Leonardo Antonio Forcellino 2018-04-27 A visionary scientist, a supreme painter, a man of eccentricity and ambition: Leonardo da Vinci had many lives. Born from a fleeting affair between a country girl and a young notary, Leonardo was never legitimized by his father and received no formal education. While this freedom from the routine of rigid and codified learning may have served to stimulate his natural creativity, it also caused many years of suffering and an insatiable need to prove his own worth. It was a striving for glory and an obsessive thirst for knowledge that prompted Leonardo to seek the protection and favour of the most powerful figures of his day, from Lorenzo de' Medici to Ludovico Sforza, from the French governors of Milan to the pope in Rome, where he could vie for renown with Michelangelo and Raphael. In this revelatory account, Antonio Forcellino draws on his expertise - both as historian and as restorer of some of the world's greatest works of art - to give us a more detailed view of Leonardo than ever before. Through careful analyses of his paintings and compositional technique, down to the very materials used, Forcellino offers fresh insights into Leonardo's artistic and intellectual development. He spans the great breadth of Leonardo's genius,

discussing his contributions to mechanics, optics, anatomy, geology and metallurgy, as well as providing acute psychological observations about the political dynamics and social contexts in which Leonardo worked. Forcellino sheds new light on a life all too often overshadowed and obscured by myth, providing us with a fresh perspective on the personality and motivations of one of the greatest geniuses of Western culture.

At Twilight They Return Zyranna Zatelē 2016-01-01 This multigenerational saga is the story of Christoforos, who first weds Petroula, and then Evtha, followed, after her death, by Persa; of his sexually promiscuous son Hesychios and the many bastard children left on the doorstep following the untimely demise of so many would-be daughters-in-law; and of the sisters, brothers, children, and grandchildren who inhabit a household and a history expanding to near-bursting. Rich in symbolism and magical realism, this complex and wondrous family story unfolds nonsequentially in ten interrelated tales. It is a touchstone of contemporary Greek literature, awarded the Greek State Prize for Best Novel in 1994, and is an essential introduction to this rightfully celebrated author.

Auntie Mame Patrick Dennis 2002-02-05 With a wit as sharp as a vodka stinger and a heart as free as her spirit, Auntie Mame burst onto the literary scene in 1955--and today remains one of the most unforgettable characters in contemporary fiction. Wildly successful when it was first published in 1955, Patrick Dennis' Auntie Mame sold over two million copies and stayed put on the New York Times bestseller list for 112 weeks. It was made into a play, a Broadway and a Hollywood musical, and a fabulous movie starring Rosalind Russell. Since then, Mame has taken her rightful place in the pantheon of Great and Important People as the world's most beloved, madcap, devastatingly sophisticated, and glamorous aunt. She is impossible to resist, and this hilarious story of an

orphaned ten-year-old boy sent to live with his aunt is as delicious a read in the twenty-first century as it was in the 1950s. Follow the rollicking adventures of this unflappable flapper as seen through the wide eyes of her young, impressionable nephew and discover anew or for the first time why Mame has made the world a more wonderful place. "Outrageous, hilarious, ribald, sophisticated, slapsatiric." The Denver Post

The Return of the Wolf to Yellowstone Thomas McNamee 1998-05-15 Is easy to see why this saga has stirred the imagination of a nation, for it is, indeed, the environmental story of the decade.

The Man Who Lives with Wolves Shaun Ellis 2009-10-20 What would compel a man to place himself in constant danger in order to become a member of a wolf pack? To eat with them, putting his head into a carcass alongside the wolves' gnashing teeth? To play, hunt, and spar with them, suffering bruises and bites? To learn their language so his howl is indistinguishable from theirs? To give up a normal life of relationships and family so that he can devote himself completely to the protection of these wild animals? In *The Man Who Lives with Wolves*, Shaun Ellis reveals how his life irrevocably changed the first time he set eyes on a wolf. In exhilarating prose, he takes us from his upbringing in the wilds of Norfolk, England, to his survival training with British Army Special Forces to the Nez Percé Indian lands in Idaho, where he first ran with a wolf pack for nearly two years. Offering an extraordinary look into the lives of these threatened, misunderstood creatures, Ellis shares how he ate raw kill—and little else; washed rarely, and only in plain water; learned to bury his face into the carcasses of prey—and, when necessary, to defend his share of the kill; communicated with the pack by his howls and body language, which over time became seemingly identical to theirs; and observed from this unique vantage point how wolves give birth to and raise their young, and enforce order

among the pack. After years of living in the wild, Shaun Ellis was barely able to recognize the feral face that stared back at him from the mirror. And in *The Man Who Lives with Wolves*, we discover the life of a rare and fascinating man who abandoned civilization but never lost touch with his humanity.

Wolves at Our Door Jim Dutcher 2003-02-11 Emmy Award-winning filmmakers Jim and Jamie Dutcher produced the Discovery Channel's most successful wildlife documentary based on this book. The authors spent six years in the Idaho wilderness living with a pack of wolves and documenting their activities.

Heritage, Memory and the Politics of Identity Yvonne Whelan 2016-04-22 The study of the cultural landscape has gained momentum in recent years, revealing new insights to geographers, archaeologists, sociologists and architects. The cultural landscape is often viewed as an emblematic site and thus a key player in the heritage process. This book explores the overlapping and often complex relationships between identity, memory, heritage and the cultural landscape. It provides an overview of new approaches in the study of these relationships, combined with evidence from Ireland, England, Scotland and the United States. These case studies demonstrate the significance of the past in the contemporary construction of identity narratives and draw attention to the powerful role of monuments and parades as sites of cultural heritage. The focus then shifts to the way in which heritage has become politicized for various ends, demonstrating the changing perception of

particular heritage sites and buildings, and the role that this has played in constructing and reconstructing particular identities.

Art, Perception, and Reality E. H. Gombrich 1973-09 Explores questions relating to the nature of representation in art. It asks how we recognize likeness in caricatures or portraits, for instance, and presents the conflicting arguments and opinions of an art historian, a psychologist and a philosopher.

Birds and Mammals of Crete George Sfikas 1989-01 The author deals with the fauna of Crete and in particular the mammals and birds, two classes of animals which have been sufficiently studied and for which the required data exists. Other classes include the reptiles, insects, molluscs, amphibians and other animals living in the seas around Crete.

History of the Italian Agricultural Landscape Emilio Sereni 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. *History of the Italian Agricultural Landscape* is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and

technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. *History of the Italian Agricultural Landscape* first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

Bodies of Nature Phil Macnaghten 2001-08-15 This book examines the embodied nature of people's experience in, and of, the modern world. It is therefore part of the deep-seated 'turn towards the body'. However, it is partly critical of this development in as much as it affirms that the sociology of the body has downplayed the extent to which the body is located in, and involved with, nature, the countryside, the outdoors, landscape and wilderness. The book argues that bodies in nature are subject to novel, complex and contradictory opportunities of freedom and escape, surveillance and monitoring. The book guides readers through the various ways in which these bodily opportunities and constraints are temporally and spatially organized and managed.

The Loop Nicholas Evans 1999-09-07 From the author of *The Horse Whisperer* comes the phenomenal #1 New York Times bestseller, an extraordinary new novel of love, family, and man's struggle with the wild. A pack of wolves makes a sudden savage return to the Rocky Mountain ranching town of Hope, Montana, where a century earlier they were slaughtered by the thousands. Biologist Helen Ross has come to Hope from the East, fleeing a life in shambles, determined to save the wolves from those who seek to destroy them. But an ancient hatred awaits her in Hope, a hatred that will tear a family and ultimately the community apart. And soon Helen is at the center of the storm, by loving the wrong man, by defying the wrong man . . . by daring to lead a town out of the violent darkness of its past. . . . Colors of the Soul Katherine Parker 2021 *Colors of the Soul* is an information book to help explain the behavior of souls through color. My goal with this book is to help people understand themselves in hopes that I can make their lives easier. *Colors of the Soul* attempts to explain the nebulous behavior of souls by attributing the major attributes of souls to tangible colors. These colors come together to form a picture that will display the color of your soul. The book, if nothing else, can also serve as an aid to writing believable and consistent characters.

30 Great Myths about Shakespeare Laurie Maguire 2013-01-22 Think you know Shakespeare? Think again . . . Was a real skull used in the first performance of *Hamlet*? Were Shakespeare's plays Elizabethan blockbusters? How much do we really know about the playwright's life? And what of his notorious relationship with his wife? Exploring and exploding 30 popular myths about the great playwright, this illuminating new book evaluates all the evidence to show how historical material—or its absence—can be interpreted and misinterpreted, and what this reveals about our own personal investment in the stories we tell.

Disaster Research and the Second Environmental Crisis James Kendra 2019-04-04 The 50th anniversary of the Disaster Research Center of the University of Delaware provoked a discussion of the field's background, its accomplishments, and its future directions. Participants representing many disciplines brought new methods to bear on perennial problems relevant to effective disaster management and policy formation. However, new concerns were raised, stemming from the fact that we live today in a globally unfolding environmental crisis every bit as pressing and worrisome as that of the 1960s when the Disaster Research center was founded. This volume brings together ideas of participants from that workshop as well as other contributors. Topics include: the history and evolution of disaster research, innovations in disaster management, disaster policy, and ethical considerations of disaster research. Readers interested in science and technology, public policy, community action, and the evolution of the social sciences will find much of interest in this collection.

The Wolf Border Sarah Hall 2015-06-09 From the award-winning author of *Burntcoat* and *The*

Electric Michelangelo, one of the most decorated young British writers working today, comes a literary masterpiece: a breathtaking work that beautifully and provocatively surveys the frontiers of the human spirit and our animal drives. For almost a decade, zoologist Rachel Caine has lived a solitary existence far from her estranged family in England, monitoring wolves in a remote section of Idaho as part of a wildlife recovery program. But a surprising phone call takes her back to the peat and wet light of the Lake District where she grew up. The eccentric Earl of Annerdale has a controversial scheme to reintroduce the Grey Wolf to the English countryside, and he wants Rachel to spearhead the project. Though she's skeptical, the earl's lands are close to the village where she grew up, and where her aging mother now lives. While the earl's plan harks back to an ancient idyll of untamed British wilderness, Rachel must contend with modern-day realities—health and safety issues, public anger and fear, cynical political interests. But the return of the Grey unexpectedly sparks her own regeneration. Exploring the fundamental nature of wilderness and wildness, *The Wolf Border* illuminates both our animal nature and humanity: sex, love, conflict, and the desire to find answers to the question of our existence—the emotions, desires, and needs that rule our lives.

La via del lupo. Nella natura selvaggia dall'Appennino alle Alpi Marco A. Ferrari 2014

Upland Communities Pier Paolo Viazzo 1989-02-16 This book follows the social, economic and demographic transformations of the Alpine area from the late Middle Ages. Its aim is to reassess the image of the upland community which emerges from the work of historians, geographers and social anthropologists. The book therefore deals at length with such problems as the causes and consequences of emigration and patterns of marriage and inheritance in favouring or hampering the adjustments of local populations to changing economic or ecological circumstances, and tackles the vexed question of the relative importance of cultural and environmental factors in shaping family

forms and community structures. Although its foundation lies in a long period of anthropological fieldwork conducted in an Alpine community, Upland Communities relies on the methods and conceptual tools of historical demography. Combined with a long-term historical perspective, its broad comparative approach unveils an unexpected diversity in regional and spatial demographic patterns and questions a number of deep-rooted but ultimately misleading notions concerning mountain society and its alleged backwardness in the past.

La via del lupo Marco Albino Ferrari 2014-04-30T00:00:00+02:00 Il lupo è tornato, riconquistando gli antichi territori. Se quarant'anni fa in Italia la specie sembrava prossima all'estinzione, oggi il vento ha cambiato il suo giro e i tempi difficili sono finiti. Quello scritto da Marco Albino Ferrari non è solo un sorprendente libro di etologia, ma anche un inedito diario di viaggio in luoghi marginali, misteriosi, affascinanti: il grande corridoio ecologico della nostra Penisola dove la natura riassorbe i vecchi sentieri, i terrazzamenti, gli antichi paesi abbandonati. Claudio Visentin, "Il Sole 24 Ore" Ferrari parte dai Monti Sibillini e risale mezza Italia, raccontando il cammino del lupo che dall'Umbria e dalle Marche arriva fino in Valle d'Aosta percorrendo la dorsale appenninica e le Alpi occidentali. Attraversando le Foreste Casentinesi, le zone dei Cento Laghi, le Alpi Marittime e la Valsavarenche, Ferrari incontra uomini e donne che per mestiere e con passione hanno seguito la storia del lupo in Italia per molti decenni. Of Wolves and Men Barry Lopez 2016-05-31 National Book Award Finalist: A "brilliant" study of the science and mythology of the wolf by the New York Times-bestselling author of Arctic Dreams

(The Washington Post). When John Fowles reviewed *Of Wolves and Men*, he called it “A remarkable book, both biologically absorbing and humanly rich, and one that should be read by every concerned American.” In this National Book Award–shortlisted work, literary master Barry Lopez guides us through the world of the wolf and our often-mistaken perceptions of another species’ place on our shared planet. Throughout the centuries, the wolf has been a figure of fascination and mystery, and a major motif in literature and myth. Inspiring fear and respect, the creature has long exerted a powerful influence on the human imagination. *Of Wolves and Men* takes the reader into the world of the *Canis lupus* and its relationship to humankind through the ages. Lopez draws on science, history, mythology, and his own field research to present a compelling portrait of wolves both real and imagined, dispelling our fear of them while celebrating their place in our history, legends, and hearts. This ebook features an illustrated biography of Barry Lopez including rare images and never-before-seen documents from the author’s personal collection.

The Wisdom of Wolves Jim Dutcher 2018-03-06 From the world-famous couple who lived alongside a three-generation wolf pack, this book of inspiration, drawn from the wild, will fascinate animal and nature lovers alike. For six years Jim and Jamie Dutcher lived intimately with a pack of wolves, gaining their trust as no one has before. In this book the Dutchers reflect on the virtues they observed in wolf society and behavior. Each chapter exemplifies a principle, such as kindness, teamwork, playfulness, respect, curiosity, and compassion. Their heartfelt stories combine into a thought-provoking meditation on the values shared between the human and the animal world. Occasional photographs bring the wolves and their behaviors into absorbing focus.

Upon that Mountain Eric Shipton 2015-08-25 Upon that Mountain is the first autobiography of the mountaineer and explorer Eric Shipton. In it, he describes all his pre-war climbing, including his Everest bids of the 1930s, and his second Karakoram survey in 1939, when he returned to Snow Lake to complete the mapping of the ranges flanking the Hispar and Choktoi glacier systems around the Ogre. Crossing great swathes of the Himalaya, the book, like so many of Shipton's works, is both entertaining and an important addition to the mountain literature genre. It captures an important period in mountaineering history - that just before the Second World War - and ends on an elegiac note as Shipton describes his last evening at the starkly-beautiful snow lake, before he returns to a 'civilisation' about to embark on a cataclysmic war.

A History of Literary Criticism in the Renaissance Joel Elias Spingarn 1899 An essay examining the history of literary criticism in the Renaissance, with a focus on the sixteenth century. Divided into three sections devoted to: Italian criticism from Dante to Tasso, French criticism from Du Bellay to Boileau, and English criticism from Ascham to Milton.

In: the Graphic Novel WILL. MCPHAIL 2021-05-06 Nick is an illustrator isolated by his tendency to observe rather than participate in life. But when bravely experiments with stepping outside the comforts of 'small talk', he discovers that when he asks genuine questions of those around him, he unlocks the potential for mundane interactions to become meaningful, and sometimes even unforgettable. And when he does, when a person opens their world to him, he explores it as if it were a real place: a physical manifestation of each person's true self and the meaningful conversation that Nick is having with them. Finally taking part in life, Nick is no longer watching from the outside. He's in. And that new world literally bursts into colour.
