Night of Thunder Stephen Hunter 2011-02-03 Bob Lee Swagger, former Marine Corps sniper, is back. And this time, it's personal. Forced off the road and into a crash that leaves her in a coma, barely clinging onto life, journalist Nikki Swagger had been investigating reports of a crystal meth superlab in sleepy Tennessee, when she found herself inadvertently peeling back the layers on a huge conspiracy. Bob Lee Swagger is worried. As a former Marine Corps sniper, he's picked up more than his fair share of enemies hell-bent on revenge and he senses that something isn't right. Unconvinced by the Sheriff's conclusion that Nikki's crash was caused by a local kid high on Meth, Bob picks up the investigation where his daughter left off. As Swagger digs deeper, a violent crime clan, gunmen of all stripes and shapes, and deranged evangelicals all rear their ugly heads, but they will live to rue the day they targeted the wrong man's daughter. What people are saying about Bob Lee Swagger thrillers: 'Stephen Hunter's I, Sniper brings back one of the great characters in modern thrillerdom, Bob Lee Swagger, everyone's favourite lethal, dour Southerner. I kind of want Swagger to meet up with Lee Child's Jack Reacher one day, in a contest to see who could say the least while doing the most damage.' Malcolm Gladwell 'The tension never lets up' New York Times 'Stephen Hunter is an Elmore Leonard on steroids' John Sandford 'As all Bob Lee fans know, it comes down to 'straight killing time.' And so it does, in a ramped-up, high-tech High Noon finale. As always, Hunter makes it work with precise, detail-rich prose that strips the faux glamour from gun fighting and leaves only the skills of the combatants set against the horrors they wreak.' Booklist 'Hunter is back at the top of his game.' Publisher's Weekly 'In his guns-a-poppin' latest, Hunter pits his series hero against a nest of sharp-shooting vipers. Dust off the OK Corral. Even the somewhat squeamish, and even certifiable gun-dummies, may once again find chivalric, heroic Bob Lee just about irresistible.' Kirkus Reviews 'Hunter's thrillers are always taut, exciting, and well written, and his latest is no exception. There's also a lot of gun and tech talk as Swagger uses decades' worth of skills to stay a step or three ahead of the baddies. Swagger fans will not be disappointed.' Library Journal 'Hunter has a unique writing style that thrills and captivates from the opening scene to deliver an exciting whodunit' The Sun 'Stories of passion, guilt and redemption that jump right off the page and smack the reader clean between the eyes' Independent on Sunday 'American hardboiled at its very best, full of taciturn and stoical characters and plotting in explosive overdrive' The Times 'Hunter choreographs the violence in steely prose and Swagger ... remains one of crime fiction's most engaging heroes' Irish Independent

Cosmic Banditos A. C. Weisbecker 2001-03-01 Soon to be a major motion picture starring John Cusack! Mr. Quark is a down-on-his luck pot-smuggler hiding out in the mountains of Colombia with his dog, High Pockets, and a small band of banditos led by the irascible Jose. But times have quickly grown lean, and to liven up their exile, Jose decides to mug a family of American tourists. Among the spoils are physics texts, which launch Mr. Quark on a side-splitting, boisterous adventure north to California, where he confronts the owner of the books with his own theories on relativity, the nature of the universe, and looking for the meaning of life in all the wrong places....

Orakl Georg Trakl 2017 Poetry. Translated from the German by Daniele Pantano. "Pantano, a renowned poet and translator, has brought both of these talents to bear on his project. His process was to loosely translate all of the poems of Georg Trakl, then order the lines in alphabetical order by their first words. One further aspect of the organization is that while these lines share this overt linguistic kinship--due to the alphabetical ordering, but also due to the frequent repetition of a starting word--the lines do not share any apparent meaning relations. Like the Persian ghazal, where each couplet is meant to stand alone, seemingly disconnected from the others, yet also force by way of lyric disjoint a powerful effect on the reader, Pantano's conceptual poetry forces us to leap from line to line, navigating the voids along the way. There is a jarring-yet- also-pleasurable effect created by this structure and organization. Also, the reader will immediately notice that the title of the book is only one letter off from Trakl's name, transforming it into an oracle of sorts. This is entirely fitting, given that the lines in Pantano's collection echo the enigmatic pronouncements of an oracle from ancient myth and given that Pantano himself serves as a sort of oracular medium in translating/altering/arranging these lines."--from the Introduction by Okla Elliott

Censorship and Literature in Fascist Italy Guido Bonsaver 2007-01-01 The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

Genesis Guido Tonelli 2021-04-13 A breakout bestseller in Italy, now available for American readers for the first time, *Genesis: The Story of How Everything Began* is a short, humanistic tour of the origins of the universe, earth, and life—drawing on the latest discoveries in physics to explain the seven most significant moments in the creation of the cosmos. Curiosity and wonderment about the origins of the universe are at the heart of our experience of the world. From Hesiod's Chaos, described in his poem about the origins of the Greek gods, *Theogony*, to today's mind-bending theories of the multiverse, humans have been consumed by the relentless pursuit of an answer to one awe inspiring question: What exactly happened during those first moments? Guido Tonelli, the acclaimed, award-winning particle physicist and a central figure in the discovery of the Higgs boson (the "God particle"), reveals the extraordinary story of our genesis—from the origins of the universe, to the emergence of life on Earth, to the birth of human language with its power to describe the world. Evoking the seven days of biblical creation, Tonelli takes us on a brisk, lively tour through the evolution of our cosmos and considers the incredible challenges scientists face in exploring its mysteries. *Genesis* both explains the fundamental physics of our universe and marvels at the profound wonder of our existence.

Economy of the Unlost Anne Carson 2009-04-11 The ancient Greek lyric poet Simonides of Keos was the first poet in the Western tradition to take money for poetic composition. From this starting point, Anne Carson launches an exploration, poetic in its own right, of the idea of poetic economy. She offers a reading of certain of Simonides' texts and aligns these with writings of the modern Romanian poet Paul Celan, a Jew and survivor of the Holocaust, whose "economies" of language are notorious. Asking such questions as, What is lost when words are wasted? and Who profits when words are saved? Carson reveals the two poets' striking commonalities. In Carson's view Simonides and Celan share a similar mentality or disposition toward the world, language and the work of the poet. *Economy of the Unlost* begins by showing how each of the two poets stands in a state of alienation between two worlds. In Simonides' case, the gift economy of fifth-century b.c. Greece was giving way to one based on money and commodities, while Celan's life spanned pre- and post-Holocaust worlds, and he himself, writing in German, became estranged from his native language. Carson goes on to consider various aspects of the two poets' techniques for coming to grips with the invisible through the visible world. A focus on the genre of the epitaph grants insights into the kinds of exchange the poets envision between the living and the dead. Assessing the impact

on Simonidean composition of the material fact of inscription on stone, Carson suggests that a need for brevity influenced the exactitude and clarity of Simonides' style, and proposes a comparison with Celan's interest in the "negative design" of printmaking: both poets, though in different ways, employ a kind of negative image making, cutting away all that is superfluous. This book's juxtaposition of the two poets illuminates their differences--Simonides' fundamental faith in the power of the word, Celan's ultimate despair--as well as their similarities; it provides fertile ground for the virtuosic interplay of Carson's scholarship and her poetic sensibility.

The Tenants Bernard Malamud 2003-09-18 With a new introduction by Aleksandar Hemon In *The Tenants* (1971), Bernard Malamud brought his unerring sense of modern urban life to bear on the conflict between blacks and Jews then inflaming his native Brooklyn. The sole tenant in a rundown tenement, Henry Lesser is struggling to finish a novel, but his solitary pursuit of the sublime grows complicated when Willie Spearmint, a black writer ambivalent toward Jews, moves into the building. Henry and Willie are artistic rivals and unwilling neighbors, and their uneasy peace is disturbed by the presence of Willie's white girlfriend Irene and the landlord Levenspiel's attempts to evict both men and demolish the building. This novel's conflict, current then, is perennial now; it reveals the slippery nature of the human condition, and the human capacity for violence and undoing.

The Eloquence of Ghosts Florian Mussgnug 2010 Giorgio Manganelli (1922-1990), one of Italy's most radical and original writers, went further than most in exploring the creative possibilities of hybrid genres and open forms. Ostentation, theatricality, and a love of drapery and verbal excess are defining features of his body of work, which ranges from prose fiction, literary criticism, and drama to travel writing, treatises, commentaries, and imaginary interviews. This study examines the wealth of Manganelli's imagination - his grotesque animals, speaking corpses, and melancholy spectres - and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models. Following Manganelli's lead, the author addresses issues such as the boundaries of meaningful language, the relationship between literary and visual texts, fantasy and realism, and the power of literature to express the apprehensions and intimations of human consciousness.

Not Made Visible Matias Faldbakken 2007 Tiré du site Internet de JRP/Ringier : "Matias Faldbakken (*1973) is an artist and writer living in Oslo. Son of the celebrated Norwegian author Knut Faldbakken, he has published two novels, "The Cocka Hola Company" and "Macht und Rebel" under the alias Abo Rasul. Drenched with acid humor and continuously hitting below the waist, his books immediately caused a considerable stir in Norway. If, in these publications, he underlines the differences and similarities between the so-called underground and the mainstream, and between the "independent" and the "commercial" in everyday life, these subjects are also central to his art practice. Fascinated with systems of knowledge, power, order, and exchange, he shows an interest in understanding how art and artists can be active participants in these systems. Faldbakken studied at the National Academy of Fine Arts in Bergen as well as at the Städelschule in Frankfurt am Main. He represented Norway in the Nordic Pavillion at the Venice Biennial in 2005, as well as showing his work in the Wrong Gallery at the Whitney Biennial, the Stedelijk Museum Amsterdam, the National Museum Oslo, the Sydney Biennial and the KW Institute for Contemporary Art Berlin, among others."

Late Fame Arthur Schnitzler 2017-08-08 A hilarious takedown of celebrity and false genius, never before available in the US. An NYRB Classics Original Eduard Saxberger is a quiet man who is getting on in years and has spent the better part of them working at a desk in an office. Once upon a time, however, he published a book of poetry, *Wanderings*, and one day when he returns from his usual walk he finds a young man waiting for him. "Are you," he wants to know, "Saxberger the poet?" Is Saxberger Saxberger the poet? Was he ever a poet? A real poet? Saxberger hasn't written a poem for years, but he begins to frequent the coffee shops of Vienna with his young admirer and his no less admiring circle of friends, and as he does he begins to yearn for a different life from the daily round followed by rounds of drinks and billiards with familiar buddies like Grossinger, the deli owner. And the ardent attentions of Fräulein Gasteiner, the tragedienne, are not entirely unwelcome. The Hope of Young Vienna is how the young artists style themselves, and they are arranging an event that will introduce them to the world. They insist that the distinguished author of *Wanderings* take part in it as well. Will he write something new for the occasion? Will he at last receive his due? *Late Fame*, an unpublished novella recently rediscovered in the papers of the great turn-of-the-century Austrian playwright and novelist Arthur Schnitzler, is a bittersweet parable of hope lost and found.

Sticks and Stones Jack Zipes 2013-11-15 Have children ever really had a literature of their own? In *Sticks and Stones*, Jack Zipes explores children's literature, from the grizzly moralism of Slovenly Peter to the hugely successful Harry Potter books, and argues that despite common assumptions about children's books, our investment in children is paradoxically curtailing their freedom and creativity. *Sticks and Stones* is a forthright and engaging book by someone who cares deeply about what and how children read.

Archaeology of the Unconscious Alessandra Aloisi 2019-07-10 In reconstructing the birth and development of the notion of 'unconscious', historians of ideas have heavily relied on the Freudian concept of Unbewusstes, retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany. *Archaeology of the Unconscious* aims to challenge this perspective by adopting an unusual and thought-provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI, when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a 'psychoanalytic novel'. Italy's vibrant culture of the long nineteenth century, characterised by the sedimentation, circulation, intersection, and synergy of different cultural, philosophical, and literary traditions, proves itself to be a privileged object of inquiry for an archaeological study of the unconscious; a study whose object is not the alleged 'origin' of a pre-made theoretical construct, but rather the stratifications by which that specific construct was assembled. In line with Michel Foucault's *Archéologie du savoir* (1969), this volume will analyze the formation and the circulation, across different authors and texts, of a network of ideas and discourses on interconnected themes, including dreams, memory, recollection, desire, imagination, fantasy, madness, creativity, inspiration, magnetism, and somnambulism. Alongside questioning pre-given narratives of the 'history of the unconscious', this book will employ the Italian 'difference' as a powerful perspective from whence to address the undeveloped potentialities of the pre-Freudian unconscious, beyond uniquely psychoanalytical viewpoints.

Collaborative Intelligence Anthony Forsyth 2014-06-19 Drawing on the principles of humanistic management, the present volume intends to describe the steps to be taken to transform a company into a social organization, be it private or public. The book consists of three parts, which are preceded by an introduction to the key concepts of Management 2.0. Part I describes the five steps which are necessary for a strategic and organizational transformation, while Part II shows how the function of HRM must change to adapt management and development processes to the dynamics of collaborative work. Part III presents the most important principles and values on which new behaviors, skills, and styles of leadership 2.0 should be based. Each chapter is supplemented with case studies from a number of managers, which evinces that the processes described are feasible in Italy and have already been implemented by far-sighted employers who were able to foretell change.

Preparing Teachers for a Changing World Linda Darling-Hammond 2017-07-27 Based on rapid advances in what is known about how people learn and how to teach effectively, this important book examines the core concepts and central pedagogies that should be at the heart of any teacher education program. Stemming from the results of a commission sponsored by the National Academy of Education, *Preparing Teachers for a Changing World* recommends the creation of an informed teacher education curriculum with the common elements that represent state-of-the-art standards for the profession. Written for teacher educators in both traditional and alternative programs, university and school system leaders, teachers, staff development professionals, researchers, and educational policymakers, the book addresses the key foundational knowledge for teaching and discusses how to implement that knowledge within the classroom. *Preparing Teachers for a Changing World* recommends that, in addition to strong subject matter knowledge, all new teachers have a basic understanding of how people learn and develop, as well as how children acquire and use language, which is the currency of education. In addition, the book suggests that teaching professionals must be able to apply that knowledge in developing curriculum that attends to students' needs, the demands of the content, and the social purposes of education: in teaching specific subject matter to diverse students, in managing the classroom, assessing student performance, and using technology in the classroom.

Emet Nicola Viceconti 2014-09-22 Helene Sanz, an old diva of the theater, returned to live in Buenos Aires after learning a disturbing truth about her husband, Diego Tomasi, the victim of a murder mystery in 1964. The shadows of the private life of her husband are interwoven with a specific historical moment in Argentina: one during which many war criminals of Nazi Germany landed in the country. There was a need to make public the truth about the whole history of assaulting women. To do this, Helene relies on Alicia Hernandez, a young freelance expert in theater and a devoted admirer, who willingly accepts the opportunity to interview her. The meeting between the two lasted for a whole night, during which the words of the old diva interwoven with those of the journalist, brought light to the pain of life. Albeit for different reasons, it leads to a common root. Will Helene, through the help of Alicia, convey the real meaning of this truth? Nicola Viceconti lives and works in Rome and has a degree in Sociology and Communication Sciences. He is interested in history and social phenomena in Latin America, particularly Argentina. He has published with Gingko Editions Cumparsita (2010) twice. One of his books won a contest in 2012.

Very Bad Poetry Kathryn Petras 1997-03-25 Writing very bad poetry requires talent. It helps to have a wooden ear for words, a penchant for sinking into a mire of sentimentality, and an enviable confidence that allows one to write despite absolutely appalling incompetence. The 131 poems collected in this first-of-its-kind anthology are so glaringly awful that they embody a kind of genius. From Fred Emerson Brooks' "The Stuttering Lover" to Matthew Green's "The Spleen" to Georgia Bailey Parrington's misguided "An Elegy to a Dissected Puppy", they mangle meter, run rampant over rhyme, and bludgeon us into insensibility with their grandiosity, anticlimax, and malapropism. Guaranteed to move even the most stoic reader to tears (of laughter), Very Bad Poetry is sure to become a favorite of the poetically inclined (and disinclined).
