Software Radio Elettra Venosa 2011-10-17 This book describes the design of Software Radio (SWR). Rather than providing an overview of digital signal processing and communications, this book focuses on topics which are crucial in the design and development of a SWR, explaining them in a very simple, yet precise manner, giving simulation results that confirm the effectiveness of the proposed design. Readers will gain in-depth knowledge of key issues so they can actually implement a SWR.

The Debt of the Living Elettra Stimilli 2016-12-20 An analysis of theological and philosophical understandings of debt and its role in contemporary capitalism. Max Weber's account of the rise of capitalism focused on his concept of a Protestant ethic, valuing diligence in earning and saving money but restraint in spending it. However, such individual restraint is foreign to contemporary understandings of finance, which treat ever-increasing consumption and debt as natural, almost essential, for maintaining the economic cycle of buying and selling. In *The Debt of the Living*, Elettra Stimilli returns to this idea of restraint as asceticism, by analyzing theological and philosophical understandings of debt drawn from a range of figures, including Saint Paul, Schmitt and Agamben, Benjamin and Marx, Nietzsche and Freud, and Foucault. Central to this analysis is the logic of "profit for profit's sake"—an aspect of Weber's work that Stimilli believes has been given insufficient attention. Following Foucault, she identifies this as the original mechanism of a capitalist dispositif that feeds not on a goal-directed rationality, but on the self-determining character of human agency. Asceticism is fundamental not because it is characterized by renunciation, but because the self-discipline it imposes converts the properly human quality of action without a predetermined goal into a lack, a fault, or a state of guilt: a debt that cannot be settled. Stimilli argues that this lack, which is impossible to

fill, should be seen as the basis of the economy of hedonism and consumption that has governed global economies in recent years and as the premise of the current economy of debt. Elettra Stimilli is research fellow of theoretical philosophy at Scuola Normale Superiore in Pisa, Italy. Arianna Bove is the translator of many books, including *Factory of Strategy: Thirty-Three Lessons on Lenin*, by Antonio Negri.

The Little Italian Bakery Valentina Cebeni 2019-03-07 'A true feast for the senses' Jenny Ashcroft, author of *Beneath a Burning Sky* The scent of freshly baked biscuits, lemon and aniseed reminds Elettra of her mother's kitchen. But her mother is in a coma, and the family bakery is failing. Elettra is distraught; she has many unanswered questions about her mother's childhood - Edda was a secretive woman. The only clue is a family heirloom: a necklace inscribed with the name of an island. Elettra buys a one-way ticket to that island, just off the coast of Sardinia. Once there, she discovers a community of women, each lost in their own way. They live in a crumbling convent, under threat from the local mayor and his new development plan. It is within the convent's dark corridors and behind its secret doors that Elettra discovers a connection to her mother's past. She also falls in love again: with friendship, baking and adventure.

Drinking Water and Infectious Disease Paul Raymond Hunter 2002-07-30 In many countries, considerable uncertainty still exists about the contribution of drinking water to sporadic cases of disease. The Organization for Economic Cooperation and Development (OECD), in cooperation with the World Health Organization (WHO), led the Workshop on Molecular Technologies for Safe Drinking Water in 1998 to address the role of water. All the Lies They Did Not Tell Pablo Trincia 2022-08 The accusations. The suspicions. The devastating impact. This is the true story of the Devils of the Bassa Modenese--the most notorious Satanic Panic investigation in the history of Italy. In 1997 a six-year-old boy questioned by authorities relayed disturbing stories of abuse. The more he talked, the more people were implicated in his shocking revelations. And he was only the first child to come forward. Within a year, fifteen more children with similar tales were transferred out of the Bassa region of Italy to protected locations. Their parents were accused of belonging to a satanic sect that performed sex rituals under the aegis of beloved local priest Don Giorgio Govoni. With each child's confession, the network of monsters grew. Families were torn apart. Lives were forever destroyed--and some ended--as allegations of kidnapping, torture, sacrifice, and murder escalated beyond comprehension. But what was really happening in the Bassa Modenese? In this gripping account of the Satanic Panic of the 1990s, investigative journalist Pablo Trincia returns to the scene of the crimes to find the answer. And the truth he uncovers is as terrifying as the lies.

Taquisara Francis Marion Crawford 1895 "As wealthy Italian princess Donna Veronica, young and unmarried, signed her will leaving her entire estate to her aunt, her late father's sister and her closest living relative, the princess braced herself for the cold and unfeeling words of gratitude expressed by the aunt. The princess didn't believe she needed a will because of her young age but finally relinquished to her aunt's daily demands for the will to be signed..."--Fantastic Fiction website.

Taquisara F. Marion Crawford 2022-11-21 *Taquisara* by F. Marion Crawford is about the life of young Donna Veronica Serra as she handles the daunting responsibilities as head of her father's estate. Excerpt: "Where shall I sign my name?" Veronica Serra's thin, dark fingers rolled the old silver penholder nervously as she sat at one end of the long library table, looking up at the short, stout man who stood beside her. "Here, if you please, Excellency," answered Lamberto Squarci, with an affable smile. His fingers were dark, too, but not thin, and they were smooth and dingy and very pointed, a fact which the young princess noticed with dislike, as he indicated the spot on the broad sheet of rough, hand-made paper, where he wished her to sign."

Nordic Italies Elettra Carbone 2016-01-22 Because of its history, art, and natural and cultural landscapes, Italy has been a popular destination for North-European travellers since the age of the Grand Tour. Yet, literary images of Italy are not all linked to the tradition of the journey to this country and cannot be labelled as a manifestation of Northerners' yearning for the Southern sun. The corpus of critical literature which deals with Italy in Nordic literatures is very wide but also fragmentary. While many scholars have written about this topic and chiefly on the relations between individual Scandinavian literatures or well-known authors – such as Henrik Ibsen, Selma Lagerlöf and Hans Christian Andersen – and Italy, few have emphasised their variety, plurality, and complexity. With its comparative approach, this study casts a new light on a selection of nineteenth- and twentieth-century representations of Italy and presents some of these Nordic Italies. Taking into account texts of different genres – poetry, drama and novel – and focusing on theories of representation, genre, and space, this book examines complex and heterogeneous literary representations that cannot be reduced to a single stereotype. In these texts, Italy emerges both as a set of physical spaces and as a series of metaphorical concepts. How are these Italian spaces and identities constructed and what do they stand for? What forms does the broad concept of Italianness take in these literary works? How are the Italian settings and characters, as well as the aspects of Italian politics, history, society, culture, and folklore that populate so many literary texts, shaped and combined? Is there a relationship between specific literary genres and the way in which Italy is represented? These are only some of the questions addressed by this study, which demonstrates how Nordic representations of Italy express much more than unanimous praise for the sun, idyllic landscapes, ruins, and mandolin players.

Simulation Studies of a Possible Multi-stage XFEL at ELETTRA. 2002 Presently there is strong interest in developing a 4th generation light source at VUV and soft x-ray wavelengths at the ELETTRA facility at Trieste. One proposal centers around using the existing linac at 1.0 GeV energy with a new photocathode and bunch compression to achieve an output beam at 600 Amp current, 2-4 mm-mrad normalized emittance, and 0.05 percent instantaneous energy spread. To achieve output radiation in the 10- to 40-nm wavelength region, we consider a multi-stage device which is initiated by a coherent seed laser operating at 200 nm. We present numerical simulations of various undulator/optical-klystron configurations, seeking to optimize the overall output power level while minimizing the total length of undulator sections needed. Our results suggest multi-MW instantaneous powers are possible at 10-nm wavelengths.

Sculpture and the Nordic Region Elettra Carbone 2017-07-05 Histories of sculpture within the Nordic region are under-studied and the region's influence upon and translation of influences from elsewhere in Europe remain insufficiently traced. This volume brings to light individual histories of sculptural mobility from the early modern period onwards. Examining the movement of sculptures, sculptors, practices, skills, styles and motifs across borders, through studios and public architectures, within popular and print culture and via texts, the essays collected here consider the extent to which the sculptural artwork is changed by its physical movement and its transfigurations in other media. How does the meaning and form of these objects performatively respond to the pressure of their relocations and rematerialisations? Conversely, how do sculptures impact their new contexts of display? The contributing authors engage with a wide variety of objects and media in their essays. Each focuses on the contextualisation of sculpture in an original and timely way, exploring how mobility acts as a filter offering new perspectives on iconography, memorialisation, collecting, iconoclasm and exhibiting. From the stave churches of early Norway to the decoration of International Style monoliths of the twentieth century, from Italian quarries to Baroque palaces, from fountains to figurines, from text to performance, these wide-ranging and fascinating case studies contribute to the rich history of the Nordic region's sculptural production.

Marconi My Beloved Maria Cristina Marconi 2000 When in 1895 twenty-one-year-old Guglielmo Marconi made his first wireless transmission over land, he became the boy wonder of the world. When subsequently, he made similar transmissions across the Atlantic Ocean, thus proving to the world that his radio-related inventions had immediate and wide-spread applications for all of humanity, young Marconi ushered in the Age of Communication. The life, the works, the character of one of the greatest scientists of this Century, Guglielmo Marconi, the inventor of the Radio, are described in this carefully documented, impassioned and deeply involved book by an exceptional witness: his wife Maria Cristina. He was called 'The genius who gave a voice to silence'. Acclaimed by the whole world, the recipient of the most prestigious honours and decorations, he never lost his innate modesty and discretion even at the height of his success.

Elettra Jennifer Saint 2023-02-21T00:00:00+01:00 La guerra di Troia è stata davvero combattuta soltanto dagli uomini? O ad affrontarla in prima linea sono state le donne - le mogli, le figlie, le sorelle e le madri -, scontrandosi con i loro sentimenti e i loro lati oscuri? Con l'esercito delle passioni,

delle gelosie e delle fragilità nascoste? Dopo lo straordinario successo di Arianna, Jennifer Saint torna ad ammaliarci con una brillante rivisitazione del mito, illuminando di nuova luce le vere protagoniste di questa intramontabile tragedia: vediamo bruciare l'ostinazione e la furia di Elettra, la figlia minore di Clitennestra e Agamennone, che attende con lealtà il ritorno del padre e cresce covando rancore nei confronti della madre; sentiamo le profezie di Cassandra, sacerdotessa di Apollo e principessa di Troia, condannate a cadere inascoltate nel vuoto; assistiamo impotenti alla rabbia, al tormento e all'ossessivo desiderio di rivalsa di Clitennestra, incapace di perdonare il marito e di dimenticare il sacrificio di Ifigenia. Con uno stile lirico e travolgente, l'autrice ci racconta una storia di tenacia e ribellione, di donne implacabili che cercano di forgiare il proprio destino, di scalfire l'armatura di un mondo in cui sono gli uomini a dettare le regole, finendo per rimanere intrappolate in un'inestricabile rete di violenza, vendetta e tradimento.

On the Rocks Elettra Cavendish 2013-03-19 Elettra Cavendish presents her first fine art photography book: *On the Rocks*, a visual tale of self-exploration and defiance. Both the storyteller and the model, Cavendish bares her body and soul to the camera in an attempt to understand her true self as she battles the demons haunting her mind. *On the Rocks* is transgressive by nature, touching on the challenges of self-censorship and the exploration of a broad cross-section of social taboos, including mental illness and self-medication. Next to the grittiness of street drugs there is a visible interest in art direction and composition. Some shots almost look like a fashion shoot where the artist is half expecting Keith Richards to step into the frame. The artist is unapologetic about the raw quality of the images, none of which are ever retouched. She is also unabashedly middle-aged. The photography could be a cross between Mario Testino and Nan Goldin, although Elettra Cavendish is perhaps more brave than glitzy, notwithstanding her blue-blooded decadence. Essentially shot at night, the work has a cinematic feel, as though the photos were the film stills arising from a work of *cinéma vérité*. The artist speaks of her work as photography of a performance. In its hardcover edition, the book itself is a small piece of art, a *livre objet*. The author has grappled with censorship and has failed to lose her sense of humor in the process. The cover features an extremely explicit picture with the objectionable portion concealed by a "scratch off" ink similar to that found on lottery tickets. The reader must decide just how much he or she wishes to see the uncensored version. *On the Rocks* looks equally compelling on screen, in its digital version, playing in loop on the bedside table, for example. The pictures are essentially diptychs and triptychs captured via an iPhoto setting, meaning that the work was specifically designed to fit the proportions of a screen. Finally, the particular format that was chosen means that the book contains nearly 300 pictures in a relatively compact format. *On the Rocks* was designed with both the physical and the digital editions in mind. By emailing their purchase receipt to the author, readers are signed-up to receive access to future digital formats and enhancements. In this manner, the hardcover price includes access to the digital editions.

Debt and Guilt Elettra Stimilli 2018-12-27 The issue of debt and how it affects our lives is becoming more and more urgent. The "Austerity" model has been the prevalent European economic policies of recent years led by the "German model". Elettra Stimilli draws upon contemporary philosophy, psychology and theology to argue that austerity is built on the idea that we somehow deserve to be punished and need to experience guilt in order to take full account of our economic sins. Following thinkers such as Max Weber, Walter Benjamin and Michel Foucault, *Debt and Guilt* provides a startling examination of the relationship between contemporary politics and economics and how we structure our inner lives. The first English

translation of *Debito e Colpa*, this book provokes new ways of thinking about how we experience both debt and guilt in contemporary society. *Italian Critical Thought* Dario Gentili 2018-08-24 First authoritative testimony of the debate that has characterized contemporary Italian critical thought, which has recently caught the attention of an international audience.

Bloody Italy Patricia Prandini Buckler 2014-03-08 These new essays comprise a critical analysis of present-day crime fiction and nonfiction works set in Italy (all of which are available in English). The writers discussed range from Donna Leon and Michael Dibdin to Leonardo Sciascia and Andrea Camilleri. Essays also deal with nonfiction by Roberto Saviano and Douglas Preston. An emerging theme is the corruption of Italian police and judiciary officials and the frustration of officers and politicians trying to work ethically within a flawed system. Many of the works discussed show the struggle of the honest characters to find at least a limited justice for the victims.

In Search of Van Gogh Gloria Fossi 2021-09-21 Follow in the footsteps of Vincent Van Gogh, from his birthplace in Zundert, Netherlands, to his last days in Auvers-sur-Oise, France, and explore the hidden inspirations behind the world-renowned artist's most famous paintings in this beautiful art book and travelogue, illustrated with more than 250 black-and-white and full-color images throughout. In 1990, two photographers and art enthusiasts, Danilo De Marco and Mario Dondero, set out to explore the details of Vincent Van Gogh's life, retracing his journey across Europe by foot and by train. Armed with the love and knowledge of Van Gogh's work, they traveled from the Netherlands to England, Belgium, and France to take in the sights as Van Gogh might have seen them a century earlier. They also turned to art historian Gloria Fossi to better understand, experience, and contextualize Van Gogh's brilliant mind, drawing insights from his personal letters and other historical documents. Van Gogh's well-documented travels come alive in this gorgeous book which brings together the landscapes, architecture, portraits, and cultural references that inspired his art. The authors juxtapose vintage and contemporary photographs with Van Gogh's renditions, demonstrating not only the passage of time, but Van Gogh's unique artistic vision, brilliantly revealed brushstroke by brushstroke. From the Netherlands, where the artist was born, to his last days in France, no place he visited in his 37 years is left unexplored, and all have become timeless landmarks through his art. *In Search of Van Gogh* brings into focus the places and objects that inspired and fueled Van Gogh's artistic genius and offers fresh insights into his prolific work and process. In searching for the artist's mind and soul, the authors create a pointillistic portrait of a human being whose life was remarkable, and whose story must be shared for generations to come.
