spirit of Elizabeth Gilbert or Anne Lamott, Neshama's stories (and a few miracles) are uplifting, witty, and wise." —Publishers Weekly "Rivvy's bite-sized stories will make you nod with deepest knowing. It's a magical companion."—HuffPost "Wouldn't it be wonderful if there was a guide to happiness? Recipes for a Sacred Life is the closest thing I've found. Powerful. Inspiring. About adding love and joy to the everyday."—First for Women magazine

*Navigating Terrains of War* Henrik Vigh 2006 Through the concept of "social navigation," this book sheds light on the mobilization of urban youth in West Africa. Social navigation offers a perspective on praxis in situations of conflict and turmoil. It provides insights into the interplay between objective structures and subjective agency, thus enabling us to make sense of the opportunistic, sometimes fatalistic and tactical ways in which young people struggle to expand the horizons of possibility in a world of conflict, turmoil and diminishing resources.

Dynamics of Contention Doug McAdam 2001-09-10 "Over the past two decades the study of social movements, revolution, democratization and other non-routine politics has flourished. And yet research on the topic remains highly fragmented, reflecting the influence of at least three traditional

divisions. The first of these reflects the view that various forms of contention are distinct and should be studied independent of others. Separate literatures have developed around the study of social movements, revolutions and industrial conflict. A second approach to the study of political contention denies the possibility of general theory in deference to a grounding in the temporal and spatial particulars of any given episode of contention. The study of contentious politics are left to 'area specialists' and/or historians with a thorough knowledge of the time and place in question. Finally, overlaid on these two divisions are stylized theoretical traditions - structuralist, culturalist, and rationalist - that have developed largely in isolation from one another."

**The External Control of Organizations** Jeffrey Pfeffer 2003 This work explores how external constraints affect organizations and provides insights for designing and managing organizations to mitigate these constraints. All organizations are dependent on the environment for their survival. It contends that it is the fact of the organization's dependence on the environment that makes the external constraint and control of organizational behaviour both possible and almost inevitable. Organizations can either try to change their environments through political means or form interorganizational relationships to control or absorb uncertainty.
