

A Burst Of Light

Below the Edge of Darkness Edith Widder, Ph.D. 2021-07-27 A pioneering marine biologist takes us down into the deep ocean to understand bioluminescence—the language of light that helps life communicate in the darkness—and what it tells us about the future of life on Earth in this “thrilling blend of hard science and high adventure” (The New York Times Book Review). NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BOOKLIST • “Edith Widder’s story is one of hardscrabble optimism, two-fisted exploration, and groundbreaking research. She’s done things I dream of doing.”—James Cameron Edith Widder’s childhood dream of becoming a marine biologist was almost derailed in college, when complications from a surgery gone wrong caused temporary blindness. A new reality of shifting shadows drew her fascination to the power of light—as well as the importance of optimism. As her vision cleared, Widder found the intersection of her two passions in oceanic bioluminescence, a little-explored scientific field within Earth’s last great unknown frontier: the deep ocean. With little promise of funding or employment, she leaped at the first opportunity to train as a submersible pilot and dove into the darkness. Widder’s first journey into the deep ocean, in a diving suit that resembled a suit of armor, took her to a depth of eight hundred feet. She turned off the lights and witnessed breathtaking underwater fireworks: explosions of bioluminescent activity. Concerns about her future career vanished. She only wanted to know one thing: Why was there so much light down there? *Below the Edge of Darkness* takes readers deep into our planet’s oceans as Widder pursues her questions about one of the most important and widely used forms of communication in nature. In the process, she reveals hidden worlds and a dazzling menagerie of behaviors and animals, from microbes to leviathans, many never before seen or, like the legendary giant squid, never before filmed in their deep-sea lairs. Alongside Widder, we experience life-and-death equipment malfunctions and witness breakthroughs in technology and understanding, all set against a growing awareness of the deteriorating health of our largest and least understood ecosystem. A thrilling adventure story as well as a scientific revelation, *Below the Edge of Darkness* reckons with the complicated and sometimes dangerous realities of exploration. Widder shows us how when we push our boundaries and expand our worlds, discovery and wonder follow. These are the ultimate keys to the ocean’s salvation—and thus to our future on this planet.

Nothing to See Here Kevin Wilson 2019-10-29 A *New York Times* Bestseller • A Read with Jenna Today Show Book Club Pick! Named a Best Book of the Year by The *New York Times* Book Review, The Washington Post, People, Entertainment Weekly, USA Today, TIME, The A.V. Club, BuzzFeed, and PopSugar "I can't believe how good this book is.... It's wholly original. It's also perfect.... Wilson writes with such a light touch.... The brilliance of the novel [is] that it distracts you with these weirdo characters and mesmerizing and funny sentences and then hits you in a way you didn't see coming. You're laughing so hard you don't even realize that you've suddenly caught fire." —Taffy Brodesser-Akner, author of *Fleishman is in Trouble*, *New York Times* Book Review From the *New York Times* bestselling author of *The Family Fang*, a moving and uproarious novel about a woman who finds meaning in her life when she begins caring for two children with a remarkable ability. Lillian and Madison were unlikely roommates and yet inseparable friends at their elite boarding school. But then Lillian had to leave the school unexpectedly in the wake of a scandal and they've barely spoken since. Until now, when Lillian gets a letter from Madison pleading for her help. Madison's twin stepkids are moving in with her family and she wants Lillian to be their caretaker. However, there's a catch: the twins spontaneously combust when they get agitated, flames igniting from their skin in a startling but beautiful way. Lillian is convinced Madison is pulling her leg, but it's the truth. Thinking of her dead-end life at home, the life that has consistently disappointed her, Lillian figures she has nothing to lose. Over the course of one humid, demanding summer, Lillian and the twins learn to trust each other—and stay cool—while also staying out of the way of Madison's buttoned-up politician husband. Surprised by her own

ingenuity yet unused to the intense feelings of protectiveness she feels for them, Lillian ultimately begins to accept that she needs these strange children as much as they need her—urgently and fiercely. Couldn't this be the start of the amazing life she'd always hoped for? With white-hot wit and a big, tender heart, Kevin Wilson has written his best book yet—a most unusual story of parental love.

Northern Light Kazim Ali 2021-03-09 An examination of the lingering effects of a hydroelectric power station on Pimicikamak sovereign territory in Manitoba, Canada. The child of South Asian migrants, Kazim Ali was born in London, lived as a child in the cities and small towns of Manitoba, and made a life in the United States. As a man passing through disparate homes, he has never felt he belonged to a place. And yet, one day, the celebrated poet and essayist finds himself thinking of the boreal forests and lush waterways of Jenpeg, a community thrown up around the building of a hydroelectric dam on the Nelson River, where he once lived for several years as a child. Does the town still exist, he wonders? Is the dam still operational? When Ali goes searching, however, he finds not news of Jenpeg, but of the local Pimicikamak community. Facing environmental destruction and broken promises from the Canadian government, they have evicted Manitoba's electric utility from the dam on Cross Lake. In a place where water is an integral part of social and cultural life, the community demands accountability for the harm that the utility has caused. Troubled, Ali returns north, looking to understand his place in this story and eager to listen. Over the course of a week, he participates in community life, speaks with Elders and community members, and learns about the politics of the dam from Chief Cathy Merrick. He drinks tea with activists, eats corned beef hash with the Chief, and learns about the history of the dam, built on land that was never ceded, and Jenpeg, a town that now exists mostly in his memory. In building relationships with his former neighbors, Ali explores questions of land and power?and in remembering a lost connection to this place, finally finds a home he might belong to. Praise for *Northern Light* An Outside Magazine Favorite Book of 2021 A Book Riot Best Book of 2021 A Shelf Awareness Best Book of 2021 "Ali's gift as a writer is the way he is able to present his story in a way that brings attention to the myriad issues facing Indigenous communities, from oil pipelines in the Dakotas to border walls running through Kumeyaay land." —San Diego Union-Tribune "A world traveler, not always by choice, ponders the meaning and location of home. . . . A graceful, elegant account even when reporting on the hard truths of a little-known corner of the world." —Kirkus Reviews "[Ali's] experiences are relayed in sensitive, crystalline prose, documenting how Cross Lake residents are working to reinvent their town and rebuild their traditional beliefs, language, and relationships with the natural world. . . . Though these topics are complex, they are untangled in an elegant manner." —Foreword Reviews (starred review)

A Spark of Light Jodi Picoult 2018-10-02 #1 NEW YORK TIMES BESTSELLER • The author of *Small Great Things* returns with a powerful and provocative new novel about ordinary lives that intersect during a heart-stopping crisis. "Picoult at her fearless best . . . Timely, balanced and certain to inspire debate."—The Washington Post The warm fall day starts like any other at the Center—a women's reproductive health services clinic—its staff offering care to anyone who passes through its doors. Then, in late morning, a desperate and distraught gunman bursts in and opens fire, taking all inside hostage. After rushing to the scene, Hugh McElroy, a police hostage negotiator, sets up a perimeter and begins making a plan to communicate with the gunman. As his phone vibrates with incoming text messages he glances at it and, to his horror, finds out that his fifteen-year-old daughter, Wren, is inside the clinic. But Wren is not alone. She will share the next and tensest few hours of her young life with a cast of unforgettable characters: A nurse who calms her own panic in order to save the life of a wounded woman. A doctor who does his work not in spite of his faith but because of it, and who will find that faith tested as never before. A pro-life protester, disguised as a patient, who now stands in the crosshairs of the same rage she herself has felt. A young woman who has come to terminate her pregnancy. And the disturbed individual himself, vowing to be heard. Told in a daring and enthralling narrative structure that counts backward through the hours of the standoff, this is a story that traces its way back to what brought each of these very different individuals to the same place on this fateful day. One of the most fearless writers of our time, Jodi Picoult tackles a complicated issue in this gripping and nuanced novel. How do we balance the rights of pregnant women with the rights of the unborn they carry? What does it mean to be a good parent? *A Spark of Light* will inspire debate, conversation . . . and, hopefully, understanding. Praise for *A Spark of Light* "This is Jodi Picoult at her best: tackling an emotional hot-button issue and putting a human face on it."—People "Told backward and hour by hour, Jodi Picoult's compelling narrative deftly explores controversial social issues."—Us Weekly

I Am Your Sister Rudolph P. Byrd 2009-04-21 Audre Lorde was not only a famous poet; she was also one of the most important radical black feminists of the past century. Her writings and speeches grappled with an impressive broad list of topics, including sexuality, race, gender, class, disease, the arts, parenting, and resistance, and they have served as a transformative and important foundation for theorists and activists in

considering questions of power and social justice. Lorde embraced difference, and at each turn she emphasized the importance of using it to build shared strength among marginalized communities. *I Am Your Sister* is a collection of Lorde's non-fiction prose, written between 1976 and 1990, and it introduces new perspectives on the depth and range of Lorde's intellectual interests and her commitments to progressive social change. Presented here, for the first time in print, is a major body of Lorde's speeches and essays, along with the complete text of *A Burst of Light* and Lorde's landmark prose works *Sister Outsider* and *The Cancer Journals*. Together, these writings reveal Lorde's commitment to a radical course of thought and action, situating her works within the women's, gay and lesbian, and African American Civil Rights movements. They also place her within a continuum of black feminists, from Sojourner Truth, to Anna Julia Cooper, Amy Jacques Garvey, Lorraine Hansberry, and Patricia Hill Collins. *I Am Your Sister* concludes with personal reflections from Alice Walker, Gloria Joseph, Johnnetta Betsch Cole, Beverly Guy-Sheftall, and bell hooks on Lorde's political and social commitments and the indelibility of her writings for all who are committed to a more equitable society.

A Burst of Conscious Light Andrew Silverman 2020-02-11 Provides evidence that human consciousness can never be reproduced and exposes the perils of artificial intelligence • Explains how consciousness transcends the brain and body through quantum theory and accounts of consciousness in the clinically dead • Shares scientific evidence of how the image on the Shroud of Turin was produced and connects these findings to evidence concerning near-death experiences • Reveals how consciousness cannot be reproduced by a machine and how attempts to do so threaten what makes us human Stephen Hawking once said that the unanticipated consequences of artificial intelligence will be the greatest threat to humanity's survival. In this book, Dr. Andrew Silverman reveals why the powerful consciousness of the human mind could never be manufactured and so cannot be reproduced with technology. Integrating extensive scientific research from three seemingly unrelated fields of study--quantum mechanics, near-death experiences, and the Shroud of Turin--Silverman reveals the pitfalls and perils of artificial intelligence and addresses the fundamentally flawed thinking that underlies it. Drawing on his work as one of the leading experts on the Shroud of Turin as well as research by scientists from NASA and Los Alamos, he shows how the image on the Shroud could only have been produced by a flash of light as intense as a nuclear explosion--a burst of light that occurred after the body was in the tomb. Sharing medical evidence of consciousness in people declared clinically dead, the author shows how the light of consciousness evidenced by the Shroud is also a consistent feature of most near-death experiences. Exploring the non-local nature of consciousness--how it transcends the physical brain and body, Silverman explains why the human mind cannot be reduced to a computer and examines what separates sentient beings from machines. He shows how getting caught up in the push for artificial intelligence and the technological quest for immortality--through the attempt to "download" our minds onto computers--will only lead us to devalue and erase what makes us unique and irreplaceable in this cold, dark universe: our humanity.

Sister Outsider Audre Lorde 2020-02-25 "Sister Outsider, a collection of essays and speeches by the pioneering feminist Audre Lorde, is one of my all-time-favorite books. It's always great to have an intersectional tome on hand." —Amanda Gorman "Sister Outsider's teachings, by one of our most revered elder stateswomen, should be read by everyone." —Essence Presenting the essential writings of black lesbian poet and feminist writer Audre Lorde, *Sister Outsider* celebrates an influential voice in twentieth-century literature, with a foreword by Mahogany L. Browne. A New York Times New & Noteworthy book A Penguin Vitae Edition In this charged collection of fifteen essays and speeches, Lorde takes on sexism, racism, ageism, homophobia, and class, and propounds social difference as a vehicle for action and change. Her prose is incisive, unflinching, and lyrical, reflecting struggle but ultimately offering messages of hope. The groundbreaking feminist's timely collection of nonfiction writings on race, gender, and LGBTQ issues is now for the first time in Penguin Classics as part of the Penguin Vitae series, with a foreword by poet Mahogany L. Browne. Penguin

Classics launches a new hardcover series with five American classics that are relevant and timeless in their power, and part of a dynamic and diverse landscape of classic fiction and nonfiction from almost seventy-five years of classics publishing. Penguin Vitae provides readers with beautifully designed classics that have shaped the course of their lives, and welcomes new readers to discover these literary gifts of personal inspiration, intellectual engagement, and creative originality.

Your Silence Will Not Protect You Audre Lorde 2017 *Your Silence Will Not Protect You* collects the essential essays and poems of Audre Lorde for the first time, including the classic 'The Master's Tools Will Never Dismantle the Master's House'. A trailblazer in intersectional feminism, Lorde's luminous writings have inspired a new generation of thinkers and writers charged by the Black Lives Matter movement. Her lyrical and incisive prose takes on sexism, racism, homophobia, and class; reflecting struggle but ultimately offering messages of hope that remain ever-more trenchant today. Also a celebrated poet, Lorde was New York State Poet Laureate until her death; her poetry and prose together produced an aphoristic and incomparably quotable style, as evidenced by her constant presence on many Women's Marches against Trump across the world. This beautiful edition honours the ways in which Lorde's work resonates more than ever thirty years after they were first published.

Warrior Poet Alexis De Veaux 2004 The long-awaited first biography of the author of "The Cancer Journals," an American icon of womanhood, poetry, African American arts, and survival.

The Cancer Journals Audre Lorde 2020-10-13 Moving between journal entry, memoir, and exposition, Audre Lorde fuses the personal and political as she reflects on her experience coping with breast cancer and a radical mastectomy. A Penguin Classic First published over forty years ago, *The Cancer Journals* is a startling, powerful account of Audre Lorde's experience with breast cancer and mastectomy. Long before narratives explored the silences around illness and women's pain, Lorde questioned the rules of conformity for women's body images and supported the need to confront physical loss not hidden by prosthesis. Living as a "black, lesbian, mother, warrior, poet," Lorde heals and re-envision herself on her own terms and offers her voice, grief, resistance, and courage to those dealing with their own diagnosis. Poetic and profoundly feminist, Lorde's testament gives visibility and strength to women with cancer to define themselves, and to transform their silence into language and action.

A Burst of Light Audre Lorde 2017-09-13 Moving, incisive, and enduringly relevant writings by the African-American poet and feminist include her thoughts on the radical implications of self-care and living with cancer as well as essays on racism, lesbian culture, and political activism.

Where the Light Fell Philip Yancey 2021-10-05 In this searing meditation on the bonds of family and the allure of extremist faith, one of today's most celebrated Christian writers recounts his unexpected journey from a strict fundamentalist upbringing to a life of compassion and grace—a revelatory memoir that “invites comparison to *Hillbilly Elegy*” (Publishers Weekly, starred review). “This stunning tale reminds us that the only way to keep living is to ask God for the impossible: love, forgiveness, and hope.”—Kate Bowler, New York Times bestselling author of *Everything Happens for a Reason* Raised by an impoverished widow who earned room and board as a Bible teacher in 1950s Atlanta, Philip Yancey and his brother, Marshall, found ways to venture out beyond the confines of their eight-foot-wide trailer. But when Yancey was in college, he uncovered a shocking secret about his father's death—a secret that began to illuminate the motivations that drove his mother to extreme, often hostile religious convictions and a belief that her sons had been ordained for a divine cause. Searching for answers, Yancey dives into his family origins, taking us on an evocative journey from the backwoods of the Bible Belt to the bustling streets of Philadelphia; from trailer parks to church sanctuaries; from family oddballs to fire-and-brimstone preachers and childhood awakenings through nature, music, and literature. In time, the weight of religious and family pressure sent both sons on opposite paths—one toward healing from the impact of what he calls a “toxic faith,” the other into a self-destructive spiral. *Where the Light Fell* is a gripping family narrative set against a turbulent time in post-World War II America, shaped by the collision of Southern fundamentalism with the mounting pressures of the civil rights movement and Sixties-era forces of social change. In piecing together his fragmented personal history and his search for redemption, Yancey gives testament to the enduring power of our hunger for truth and the possibility of faith rooted in grace instead of fear. “I truly believe this is the one book I was put on earth to write,” says Yancey. “So many of the strands from my childhood—racial hostility, political division, culture wars—have resurfaced in modern form. Looking back points me forward.”

Light in Dark Times Alisse Waterston 2020-10-01 What will become of us in these trying times? How will we pass the time that we have on earth? In gorgeously rendered graphic form, *Light in Dark Times* invites readers to consider these questions by exploring the political catastrophes and moral disasters of the past and present, revealing issues that beg to be studied, understood, confronted, and resisted. A profound work of anthropology and art, this book is for anyone yearning to understand the darkness and hoping to hold onto the light. It is a powerful story of encounters with writers, philosophers, activists, and anthropologists whose words are as meaningful today as they were during the times in which they were written. This book is at once a lament over the darkness of our times, an affirmation of the value of knowledge and introspection, and a consideration of truth, lies, and the dangers of the trivial. In a time when many of us struggle with the feeling that we cannot do enough to change the course of the future, this book is a call to action, asking us to envision and create an alternative world from the one in which we now live. *Light in Dark Times* is beautiful to look at and to hold – an exquisite work of art that is lively, informative, enlightening, deeply moving, and inspiring.

First Light Emma Chapman 2020-11-26 Astronomers have successfully observed a great deal of the Universe's history, from recording the afterglow of the Big Bang to imaging thousands of galaxies, and even to visualising an actual black hole. There's a lot for astronomers to be smug about. But when it comes to understanding how the Universe began and grew up we are literally in the dark ages. In effect, we are missing the first one billion years from the timeline of the Universe. This brief but far-reaching period in the Universe's history, known to astrophysicists as the 'Epoch of Reionisation', represents the start of the cosmos as we experience it today. The time when the very first stars burst into life, when darkness gave way to light. After hundreds of millions of years of dark, uneventful expansion, one by the one these stars suddenly came into being. This was the point at which the chaos of the Big Bang first began to yield to the order of galaxies, black holes and stars, kick-starting the pathway to planets, to comets, to moons, and to life itself. Incorporating the very latest research into this branch of astrophysics, this book sheds light on this time of darkness, telling the story of these first stars, hundreds of times the size of the Sun and a million times brighter, lonely giants that lived fast and died young in powerful explosions that seeded the Universe with the heavy elements that we are made of. Emma Chapman tells us how these stars formed, why they were so unusual, and what they can teach us about the Universe today. She also offers a first-hand look at the immense telescopes about to come on line to peer into the past, searching for the echoes and footprints of these stars, to take this period in the Universe's history from the realm of theoretical physics towards the wonder of observational astronomy.

100 Suns Michael Light 2013-04-03 Between July 1945 and November 1962 the United States is known to have conducted 216 atmospheric and underwater nuclear tests. After the Limited Test Ban Treaty between the United States and the Soviet Union in 1963, nuclear testing went underground. It became literally invisible—but more frequent: the United States conducted a further 723 underground tests, the last in 1992. *100 Suns* documents the era of visible nuclear testing, the atmospheric era, with one hundred photographs drawn by Michael Light from the archives at Los Alamos National Laboratory and the U.S. National Archives in Maryland. It includes previously classified material from the clandestine Lookout Mountain Air Force Station based in Hollywood, whose film directors, cameramen and still photographers were sworn to secrecy. The title, *100 Suns*, refers to the response by J. Robert Oppenheimer to the world's first nuclear explosion in New Mexico when he quoted a passage from the Bhagavad Gita, the classic Vedic text: "If the radiance of a thousand suns were to burst forth at once in the sky, that would be like the splendor of the Mighty One . . . I am become Death, the destroyer of worlds." This was Oppenheimer's attempt to describe the otherwise indescribable. *100 Suns* likewise confronts the indescribable by presenting without embellishment the stark evidence of the tests at the moment of detonation. Since the tests were conducted either in Nevada or the Pacific the book is simply divided between the desert and the ocean. Each photograph is presented with the name of the test, its explosive yield in kilotons or megatons, the date and the location. The enormity of the events recorded is contrasted with the understated neutrality of bare data. Interspersed within the sequence of explosions are pictures of the awestruck witnesses. The evidence of these photographs is terrifying in its implication while at same time profoundly disconcerting as a spectacle. The visual grandeur of such imagery is balanced by the chilling facts provided at the end of the book in the detailed captions, a chronology of the development of nuclear weaponry and an extensive bibliography. A dramatic sequel to Michael Light's *Full Moon*, *100 Suns* forms an unprecedented historical document.

Virgin Capital Tami Navarro 2021-11-01 *Virgin Capital* examines the cultural impact and historical significance of the Economic Development Commission (EDC) in the United States Virgin Islands. A tax holiday program, the EDC encourages financial services companies to relocate to these American-owned islands in exchange for an exemption from 90% of income taxes, and to stimulate the economy by hiring local workers and donating to local charitable causes. As a result of this program, the largest and poorest of these islands—St. Croix—has played host to primarily US financial firms and their white managers, leading to reinvigorated anxieties around the costs of racial capitalism and a feared return to the racial and gender order that ruled the islands during slavery. Drawing on fieldwork conducted during the boom years leading up to the 2008–2009 financial crisis, *Virgin Capital* provides ethnographic insight into the continuing relations of coloniality at work in the quintessentially "modern" industry of financial services and neoliberal "development" regimes, with their grounding in hierarchies of race, gender, class, and geopolitical positioning.

The Curse of the Mistwraith (The Wars of Light and Shadow, Book 1) Janny Wurts 2010-06-24 BOOK ONE IN THE GROUNDBREAKING SERIES, THE WARS OF LIGHT AND SHADOW A powerful, layered weaving of myth, prose and pure imagination - *Curse of the Mistwraith* opens an epic fantasy series perfect for fans of *The Dark Tower* and *Earthsea*.

Autumn Light Pico Iyer 2019-04-16 Returning to his longtime home in Japan after his father-in-law's sudden death, Pico Iyer picks up the steadying patterns of his everyday rites: going to the post office and engaging in furious games of ping-pong every evening. But in a country whose calendar is marked with occasions honoring the dead, he comes to reflect on changelessness in ways that anyone can relate to: parents age, children scatter, and

Iyer and his wife turn to whatever can sustain them as everything falls away. As the maple leaves begin to turn and the heat begins to soften, Iyer shows us a Japan we have seldom seen before, where the transparent and the mysterious are held in a delicate balance, and where autumn reminds us to take nothing for granted.
