Nanda Devi Eric Shipton 2014-10-15 'When a man is conscious of the urge to explore, not all the arduous journeyings, the troubles that will beset him and the lack of material gains from his investigations will stop him.' Nanda Devi is one of the most inaccessible mountains in the Himalaya. It is surrounded by a huge ring of peaks, among them some of the highest mountains in the Indian Himalaya. For fifty years the finest mountaineers of the early twentieth century had repeatedly tried and failed to reach the foot of the mountain. Then, in 1934, Eric Shipton and H. W. Tilman found a way in. Their 1934 expedition is regarded as the epitome of adventurous mountain exploration. With their three tough and enthusiastic Sherpa companions Angharkay, Kusang and Pasang, they solved the problem of access to the Nanda Devi Sanctuary. They crossed difficult cols, made first ascents and explored remote, uninhabited valleys, all of which is recounted in Shipton's wonderfully vivid Nanda Devi - a true evocation of Shipton's enduring spirit of adventure and one of the most inspirational travel books ever written.

Digging the Trenches Andrew Robertshaw 2014-08-19 This comprehensive, illustrated survey of the latest in battlefield archaeology reveals “intimate insight into the realities of life” during WWI (Current Archaeology). Modern methods of archaeological, historical, and forensic research have transformed our understanding of the Great War. In Digging the Trenches, battlefield archaeologists Andrew Robertshaw and David Kenyon introduce the reader to this exciting new field and explore many of the remarkable projects that have been undertaken. Robertshaw and Kenyon show how archaeology can be used to reveal the positions of trenches, dugouts and other battlefield features, as well as what life on the Western Front was really like. They also show how individual soldiers are coming into focus as forensic investigation is so highly developed that individuals can be identified and their fates discovered. “An excellent introduction to the subject...Digging the Trenches is essential reading.”—Gary Sheffield, *Military Illustrated* “What a splendid book this is.”—Neil Faulkner, *Current Archaeology*

Images of Conflict Jean Bourgeois 2008-12-18 Striking aerial views of war, and of the scarred landscapes of its aftermath are the focus of this unique and multidisciplinary book. For the first time, the history, significance, and technology of military aerial photography are brought together and explored by military historians, archaeologists, and anthropologists. This new approach opens the door to a modern reassessment of military aerial imagery, reveals the concepts and philosophies that guided their production and interpretation, and illustrates the complex interaction between humans and technology in creating and understanding the landscapes of conflict.

Synthesis of the Doctrine of Race 2022-11-14 In this book Evola set out his own racial doctrine on the premise of the traditional tripartition of the human being into body, soul, spirit. In the first part, race is presented as a revolutionary idea. The three degrees of race are defined in the second part and elaborated upon in the third part. The fourth part begins with a clear definition of the term "Aryan" and ends with considerations on the racial issue from the point of view of law. Finally, the problem of racial rectification is discussed thoroughly.

"Pouring Jewish Water into Fascist Wine" Robert Aleksander Maryks 2017-01-05 The aim of this project is to offer the reader a critical edition and an English translation of 139 letters that were exchanged between the victims of Mussolini's racial laws and the Jesuit Pietro Tacchi Venturi.

Le tre costituzioni pacifiste Mario G. Losano 2020 The three defeated Axis powers - Japan, Italy and Germany - incorporated a prohibition on wars of aggression into their democratic constitutions. This book covers the years of the Nuremberg and Tokyo Trials and the constituent assemblies of 1947-49 through to current debates on the adaptation of the pacifist articles in line with new "humanitarian" wars. Aspects relating to the birth of the three countries' constitutions are treated in great detail in three appendices.

Summits and Secrets Kurt Diemberger 2019-03-08 'A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order; for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's *Summits and Secrets* is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster - an account described in harrowing detail in his award-winning book *The Endless Knot* - Diemberger provides a captivating insight into his earlier climbs in *Summits and Secrets*. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm: 'Every climber knows the thrill ... the unique inexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares - the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ...' *Summits and Secrets* is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

The Men with Broken Faces Marjorie Gehrhardt 2015 This book explores for the first time the individual and collective significance of First World War facially disfigured combatants, with a special focus on France, Germany and Great Britain. It illuminates our understanding of how the combatant and the onlooker made sense of the experience and the memory of the war.

Historical Atlas of Medieval Music Vera Minazzi 2020-11-03 Music is rooted in the heart of Western culture. The absence of music from the usual publications of medieval history and history of art of the Middle Ages is understandable, considering the rarity of sources. And yet, throughout the last decades, an intense activity of historico-musicological research has been carried out internationally by a select group of specialized scholars. The ambitious goal of this work is to set medieval music within its historical and cultural context and to provide readers interested in different disciplines with an overall picture of music in the Middle Ages; multi-faceted, enjoyable, yet scientifically rigorous. To achieve this goal, the most prominent scholars of medieval musicology were invited to participate, along with archaeologists, experts of acoustics and architecture, historians and philosophers of medieval thought. The volume offers exceptional iconography and several maps, to accompany the reader in a fascinating journey through a network of places, cultural influences, rituals and themes.

Women and the Great War Bruce Scates 1998-02-06 Women and the Great War focuses on women's experiences during the period of violent conflict - the Great War. It examines the role of women as peace activists as well as their role in the military and support services. Source materials, including historical documents, photographs and cartoons, together with student activities, are used to focus the reader on the way violent conflict altered women's traditional roles.

The Ascent of Nanda Devi H.W. Tilman 2015-12-16 In 1934, after fifty years of trying, mountaineers finally gained access to the Nanda Devi Sanctuary in the Garhwal Himalaya. Two years later an expedition led by H.W. Tilman reached the summit of Nanda Devi. At over 25,000 feet, it was the highest mountain to be climbed until 1950. *The Ascent of Nanda Devi*, Tilman's account of the climb, has been widely hailed as a classic. Keenly observed, well informed and at times hilariously funny, it is as close to a 'conventional' mountaineering account as Tilman could manage. Beginning with the history of the mountain ('there was none') and the expedition's arrival in India, Tilman recounts the build-up and approach to the climb. Writing in his characteristic dry style, he tells how Sherpas are hired, provisions are gathered (including 'a mouth-blistering sauce containing 100 per cent chillies') and the climbers head into the hills, towards Nanda Devi. Superbly parodied in *The Ascent of Rum Doodle* by W.E. Bowman, *The Ascent of Nanda Devi* was among the earliest accounts of a climbing expedition to be published. Much imitated but rarely matched, it remains one of the best.

The Memory of Catastrophe Peter Gray 2004-09-04 Memories of catastrophes--both those which occur naturally and those which are consequences of human actions--loom large in the modern consciousness. The volume opens with an investigation of the concepts of catastrophe and collective memory, and the relationships between them. Arguing that a pervasive catastrophic memory may be as disabling as it is instructive, Gray and Oliver stress the necessity of rendering the phenomenon subject to secular critical inquiry. The value of such an approach is then demonstrated in a series of case studies.

The Child of Pleasure Gabriele D'Annunzio 2006 Originally published in 1889, this work's protagonist Andrea Sperelli introduced the Italian culture to aestheticism and a taste for decadence. The young count seeks beauty, despises the bourgeois world, and rejects the basic rules of morality and social interaction. His corruption is evident in his sadistic superimposing of two women.

[The Italian Literature of the Axis War](#) Guido Bartolini 2021-05-13 This book investigates the representation of the Axis War - the wars of aggression that Fascist Italy fought in North Africa, Greece, the Soviet Union, and the Balkans, from 1940 to 1943 - in three decades of Italian literature.

Building on an innovative and interdisciplinary methodology, which combines memory studies, historiography, thematic criticism, and narratology,

this book explores the main topoi, themes, and masterplots of an extensive corpus of novels and memoirs to assess the contribution of literature to the reshaping of Italian memory and identity after the end of Fascism. By exploring the influence that public memory exercises on literary depictions and, in return, the contribution of literary texts to the formation and dissemination of a discourse about the past, the book examines to what extent Italian literature helped readers form an ethical awareness of the crimes committed by members of their national community during World War II.

Garibaldi Alfonso Scirocco 2021-08-10 What adventure novelist could have invented the life of Giuseppe Garibaldi? The revolutionary, soldier, politician, and greatest figure in the fight for Italian unification, Garibaldi (1807-1882) brought off almost as many dramatic exploits in the Americas as he did in Europe, becoming an international freedom fighter, earning the title of the "hero of two worlds," and making himself perhaps the most famous and beloved man of his century. Alfonso Scirocco's *Garibaldi* is the most up-to-date, authoritative, comprehensive, and convincing biography of Garibaldi yet written. In vivid narrative style and unprecedented detail, and drawing on many new sources that shed fresh light on important events, Scirocco tells the full story of Garibaldi's fascinating public and private life, separating its myth-like reality from the outright myths that have surrounded Garibaldi since his own day. Scirocco tells how Garibaldi devoted his energies to the liberation of Italians and other oppressed peoples. Sentenced to death for his role in an abortive Genoese insurrection in 1834, Garibaldi fled to South America, where he joined two successive fights for independence--Rio Grande do Sul's against Brazil and Uruguay's against Argentina. He returned to Italy in 1848 to again fight for Italian independence, leading seven more campaigns, including the spectacular capture of Sicily. During the American Civil War, Abraham Lincoln even offered to make him a general in the Union army. Presenting Garibaldi as a complex and even contradictory figure, Scirocco shows us the pacifist who spent much of his life fighting; the nationalist who advocated European unification; the republican who served a king; and the man who, although compared by contemporaries to Aeneas and Odysseus, refused honors and wealth and spent his last years as a farmer.

Wittgenstein's Tractatus Peter Sullivan 2013-02-28 These new studies of Wittgenstein's 'Tractatus' represent a significant step beyond recent polemical debate. They cover a wide range of themes, and show that close investigation into the composition of the work, and into the various influences on it, has much to yield in revealing the complexity and fertility of Wittgenstein's early thought.

No Picnic on Mount Kenya Felice Benuzzi 2015-11-12 A rediscovered mountaineering classic and the extraordinary true story of a daring escape up Mount Kenya by three prisoners of war. When the clouds covering Mount Kenya part one morning to reveal its towering peaks for the first time, prisoner of war Felice Benuzzi is transfixed. The tedium of camp life is broken by the beginnings of a sudden idea - an outrageous, dangerous, brilliant idea. There are not many people who would break out of a P.O.W. camp, trek for days across perilous terrain before climbing the north face of Mount Kenya with improvised equipment, meagre rations, and with a picture of the mountain on a tin of beef among their more accurate guides. There are probably fewer still who would break back in to the camp on their return. But this is the remarkable story of three such men. *No Picnic on Mount Kenya* is a powerful testament to the human spirit of revolt and adventure in even the darkest of places. "The history of mountaineering can hardly present a parallel to this mad but thrilling escapade" - Saturday Review "A most extraordinary prisoner-of-war and escape story" - New Yorker "A mad venture and a gallant tribute to man's deep yearning for freedom" - Kirkus Reviews "The book crackles with the same dry humour as its title. It contains the prison-yard bartering and candlelight stitching that mark a classic jailbreak yarn; the encounters with wild beasts in Mount Kenya's forest belt are as gripping, and the descriptions of sparkling glaciers as awe-inspiring, as any passage in the great exploration diaries of the early 20th century" - The Economist

Shot at Dawn Julian Putkowski 2003 *Shot at Dawn* chronicles the tragic fate of more than 300 soldiers on the Western Front between 1918-18. The authors scoured the Imperial War Museum, public records and war diaries to piece together the jigsaw. A graphic account of man's inhumanity to

man is the result of their labours.

A History of the First World War B. H. Liddell Hart 2014-07-31 Liddell Hart's History of the First World War first appeared in 1930 and is widely regarded as one of the greatest, most cogent accounts of the conflict ever published. A leading military strategist and historian who fought on the Western Front, Liddell Hart combines astute tactical analysis with compassion for those who lost their lives on the battlefield. He provides a vivid and fascinating picture of all the major campaigns, balancing documentary evidence with the testimony of personal witnesses to expose the mistakes that were made and why. From the political and cultural origins of war to the twists and turns of battle, to the critical decisions that resulted in such devastating losses and to the impact on modern nations, this magnificent history covers four brutal years in one volume and is a true military classic.

Barbarians and Romans, A.D. 418-584 Walter Goffart 2020-07-21 Despite intermittent turbulence and destruction, much of the Roman West came under barbarian control in an orderly fashion. Goths, Burgundians, and other aliens were accommodated within the provinces without disrupting the settled population or overturning the patterns of landownership. Walter Goffart examines these arrangements and shows that they were based on the procedures of Roman taxation, rather than on those of military billeting (the so-called hospitalitas system), as has long been thought. Resident proprietors could be left in undisturbed possession of their lands because the proceeds of taxation, rather than land itself, were awarded to the barbarian troops and their leaders.

Philanthropy and Voluntary Action in the First World War Peter Grant 2014-02-18 This book challenges scholarship which presents charity and voluntary activity during World War I as marking a downturn from the high point of the late Victorian period. Charitable donations rose to an all-time peak, and the scope and nature of charitable work shifted decisively. Far more working class activists, especially women, became involved, although there were significant differences between the suburban south and industrial north of England and Scotland. The book also corrects the idea that charitably-minded civilians' efforts alienated the men at the front, in contrast to the degree of negativity that surrounds much previous work on voluntary action in this period. Far from there being an unbridgeable gap in understanding or empathy between soldiers and civilians, the links were strong, and charitable contributions were enormously important in maintaining troop morale. This bond significantly contributed to the development and maintenance of social capital in Britain, which, in turn, strongly supported the war effort. This work draws on previously unused primary sources, notably those regarding the developing role of the UK's Director General of Voluntary Organizations and the regulatory legislation of the period.

Nepal Himalaya H. Tilman 2013-04-16 There can be no country so rich in mountains as Nepal. This narrow strip of territory, lying between Sikkim and Garhwal, occupies 500 miles of India's northern border; and since this border coincides roughly with the 1,500-mile-long Himalayan chain, it follows that approximately a third of this vast range lies within or upon the confines of Nepal. So starts this breathtaking account of mountaineering and exploring this isolated and awe-inspiring country by one of the most famous men in mountaineering. Many of the earliest books, particularly those dating back to the 1900s and before, are now extremely scarce and increasingly expensive. We are republishing these classic works in affordable, high quality, modern editions, using the original text and artwork.

The Nation as a Local Metaphor Alon Confino 2000-11-09 All nations make themselves up as they go along, but not all make themselves up in the same way. In this study, Alon Confino explores how Germans turned national and argues that they imagined the nation as an extension of their local place. In 1871, the work of political unification had been completed, but Germany remained a patchwork of regions with different histories and traditions. Germans had to construct a national memory to reconcile the peculiarities of the region and the totality of the nation. This identity project, examined by Confino as it evolved in the southwestern state of WArtemberg, oscillated between failure and success. The national holiday of Sedan Day failed in the 1870s and 1880s to symbolically commingle localness and nationhood. Later, the idea of the Heimat, or homeland, did prove capable of representing interchangeably the locality, the region, and the nation in a distinct national narrative and in visual images. The German nationhood project was successful, argues Confino, because Germans made the nation into an everyday, local experience through a variety of cultural forms, including museums, school textbooks, popular poems, travel guides, posters, and postcards. But it was not unique. Confino situates German nationhood within the larger context of modernity, and in doing so he raises broader questions about how people in the modern world use the past in the construction of identity.
