*Geographers* Hayden Lorimer 2015-12-14 Volume twenty-nine of *Geographers: Biobibliographical Studies* has as its subject matter seven essays covering British and French regionalists, one of the world's leading cultural geographers, a quantitative geographer turned historical geographer and student of geopolitics, a pioneering medical geographer and a leading theoretician of geography's multiple engagements with the urban experience. In their different ways and with reference to Australia, Britain, France, Sweden and the United States of America, all were products of - and direct influences upon - the emergence, strength and thematic diversity of geography in the twentieth century. *Geographers 29* thus provides key insight into the shaping of a discipline and of its practitioners in modern context.

**It Must be Beautiful** Graham Farmelo 2002 A stunning and unique look at the great equations that lie at the heart of many of the most successful scientific theories.

*Goliarda Sapienza in Context* Alberica Bazzoni 2016-06-02 The present edited collection of essays on the Sicilian author Goliarda Sapienza includes contributions from established and emerging scholars working in the field of contemporary women's writing. Essays in this volume examine Sapienza through multiple perspectives, taking into account the articulation of subjectivity through autobiographical writing and the complex representation of gender and sexual identities. Also considered here is Sapienza's oblique position within the Italian literary canon, with contributions moving beyond isolated textual analyses whilst attempting to situate the author's works within a framework of intertextual and contextual cultural references. Exploring the fertile network of explicit and implicit intersections with Italian and European literature (English and French in particular), as well as with Western philosophical thought in which Sapienza's texts are embedded, this volume will provide an overdue contribution to the belated appraisal of an author whose due recognition is, in Cesare Garboli's words, only a matter of time: "Time will work in favour of Goliarda Sapienza's works. And this is not a wish; it is a certainty."

**Drama and Ethos** Robert L. Fiore 2021-10-21 Spanish Golden Age drama as an expression of morality falls between the extremes of art-for-art's-sake and utilitarianism. According to Spanish literary critics of the 16th and 17th centuries, drama imitated reality, the subject and domain of

philosophy. The integration of drama and scholastic moral philosophy was an important aspect of the critical theory of this era, which held that art should both teach and delight. Through close textual analysis of representative plays, this book examines the artistic fusion of natural-law philosophy and drama. It demonstrates the relationship between ethics and the central ideological themes of these works, illustrating that an awareness of the doctrines of natural law ethics is crucial to an enriched comprehension of the drama of Golden Age Spain.

**Environment, Health, and Safety** Lari A. Bishop 1997

**On Law, Politics, and Judicialization** Martin Shapiro 2002-08-22 Across the globe, the domain of the litigator and the judge has radically expanded, making it increasingly difficult for those who study comparative and international politics, public policy and regulation, or the evolution of new modes of governance to avoid encountering a great deal of law and courts. In *On Law, Politics, and Judicialization*, two of the world's leading political scientists present the best of their research, focusing on how to build and test a social science of law and courts. The opening chapter features Shapiro's classic 'Political Jurisprudence,' and Stone Sweet's 'Judicialization and the Construction of Governance,' pieces that critically redefined research agendas on the politics of law and judging. Subsequent chapters take up diverse themes: the strategic contexts of litigation and judging; the discursive foundations of judicial power; the social logic of precedent and appeal; the networking of legal elites; the lawmaking dynamics of rights adjudication; the success and diffusion of constitutional review; the reciprocal impact of courts and legislatures; the globalization of private law; methods, hypothesis-testing, and prediction in comparative law; and the sources and consequences of the creeping 'judicialization of politics' around the world. Chosen empirical settings include the United States, the GATT-WTO, France and Germany, Imperial China and Islam, the European Union, and the transnational world of the *Lex Mercatoria*. Written for a broad, scholarly audience, the book is also recommended for use in graduate and advanced undergraduate courses in law and the social sciences.

**The Golden Yoke** Rebecca Redwood French 2019-06-07 *The Golden Yoke* is a remarkable achievement. It is the first elaboration of the legal, cultural, and ideological dimensions of precommunist Tibetan jurisprudence, a unique legal system that maintains its secularism within a thoroughly Buddhist setting. Layer by layer, Rebecca Redwood French reconstructs the daily operation of law in Tibet before the Chinese invasion in 1959. In the Tibetans' own words, French identifies their courts, symbols, and personnel and traces the procedures for petitioning and filing documents. There are stories here from judges, legal conciliators, and lay people about murder, property disputes, and divorce. French shows that Tibetan law is deeply embedded in its Buddhist culture and that the system evolved not from the rules and judgments but from what people actually do and say. In what amounts to a fully developed cosmology, she describes the cultural foundation that informs the system: myths, notions of time and conflux, inner morality, language patterns, rituals, use of space, symbols, and concepts. Based on extensive readings of Tibetan legal documents and codes, interviews with Tibetan scholars, and the reminiscences of Tibetans at home and in exile, this generously illustrated, elegantly written work is a model of outstanding research. French combines the talents of a legal anthropologist with those of a former law practitioner to develop a new field of study that has implications for other judicial systems, including our own.

**Paginas del Quijote** Miguel de Cervantes Saavedra 1956

**BiblioTech** John Palfrey 2015-05-05 Libraries today are more important than ever. More than just book repositories, libraries can become bulwarks against some of the most crucial challenges of our age: unequal access to education, jobs, and information. In *BiblioTech*, educator and technology expert John Palfrey argues that anyone seeking to participate in the 21st century needs to understand how to find and use the vast stores of information available online. And libraries, which play a crucial role in making these skills and information available, are at risk. In order to survive our rapidly modernizing world and dwindling government funding, libraries must make the transition to a digital future as soon as possible—by

digitizing print material and ensuring that born-digital material is publicly available online. Not all of these changes will be easy for libraries to implement. But as Palfrey boldly argues, these modifications are vital if we hope to save libraries and, through them, the American democratic ideal.

**Theory of Restoration** Cesare Brandi 2005

Ten Things I Hate About Me Randa Abdel-Fattah 2010-02-01 Randa Abdel-Fattah's new novel about about finding your place in life . . . and learning to accept yourself and your culture."At school I'm Aussie-blondie Jamie -- one of the crowd. At home I'm Muslim Jamilah -- driven mad by my Stone Age dad. I should win an Oscar for my acting skills. But I can't keep it up for much longer..."Jamie just wants to fit in. She doesn't want to be seen as a stereotypical Muslim girl, so she does everything possible to hide that part of herself. Even if it means pushing her friends away because she's afraid to let them know her dad forbids her from hanging out with boys or that she secretly loves to play the darabuka (Arabic drums).

**Writing for Freedom** Alberica Bazzoni 2018 Goliarda Sapienza (1924-1996) is increasingly regarded as a central figure in modern Italian literature. This study follows her autofictional journey, identifying themes in her work such as freedom, the body, gender and sexuality, political commitment and social transformation.

*Medieval Damascus* Hirschler Konrad Hirschler 2016-02-19 The written text was a pervasive feature of cultural practices in the medieval Middle East. At the heart of book circulation stood libraries that experienced a rapid expansion from the twelfth century onwards. While the existence of these libraries is well known our knowledge of their content and structure has been very limited as hardly any medieval Arabic catalogues have been preserved. This book discusses the largest and earliest medieval library of the Middle East for which we have documentation - the Ashrafiya library in the very centre of Damascus - and edits its catalogue. This catalogue shows that even book collections attached to Sunni religious institutions could hold rather unexpected titles, such as stories from the 1001 Nights, manuals for traders, medical handbooks, Shiite prayers, love poetry and texts extolling wine consumption. At the same time this library catalogue decisively expands our knowledge of how the books were spatially organised on the bookshelves of such a large medieval library. With over 2,000 entries this catalogue is essential reading for anybody interested in the cultural and intellectual history of Arabic societies. Setting the Ashrafiya catalogue into a comparative perspective with contemporaneous libraries on the British Isles this book opens new perspectives for the study of medieval libraries.

The Hilbert Challenge Jeremy Gray 2000 David Hilbert was arguably the leading mathematician of his generation. He was among the few mathematicians who could reshape mathematics, and was able to because he brought together an impressive technical power and mastery of detail with a vision of where the subject was going and how it should get there. This was the unique combination which he brought to the setting of his famous 23 Problems. Few problems in mathematics have the status of those posed by David Hilbert in 1900. Mathematicians have made their reputations by solving individual ones such as Fermat's last theorem, and several remain unsolved including the Riemann hypotheses, which has eluded all the great minds of this century. A hundred years on, it is timely to take a fresh look at the problems, the man who set them, and the reasons for their lasting impact on the mathematics of the twentieth century. In this fascinating new book, Jeremy Gray and David Rowe consider what has made this the pre-eminent collection of problems in mathematics, what they tell us about what drives mathematicians, and the nature of reputation, influence and power in the world of modern mathematics. The book is written in a clear and lively manner and will appeal both to the general reader with an interest in mathematics and to mathematicians themselves.

**Reflections on Men and Ideas** Giorgio De Santillana 1968

**Liar Moon** Ben Pastor 2012-02-21 Praise for Ben Pastor's *Lumen*: "Pastor's plot is well crafted, her prose sharp. . . . A disturbing mix of detection and reflection."—Publishers Weekly "Rivets the reader with its twist of historical realities. A historical piece, it faithfully reproduces the grim canvas

of war. A character study, it captures the thoughts and actions of real people, not stereotypes.”—The Free Lance-Star “And don’t miss Lumen by Ben Pastor. . . . An interesting, original, and melancholy tale.”—Literary Review Italy, September 1943. The Italian government switches sides and declares war on Germany. The north of Italy is controlled by the fascist puppets of Germany; the south liberated by Allied forces fighting their way up the peninsula. Having survived hell on the Russian front, Wehrmacht major and aristocrat Baron Martin von Bora is sent to Verona. He is ordered to investigate the murder of a prominent local fascist: a bizarre death threatening to discredit the regime’s public image. The prime suspect is the victim’s twenty-eight-year-old widow Clara. Haunted by his record of opposition to SS policies in Russia, Bora must watch his step. Against the backdrop of relentless anti-partisan warfare and the tragedy of the Holocaust, a breathless chase begins. Ben Pastor, born and now back in Italy, lived for thirty years in the United States, working as a university professor in Vermont. The first in the Martin Bora series, *Lumen*, was published by Bitter Lemon Press in May 2011.

What Middletown Read Frank Felsenstein 2015 The discovery of a large cache of circulation records from the Muncie, Indiana, Public Library in 2003 offers unprecedented detail about American reading behavior at the turn of the twentieth century. Frank Felsenstein and James J. Connolly have mined these records to produce an in-depth account of print culture in Muncie, the city featured in the famed "Middletown" studies conducted by Robert and Helen Lynd almost a century ago. Using the data assembled and made public through the What Middletown Read Database ([www.bsu.edu/libraries/wmr](http://www.bsu.edu/libraries/wmr)), a celebrated new resource the authors helped launch, Felsenstein and Connolly analyze the borrowing choices and reading culture of social groups and individuals. What Middletown Read is much more than a statistical study. Felsenstein and Connolly dig into diaries, meeting minutes, newspaper reports, and local histories to trace the library's development in relation to the city's cosmopolitan aspirations, to profile individual readers, and to explore such topics as the relationship between children's reading and their schooling and what books were discussed by local women's clubs. The authors situate borrowing patterns and reading behavior within the contexts of a rapidly growing, culturally ambitious small city, an evolving public library, an expanding market for print, and the broad social changes that accompanied industrialization in the United States. The result is a rich, revealing portrait of the place of reading in an emblematic American community.

*The Vatican Library* Ambrogio M. Piazzoni 2012 The history of the Vatican Library began when the Pope Silvester I (314- 335) settled in the Basilica of St. John Lateran in Rome, thanks to the Edict of Constantine in 313. The Basilica was built by Constantine himself and by the half of that century was set in it a scrinum sanctum, that is a collection of books which was at the same time a library for the booksellers and an archive for documents. This book mainly deals with the location of the popes' library, but it also presents the history of the library building from its beginnings. Between 1587 and 1589 Pope Sixtus V built the Salone Sistino in the Vatican Apostolic Palace nearby St. Peter, which became the new location of the library. This place is one of the gems of Vatican City, since it contains frescos representing the history of Councils and the Charter for the Codices and for print. In 2012 this architectural and decorative wonder will reopen as a reference collection space, although it still won't be accessible to the Museum's visitors and tourists.

**Chinese Business Law** Yuanshi Bu 2010-02-01 Thanks to China's place in the world economic system, Chinese law sparks great interest among foreign readers. For practitioners, it is important to keep track of new legal developments which give rise to practical questions, and for business activities to comply with the latest regulatory enactments in China. For academics, the emergence of the Chinese legal system as a rapidly maturing hybrid legal regime, built by adopting models and experiences from other nations, among them the United States and various European countries. presents fascinating possibilities for research and analysis. This handbook of modern Chinese business law provides, in a single volume, an overview

of the legal environment in which businesses must currently operate in China, including chapters on: This handbook comprises the following chapters: " China's Accession to the WTO " Corporations and Partnerships " Foreign Investment Law " Securities " Mergers and Acquisitions " Antitrust " Secured transactions " Bankruptcy " Labour Relations and Labour Disputes " Intellectual Property " Outbound Investment from China " Offshore Investment Vehicles This handbook provides an up-to-date, concise and detailed guide to Chinese business law which will be helpful both for practitioners and academics.

*Literature and Artifacts* George Thomas Tanselle 1998 The fifteen essays collected here form a series of variations on a theme, exploring the interconnections between verbal works and the physical objects--primarily manuscripts and printed books--that transmit them. Verbal works may be intangible, but they generally come to us tied to objects; and the study of such works therefore cannot be separated from the study of artifacts. The aim of this book is to examine the theory that underlies this observation and the practical implications that follow from it.

**The American Revolution in the Southern Colonies** David Lee Russell 2000-01-01 As the American Revolution in the North drew to a stalemate around New York, in the South the British finally came to terms with the reality of defeat. Southern sites like Kings Mountain, Cowpens, Charleston, the Chesapeake and Yorktown were vital to American independence. The origin of the five Southern colonies - Maryland, Virginia, North Carolina, South Carolina and Georgia - their development, the role of patriot and loyalist Southerner, and critical battles are examined. Included is a discussion of the leadership of the British forces and of the colonial patriots who inspired common citizens to fight for the sake of American independence.

**The Trè Giuli** Giovanni Battista Casti 1826

**Written Word in the Medieval Arabic Lands** Konrad Hirschler 2011-12-20 Winner of the 2012 BRISMES book prize. How the written text became accessible to wider audiences in medieval Egypt and Syria. Medieval Islamic societies belonged to the most bookish cultures of their period. Using a wide variety of documentary, narrative and normative sources, Konrad Hirschler explores the growth of reading audiences in a pre-print culture. The uses of the written word grew significantly in Egypt and Syria between the 11th and the 15th centuries, and more groups within society started to participate in individual and communal reading acts. New audiences in reading sessions, school curricula, increasing numbers of endowed libraries and the appearance of popular written literature all bear witness to the profound transformation of cultural practices and their social contexts.

**Theories and Methods in Comparative Education** Jürgen Schriewer 1992 Issues of methodology have been at the centre of debate among Comparative Educationists for decades. The essays in this volume, written by scholars from Europe, Latin America, and the USA, reflect current interests in the changing metascientific discourse in the field of Comparative Education. A shift in the nature of this discourse from prescription to socio-historical description is particularly clear in the essays in Part I, in which frameworks are developed within which analyses of the field's differing traditions, currents, and paradigms can be made. Theories which direct attention to historical explanations and policy-oriented predictions and which inform conceptual problems in making cross-cultural comparisons are examined in Part II. In these essays reference is made to both the different epistemological premises and the application of such theories to substantive comparative research. The essays in Part III add an unusual dimension to methodological debates in so far as they define the disciplinary status and theoretical functions of Comparative Education within the wider context of Education (or Educology) as the basic discipline.

*Elementi di biblioteconomia. Con test di verifica* Nunzio Silvestro 2007

**Globalization of Knowledge in the Post-Antique Mediterranean, 700-1500** Sonja Brentjes 2016-05-05 The contributions to this volume enter into a dialogue about the routes, modes and institutions that transferred and transformed knowledge across the late antique Mediterranean and the Persian Gulf. Each contribution not only presents a different case study but also investigates a different type of question, ranging from how history-writing drew on cross-culturally constructed stories and shared sets of skills and values, to how an ancient warlord was transformed into the iconic hero of a newly created monotheistic religion. Between these two poles, the emergence of a new, knowledge-related, but market-based profession in Baghdad is discussed, alongside the long-distance transfer of texts, doctrines and values within a religious minority community from the shores of the Caspian Sea to the mountains of the southern Arabian Peninsula. The authors also investigate the outsourcing of military units and skills across religious and political boundaries, the construction of cross-cultural knowledge of the balance through networks of scholars, patrons, merchants and craftsmen, as well as differences in linguistic and pharmaceutical practices in mixed cultural environments for shared corpora of texts, drugs and plants.

*I Loved You for Your Voice* Sélim Nassib 2006 The story of the Arab world's greatest and most popular singer, Umm Kalthum, told through the eyes of the poet Ahmad Rami, who wrote her lyrics and loved her in vain all his life. Spanning five decades in the history of modern Egypt, Nassib's passionate tale of love and longing provides a key to understanding the soul, the aspirations and disappointments of the Arab world.

**Applied Studies Towards a Sociology of Language** Basil Bernstein 2004-11-23 The papers in this second volume show some of the results of the empirical exploration of Bernstein's hypothesis. The volume represents a significant contribution not only to the study of the sociology of language, but also to education and the social sciences. "This collection demonstrates the magnitude of Bernstein's pioneering contribution to socio-linguistic studies" - S. John Eggleston, Times Educational Supplement

**America's Smithsonian** Smithsonian Institution 1996 Depicts artifacts and objects from the collections of the various museums of the Smithsonian Institution that honor the human impulses of discovery, imagination, and memory

*The Politics of Dissolution* Marshall DeRosa 2018-04-17 This collection of late antebellum U.S. Senate speeches exemplifies the official statements of the public men from the South, North, and West as they struggled with the questions of national identity and the right of self-government within the context of the rule of law.

*The Lifeworld of Leadership* Thomas J. Sergiovanni 2000 "Lead locally" is the fundamental message in this perceptive new book. The author argues that leaders are most effective when their actions reflect their followers' needs and values. He skillfully explains how a school's "lifeworld" powerfully unites its members, insisting that local leadership can prevail against an increasingly common stream of erosive forces and that major changes can be initiated by fostering a school's individual culture.

**Daily Life in Japan** Louis Frederic 2010-11-01 From the tenth century onwards the emperors of Japan gradually lost power. The local lords or clan chiefs waged ceaseless war against each other, while the court, wholly steeped in Chinese culture, seemed to take no further interest in the affairs of the nation. In 1191 the Minamoto clan mastered the disturbances and finally imposed its rule. Hard work, respect for the hierarchy, the cult of nationalism, a sense of self-sacrifice and duty - such was the new trend. The Buddhist doctrine of Zen made its appearance. It gave mystical support to the samurai, and the Japanese spirit was henceforth directed towards a political and religious asceticism which had an enormous influence on all aspects of art, thought and daily life. An acknowledged authority on the 'classical' period of Japanese history, the author reveals what the life of the Japanese people was like during these five centuries, and shows how a transformation of heart and mind produced a civilization as original as it was profound.

*Inscription and Erasure* Roger Chartier 2008-08-25 Roger Chartier examines how authors transformed the material realities of writing or of publication into an aesthetic resource exploited for poetic, dramatic, or narrative ends.
