La querela civile di falso - I. Origini e vicende storiche Pasqualina Farina 2017-03-17 La valenza probatoria del documento si contrappone a quella della prova testimoniale rispetto alla quale offre alcuni innegabili vantaggi: la durata nel tempo del mezzo di prova (normalmente il documento scritto sopravvive più a lungo della persona del testimone); una più facile disponibilità ed economicità dello stesso (quando, in particolare, sarebbe necessario far giungere il teste da luoghi lontani); una maggiore oggettività e stabilità del suo oggetto una volta fissato su un supporto (rispetto alla mutevole soggettività che sempre contraddistingue le deposizioni testimoniali). Di contro, il documento scritto non è esente da profili che ne hanno a lungo ostacolato la piena affermazione nell'uso dei privati. In particolare - oltre a presupporre società con elevata alfabetizzazione - il documento si presta ad essere facilmente falsificato. Garantire a un tempo l'affidabilità del documento e la possibilità di opporsi efficacemente all'uso giudiziale di documenti di cui si sospetta la falsità è dunque un tema centrale, oggi come nel passato, quando si vuole che il processo raggiunga l'obiettivo primario di accertamento dei fatti giuridici. A tale tema Pasqualina Farina ha dedicato le sue ricerche. In questo primo volume si ripercorrono criticamente le alterne soluzioni che si sono via via sperimentate dall'antichità romana sino ai codici unitari.

Letteratura latina Hubert Zehnacker 2019-04-18T00:00:00+02:00 Il ruolo della letteratura latina all'interno del più vasto mondo della cultura antica; le sue evoluzioni e i legami con le vicende politiche del tempo. Da Livio Andronico a Isidoro di Siviglia, Hubert Zehnacker e Jean-Claude Fredouille affrontano circa nove secoli di una letteratura che per la sua unità e la sua continuità, sia di lingua sia di riferimenti artistici, va ben al di là della storia politica e istituzionale di Roma e forma la matrice della nostra cultura occidentale. Questo classico degli studi letterari non si concentra sui soli autori chiave, ma affronta anche scrittori minori, testimoni di una permanenza culturale indispensabile per la nascita delle grandi opere, nel solco di una storia che si sviluppa sulla base della circolazione delle idee, delle mode estetiche e letterarie. Scandito secondo i grandi periodi della storia di Roma, il testo segue un ordine cronologico e affronta con attenzione le forme e i generi letterari così come il loro contesto, con una trattazione chiara e completa anche della letteratura latina cristiana, spesso trascurata nei manuali.

Salamis of Cyprus Sabine Rogge 2019 In May 2015 an international conference organised by the University of Cyprus and the Cypriot Department of Antiquities was held in Nicosia - a conference, which could well be called the largest ever symposium on ancient Salamis. During the three-day event some 60 scholars from many countries presented their current research on this important and spectacular archaeological site on the east coast of the island of Cyprus. Two generations of scholars met in Nicosia during the conference: an older one, whose relationship with ancient Salamis can be characterized as very direct, since many representatives of that generation had actively participated in the extremely productive excavations at that spot, until these activities came to an abrupt end in the summer of 1974 due to the Turkish invasion - and a younger generation, which is of course lacking this very direct contact. The conference successfully connected the older with the younger generation, and thus contributed to maintaining and renewing the interest in ancient Salamis. This richly illustrated book compiles most of the lectures presented during the conference. It might be regarded as a tribute to Salamis, an outstanding ancient city, which existed for more than one and a half millennia - eventually under the name of Constantia.

Apuleius and Drama Regine May 2006-12-07 Regine May discusses the use of drama as an intertext in the work of the 2nd century Latin author Apuleius, who wrote the only complete extant Latin novel, the *Metamorphoses*, in which a young man is turned into a donkey by magic. Apuleius uses drama, especially comedy, as a basic underlying texture, and invites his readers to use their knowledge of contemporary drama in interpreting the fate of his protagonist and the often comic or tragic situations in which he finds himself. May employs a close study of the Latin text and detailed comparison with the corpus of dramatic texts from antiquity, as well as discussion of stock features of ancient drama, especially of comedy, in order

to explain some features of the novel which have so far baffled Apuleian scholarship, including the enigmatic ending. All Latin and Greek has been translated into English.
