**The Last Nude** Ellis Avery 2012-01-05 "As erotic and powerful as the paintings that inspired it."—Emma Donoghue, author of Room Paris, 1927. In the heady years before the crash, financiers drape their mistresses in Chanel, while expatriates flock to the avant-garde bookshop Shakespeare and Company. One day in July, a young American named Rafaela Fano gets into the car of a coolly dazzling stranger, the Art Deco painter Tamara de Lempicka. Struggling to halt a downward slide toward prostitution, Rafaela agrees to model for the artist, a dispossessed Saint Petersburg aristocrat with a murky past. The two become lovers, and Rafaela inspires Tamara's most iconic Jazz Age images, among them her most accomplished-and coveted-works of art. A season as the painter's muse teaches Rafaela some hard lessons: Tamara is a cocktail of raw hunger and glittering artifice.

And all the while, their romantic idyll is threatened by history's darkening tide. Inspired by real events in de Lempicka's history, *The Last Nude* is a tour de force of historical imagination. Ellis Avery gives the reader a tantalizing window into a lost Paris, an age already vanishing as the inexorable forces of history close in on two tangled lives. Spellbinding and provocative, this is a novel about genius and craft, love and desire, regret and, most of all, hope that can transcend time and circumstance.

*The Idea of Nature in Disney Animation* David Whitley 2016-03-03 In the second edition of *The Idea of Nature in Disney Animation*, David Whitley updates his 2008 book to reflect recent developments in Disney and Disney-Pixar animation such as the apocalyptic tale of earth's failed ecosystem, *WALL-E*. As Whitley has shown, and Disney's newest films continue to demonstrate, the messages animated films convey about the natural world are of crucial importance to their child viewers. Beginning with *Snow White*, Whitley examines a wide range of Disney's feature animations, in which images of wild nature are central to the narrative. He challenges the notion that the sentimentality of the Disney

aesthetic, an oft-criticized aspect of such films as Bambi, The Jungle Book, Pocahontas, Beauty and the Beast, and Finding Nemo, necessarily prevents audiences from developing a critical awareness of contested environmental issues. On the contrary, even as the films communicate the central ideologies of the times in which they were produced, they also express the ambiguities and tensions that underlie these dominant values. In distinguishing among the effects produced by each film and revealing the diverse ways in which images of nature are mediated, Whitley urges us towards a more complex interpretation of the classic Disney canon and makes an important contribution to our understanding of the role popular art plays in shaping the emotions and ideas that are central to contemporary experience.

**Channels of Propaganda** J. Michael Sproule 1994 Defining propaganda as "efforts by special interests to win over the public covertly by infiltrating messages into various channels of public expression ordinarily viewed as politically neutral," this book argues that propaganda has become pervasive in American life. Pointing out that the 1990s society is inundated with propaganda from numerous sources (including government, business, researchers, religious groups, the news media, educators, and the entertainment industry) the book exposes these channels of propaganda and the cumulative effect they have on public opinion and the functioning of American democracy. Chapter 1 reviews materials on diverse vantage points from which American writers and opinion leaders have tried to reconcile mass persuasion with the democratic way of life during the 20th century. Chapters 2-6 examine propaganda in: (1) government (e.g., Federal Bureau of Investigation, aid to the Contras, Star Wars, presidential styles); (2) research and religion (e.g., national security, private sector, religion and politics); (3) news (e.g., getting good coverage, pressure groups, and business); (4) classroom (e.g., business propaganda, pressure groups, textbooks, pressures on teachers); and (5) entertainment (e.g., film, television). Chapters 7 and 8 question: (1) what action a democratic people should take to safeguard intelligent discussion and free choice from the taint of devious communication; (2) to what extent propaganda casts a shadow over public life; and (3) whether large-scale, engineered persuasion can ever be squared with the ideal of democratic public deliberation. Extensive chapter notes and an index are included. (NKA)
