The Late Roman World and Its Historian Jan Willem Drijvers 2003-09-02 Ammianus Marcellinus, Greek by birth but writing in Latin c. AD 390, was the last great Roman historian. His writings are an indispensable basis for our knowledge of the late Roman world. This book represents a collection of papers analysing Ammianus's writings from a variety of perspective, including Ammianus as historian of, and participant in, Julian's Persian campaign, his identification with traditional religious attitudes and values in Rome and his view of the Persian Magi. The contributors engage especially with the concept of self-identification. They address the tension of Ammianus' dual role as both 'outside' external narrator and at the same time and 'insider' to the contemporary experiences and events which make up his surviving history.

Border as Method, or, the Multiplication of Labor Sandro Mezzadra 2013-06-19 Far from creating a borderless world, contemporary globalization has generated a proliferation of borders. In *Border as Method*, Sandro Mezzadra and Brett Neilson chart this proliferation, investigating its implications for migratory movements, capitalist transformations, and political life. They explore the atmospheric violence that surrounds borderlands and border struggles across various geographical scales, illustrating their theoretical arguments with illuminating case studies drawn from Europe, Asia, the Pacific, the Americas, and elsewhere. Mezzadra and Neilson approach the border not only as a research object but also as an epistemic framework. Their use of the border as method enables new perspectives on the crisis and transformations of the nation-state, as well as powerful reassessments of political concepts such as citizenship and sovereignty.

Wars and Capital Eric Alliez 2018-05-11 A critique of capital through the lens of war, and a critique of war through the lens of the revolution of 1968. "We are at war," declared the President of the French Republic on the evening of November 13, 2015. But what is this war, exactly? In *Wars and Capital*, Éric Alliez and Maurizio Lazzarato propose a counter-history of capitalism to recover the reality of the wars that are inflicted on us and denied to us. We experience not the ideal war of philosophers, but wars of class, race, sex, and gender; wars of civilization and the environment; wars of subjectivity that are raging within populations and that constitute the secret motor of liberal governmentality. By naming the enemy (refugees,

migrants, Muslims), the new fascisms establish their hegemony on the processes of political subjectivation by reducing them to racist, sexist, and xenophobic slogans, fanning the flames of war among the poor and maintaining the total war philosophy of neoliberalism. Because war and fascism are the repressed elements of post-'68 thought, Alliez and Lazzarato not only read the history of capital through war but also read war itself through the strange revolution of '68, which made possible the passage from war in the singular to a plurality of wars—and from wars to the construction of new war machines against contemporary financialization. It is a question of pushing “'68 thought” beyond its own limits and redirecting it towards a new pragmatics of struggle linked to the continuous war of capital. It is especially important for us to prepare ourselves for the battles we will have to fight if we do not want to be always defeated.

My Mother-in-Law Drinks Diego De Silva 2014-12-04 He makes you laugh, though you can never be quite sure why. He's affable enough, of course, but it's not so much that. He is both a kind of halfwit and a genius, flippant and profound, chaotic and yet possessed of a Zen-like calm. He's easily distracted but tends to hound-dog every thought until he has it by the throat. His conversation is labyrinthine but he is capable of moments of blinding lucidity. The thing is, you can't help but love him. He is Vincenzo Malinconico, an underemployed lawyer whose wife has sort of left him ("he's the kind of man you marry not once but twice, and leave both times"), whose teenage children worry him to death, and whose profession mostly consists in appearing as if he has one. In this sequel to I Hadn't Understood, a Neapolitan mafia boss has been kidnapped by a mild-mannered computer engineer who holds the camorrista responsible for the accidental death of his son. The engineer plans to conduct an impromptu trial on live television during which he will list the various crimes of the accused, sentencing him before a captivated national audience and executing him accordingly. The standoff between law enforcement officers and the kidnapper becomes a tragi-comic reality show. The only hope of a happy ending rests with Vincenzo Malinconico, Neapolitan lawyer, poster-child for the proverbial mid-life crisis, and inveterate flâneur. He hardly has a reputation for decisiveness, but now is called upon to play a decisive role in resolving this drama in course with, hopefully, no loss of life, his own included.

Our Enduring Values Revisited: Librarianship in an Ever-Changing World Michael Gorman 2015 In the almost 15 years since Our Enduring

Values was published, there has been a sea change in the way much of the world thinks about and uses libraries. Young librarians and seasoned LIS professionals alike are experiencing increasing pressure to adjust to new economic, societal, and technological demands amidst the often-dire rhetoric currently surrounding the future of our institutions. In this stirring manifesto, public intellectual, librarian, and philosopher Gorman addresses head on the “existential panic” among library professionals caused by the radical shift in how libraries are viewed. He reconnects readers with the core values that continue to inspire generations of library professionals and scholars—while making the case that these values are doubly crucial to hold on to in the brave new shifting world of librarianship. Destined to become another classic of library literature, this book explores such contemporary issues as The growing emphasis of the library as a cultural institution, placing libraries within their cultural context as gathering places for learning, access to information, and communityThe impact of technological innovations on core values such as access and stewardshipLibrary places and spaces of the futureHow the mass digitization of books, archives, and other materials affects the purpose and function of librariesIntellectual freedom and privacy in the era of the PATRIOT Act, Wikileaks, and Edward SnowdenThe role of libraries as both champions and facilitators of social justiceInspirational yet clear-sighted, Gorman emphatically reaffirms the importance of libraries and librarians while proposing a path for future survival and growth.

Kolyma Stories Varlam Shalamov 2018-06-12 Now in its first complete English translation, this masterpiece chronicles life in a Soviet gulag, based on the author’s own years in a USSR prison camp. Kolyma Stories is a masterpiece of twentieth-century literature, an epic array of short fictional tales reflecting the fifteen years that Varlam Shalamov spent in the Soviet Gulag. This is the first of two volumes (the second to appear in 2019) that together will constitute the first complete English translation of Shalamov’s stories and the only one to be based on the authorized Russian text. Shalamov spent six years as a slave in the gold mines of Kolyma before finding a less intolerable life as a paramedic in the prison camps. He began writing his account of life in Kolyma after Stalin’s death in 1953. His stories are at once the biography of a rare survivor, a historical record of the Gulag, and a literary work of unparalleled creative power, insight, and conviction.

Federico Fellini Tullio Kezich 2007-03-06 A lively and authoritative journey into the world of a cinema master With the revolutionary 8 1/2, Federico Fellini put his deepest desires and anxieties before the lens in 1963, permanently impacting the art of cinema in the process. Now, more than forty years later, film critic and Fellini confidant Tullio Kezich has written the work by which all other biographies of the filmmaker are sure to be measured. In this moving and intimately revealing account of a lifetime spent in pictures, Kezich uses his friendship with Fellini as a means to step outside the frame of myth and anecdote that surrounds him—much, it turns out, of the director's own making. A great lover of women and a meticulous observer of dreams, Fellini, perhaps more than any other director of the twentieth century, created films that embodied a thoroughly modern sensibility, eschewing traditional narrative along with religious and moral precepts. His is an art of delicate pathos, of episodic films that directly address the intersection of reality, fantasy, and desire that exists as a product of mid-century Italy—a country reeling from a Fascist regime as it struggled with an outmoded Catholic national identity. As Kezich reveals, the dilemmas Fellini presents in his movies reflect not only his personal battles but those of Italian society. The result is a book that explores both the machinations of cinema and the man who most grandly embraced the full spectrum of its possibilities, leaving his indelible mark on it forever.

Beyond Blaxploitation Novotny Lawrence 2016-12-01 *Beyond Blaxploitation*, the first book-length anthology of scholarly work on blaxploitation film, sustains the momentum that blaxploitation scholarship has recently gained, giving the films an even more prominent place in cinema history. This volume is made up of eleven essays employing historical and theoretical methodologies in the examination of spectatorship, marketing, melodrama, the transition of novel to screenplay, and racial politics and identity, among other significant topics. In doing so, the book fills a substantial gap that exists in the black cinematic narrative and, more broadly, in film history. *Beyond Blaxploitation* is divided into three sections that feature original essays on a variety of canonical blaxploitation films and others that either influenced the movement or in some form represent a significant extension of it. The first section titled, "From Pioneer to Precursor to Blaxploitation," centers on three films—*Cotton Comes to Harlem*, *Watermelon Man*, and *Sweet Sweetback's Baadasssss Song*—that ignited the African American film cycle. The second section, "The Canon and the Not so Canon," is dedicated to forging alternative considerations of some of the most highly regarded blaxploitation films, while also bringing attention to lesser-known films in the movement. The final section, "Was, Is, or Isn't Blaxploitation," includes four essays that offer significant insights on films that are generally associated with blaxploitation but contest traditional definitions of the movement. Moreover, this section features chapters that address industrial factors that led to the creation of blaxploitation cinema and highlight the limitations of the term itself. *Beyond Blaxploitation* is a much-needed pedagogical tool, informing film scholars, critics, and fans alike, about blaxploitation's richness and complexity.

Managerial Flow Veronica Vecchi 2015-04-10 When globalization affects jobs and economies, policy makers strive to plan, design and implement actions to support their communities and businesses (Ansell and Gash 2007). Furthermore, local development policies are at the core of international cooperation programs or more in general represent a challenge for emerging countries. They could refer to infrastructure, entrepreneurship innovation or urban renewal. However, more frequently than not, development policies, which involve different institutional levels and public and private players, fail due to poor implementation management. This research book presents a managerial approach (the so called Managerial Flow) that could help the closure of gaps that hamper an efficient and effective policy execution. The managerial flow model observes the phenomenon of policy implementation for economic development through managerial lens. In the book, the research team has empirically identified five gaps in practice whereupon public policy implementation falls down. As a response Managerial Flow model outlines sets of managerial actions that can be adopted to facilitate a clear 'flow' from policy development through to implementation. This book expands on the Managerial Flow model, and acts as both a practical guide to stimulate evidence based policy implementation in governments and as theoretical contribution to policy and strategy execution. Written for researchers and academics, this book begins by outlining the theoretical foundations of Managerial Flow and moves to unpack application and cases, based in different sectors and countries, in order to discuss and show how the Managerial Flow approach can concretely support managers in the implementation of economic development policies. It reviews and discusses how the managerial flow could be relevant in the implementation of a set of sectorial policies and uses the managerial flow concept to analyse cases of economic development and establish lessons for broader management scope.

Medieval Callings Jacques Le Goff 1995-12-18 These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings—of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. The Memoirs of General Grivas Geōrgios Grivas 1965

Resident Foreigners Donatella Di Cesare 2020-04-13 From the shores of Europe to the Mexican-US border, mass migration is one of the most pressing issues we face today. Yet at the same time, calls to defend national sovereignty are becoming ever more vitriolic, with those fleeing war, persecution, and famine vilified as a threat to our security as well as our social and economic order. In this book, written amidst the dark resurgence of appeals to defend 'blood and soil', Donatella Di Cesare challenges the idea of the exclusionary state, arguing that migration is a fundamental human right. She develops an original philosophy of migration that places the migrants themselves, rather than states and their borders, at the centre. Through an analysis of three historic cities, Athens, Rome and Jerusalem, Di Cesare shows how we should conceive of migrants not as an other but rather as resident foreigners. This means recognising that citizenship cannot be based on any supposed connection to the land or an exclusive claim to ownership that would deny the rights of those who arrive as migrants. Instead, citizenship must be disconnected from the possession of territory altogether and founded on the principle of cohabitation - and on the ultimate reality that we are all temporary guests and tenants of the earth. Di Cesare's argument for a new ethics of hospitality will be of great interest to all those concerned with the challenges posed by migration and with the increasingly hostile attitudes towards migrants, as well as students and scholars of philosophy and political theory.

Labour Law and Industrial Relations in Recessionary Times Anthony Forsyth 2014-01-14 This volume includes a number of papers written in English and published in the last fifteen years in which the Italian labour market faced many changes. The book not only provides the international readership with a frame of reference - in both conceptual and legal terms - that helps to appreciate the Italian Labour Law currently in force, but also represents a contribution to moving beyond the self-referential nature of the Italian debate on the reform of labour laws. As such, the book supplies the reform process of the Italian labour market with an international and comparative dimension which - in accordance with the

programmatic approach of Marco Biagi - will also feed the debate at the national level.

"...la vita dura 10 minuti..." Autobiografia di un manager Maurizio Maresca 2017-11-04 Il testo, autobiografico, racconta la storia di Maurizio Maresca, ingegnere meccanico, prima manager e poi imprenditore e consulente. La narrazione parte dagli anni dello studio e della formazione, e si snoda per oltre sessant'anni, a cavallo tra XX e XXI secolo; ne emerge una figura di uomo dedito al lavoro, pronto al sacrificio, innamorato della sua professione. Il racconto, in ordine cronologico, è reso più accattivante dalla presenza di aneddoti, "fattarielli", barzellette, episodi di vita quotidiana, che accompagnano la descrizione delle molteplici esperienze lavorative del protagonista e delle emozioni di tutti i personaggi. Sullo sfondo, le vicende nazionali e internazionali, dalla nascita del mercato globale alla caduta del Muro di Berlino, dall'attentato alle Torri Gemelle alle prime privatizzazioni, passando per quelle che l'autore ritiene le principali opere degli ultimi decenni a Napoli: la Tangenziale e il Centro Direzionale.

Towards the Single Employment Contract Giuseppe Casale 2014-07-18 This book examines the concept of the single employment contract, tracing it from its genesis and evaluating its pros and cons in the context of the current labour market problems in selected European countries. The book adopts a comparative approach to examining the single employment contract, highlighting its virtues and revealing its inherent contradictions. The authors set out the general framework within which the current debate has developed by outlining the origins that gave rise to the proposal of a single employment contract. They then review the debate on labour market segmentation and the flexicurity proposal, and examine the key characteristics of the single employment contract as well as the arguments put forward both for and against it. Case studies show how the idea has been taken up in France, Italy and Spain. The book concludes with a concise review of contractual arrangements in EU labour markets and of possible future projections and developments. The book is aimed at academics and practitioners interested in labour market and labour legislation reforms. The book is a co-publication between Hart Publishing and the International Labour Organization.

Fannulloni si diventa Giovanni Valotti 2010-11-19T00:00:00+01:00 "Il giudice Borsellino era un dipendente pubblico, il professor Biagi anche, così come gli uomini della scorta del giudice Falcone. E questi sono gli eroi. Enrico Fermi era un dipendente pubblico, così come lo è la maestra di mio figlio, che ha fatto un lavoro importantissimo e straordinario. E questi sono i campioni. Anche l'impiegato che ha accumulato centoventi giorni di assenza in un anno è un dipendente pubblico, così come lo è quello che si fa timbrare il cartellino dal collega compiacente. E questi sono i fannulloni. Come possono convivere nelle organizzazioni pubbliche persone tanto diverse? Semplicemente, non possono". Il libro descrive, con ampi riferimenti alla realtà, la situazione delle organizzazioni pubbliche e illustra alcune fondamentali proposte per il cambiamento delle stesse, nell'ambito del nuovo

quadro di riforma del lavoro pubblico delineato dalla "legge Brunetta" (Legge delega 15/09). Un libro destinato a far discutere, che si inserisce a pieno nel dibattito sui fannulloni e le inefficienze della pubblica amministrazione, con una prospettiva però del tutto nuova, capace di superare gli stereotipi e, soprattutto, di concentrarsi sulle cose che si possono e si devono fare.

The New Public Service, Expanded Edition Janet Vinzant Denhardt 2007 Provides a framework for the many voices calling for the reaffirmation of democratic values, citizenship, and service in the public interest. This edition includes a chapter that addresses the practical issues of applying these ideals in actual, real-life situations.
