The Wisdom of Jesus and the Yoga Siddhas Marshall Govindan 2006-01-01 This book is addressed to serious Biblical students, Christians who are interested in comparing Eastern spiritual teachings with those of Christianity, and students of spiritual Yoga, otherwise known as Classical Yoga and Tantra, as well as students and practitioners of meditation and other spiritual disciplines. The discoveries of ancient manuscripts, and their analysis by independent critical scholars using scientific methods, provide much insight into the original teachings of Jesus. The sayings of Jesus, circulated orally during the first decades following his crucifixion are probably the most authentic source of his teachings that we have available today. These sayings are limited to a few dozen parables, aphorisms and sharp retorts, which were repeated in the oral tradition for two or three decades before they were eventually recorded by the anonymous writers of the Gospels. Remarkably, what Jesus taught through his parables and sayings exactly parallels the yogic teachings of the Yoga Siddhas. For those seeking to apply the wisdom of these sayings in their own life, the implications are clear. Seek not to know about God; instead, seek to know God through higher states of consciousness.

21 Rituals to Change Your Life Theresa Cheung 2017-03-14 Aristotle said 'you are what you repeatedly do'. Most of us have no idea that what we repeatedly do creates our lives, we think our future is shaped by big events, the decisions we make, the thoughts we have but, this book will show you that it is your daily actions that are the key. Over the last few decades neuroscientists and psychologists have discovered that there is more power in 'I do' than 'I think'. However, if an action is repeated enough times it becomes habit but habits lack thought, consideration and presence. To effect long-lasting meaningful change our actions need to be filled with a sense of personal meaning and power - they need to be ritualized. Creating personal ritual in our lives allows us to bring the presence of the sacred into the everyday. The rituals in this book have been designed as symbolic acts providing a framework for anyone to use to create positive change in their lives. The 7 morning rituals are designed to help you 'wake with determination', the 7 afternoon rituals focus on 'living on purpose', and the 7 evening rituals are about 'retiring with satisfaction'.

Journeys Out of the Body Robert A. Monroe 2014-11-12 The definitive work on the extraordinary phenomenon of out-of-body experiences, by the founder of the internationally known Monroe Institute. Robert Monroe, a Virginia businessman, began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a "second body" to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbound by time or death. Praise for Journeys Out of the Body "Monroe's account of his travels, Journeys Out of the Body, jam-packed with parasitic goblins and dead humans, astral sex, scary trips into mind-boggling other dimensions, and practical tips on how to get out of your body, all told with wry humor, quickly became a cult sensation with its publication in 1971, and has been through many printings. Whatever their 'real' explanation, Monroe's trips made for splendid reading." —Michael Hutchinson, author of Megabrain "Robert Monroe's experiences are probably the most intriguing of any person's of our time, with the possible exception of Carlos Castaneda's." —Joseph Chilton Pierce, author of Magical Child "This book is by a person who's clearly a sensible man and who's trying to tell it like it is. No ego trips. Just a solid citizen who's been 'out' a thousand times now and wants to pass his experiences to others." —The Last Whole Earth Catalog

Magic in the Ancient World Fritz Graf 1997 Ancient Greeks and Romans often turned to magic to achieve personal goals. Magical rites were seen as a route for direct access to the gods, for material gains as well as spiritual satisfaction. In this survey of magical beliefs and practices from the sixth century B.C.E. through late antiquity, Fritz Graf sheds new light on ancient religion. Graf explores the important types of magic in Greco-Roman antiquity, describing rites and explaining the theory behind them. And he characterizes the ancient magician: his training and initiation, social status, and presumed connections with the divine world. With trenchant analysis of underlying conceptions and vivid account of illustrative cases, Graf gives a full picture of the practice of magic and its implications. He concludes with an evaluation of the relation of magic to religion.

Men and Bears AA.VV. 2020-01-23 The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

The Emergence of Religion in Human Evolution Margaret Boone Rappaport 2019-12-09 Religious capacity is a highly elaborate, neurocognitive human trait that has a solid evolutionary foundation. This book uses a multidisciplinary approach to describe millions of years of biological innovations that eventually give rise to the modern trait and its varied expression in humanity's many religions. The authors present a scientific model and a central thesis that the brain organs, networks, and capacities that allowed humans to survive physically also gave our species the ability to create theologies, find sustenance in religious practice, and use religion to support the social group. Yet, the trait of religious capacity remains non-obligatory, like reading and mathematics. The individual can choose not to use it. The approach relies on research findings in nine disciplines, including the work of countless neuroscientists, paleoneurologists, archaeologists, cognitive scientists, and psychologists. This is a cutting-edge examination of the evolutionary origins of humanity's interaction with the supernatural. It will be of keen interest to academics working in Religious Studies, Neuroscience, Cognitive Science, Anthropology, Evolutionary Biology, and Psychology.

Naming the Witch Kimberly B. Stratton 2022-05-03 Kimberly B. Stratton investigates the cultural and ideological motivations behind early imaginings of the magician, the sorceress, and the witch in the ancient world. Accusations of magic could carry the death penalty or, at the very least, marginalize the person or group they targeted. But Stratton moves beyond the popular view of these accusations as mere slander. In her view, representations and accusations of sorcery mirror the complex struggle of ancient societies to define authority, legitimacy, and Otherness. Stratton argues that the concept "magic" first emerged as a discourse in ancient Athens where it operated part and parcel of the struggle to define Greek identity in opposition to the uncivilized "barbarian" following the Persian Wars. The idea of magic then spread throughout the Hellenized world and Rome, reflecting and adapting to political forces, values, and social concerns in each society. Stratton considers the portrayal of witches and magicians in the literature of four related periods and cultures: classical Athens, early imperial Rome, pre-Constantine Christianity, and rabbinic Judaism. She compares patterns in their representations of magic and analyzes the relationship between these stereotypes and the social factors that shaped them. Stratton's comparative approach illuminates the degree to which magic was (and still is) a cultural construct that depended upon and reflected particular social contexts. Unlike most previous studies of magic, which treated the classical world separately from antique Judaism, *Naming the Witch* highlights the degree to which these ancient cultures shared ideas about power and legitimate authority, even while constructing and deploying those ideas in different ways. The book also interrogates the common association of women with magic, denaturalizing the gendered stereotype in the process. Drawing on Michel Foucault's notion of discourse as well as the work of other contemporary theorists, such as Homi K. Bhabha and Bruce Lincoln, Stratton's bewitching study presents a more nuanced, ideologically sensitive approach to understanding the witch in Western history.

Haunted Asheville Joshua P. Warren 1996 "A beautiful young woman dies from a fall in Asheville's greatest hotel ... and the Pink Lady is said to still wander the massive halls of the Grove Park Inn. A building is constructed on the grounds of a miserable, ancient cemetery ... now they say you can still hear strange noises at night in the halls of Clyde A. Erwin High School. In 1908, a group of prisoners finally comes to Christ ... after being terrorized at night by a spook in the Buncombe County Jail. A distraught mother hangs herself from the rafters of a looming Beaucatcher Mountain bridge ... and the legend of Helen is born. These stories and more can be found within the pages of this remarkable book. A surreal mixture of history and myth, it searches for the fading morsels of truth while examining the feasts of folklore. These are the tales that linger in the minds of Asheville, as old and flavored as the mountains themselves. From secret chambers in aged castles to cryptic etchings on forgotten tombstones, this mountain town is filled with the lore and intrigue of the mysterious side of life."--Publisher description

Moral Basis of a Backward Society Edward C. Banfield 1967-02-01 Looking at how nepotism and family-centric societies sacrifice the public good, Edward C. Banfield uses a study of the people of southern Italy to argue how self-interested families can lead to poverty. Analyzing families in southern Italy in 1955, *Moral Basis of a Backward Society* discusses how poverty is a result of the inability to trust or associate strongly outside of immediate family. Challenged and argued for years, Edward C. Banfield's study has become accepted by many people in the modern age.

Magic and the Power of the Goddess Gareth Knight 2008-03-27 A manual of magical and mystical techniques for contacting the Goddess within • Draws from two thousand years of source material to demonstrate the ongoing reality of the feminine power and its relevance for today • Includes rituals, exercises, and techniques for evoking the Goddess • Explains how the dynamics of the sacred or magic circle serve as a guide to living harmoniously In this wide-ranging view of magic and ritual, Gareth Knight demonstrates the presence of the Goddess throughout Western esoteric traditions. From Greek myths and the Mysteries of Isis to the emergence of the cult of the Blessed Virgin and seventeenth-century Rosicrucian spiritual alchemy, he shows how the Goddess--the elemental consciousness of Earth--has revealed herself in different times and places. Honoring her many guises, Knight explores the powers of the Goddess as maiden, mother, initiator, protector, sorceress, and faery queen. Guided meditations on each of these qualities lead the practitioner into direct contact with the potent healing energy of the Divine Feminine. The author also offers rituals, exercises, and other practical tools for integrating the Western magical tradition with worship of the Goddess. He shows how we, and our planet, have suffered due to the repression of the feminine principle. For our own health, and that of our environment as well, we must recognize the power of the Goddess within to reconstitute and guide our existence.

Filled with both traditional and innovative shamanic practices, Phyllis also provides an empowering new definition of magic and reexamines the ethics under which Witchcraft is practiced, offering a groundbreaking alternative to the Threefold Law. With enchanting stories from Currott's own experiences, *Witch Crafting* will also teach you how to: • Master the secret arts of effective spellcasting • Create sacred space and personal rituals • Perform divinations for spiritual insight and earthly success • Tap into the power of altered states, such as dreaming, meditation, prayer, and trance • Keep a magical journal and create your own *Book of Shadows* Rich with detailed advice for making magic, working with Nature, and finding the Divine within, as well as thought-provoking evaluations of this remarkable spirituality, *Witch Crafting* is the special volume that you've been searching for. Illuminations Arthur Rimbaud 2013 This uncompleted suite of poems by French poet Arthur Rimbaud was first published serially in the Paris literary review magazine "La Vogue." The magazine published part of "Illuminations" from May to June 1886. Paul Verlaine, Rimbaud's lover,

suggested the publication of these poems, written between 1873 and 1875, in book form. All forty-two of the poems generally considered as part of "Illuminations" are collected together here in this edition. Of these forty-two poems almost all are in a prose poem format, the two exceptions are "Seapiece" and "Motion," which are vers libre. There is no universally defined order to the poems in "Illuminations," while many scholars believe the order of the poems to be irrelevant, this edition begins traditionally with "Après Le Deluge" or "After the Flood." Albert Camus hailed Rimbaud as "the poet of revolt, and the greatest." The worth of this praise for Rimbaud can be seen in "Illuminations," one of the most exemplary works of his poetic talent.
