Essential Oils to Boost the Brain and Heal the Body Jodi Cohen 2021-03-16 “A powerful new cutting-edge and evidence-based approach to help you safely improve digestion, energy, and focus and reverse chronic inflammation, chronic stress, and mood disorders.”—Terry Wahls, MD, author of The Wahls Protocol “A book you will learn from and refer back to for years to come.”—Alan Christianson, New York Times bestselling author of The Thyroid Reset Diet Just as your cell phone or laptop slows down and drains the battery when too many tabs are left open, your brain fatigues when poorly functioning systems or ailments drain its energy. Complaints of brain fog, fatigue, and ADD/ADHD are on the rise and growing every year. All of these factors can block the brain's ability to detoxify and heal. If toxins are not eliminated, they recirculate in the brain, leading to inflammation, which further compromises your brain. What's more, formal diagnoses of brain-related health challenges

like Alzheimer's, Parkinson's, and ALS are increasing exponentially. Here's the good news: Plant-based essential oils are a powerful self-care tool for transforming your life and healing on many levels, even when prescription drugs have failed. In Jodi Cohen's five-step protocol, the body's natural systems are jump-started with essential oil recipe blends that can:

- Alleviate stress, anxiety, and depression
- Improve sleep
- Calm pain and inflammation
- Increase energy, sharpen focus, and improve memory
- Improve digestion and promote weight loss
- Strengthen your immune system

Armed with Cohen's five steps, you'll be able to start your own essential oils regimen immediately and be on your way to a healthier body and brain!

*Coconuts and Kettlebells* Noelle Tarr 2018-08-07 Created by the expert hosts of the popular Well-Fed Women Podcast, a step-by-step food and fitness plan for women, that teaches them how to improve their health by changing the quality—not the quantity—of the food they eat. To eat your way to better health, you don't need to limit your calorie intake, or cut out carbs or fat. You don't need to count "points." Better health doesn't come from limits. It comes from focusing on the quality of food that you eat—not the quantity. Instead of limiting your food intake you should be enriching it, argue Noelle Tarr and Stefani Ruper. The popular hosts of the Well-Fed Women Podcast want you to focus on the good things you eat. They want to make sure you get enough food so that your body has the fuel and nourishment it needs to support a healthy, long, and energetic life. Noelle and Stefani know about eating for health firsthand. They, too, struggled with confusing and frustrating medical conditions, including infertility, digestive issues, acne, polycystic ovarian syndrome, hypothyroidism, and anemia. They discovered that the secret to improving wellness was actually more food: they ditched the diet books, calorie counters, and scales, and started eating their way to health. In *Coconuts and Kettlebells*, you'll eat at least 2,000 calories a day thanks to a delicious selection of dishes that are all gluten-free, grain-free, and paleo. Within those 2,000 calories, setting a minimum intakes of protein, fat, and carbohydrates instead of the usual maximums will ensure that your diet is full of nutrients, while also providing flexibility to enjoy what you're eating. Noelle and Stefani identify the Big Four foods—grains, dairy, vegetable oils, and refined sugar—that cause the most health problems among women. While many diets require you to eliminate these foods entirely,

Coconuts and Kettlebells provides an easy-to-follow step-by-step program to test these foods and determine which you need to cut back on—and which you don't—to feel better. To help you discover how your body responds to the Big Four, you'll choose from two simple 4-week meal plans: one for the Butter Lover (people who tend to feel more satisfied eating higher ratios of fats) and one for the Bread Lover (people who tend to feel more satisfied eating higher ratios of carbs). Each meal plan comes with a weekly shopping list, a guide to kitchen tools and equipment, and instructions on how to batch cook, meal prep, and stock the pantry. In addition, you'll have access to over 75 gluten-free and paleo-friendly flavor-packed recipes (free of the Big Four foods) for every meal of the day, including: Coconut Chai Latte Kale and Bacon Breakfast Skillet Apple Pie Smoothie Thai Coconut Curry Shrimp Moroccan Lamb Meatballs Shrimp and Cabbage Stir Fry Parsnip and Carrot Fries Mango Jalapeno Salsa Chocolate Cherry Energy Bites Lemon Raspberry Mini Cheesecakes To go along with the meal plans, Noelle and Stefani also provide three 4-week fitness plans tailored to three experience levels: beginner, intermediate, and advanced. All of the workouts can be done anywhere—at your home or on the road—and take no more than thirty minutes. A comprehensive whole body program to get and keep you healthy inside and out, Coconuts and Kettlebells provides the knowledge and tools you need to heal in a way that is effortless, rewarding, confidence-boosting, and everlasting. Coconuts and Kettlebells is illustrated with color photos throughout.

Current medical wisdom advises that anyone suffering from diabetes or prediabetes should eat a low-carbohydrate, high-fat diet. But in this revolutionary book, Cyrus Khambatta, PhD, and Robby Barbaro, MPH, rely on a century of research to show that advice is misguided. While it may improve short-term blood glucose control, such a diet also increases the long-term risk for chronic diseases like cancer, high blood pressure, high cholesterol, chronic kidney disease, and fatty liver disease.
