Monsters Andrew J. Hoffman 2019-08-30 Monsters explores questions about the central concept of the monstrous: Why do we create monsters? Are they animal, human, both, or neither? Which of our fears and desires do monsters embody? What can monsters tell us about our cultural and historical moments? How do we cope with the monsters that haunt our imaginations--and our societies? Readings by classic poets, contemporary fiction writers, pop culture critics, philosophers, psychologists, occultists, veterinarians, ethicists, historians, and others take up these questions and more. Questions and assignments for each selection provide a range of activities for students to write about vampires, werewolves, zombies, mermaids, serial killers, classic horror movie monsters, and more strange things that go bump in the night. The Bedford Spotlight Reader Series is an exciting line of single-theme readers, each reflecting Bedford's trademark care and quality. An editorial board of a dozen compositionists at schools with courses focusing on specific themes assists in the development of the series. Each reader collects thoughtfully chosen selections sufficient for an entire writing course--about 35 pieces--to allow instructors to provide carefully developed, high-quality instruction at an affordable price. Bedford Spotlight Readers are designed to help students from all majors make sustained inquiries from multiple perspectives, opening up topics such as borders, food, gender, happiness, humor, language, music, science and technology, subcultures, and sustainability, to critical analysis. The readers are flexibly arranged in thematic chapters, with each chapter focusing in depth on a different facet of the central topic. Instructor support at macmillanlearning.com includes sample syllabi and additional teaching resources.

The Politics of Canadian Foreign Policy, Fourth Edition Kim Richard Nossal 2015-12-07 The fourth edition of this widely used text includes updates about the many changes that have occurred in Canadian foreign policy under Stephen Harper and the Conservatives between 2006 and 2015. Subjects discussed include the fading emphasis on internationalism, the rise of a new foreign policy agenda that is increasingly shaped by domestic political imperatives, and the changing organization of Canada's foreign policy bureaucracy. As in previous editions, this volume analyzes the deeply political context of how foreign policy is made in Canada. Taking a broad historical perspective, Kim Nossal, Stéphane Roussel, and Stéphane Paquin provide readers with the key foundations for the study of Canadian foreign policy. They argue that foreign policy is forged in the nexus of politics at three levels - the global, the domestic, and the governmental - and that to understand how and why Canadian foreign policy looks the way it does, one must look at the interplay of all three.

Friesen weave together complex aspects of the nation's economic, political, and socio-cultural development. They guide readers to use this interdisciplinary framework to consider some of the tough questions that Canada is likely to face in adjusting to demands and challenges in the next few decades. Reflecting the most current scholarship in the field, this revised edition features new discussions on issues such as the current crisis of neo-liberal globalization, Canada's petroleum industry, global warming, the Wet'suwet'en dispute in 2020, and the COVID-19 pandemic. Exploring the unique character of Canada today, this text is a vibrant resource for sociology courses on Canadian society as well as courses in Canadian studies and Canadian history.

Spotlight on Gluten: New Symptoms for the New Millennium? Or Long-Standing Symptoms Now Being Recognized? Lucille Cholerton 2012-02

Lucille Cholerton is a specialist in gluten sensitivity and coeliac disease. She and her three grown children all suffer from gluten sensitivity. Read her story in *Spotlight on Gluten: New symptoms for the new millennium? Or long-standing symptoms now being recognized?* "Age is very pertinent to the subject of gluten sensitivity. This disorder should really be diagnosed in childhood, but if the diagnosis is missed, people can suffer for many years with unexplained symptoms, when something that they are eating every day could be the root cause of their ill health." This book covers the symptoms that Cholerton and her children suffered, and how they improved their health dramatically on a gluten-free diet. The author's research spans twenty years. "In my research I discovered that gluten may be responsible for many autoimmune disorders, of which there are some eighty-eight documented. My doctors knew nothing about this, so I really had to be my own "guinea pig." A former teacher, Lucille Cholerton is now a nutrition counselor and is writing her next books on gluten sensitivity. "There is a dire need for better diagnosis and understanding of this disorder." She is married and lives in Durban, South Africa. She started the Gluten Intolerance/Coeliac Support Group in Durban in 1995. For more information about gluten, visit <http://www.allergysa.org> . Fourth and Long John U. Bacon 2013-09-03 The New York Times bestseller about the state of college football: Why we love the game, what is at risk, and the fight to save it—“A fascinating saga” (Booklist). In search of the sport’s old ideals amid the roaring flood of hypocrisy and greed, bestselling author John U. Bacon embedded himself in four college football programs—Penn State, Ohio State, Michigan, and Northwestern—and captured the oldest, biggest, most storied league, the Big Ten, at its tipping point. He sat in as coaches dissected game film, he ate dinner at training tables, and he listened in locker rooms. He talked with tailgating fans and college presidents, and he spent months in the company of the gifted young athletes who play the game. Fourth and Long reveals intimate scenes behind closed doors, from a team’s angry face-off with their athletic director to a defensive lineman acing his master’s exams in theoretical math. It captures the private moment when coach Urban Meyer earned the devotion of Ohio State’s Buckeyes on their way to a perfect season. It shows Michigan’s athletic department endangering the very traditions that distinguish the college game from all others. And it re-creates the euphoria of the Northwestern Wildcats winning their first bowl game in decades. Most unforgettably, Fourth and Long finds what the national media missed in the ugly aftermath of Penn State’s tragic scandal: the unheralded story of

players who joined forces with Coach Bill O'Brien to save the university's treasured program—and with it, a piece of the game's soul. This is the work of a writer in love with an old game—a game he sees at the precipice. Bacon's deep knowledge of sports history and his sensitivity to the tribal subcultures of the college game power this elegy to a beloved and endangered American institution.
