The End of Time Anthony Aveni 2009-10-01 December 21, 2012. The Internet, bookshelves, and movie theaters are full of prophecies, theories, and predictions that this date marks the end of the world, or at least the end of the world as we know it. Whether the end will result from the magnetic realignment of the north and south poles, bringing floods, earthquakes, death, and destruction; or from the return of alien caretakers to enlighten or enslave us; or from a global awakening, a sudden evolution of Homo sapiens into non-corporeal beings - theories of great, impending changes abound. In *The End of Time*, award-winning astronomer and Maya researcher Anthony Aveni explores these theories, explains their origins, and measures them objectively against evidence unearthed by Maya archaeologists,

iconographers, and epigraphers. He probes the latest information astronomers and earth scientists have gathered on the likelihood of Armageddon and the oft-proposed link between the Maya Long Count cycle and the precession of the equinoxes. He then expands on these prophecies to include the broader context of how other cultures, ancient and modern, thought about the "end of things" and speculates on why cataclysmic events in human history have such a strong appeal within American pop culture.

The Mayan Prophecies Adrian Gilbert 1996 The present world will end on 22nd December 2012, so prophesized the Maya 5000 years ago in their inscriptions deep within the Central American rainforests. Who were the Maya? Where did they come from and why did they suddenly disappear? Will we suffer floods, volcanic eruptions and chaos in 2012?

Mayan Calendar Prophecies: Predictions for 2012-2052

Gary C. Daniels 2012-11-01 Take a look at the science behind the Mayan calendar, prophecies and mythology. The Maya believed multiple cycles governed civilization. They created various calendars to track these cycles. Their short count calendar tracked a 256-year cycle believed to control epidemics, famines, warfare and more. Scientists have found a 250-year solar cycle that also appears to affect epidemics, famines, warfare and more. Their long count calendar tracked a 5000-year cycle related to natural disasters and cosmic catastrophes. Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold. Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past. By comparing these dates with ice core records, sedimentary records, and climate records, this book reveals the truth about civilization's darkest days. And what may lie ahead in the future.

Atlantis and the Coming Ice Age Frank Joseph 2015-03-16

Reveals the parallels between the rise and fall of Atlantis, cultures in ancient Mesoamerica, and our modern civilization • Links the demise of Atlantis with the birth of the Olmec civilization in Mexico, the beginning of the first Egyptian dynasty, and the start of the Mayan Calendar • Reveals the Atlantean and Mayan prophecy of an eternal cycle of global creation, destruction, and renewal and how we are headed into a destructive phase • Shows how ancient prophecies correlate precisely with the latest climatology studies, the rising incidence of solar flares, and papers from Pentagon and NASA analysts With the passing of the Mayan Calendar's end date we can now focus on the true significance of what the Maya and their predecessors were trying to convey to future civilizations. Frank Joseph reveals how the Mayan prophecy, symbolized by their calendar, was created through the combined genius of Atlantis and Lemuria and predicts an eternal cycle of global creation, destruction, and renewal. He shows how this cycle correlates precisely with scientific studies on glacial ice cores and predictions from the Hopi, the Incas, and the Scandinavian Norse as well as the visions of Edgar Cayce. He links the demise of Atlantis with the birth of the Olmec civilization in Mexico (the progenitors of the Maya), the beginning of the first Egyptian dynasty, and the start of the Mayan Calendar. Drawing on the latest climatology studies and papers from Pentagon and NASA analysts, he reveals that we are on the brink of a destructive phase in the global cycle of change as predicted by the Atlanteans and the Maya. The world's current political, economic, and cultural deterioration is paralleled by unprecedented storms and record temperatures, massive solar flares, tectonic disturbances,

and fissuring sea floors that could release dangerous reservoirs of methane gas into the environment--all of which signals we are headed into another ice age. Despite the Atlanteans' greater understanding of the cyclical nature of catastrophes and of the human role in them, Joseph reveals the mistakes they made that played a crucial role in their civilization's destruction. By recognizing the self-destructive patterns of Atlantis in our own civilization, we can learn from their mistakes to reestablish civilization's cosmic balance before time runs out.

The Mayan Prophecies 2012 Gerald Samuel Benedict 2010 The winter solstice of 2012 marks the end of the 5,000-year Fourth Age of the Mayan calendar, a time the Maya foresaw as one of cataclysmic change. This captivating study examines the beliefs, the science, the rituals, and the culture of the Maya and then investigates 21 of their prophecies corresponding to this event--prophecies relating to topics such as the New Enlightenment, galactic synchronization, and the return of a supreme being. The result is a real wake-up call to modern society about the need for fundamental changes. "El solsticio de invierno del 2012 senala el final de la Cuarta Era de 5.000 anos del calendario maya, un tiempo que los maya previeron como uno de cambio cataclismico. Este estudio cautivador examina las creencias, la ciencia, los rituales y la cultura de los maya y entonces hurga en 21 de sus profecias correspondientes al evento--profecias sobre la nueva ilustracion, la sincronizacion galactica y el regreso de un ser supremo. El resultado es una llamada de atencion a la sociedad moderna sobre la necesidad para cambios fundamentales."

The 8 Calendars of the Maya Hunbatz Men 2009-12-29 Mayan daykeeper Hunbatz Men reveals the multi-calendar system of the Maya that guided the lives of his ancestors and how it can guide us today • The first book to reveal the secrets of the Mayan Pleiades calendar: the Tzek'eb • Explains how the Maya used their astronomical knowledge to guide their lives on Earth The Mayan Calendar has taken on special prominence with the imminent arrival of 2012, a date that many claim is the end of that calendar. However, as Mayan elder and daykeeper Hunbatz Men shows, the cosmological understanding of his ancestors was so sophisticated that they had not one, but many calendars, each based on the cycles of different systems in the cosmos. In this book he reveals for the first time the Tzek'eb, or Pleiades, Calendar of 26,000 years, which charts the revolution of our solar system around Alcyone, the central star of the Pleiades system. He also discusses the K'uuk'ulcan Calendar of the 4 seasons of the solar year and the wheel of the K'altunes Calendar, which is composed of 13 cycles of 20 years each that form a calendar of 260 years. In traditional Mayan culture the computation of time was not determined by simple economic or social motives. The calendars served the higher purpose of synchronizing the lives of human beings and their societies to the great cosmic pulsation, to the rhythm of the annual seasons, and to the other cycles that dictate changes upon Earth. Mayan understanding of the cosmic cycles was so exact that this knowledge could be used to influence all stages of life--from planning when to conceive (parents could choose not only the sex of their child but its vocation and future destiny) to plotting out the course of the entire society. Pyramids played a crucial role in applying this wisdom because, as Hunbatz Men shows, they were able to produce and transform energy in accordance with the cosmic cycles charted by the calendars. This book reveals for the first time the wisdom of the multi-calendar Mayan system and how it

The Maya End Times Patricia Mercier 2012-01-01 According to the Maya Prophecies, the 5,000-year "Fourth Age" will come to its end in 2012. In a remarkable adventure which takes her all over Central South America and involves strange ceremonies at sacred pyramids, scaling an active volcano and chases with drug runners, Patricia Mercier attempts to discover whether 2012 will be the end of the world as we know it or the dawning of a new golden age.

2012 Doomsday the Mayan Prophecy Martin McGregor 2010-10-24 The Mayan Prophecy claims that in the year 2012, we will experience an event which will change our world forever. This book examines the very real threats that we face as we draw ever closer to the actual date of the prediction. The date is December 21st 2012. Will we be ready? Are we already doomed? Many other civilizations believe 2012 to be a significant year, as did Nostradamus. This book delves deep into what could cause man's global extinction.

Galactic Alignment John Major Jenkins 2002-07-01 Explores the central role played by the galaxy in both ancient and modern times in the transformation of the human spirit. • Extends Jenkins' groundbreaking research in *Maya Cosmogenesis 2012*. • Reveals how the coming Galactic Alignment of era-2012 promises a renewal of human consciousness. • Uncovers the galactic vision of Mayan, Egyptian, Greek, and Vedic cosmologies. The Galactic Alignment is a rare astronomical event that brings the solstice sun into alignment with the center of the Milky Way galaxy every 12,960 years. Building on the discoveries of his book *Maya Cosmogenesis 2012*, Jenkins demonstrates that the end-date of 2012 does not signal the end of time but rather the beginning of a new stage in the development of human consciousness. He recovers a striking common thread that connects the ancient

cosmological insights of the Maya not only to Egyptian thought and Vedic philosophy but also to the diversity of humankind's metaphysical traditions ranging from Celtic sacred topography and Medieval alchemy to the Kabbalah and Islamic astrology. His work presents us with a groundbreaking synthesis of lost wisdom once common to ancient cosmologies that will help us understand the significance of this transformative cosmic milestone.

2012 and the Mayan Prophecy of Doom D. W. Kreger 2012-05-24

The Mayan calendar will end on December 21, 2012. There are ancient prophecies suggesting that this will signal the coming of a major cataclysm, resulting in the end of the world, as we know it. A number of psychics and even some scientists have agreed with these predictions. We know that previous global cataclysms and floods were documented in ancient mythology from around the world, and many predicted it to happen again this year, in 2012. This book offers an objective, open-minded skeptic's scientific analysis of the odds of a global cataclysm occurring this year, or in our lifetime. It contains research and commentary by Albert Einstein, Plato, Edgar Cayce, and the ancient Mayan books, the Popol Vuh and Chilam Balam, as well as the Book of the Hopi and many others. This book answers the questions that will be on everyone's mind in the coming years: "Is this 2012 thing for real? How serious is the threat? And is 2012 the year it will happen? And if not now, then when?"

Maya Cosmogogenesis 2012 John Major Jenkins 1998-08-01 While researching the 2012 end-date of the Maya Calendar, John Major Jenkins decoded the Maya's galactic cosmology. The Maya discovered that the periodic alignment of the Sun with the center of the Milky Way galaxy is the formative influence on human evolution. These alignments also define a series of World Ages. The fourth age ends on December 21, 2012, when an epoch chapter in human history will come to an end. *Maya Cosmogogenesis 2012* reveals the Maya's insight into the cyclic nature of time, and prepares us for our own cosmogogenesis--the birth of a new world.

Apocalypse 12-21-12 James Burton Anderson 2012-07-07

Established author James Burton Anderson, a graduate engineer, astronomer, and long-time MENSA member, has studied the Mayan long-count calendar and its apocalyptic implications for over fifteen years. His latest book, *Apocalypse 12-21-12 The Mayan Prophecies*, explores the basis of the worldwide concern over the coming “End of Times” date, which is just months away. In May, Reuters reported a study showing that worldwide 10% of individuals believe the Mayan calendar could signify the end of the world in 2012. In America a startling 22% believe they will see the world end in their lifetime. Many very credible scientists and others are deeply concerned. Anderson shares his findings on why this special date might actually have more validity than governments will ever reveal. He is convinced that we are, in fact, in very real and present danger. He explores in detail what we are not being told and why, and comes to some startling conclusions. Are we actually in imminent danger? The many different “End of the World” scenarios are explored in great detail, along with the steps you can take to protect yourself and your loved ones.

The Mayan Code Barbara Hand Clow 2007-03-29 Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of *The Pleiadian Agenda* *The Mayan Code* is a deep exploration of how, as we approach the end of the Mayan Calendar, time and consciousness are accelerating, giving us a new understanding of the universe. Using Carl Johan Calleman’s research, as well as the ideas of other Mayan Calendar scholars, Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth--the World Mind. These great patterns

culminate in 2011, and then during 2012 major astrological influences will inspire us to attain oneness and enlightenment. The Mayan Code shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy. These stages of evolution are converging during the final stage of the Calendar, the period between 1999 and 2011. War and territoriality, resource management and separation from nature, are all part of daily events we must process during these few short years: evidence of the tightening spiral of time that we experience as time speeding up. Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human evolution--now referred to as the awakening of the World Mind.

The Mayan Calendar and the Transformation of Consciousness Carl Johan Calleman 2004-03-25 Reveals the Mayan calendar to be a spiritual device that describes the evolution of human consciousness from ancient times into the future • Shows the connection between cosmic evolution and actual human history • Provides a new science of time that explains why time not only seems to be speeding up in the

modern world but is actually getting faster • Explains how the end of the Mayan calendar is not the end of the world, but a path toward enlightenment The prophetic Mayan calendar is not keyed to the movement of planetary bodies. Instead, it functions as a metaphysical map of the evolution of consciousness and records how spiritual time flows--providing a new science of time. The calendar is associated with nine creation cycles, which represent nine levels of consciousness or Underworlds on the Mayan cosmic pyramid. Through empirical research Calleman shows how this pyramidal structure of the development of consciousness can explain things as disparate as the common origin of world religions and the modern complaint that time seems to be moving faster. Time, in fact, is speeding up as we transition from the materialist Planetary Underworld of time that governs us today to a new and higher frequency of consciousness--the Galactic Underworld--in preparation for the final Universal level of conscious enlightenment. Calleman reveals how the Mayan calendar is a spiritual device that enables a greater understanding of the nature of conscious evolution throughout human history and the concrete steps we can take to align ourselves with this growth toward enlightenment.

The Mayan Ouroboros Drunvalo Melchizedek 2012-11-01 There have been many interpretations and predictions about the year 2012, known as the Mayan End Time—touted in everything from books to television commercials. But what do the Mayans themselves have to say about these prophecies? In *The Mayan Ouroboros*, the much-anticipated follow-up to his bestselling *Serpent of Light*, spiritual researcher Drunvalo Melchizedek reveals for the first time what Mayan elders have told him about this period. In this book he explains how to prepare for this transition to a new 13,000-year cycle by learning how to move out of our brain and into our hearts. He shares the Mayan insight of the importance of our heart connection to our survival and ability to thrive during these times. Plus *The Mayan Ouroboros* reveals:

Christ & The Maya Calendar Robert Powell 2009-03-01 In *The Book of Chilam Balam of Chumayel*, it is said: Katun 11 Ahau is set upon the mat, set upon the throne, when their ruler is set up.... The heavenly fan, the heavenly wreath and the heavenly bouquet shall descend. The drum and rattle of the lord of 11 Ahau shall resound, when flint knives are set into his mantle.... Ahau 11 is the beginning of the count, because this was the katun when the foreigners arrived. They came from the east when they arrived. Then Christianity also began. The fulfillment of its prophecy is [ascribed] to the east.... This is a record of the things which they did. After it had all passed, they told of it in their [own] words, but its meaning is not plain. Despite the explosion of books, videos and TV shows that claim to penetrate the mystery of "2012"--the numerical shorthand for the completion on December 21, 2012, of the thirteenth B'ak'tun cycle in the Long Count of the Maya calendar--consensus about its meaning seems to remain elusive. The discussion about the significance of 2012 falls generally into two distinct camps: "New Age" authors who see this date as marking the advent of an imminent, universally accelerated psychic/spiritual evolution and professional astronomers and ethnologists who generally discount such metaphysical claims. *Christ and the Maya Calendar* approaches the significance of 2012 by spiritually penetrating phenomena of

today. Drawing on the book of Revelation--which provides an archetype for understanding spiritual history, as well as Rudolf Steiner's Apocalyptic indications--a completely new context for grasping the end date of the Maya calendar emerges. In a November 1919 lecture, Steiner made a stunning remark: "Ahriman skilfully prepares his goal beforehand...[and] will find an important instrument for preparing his incarnation. His incarnation is undoubtedly coming, and this lack of insight will enable him to prepare it triumphantly." The subtitle of this book--"2012 and the Coming of the Antichrist"--refers to this coming incarnation of Ahriman. In fact, Steiner narrowed the timeline for Ahriman's incarnation, saying it would come "before only a part of the third millennium has run its course." Just after Christmas 1919, Steiner revealed more about the impending incarnation of Ahriman, saying almost offhandedly that Ahriman's name might be "John William Smith." With this remark, he clearly pointed to the incarnation occurring in the English-speaking West, while other remarks made it is certain Steiner meant that the incarnation would take place in America. In addition to penetrating the spiritual background of our time in relation to the coming of the Antichrist (the incarnation of Ahriman), the authors explore the significance of the Mexican mysteries and present a wealth of new research with the intention of helping the reader to navigate the Apocalyptic scenario currently shaping up, with the global financial crisis as one important expression. Most important, the authors refer to the Second Coming of Christ as the true event of our time; the incarnation of Satan/Ahriman is its shadow. The authors also show the significance of Divine Sophia as the antidote to negative consequences of Ahriman's incarnation. Finally, as a positive manifestation of the world of spirit in our time, the book discusses the significance of the young anthroposophist, Judith von Halle, who since Easter 2004 has borne the stigmata, the visible signs of the wounds of Christ. A Note on the Title The word Antichrist is used in the title and

throughout this book, and there are at least two ways in which this word may be understood. The more general use of the word is found in the Bible and in Christian tradition, in which the Antichrist is understood to be the human being who bears the incarnated Satan (also called "Ahriman" in Persian tradition and, in Revelation 13 in the Bible, "The Beast"). This is how the word Antichrist is used in this book. However, this general meaning should be distinguished from another, more specialized use of the word, as found in the spiritual science of Anthroposophy, which often uses the word Antichrist to designate the Sun Demon, known as Sorath in the Hebrew tradition, referred to as the "Beast whose number is 666," and as "the two-horned Beast" in Revelation 13. In this connection, Rudolf Steiner refers to "the False Prophet who represents the teachings of The Beast." The authors of this book discuss the significance of Sorath in chapters 7 and 8. Authors' Note Rudolf Steiner's large body of spiritual research has paved the way for further research encompassing thousands of volumes and numerous projects and social endeavors around the world. This book focuses upon Steiner's indications about the return of Christ, on the one hand, and the coming of the Antichrist, on the other hand. Both events, according to Steiner, are taking place, or will take place, in our time. Our endeavor is to provide a context in which the reader can find help to be able to grasp the larger picture as to the nature of the time in which we live. The purpose of the book is to draw attention to Christ's return in the realm of life forces known as the etheric, as well as to the impending physical incarnation of Ahriman as the Antichrist. The book is carefully written in the spirit of the age of the clear, critical consciousness of modern humanity to allow people to draw their own conclusions. Thus, it is not a matter of pointing the finger and pronouncing slogan-like statements. Rather, it is a matter of providing a context for the reader to arrive at a deeper grasp of what is taking place in the world at the present time, which can be attained only by way of

hard study and the honest endeavor to attain a higher level of cognition. The main point is that the coming of the Antichrist is actually the shadow side of the much greater event of Christ's coming in the etheric realm, whereby Divine Sophia is actively working to help humanity to become aware of this greatest event of our time. Central to Rudolf Steiner's impulse is the development of intuitive faculties, which he named Imagination, Inspiration, and Intuition. This means that, when research is presented, people--through the exercise of their intuitive faculties--come to their own cognition of the truth and do not depend simply upon what is said by those presenting the research. The goal is--and must be--to arrive at truth for oneself, not based upon anyone else's statements. Although, of course, the statements of others can be taken as a starting point for arriving at the truth. However, cognition of the truth depends upon the development of intuitive faculties going beyond intellectual speculation. Since the publication of this book, various pronouncements--many of a speculative nature--have been made concerning the content of the book. The authors fully support the expression of freedom of thought and freedom of speech underlying statements about the book but obviously cannot be held responsible for the conclusions drawn by others from the research presented in this book. Their concern is truth--in the spirit of the words: "You shall know the truth, and the truth shall make you free" (John 8:32). In relation to the Antichrist, called the Beast in chapter 13 of the Book of Revelation, his way (Revelation 13) is prepared by the Prophet of the Beast. Nowhere in this book are statements made identifying specific individuals as the Beast (Antichrist) or as the Prophet of the Beast. Yet, in this age of the Internet, all kinds of pro

is the harbinger. Between now and somewhere in 2013-2014, when the Red Star appears, great shifts in human consciousness will continue. With the fulfillment of the Mayan Long Count calendar in 2012 and the appearance of the Red Star, many are predicting that human consciousness will rise to the next level. Although there may be catastrophic events associated with this period, and life as we know it will surely change, if we do the work, this will not be the Apocalypse. In *The Astrology of 2012 and Beyond*, Garrison explores the changing sky, starting with the movement of Pluto into Capricorn, a region it hasn't inhabited since 1733. It's revolutionary times coming for individuals, governments, and the planet. Garrison draws on traditional astrology and her understanding of the Hopi prophecies and their relationship to the Mayan 2012 predictions, as well as the ending of the 13,000 year masculine kundalini cycle, to offer practical advice and information that will help us evolve through the next four years, including what to expect during the nearly inevitable polar shift.

2012 and the End of the World Matthew Restall 2011-01-16
Did the Maya really predict that the world would end in December of 2012? If not, how and why has 2012 millenarianism gained such popular appeal? In this deeply knowledgeable book, two leading historians of the Maya answer these questions in a succinct, readable, and accessible style. Matthew Restall and Amara Solari introduce, explain, and ultimately demystify the 2012 phenomenon. They begin by briefly examining the evidence for the prediction of the world's end in ancient Maya texts and images, analyzing precisely what Maya priests did and did not prophesize. The authors then convincingly show how 2012 millenarianism has roots far in time and place from Maya cultural traditions, but in those of medieval and Early Modern Western Europe. Revelatory any myth-busting, while remaining firmly grounded in historical fact, this fascinating book will be essential reading as the countdown to December 21, 2012, begins.

The Orion Prophecy Patrick Geryl 2001 In the year 2012 the Earth awaits a super catastrophe: its magnetic field will turn over in one go. Phenomenal earthquakes and tidal waves will completely destroy our civilisation. Europe and North America will shift thousands of kilometres northwards into polar climate. Nearly the whole earth's population will perish in the apocalyptic happenings. These dire predictions stem from Mayans and Egyptians -- descendants of the legendary Atlantis. The Atlanteans had highly evolved astronomical knowledge and were able to exactly calculate the previous world-wide flood in 9792 BC. They built tens of thousands of mandjits and escaped to South America and Egypt. In the year 2012 Venus, Orion and several other stars will take the same 'code positions' as in 9792 BC, the year of the previous cataclysm! For thousands of years historical sources have told of a forgotten time capsule of ancient wisdom located in a mythical labyrinth of secret chambers filled with artefacts and documents from the previous flood -- this book gives one possible location.

Beyond the Mayan Prophecy Paul Shavelson 2012-10-30

Featuring contributors such as: John Edward, Char Margolis, Sandy Anastasia, Rick Levine, Glynis McCants, Mark Van Stone, Mary Jo McCabe, Gahl Sasson, Dr. Alicia Tisdale, Maggie Kerr, Kala Ambrose, Mirabai Devi, Linda West, Derek O'Neill, Alan Oken , John Holland and Austyn Wells. For the past forty years there have been a growing number of people who believe that nothing less than a cataclysmic change is coming in the evolution of Mankind. From the dawning of the Age of Aquarius to cosmic forces—read Aliens—coming to engineer our DNA, to the doomsday scenarios triggered by the end of the Mayan calendar, there have been those who are sure that the world as we know it is coming to an end. And soon. But that cataclysmic end has not (de)materialized, or has it? In 2012 new data was discovered in Guatemala that gives us concrete evidence of a new paradigm concerning the Mayans and their calendar. We are now faced

with the idea that perhaps we aren't staring at Armageddon but stand in the middle of a 33-year transformative process. While the Mayans might have seen a change for humanity it isn't an ending per se. And if there is change, why does that change need to imply destruction? Couldn't it be an opportunity for mankind to assess their place in the universe and engage in a positive rebirth in a new era? Beyond The Mayan Prophecy posits that our modern day weakness or confusion can be attributed to a less spiritual way of thinking. Perhaps our left side brain thinking has held us back from discovering and accepting higher planetary secrets for centuries. To move forward with more balanced understanding, Paul Shavelson, a multi-media story teller and former Executive Producer of the hit psychic television show CROSSING OVER, has spent the last decade exploring the world of psychics and mystics. Paul has assembled a "psychic dream team" to decode the past and to predict the future. With famed metaphysical experts such as Char Margolis, Rick Levine, Maggie Kerr, Alan Oken, and Numerologist Glynis McCants, Paul covers everything from alien communication to instant collective thinking (The Collective Unconscious) being cultivated on the internet. The dialogue and interviews will be discussed through sidebars by psychic medium, author, and TV personality, John Edward, who also provides the forward, and afterword of this provocative subject. With positive energy and a willingness to have us think outside the box (and a personal journey by the author that brings an unexpected and moving aspect to the experience), Beyond The Mayan Prophecy is an entertaining, thought provoking work that will let the reader embrace why the second half of this transition could be remarkable and inspiring. Age". With its conclusion, will we see the end of the world as we know it, or the dawning of a new golden age?

Apocalypse 2012 Gary Jennings 2010-03-30 Today's world leaders and those of 1,000 years ago face the world's end. The Mayan "End-Time Codex" predicts the end of the world in 2012. A young Aztec-Mayan slave tells the story of its creation: gifted in math and astronomy, Coyotl advises the god-king, Quetzalcoatl. Gathering artists, scientists, and architects, this ruler builds the great, golden city of Tula but soon faces war, disastrous drought, death-cult priests who rip the hearts out of thousands of people. . . and an epic catastrophe threatening all humanity. Meanwhile, thousand years later, scientists have rediscovered the End-Time Codex and learned that their own time mirrors Tula's golden age. Can they crack the 2012 code and save their world from Tula's deadly fate? The countdown begins.

The Book of Destiny Carlos Barrios 2009-06-30 Discover What the Prophecy of 2012 Means for Your Life According to the Mayan Elders, at the moment of birth every human being is given a destiny. Our life challenge is to develop ourselves and our skills in order to fulfill this destiny, thus fueling our individual contribution to the planet. At the heart of The Book of Destiny is the sacred Mayan calendar, an extraordinary tool that allows the reader to discover this destiny, along with one's special Mayan symbol, origin, as well as the protection spirits that accompany them through life. Poetically narrated, the book describes how the calendar contains the scientific legacy of the Mayan people, preserved and transmitted over the centuries through oral tradition and written texts. Written at the request of the Mayan Elders, by member of the Guatemalan Elders Council and Mayan Priest Carlos Barrios, The Book of Destiny is a tool to help people understand their life purpose and to use this profound knowledge to make the best of their time on earth.

the proleptic Gregorian calendar) and will end on December 21 2012. Will it be Armageddon or just another day? The believers are making survival preparations and turning to religious leaders for guidance and solace. Follow National Geographic through the maze of doomsday prophets, cult leaders, and international and historic end times teachings to understand the science behind the Maya calendar and the phenomenon of Armageddon predictions. Scientists and historians know that end-of-days thinking has occurred throughout time around the world. Norse mythology predicted the world would be submerged in water; ancient Greeks believed that Zeus's defeat by his son would be the grand finale. In A.D. 79, Romans thought Mount Vesuvius's eruption in Pompeii was the start of the apocalypse. Jewish, Christian, and Islamic texts all include some writing about end times. The year 1666—feared by many Christians—proved itself to be the year of the Beast when the Great Fire of London visited God's wrath (as widely believed) on the British. Hailey's Comet drove Europeans and Americans into apocalyptic fits in 1910. Individual charismatic figures have led thousands in unfulfilled Armageddon watches. For example, in 1843, spiritual leader William Miller's doomsday prediction failed (The Great Disappointment), but led followers to establish the Seventh Day Adventists. The Jehovah's Witnesses awaited the world's end in 1914. Preacher Jim Jones led hundreds of cult members to commit suicide in Ghana in the 1970s. Pat Robertson was certain Jesus was returning for the Rapture in the 1980s. The leader of the cult Heaven's Gate convinced 39 followers to commit suicide to escape imminent destruction in 1997. And there's no sign of a slow down. In fact, the Internet has spawned a plethora of doomsday cult leaders, from Y2K hysterics to the most recent religious figure Harold Camping, whose rapture predictions of 2011 left his followers earth-bound. National Geographic debunks the myth and illuminates the fascinating realities of the Maya calendar, the 2012 phenomenon, and Armageddon prophecies through the

ages.

Beyond the End of the World - 2012 and apocalypse Will Black 2010-10 This book cuts through rampant misinformation circulating about 2012 to present a coherent understanding of the Mayan calendar and the significance of the date. As an anthropologist and journalist, Will Black has conducted research into 2012 millenarianism for several years. He consequently offers a much broader and clearer picture than other books on the subject. In their haste to jump onto the 2012 bandwagon, most authors seem to have forgotten that the Maya are a real people, often living in as violently precarious circumstances as their ancestors. Will Black demolishes fantasies about crumbling calendar stones before examining the brutal cocaine wars blighting Central America. The hedonistic world of many westerners who have become interested in 2012 is contrasted sharply with the lives of ancient and modern Maya. The extraordinary world of shamans is contrasted with that of New Age seekers. Information about key visionary substances is offered.

The 2012 Story John Major Jenkins 2009-10-15 On December 21, 2012, the Mesoamerican Long Count calendar, a 5,125-year cycle calendar system pioneered by the Maya, will come to an end. At the same time, the earth, the sun, and the center of the galaxy will come together in an extremely rare cosmic alignment. More and more people believe that the world as we know it will experience a transformation in 2012, but few are aware of the complete history or significance of the date. John Major Jenkins, among the most authoritative voices of the 2012 movement, has written a definitive explanation of one of the most thought-provoking phenomena of our time. Drawing from his own groundbreaking research (including his involvement in the modern reconstruction of Mayan 2012 cosmology) and more than two decades of extensive study of Mayan culture, Jenkins has created the crucial guide to understanding the story of 2012—an

essential overview of the history, theory, cultures, and personalities that have brought this extraordinary idea into modern awareness. Jenkins provides illuminating answers to some of the most-asked questions about 2012, including: - How did the early Maya devise the calendar that gives us the cycle ending in 2012, and how does it work? - How did the calendar come to be rediscovered and reconstructed in our era? - What controversies and intrigues surround the topic, and what do scholars and researchers have to say about them? - How can we cut through all the noise about 2012 and gain true wisdom from the Mayan teachings about this moment?

Apocalypse 12 - 21 - 12 James Burton Anderson 2012-06 Mayan prophecies have been the subject of heated debate for decades. Is there really a Mayan calendar 2012 prophecy of any kind? Although some in the media and government would have you believe otherwise, a very specific prophecy is factually documented in Mayan carvings. Author James Burton Anderson is a graduate engineer, life-long dedicated astronomer, archeologist, and fifty-year MENSA member. He has studied the Mayan calendar and its possible apocalyptic implications for over fifteen years, and believes that knowledge is power. James wants as many Americans as possible to understand exactly what all the fuss is about, and what dangers might actually occur. Only in this way can individuals make up their own minds whether this matter is worthy of very great concern or should simply be ignored. Is an apocalypse based on the Mayan calendar end of world scenario remotely possible? This unique up-to-the-minute book explores the basis of the worldwide concern over the coming Mayan calendar 2012 prophecies date, which is almost upon us. In May, Reuters reported a study showing that worldwide 10% of adult individuals believe the Mayan prophecy could signify the end of the world in December 2012. In America a startling 22% believe they will see the world end in their lifetime. Many very credible scientists and others are deeply concerned about survival.

Anderson shares his startling findings on why this special Mayan calendar prophecy date might actually have more validity than governments will ever reveal. He is convinced that we are, in fact, in very urgent and present danger. He explores in helpful detail what we are not being told and why, and comes to some important conclusions. Are we actually in imminent danger? The many different "Mayan prophecies 2012 'End of the World' December 21" scenarios are explored in great detail, along with timely useful advice on the steps you can take to protect yourself and your loved ones. Whether or not the Mayan prophecy theories are valid, it is irrefutable that the Maya prophecy of their God's return is deeply rooted in their beliefs. Mayan prophecies may or may not come true on December 21, but making preparations for the inevitable coming disasters that will make hurricane Sandy seem like a spring shower simply makes common sense to many concerned scientists.
