Is Polite Society Polite? Julia Ward Howe 1895

Europe and Empire Massimo Cacciari 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of "islands" both distinct and connected. Though drawing on philosophers of Europe's past, Cacciari calls not to resist Europe's sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today's politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

Psychonarratology Marisa Bortolussi 2003-01-13 Psychonarratology is an approach to the empirical study of literary response and the processing of narrative. It draws on the empirical methodology of cognitive psychology and discourse processing as well as the theoretical insights and conceptual analysis of literary studies, particularly narratology. The present work provides a conceptual and empirical basis for this interdisciplinary approach that is accessible to researchers from either disciplinary background. An integrative review is presented of the classic problems in narratology: the status of the narrator, events and plot, characters and characterization, speech and thought, and focalization. For each area, Bortolussi and Dixon critique the state of the art in narratology and literary studies, discuss relevant work in cognitive psychology, and provide a new analytical framework based on the insight that readers treat the narrator as a conversational participant. Empirical evidence is presented on each problem, much of it previously unpublished.

This is the story of the author's physical and emotional journey from her war-torn homeland, Somalia. Some time after the military coup in 1969 Shirin left Mogadishu and moved to Italy to make a new life and home for herself and her family. Since then she has crossed continents and lived in several cities, facing the challenge of integrating with many different kind of society before settling in England in 2010. This book encapsulates her reflections on the Somali diaspora.

The Comet W. E. B. Du Bois 2021-06-08 *The Comet* (1920) is a science fiction story by W. E. B. Du Bois. Written while the author was using his role at *The Crisis*, the official magazine of the NAACP, to publish emerging black artists of the Harlem Renaissance, *The Comet* is a pioneering work of speculative fiction which imagines a catastrophic event not only decimating New York City, but bringing an abrupt end to white supremacy. "How silent the street was! Not a soul was stirring, and yet it was high-noon—Wall Street? Broadway? He glanced almost wildly up and down, then across the street, and as he looked, a sickening horror froze in his limbs." Sent to the vault to retrieve some old records, bank messenger Jim Davis emerges to find a city descended into chaos. A comet has passed overhead, spewing toxic fumes into the atmosphere. All of lower Manhattan seems frozen in time. It takes him a few moments to see the bodies, piled into doorways and strewn about the eerily quiet streets. When he comes to his senses, he finds a wealthy woman asking for help. Soon, it becomes clear that they could very well be the last living people in the planet, that the fate of civilization depends on their ability to come together, not as black and white, but as two human beings. But how far will this acknowledgment take them? With a beautifully designed cover and professionally typeset manuscript, this edition of W. E. B. Du Bois' *The Comet* is a classic work of African American literature reimaged for modern readers.

The Brothers Karamazov Fyodor Dostoyevsky 2016-03-24 *The Brothers Karamazov*, also translated as *The Karamazov Brothers*, is the final novel by the Russian author Fyodor Dostoyevsky. Dostoyevsky spent nearly two years writing *The Brothers Karamazov*, which was published as a serial in *The Russian Messenger* and completed in November 1880. The author died less than four months after its publication. *The Brothers Karamazov* is a passionate philosophical novel set in 19th century Russia, that enters deeply into the ethical debates of God, free will, and morality. It is a spiritual drama of moral struggles concerning faith, doubt, judgement, and reason, set against a modernizing Russia, with a plot which revolves around the subject of patricide. Dostoyevsky composed much of the novel in Staraya Russa, which inspired the main setting. Since its publication, it has been acclaimed as one of the supreme achievements in world literature.

Demythologizing Heidegger John D. Caputo 1993-11-22 Caputo addresses the religious significance of Heidegger's thought.

Sex and Education Julia Ward Howe 1874 This compilation of essays from women in all areas of the 19th century woman's movement attacks the notion, popularized by Clarke's *Sex in Education* (Gerritsen no. A540), that women are physiologically incapable of withstanding the rigors of higher education.

Jesuit Kaddish James Bernauer, S.J. 2020-03-30 While much has been written about the Catholic Church and the Holocaust, little has been published about the hostile role of priests, in particular Jesuits, toward Jews and Judaism. *Jesuit Kaddish* is a long overdue study that examines Jesuit hostility toward Judaism before the Shoah and the development of a new understanding of the Catholic Church's relation to Judaism that culminated with Vatican II's landmark decree *Nostra aetate*. James Bernauer undertakes a self-examination as a member of the Jesuit order and writes this story in the hopes that it will contribute to interreligious reconciliation. *Jesuit Kaddish* demonstrates the way Jesuit hostility operated, examining Jesuit moral theology's dualistic approach to sexuality and, in the case of Nazi Germany, the articulation of an unholy alliance between a sexualizing and a Judaizing of German culture. Bernauer then identifies an influential group of Jesuits whose thought and action contributed to the developments in Catholic teaching about Judaism that eventually led to the watershed moment of *Nostra aetate*. This book concludes with a proposed statement of repentance from the Jesuits and an appendix presenting the fifteen Jesuits who have been honored as "Righteous Among the Nations" by Israel's Yad

Vasem Holocaust Center. Jesuit Kaddish offers a crucial contribution to the fields of Catholicism and Nazism, Catholic-Jewish relations, Jesuit history, and the history of anti-Semitism in Europe.

The Boundaries of Europe Pietro Rossi 2015-04-24 Europe's boundaries have mainly been shaped by cultural, religious, and political conceptions rather than by geography. This volume of bilingual essays from renowned European scholars outlines the transformation of Europe's boundaries from the fall of the ancient world to the age of decolonization, or the end of the explicit endeavor to "Europeanize" the world. From the decline of the Roman Empire to the polycentrism of today's world, the essays span such aspects as the confrontation of Christian Europe with Islam and the changing role of the Mediterranean from "mare nostrum" to a frontier between nations. Scandinavia, eastern Europe and the Atlantic are also analyzed as boundaries in the context of exploration, migratory movements, cultural exchanges, and war. *The Boundaries of Europe*, edited by Pietro Rossi, is the first installment in the ALLEA book series *Discourses on Intellectual Europe*, which seeks to explore the question of an intrinsic or quintessential European identity in light of the rising skepticism towards Europe as an integrated cultural and intellectual region.

Rio Grande Fall Rudolfo Anaya 2015-06-02 A New Mexico PI tries to stop a cult leader's murderous rampage in "a fascinating hybrid of detective story, adventure yarn, and shamanistic magic." —Kirkus Reviews The world-famous International Balloon Fiesta of Albuquerque is one of the city's most eagerly anticipated annual events and its biggest moneymaker. But when a woman plunges to her death from one of the balloons—foreshadowed by Sonny Baca's vision of a body plummeting from the sky—Sonny's sure it's murder. The dead woman was the chief witness to testify against the cult implicated in the murder-for-hire of Sonny's cousin Gloria, whose death still haunts him. In addition to motive, Sonny finds means and opportunity: a homeless family who saw someone push Veronica Worthy out of the hot-air balloon. Worthy was one of the four wives of Raven, leader of the sun cult, and a dangerous, shamanlike criminal who's supposed to be dead. But the four black feathers found on the corpse are his calling card—clues to let Sonny know he's alive and kicking. And his murder spree isn't over. Now, led by his spirit guides, Sonny must race to stop a vengeful madman and save the woman he loves. From the American Book Award-winning author, this is "a completely entertaining mystery novel [that] offers two parallel lands of enchantment" (Booklist).

The Philosophy of the Limit Drucilla Cornell 2016-01-08 In *The Philosophy of the Limit* Drucilla Cornell examines the relationship of deconstruction to questions of ethics, justice and legal interpretation. She argues that renaming deconstruction "the philosophy of the limit" will allow us to be more precise about what deconstruction actually is philosophically and hence to articulate more clearly its significance for law. Cornell's focus on the importance of the limit and the centrality of the gender hierarchy allows her to offer a view of jurisprudence different from both the critical social theory and analytic jurisprudence.

Global Modernization Alberto Martinelli 2005-07-12 This text provides a new approach to examining questions of modernization and modernity. It

overhauls existing theories and concepts and applies them to the new social and economic conditions that define our age.

The Prayers and Tears of Jacques Derrida John D. Caputo 1997-09-22 The Prayer and Tears of Jacques Derrida takes its point of departure from Derrida's more recent, sometimes autobiographical writings and closely examines the religious motifs that have emerged in his later works. John D. Caputo's provocative interpretation of Derrida's thinking also makes an original contribution to the question of the relevance of deconstruction for religion. Caputo's Derrida is a man of faith who bridges Jewish and Christian traditions. The deep messianic, apocalyptic, and prophetic tones in Derrida's writings, Caputo argues, bespeak his broken covenant with Judaism. Through its startling exploration of Derrida's impossible religion, the book sheds light on the implications of deconstruction for an understanding of religion and faith today--from back cover.

Beyond Leadership Scott Eacott 2017-11-06 This book systematically elaborates Scott Eacott's "relational" approach to organizational theory in education. Contributing to the relational trend in the social sciences, it first surveys relational scholarship across disciplines before providing a nuanced articulation of the relational research program and key concepts such as organizing activity, auctors, and spatio-temporal conditions. It also includes critical commentaries on the program from key figures such as Tony Bush, Megan Crawford, Fenwick English, Helen Gunter, Izhar Oplatka, Augusto Riveros, and Dawn Wallin. As such, the text models an approach to, or social epistemology for building knowledge claims in relation rather than through parallel monologues. Eacott's relational approach provides a distinctive, post-Bourdieusian variant of the relational sociological project. Shifting the focus of inquiry from entities (e.g., leaders, organizations) to organizing activity and recognizing how auctors generate - simultaneously emerging from and constitutive of - spatio-temporal conditions unsettles the orthodoxy of organizational theory in educational administration and leadership. By presenting its claims in the context of other approaches, the book stimulates intellectual debate among both relational sociologists and opponents of relational approaches. Beyond Leadership provides significant insights into the organizing of education. As it does not fit neatly into any one field, but instead blends educational administration and leadership, organizational studies, and relational sociology, among others, it charts new territory and promotes important dialogue and debate.

Rome the Cosmopolis Catharine Edwards 2006-11-02 Rome stands today for an empire and for a city. The essays gathered in this volume explore some of the many ways in which the two were interwoven. Rome was fed, beautified and enriched by empire just as it was swollen, polluted, infected and occupied by it. Empire was paraded in the streets of Rome, and exhibited in the city's buildings. Empire also made the city ineradicably foreign, polyglot, an alien capital, and a focus for un-Roman activities. The city was where the Roman cosmos was most concentrated, and so was most contested. Deploying a range of methodologies on materials ranging from Egyptian obelisks to human skeletal remains, via Christian art and Latin poetry, the contributors to this volume weave a series of pathways through the world-city, exploring the different kinds of centrality Rome had in the empire. The result is a startlingly original picture of both empire and city.

Questioning God John D. Caputo 2001 In 15 insightful essays, Jacques Derrida and an international group of scholars of religion explore postmodern thinking about God and consider the nature of forgiveness in relation to the paradoxes of the gift. Among the themes addressed by contributors are the possibilities of imagining God as unthinkable, imagining God as non-patriarchal, imagining a return to Augustine, and imagining an age in which praise is far more important than narrative. Questioning God moves readers beyond the parameters of metaphysical reason and modernist rationality as it attempts to think the questions of God and forgiveness in a postmodernist context. Contributors include John D. Caputo, Jacques Derrida, Mark Dooley, Francis Schüssler Fiorenza, Robert Gibbs, Jean Greisch, Kevin Hart, Richard Kearney, Cleo McNelly Kearns, John Milbank, Regina M. Schwartz, Michael J. Scanlon, and Graham Ward. Indiana Series in the Philosophy of Religion--Merold Westphal, general editor

For Derrida J. Hillis Miller 2009-08-25 This book—the culmination of forty years of friendship between J. Hillis Miller and Jacques Derrida, during

which Miller also closely followed all Derrida's writings and seminars—is "for Derrida" in two senses. It is "for him," dedicated to his memory. The chapters also speak, in acts of reading, as advocates for Derrida's work. They focus especially on Derrida's late work, including passages from the last, as yet unpublished, seminars. The chapters are "partial to Derrida," on his side, taking his part, gratefully submitting themselves to the demand made by Derrida's writings to be read—slowly, carefully, faithfully, with close attention to semantic detail. The chapters do not progress forward to tell a sequential story. They are, rather, a series of perspectives on the heterogeneity of Derrida's work, or forays into that heterogeneity. The chief goal has been, to borrow a phrase from Wallace Stevens, "plainly to propound" what Derrida says. The book aims, above all, to render Derrida's writings justice. It should be remembered, however, that, according to Derrida himself, every rendering of justice is also a transformative interpretation. A book like this one is not a substitute for reading Derrida for oneself. It is to be hoped that it will encourage readers to do just that.

Jemez Spring Rudolfo Anaya 2015-06-02 A high-profile murder thrusts a New Mexico PI into a hotbed of political treachery and terrorist threats: "Baca is a fascinating hero." —Edmonton Journal Sonny Baca has learned to see beneath life's observable reality and develop a new kind of sight. But the Chicano PI will need his most powerful guardian spirits when he's called in to investigate the death of the governor of New Mexico. Before the murder, Sonny dreamed of a body floating in dark, swirling water. Not only was the governor drowned, but black feathers were found on his corpse. Sonny fears the killer is his old nemesis, Raven, the vicious cult leader responsible for the death of Sonny's cousin and the near death of Sonny's girlfriend. But the worst is yet to come: Someone has planted a bomb in the Valles Caldera, near Los Alamos. And it's set to go off in a few hours. Is this the work of Raven? Or someone else? With Chica, his dreaming dog, Sonny delves into the world of the Jemez Pueblo tribe, which has made the mountain its sacred site. But the evil that men do could annihilate the land and a people struggling desperately for survival. Now Sonny must stop a killer before more innocent people die—if his own hunger for revenge doesn't destroy him first.

Log of the S.S. The Mrs. Unguentine Stanley G. Crawford 2008 "Forty years ago I first linked up with Unguentine and we made love on twin-hulled catamarans, sails a-billow, bless the seas..." So begins the courtship of a certain Unguentine to the woman we know only as "Mrs. Unguentine," the chronicler of their sad, fantastical tale. For forty years, they sail the seas together, alone on a giant land-covered barge of their own devising. They tend their gardens, raise a child, invent an artificial forest—all the while steering clear of civilization. "Log of the S.S. The Mrs. Unguentine" is a masterpiece of modern domestic life, a comic novel of closeness and difficulty, miscommunication and stubborn resolve. Rarely has a book so perfectly registered the secret solitude of marriage, how shared loneliness can result in a powerful bond.

Revenge of the Aesthetic Michael Clark 2000-07-17 "Revenge of the Aesthetic stands as a call for further reassessment of the kind of work being done in the field of literary studies and promises to occupy a critical position in ensuing debates over the place of literature in relation to theory."—Emory Elliott, Distinguished Professor of English, University of California, Riverside "In the landscape of theory, we have been in the throes of historicism, a variety of cultural studies, and a variety of marxisms—all reading right through the text as if texts were not material but transparent, as if they were representations of the social. That was their limit. *Revenge of the Aesthetic* may well mark the beginning of a revolution against such practices."—Helen Regueiro Elam, Professor of English, SUNY Albany

Shaman Winter Rudolfo Anaya 2015-06-02 A New Mexican shaman and PI is up against a shape-shifting adversary who haunts his worst nightmares,

in a “fascinating and absolutely eerie” mystery (Thrilling Detective). After a savage confrontation with his archenemy, Sonny Baca is confined to a wheelchair. The doctors don’t know if he’ll ever walk again—and now the Chicano PI is plagued by disturbing dreams of his female ancestors being abducted. The reality is even more chilling. In present-day Santa Fe, the mayor’s sixteen-year-old daughter has disappeared. The four black feathers found on Consuelo Romero’s bed confirm Sonny’s fears: Three more girls will go missing before Raven’s master plan becomes a terrifying reality. A charismatic, chameleonlike power broker who also possesses a shaman’s gifts, Raven lures radical environmentalists into committing terrorist acts under the guise of antinuclear protests. But his true agenda is to bring down Sonny once and for all. By obliterating Sonny’s dreams—the portal into the spirit world—he will destroy his past and his future. The only way to fight back is for Sonny to enter Raven’s own dream state. But can he rid the world of an evil that refuses to die? Rich in atmosphere and setting, this stellar series offers both edge-of-your-seat mystery and one man’s journey into the complex landscape of the soul.

World Development Report 2019 World Bank 2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person’s lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues based upon the available evidence.

Applying: To Derrida J. Brannigan 1997-01-12 Striking out from a number of new headings and in a number of new directions each of the essays in this collection pushes at the borders of their topics, disciplines and ways of thinking, providing innovative and inventive insights into the work - and application - of Jacques Derrida on a diverse range of themes including Irish identity, communication, ethics, love, tele-technology, Victorian studies, the limits of philosophy, translation, otherness and literature, demonstrating that, today, despite repeated accusations over recent years that the work of Derrida has become passe, there is more vitality and spirit in engaging with the writings of Derrida than ever before.

The Philosophy of Derrida Mark Dooley 2014-12-18 For more than forty years Jacques Derrida has attempted to unsettle and disturb the presumptions underlying many of our most fundamental philosophical, political, and ethical conventions. In *The Philosophy of Derrida*, Mark Dooley examines Derrida's large body of work to provide an overview of his core philosophical ideas and a balanced appraisal of their lasting impact. One of the author's primary aims is to make accessible Derrida's writings by discussing them in a vernacular that renders them less opaque and nebulous. Derrida's unusual writing style, which mixes literary and philosophical vocabularies, is shown to have hindered their interpretation and translation. Dooley situates Derrida squarely in the tradition of historicist, hermeneutic and linguistic thought, and Derrida's objectives and those of "deconstruction" are rendered considerably more convincing. While Derrida's works are ostensibly diverse, Dooley reveals an underlying cohesion to his writings. From his early work on Husserl, Hegel and de Saussure, to his most recent writings on justice, hospitality and cosmopolitanism, Derrida is shown to have been grappling with the vexed question of national, cultural and personal identity and asking to what extent the notion of a "pure" identity has any real efficacy. Viewed from this perspective Derrida appears less as a wanton iconoclast, for whom deconstruction equals destruction,

but as a sincere and sensitive writer who encourages us to shed light on our historical constructions so as to reveal that there is much about ourselves that we do not know.

Hard Times for These Times Charles Dickens 1870

Innovation and Transition in Law: Experiences and Theoretical Settings This book features a discussion on the modernisation of law and legal change, focusing on the key concepts of "innovation" and "transition". These concepts both appear to be relevant and poorly defined in contemporary legal science. A critical reflection on the heuristic value of these categories seems appropriate, particularly considering their dyadic value. While innovation is increasingly appearing in the present day as being the category in which one looks at the modernisation of law, the concept of transition also seems to be the privileged place of occurrence for such dynamics. This group of Italian and Brazilian scholars contributing to this volume intends to investigate such problems through an interdisciplinary prism. It includes points of view both internal to legal studies - such as the history of law, theory of law, constitutional law, private law and commercial law - and external, such as political philosophy and history of justice and political institutions.
