The Animated Bestiary Paul Wells 2008-11-28 Cartoonists and animators have given animals human characteristics for so long that audiences are now accustomed to seeing Bugs Bunny singing opera and Mickey Mouse walking his dog Pluto. The Animated Bestiary critically evaluates the depiction of animals in cartoons and animation more generally. Paul Wells argues that artists use animals to engage with issues that would be more difficult to address directly because of political, religious, or social taboos. Consequently, and principally through anthropomorphism, animation uses animals to play out a performance of gender, sex and sexuality, racial and national traits, and shifting identity, often challenging how we think about ourselves. Wells draws on a wide range of examples, from the original King Kong to Nick Park's Chicken Run to Disney cartoons such as Tarzan, The Jungle Book, and Brother Bear to reflect on people by looking at the ways in which they respond to animals in cartoons and films.

Strong Bonds. Child-animal Relationships in Comics 2021 Snoopy and Charlie Brown, Calvin and Hobbes, Tintin and Snowy? comics are home to many memorable child and animal figures. Many cultural productions, especially children's literature and cartoons, stress the similarities between children and animals, similarities that have their limits and often place the child, as human, above the animal. Still, these fictional situations offer opportunities for thinking of child-animal relationships in diverse ways through, for instance, considering the possibilities of privileged contact between children and animals or of animals that are more knowledgeable and powerful than children and even adults. Despite the prevalence and success of child-animal tandems in comics and culture, we know very little about these relationships. What makes them so popular? How do they work? How much do they vary across time and cultures? What do they tell us about the place of animals and children in comics and in the real world? 'Strong Bonds: Child-animal Relationships in Comics' takes a first, important step in this direction. Bringing together scholars with a diverse range of comics expertise, the volume's chapters combine contextualized readings of comics with relevant theories for interrogating childhood and animalhood, their overlaps and divergences. The strong bonds between children and animals mapped out here point towards alternative modes of conceptualizing family and identity and, ultimately, alternative means of reading, interpreting and imagining. With chapters on early comics (the Italian children's magazine 'Corriere dei Piccoli' during WWI, Harold Gray's 'Little Orphan Annie') international and regional classics ('Tintin', the Flemish 'Jommeke') and contemporary graphic novels (Bryan Talbot's 'A Tale of One Bad Rat', Brecht Even's 'Panther'), this critical anthology sheds light on a vast array of child-animal relationships in comics from Europe and North America.

Mapplethorpe Flora Mark Holborn 2016-03-14 The definitive collection of Robert Mapplethorpe's flower photographs Robert Mapplethorpe (1946-1989) is one of the twentieth century's most important artists, known for his groundbreaking and provocative work. He studied painting, drawing, and sculpture in Brooklyn in the 1960s and started taking photographs when he acquired a Polaroid camera, in 1970. Beginning in 1973 and until his death in 1989, Mapplethorpe explored the flower with extraordinary dedication, using a range of photographic processes — from Polaroids to dye-transfer color works. In carefully constructed compositions, he captured roses, orchids, snapdragons, daisies, tulips and other species — both common and rare — and forever transformed the way we perceive a classic and familiar subject. The result — a stunning body of work — is collected in this elegant book, Mapplethorpe Flora: The Complete Flowers.

A Phoenix Too Frequent Christopher Fry 1952-10 THE STORY: In this version of the famous Matron of Ephesus, we have a fresh retelling of the story of a pious widow--and her maid--who mourns for the death of her recently deceased husband in the tomb where his bier lies awaiting internment. The maid

**The Child Savage, 1890-2010** Elisabeth Wesseling 2016-12-05 Taking up the understudied relationship between the cultural history of childhood and media studies, this volume traces twentieth-century migrations of the child-savage analogy from colonial into postcolonial discourse across a wide range of old and new media. Older and newer media such as films, textbooks, children's literature, periodicals, comic strips, children's radio, and toys are deeply implicated in each other through ongoing 'remediation', meaning that they continually mimic, absorb and transform each other's representational formats, stylistic features, and content. Media theory thus confronts the cultural history of childhood with the challenge of re-thinking change in childhood imaginaries as transformation-through-repetition patterns, rather than as rise-shine-decline sequences. This volume takes up this challenge, demonstrating that one historical epoch may well accommodate diverging childhood repertoires, which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time.

Animal Comics 2017-12-14 Animal characters abound in graphic narratives ranging from Krazy Kat and Maus to WE3 and Terra Formars. Exploring these and other multispecies storyworlds presented in words and images, Animal Comics draws together work in comics studies, narrative theory, and cross-disciplinary research on animal environments and human-animal relationships to shed new light on comics and graphic novels in which animal agents play a significant role. At the same time, the volume's international team of contributors show how the distinctive structures and affordances of graphic narratives foreground key questions about trans-species entanglements in a more-than-human world. The writers/artists covered in the book include: Nick Abadzis, Adolpho Avril, Jeffrey Brown, Sue Coe, Matt Dembicki, Olivier Deprez, J. J. Grandville, George Herriman, Adam Hines, William Hogarth, Grant Morrison, Osamu Tezuka, Frank Quitely, Yu Sasuga, Charles M. Schultz, Art Spiegelman, Fiona Staples, Ken'ichi Tachibana, Brian K. The Poetics of Slumberland Scott Bukatman 2012-03-26 "In The Poetics of Slumberland, Scott Bukatman celebrates play, plasmatic possibility, and the life of images in cartoons, comics, and cinema. Bukatman begins with Winsor McCay's Little Nemo in Slumberland to explore how and why the emerging media of comics and cartoons brilliantly captured a playful, rebellious energy. Slumberland is more than a marvelous world for Nemo and its other citizens; it is an aesthetic space defined by the artist's innovations. The book broadens to consider similar 'animated' behaviors in seemingly

disparate media--films about Jackson Pollock, Pablo Picasso, and Vincent van Gogh; the musical *My Fair Lady* and the story of *Frankenstein*; the slapstick comedies of Jerry Lewis; and contemporary comic superheroes--drawing them all together as purveyors of embodied utopias of disorder."-- Page 4 of cover.

[The Making of Star Wars \(Enhanced Edition\)](#) J. W. Rinzler 2013-10-22 This enhanced eBook transforms *The Making of Star Wars* into an immersive multimedia experience worthy of the original film. It features exclusive content pulled from the Lucasfilm archives by author J. W. Rinzler: • 26 minutes of rare behind-the-scenes video\* • 29 minutes of rare audio interviews with the cast and crew • New bonus photos and artwork not found in the print edition After the 1973 success of *American Graffiti*, filmmaker George Lucas made the fateful decision to pursue a longtime dream project: a space fantasy movie unlike any ever produced. Lucas envisioned a swashbuckling SF saga inspired by the *Flash Gordon* serials, classic American westerns, the epic cinema of Japanese auteur Akira Kurosawa, and mythological heroes. Its original title: *The Star Wars*. The rest is history, and how it was made is a story as entertaining and exciting as the movie that has enthralled millions for more than thirty years—a story that has never been told as it was meant to be. Until now. Using his unprecedented access to the Lucasfilm Archives and its trove of “lost” interviews, photos, production notes, factoids, and anecdotes, *Star Wars* scholar J. W. Rinzler hurtles readers back in time for a one-of-a-kind behind-the-scenes look at the nearly decade-long quest of George Lucas and his key collaborators to make the “little” movie that became a phenomenon. It’s all here: • the evolution of the now-classic story and characters—including “Annikin Starkiller” and “a huge green-skinned monster with no nose and large gills” named Han Solo • excerpts from George Lucas’s numerous, ever-morphing script drafts • the birth of Industrial Light & Magic, the special-effects company that revolutionized Hollywood filmmaking • the studio-hopping and budget battles that nearly scuttled the entire project • the director’s early casting saga, which might have led to a film spoken mostly in Japanese—including the intensive auditions that won the cast members their roles and made them legends • the grueling, nearly catastrophic location shoot in Tunisia and the subsequent breakneck dash at Elstree Studios in London • the who’s who of young film rebels who pitched in to help—including Francis Ford Coppola, Steven Spielberg, and Brian DePalma But perhaps most exciting, and rarest of all, are the interviews conducted before and during production and immediately after the release of *Star Wars*—in which George Lucas, Mark Hamill, Harrison Ford, Carrie Fisher, Sir Alec Guinness, Anthony Daniels, composer John Williams, effects masters Dennis Muren, Richard Edlund, and John Dykstra, Phil Tippett, Rick Baker, legendary production designer John Barry, and a host of others share their fascinating tales from the trenches and candid opinions of the film that would ultimately change their lives. No matter how you view the spectrum of this phenomenon, *The Making of Star Wars* stands as a crucial document—rich in fascination and revelation—of a genuine cinematic and cultural touchstone. \*Video may not play on all readers. **Louisa** Louisa Thomas 2017-04-04 From the author of *Mind and Matter*, an intimate portrait of Louisa Catherine Adams, the wife of John Quincy Adams, who witnessed firsthand the greatest transformations of her time Born in London to an American father and a British mother on the eve of the Revolutionary War, Louisa Catherine Johnson was raised in circumstances very different from the New England upbringing of the future president John Quincy Adams, whose life had been dedicated to public service from the earliest age. And yet John Quincy fell in love with her, almost despite himself. Their often tempestuous but deeply close marriage lasted half a century. They lived in Prussia, Massachusetts, Washington, Russia, and England, at royal courts, on farms, in cities, and in the White House. Louisa saw more of Europe and America than nearly any other woman of her time. But wherever she lived, she was always pressing her nose against the glass, not quite sure whether she was looking in or out. The other members of the Adams family could take their identity for granted—they were Adamses; they were Americans—but she had to invent her own. The story of Louisa Catherine Adams is one of a woman who forged a sense of self. As the country her husband led found its place in the world, she found a voice. That voice resonates still. In this deeply felt biography, the talented journalist and historian Louisa Thomas finally gives Louisa Catherine Adams's full extraordinary life its due. An intimate portrait of a remarkable woman, a complicated marriage, and a pivotal historical moment, Louisa Thomas's biography is a masterful work from an elegant storyteller.

Rickard Rebellino, Rebecca Rupert, Cathy Ryan, Joe Sutliff Sanders, Joseph Michael Sommers, Marni Stanley, Gwen Athene Tarbox, Sarah Thaller, Annette Wannamaker, and Lance Weldy One of the most significant transformations in literature for children and young adults during the last twenty years has been the resurgence of comics. Educators and librarians extol the benefits of comics reading, and increasingly, children's and YA comics and comics hybrids have won major prizes, including the Printz Award and the National Book Award. Despite the popularity and influence of children's and YA graphic novels, the genre has not received adequate scholarly attention. *Graphic Novels for Children and Young Adults* is the first book to offer a critical examination of children's and YA comics. The anthology is divided into five sections, structure and narration; transmedia; pedagogy; gender and sexuality; and identity, that reflect crucial issues and recurring topics in comics scholarship during the twenty-first century. The contributors are likewise drawn from a diverse array of disciplines--English, education, library science, and fine arts. Collectively, they analyze a variety of contemporary comics, including such highly popular series as *Diary of a Wimpy Kid* and *Lumberjanes*; Eisner award-winning graphic novels by Gene Luen Yang, Nate Powell, Mariko Tamaki, and Jillian Tamaki; as well as volumes frequently challenged for use in secondary classrooms, such as Raina Telgemeier's *Drama* and Sherman Alexie's *The Absolutely True Diary of a Part-Time Indian*.

**Picturing Childhood** Mark Heimermann 2017-03-01 Comics and childhood have had a richly intertwined history for nearly a century. From Richard Outcault's Yellow Kid, Winsor McCay's Little Nemo, and Harold Gray's Little Orphan Annie to Hergé's Tintin (Belgium), José Escobar's Zipi and Zape (Spain), and Wilhelm Busch's Max and Moritz (Germany), iconic child characters have given both kids and adults not only hours of entertainment but also an important vehicle for exploring children's lives and the sometimes challenging realities that surround them. Bringing together comic studies and childhood studies, this pioneering collection of essays provides the first wide-ranging account of how children and childhood, as well as the larger cultural forces behind their representations, have been depicted in comics from the 1930s to the present. The authors address issues such as how comics reflect a spectrum of cultural values concerning children, sometimes even resisting dominant cultural constructions of childhood; how sensitive social issues, such as racial discrimination or the construction and enforcement of gender roles, can be explored in comics through the use of child characters; and the ways in which comics use children as metaphors for other issues or concerns. Specific topics discussed in the book include diversity and inclusiveness in Little Audrey comics of the 1950s and 1960s, the fetishization of adolescent girls in Japanese manga, the use of children to build national unity in Finnish wartime comics, and how the animal/child hybrids in Sweet Tooth act as a metaphor for commodification.

**Affective Health and Masculinities in South Africa** Hans Reihling 2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men's struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African 'tradition' that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men's vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.

**Reading Lessons in Seeing** Michael A. Chaney 2017-02-17 Literary scholar Michael A. Chaney examines graphic novels to illustrate that in form and function they inform readers on how they ought to be read. His arguments result in an innovative analysis of the various knowledges that comics produce and the methods artists and writers employ to convey them. Theoretically eclectic, this study attends to the lessons taught by both the form and content of today's most celebrated graphic novels. Chaney analyzes the embedded lessons in comics and graphic novels through the form's central tropes: the iconic child storyteller and the inherent childishness of comics in American culture; the use of mirrors and masks as ciphers of the unconscious; embedded puzzles and games in otherwise story-driven comic narratives; and the form's self-reflexive propensity for showing its work. Comics reveal the labor that goes into producing them, embedding lessons on how to read the "work" as a whole. Throughout, Chaney draws from a range of theoretical insights from psychoanalysis and semiotics to theories of reception and production from film studies, art history, and media studies. Some of the major texts examined include Marjane Satrapi's Persepolis; Chris Ware's Jimmy Corrigan: The Smartest Kid on Earth; Joe Sacco's Palestine; David B.'s Epileptic; Kyle Baker's Nat Turner; and many more. As Chaney's examples show, graphic novels teach us even as they create meaning in their infinite relay between words and pictures.

*Literature and Animal Studies* Mario Ortiz-Robles 2016-06-17 Why do animals talk in literature? In this provocative book, Mario Ortiz Robles tracks the presence of animals across an expansive literary archive to argue that literature cannot be understood as a human endeavor apart from its capacity to represent animals. Focusing on the literary representation of familiar animals, including horses, dogs, cats, and songbirds, Ortiz Robles examines the various tropes literature has historically employed to give meaning to our fraught relations with other animals. Beyond allowing us to imagine the lives of non-humans, literature can make a lasting contribution to Animal Studies, an emerging discipline within the humanities, by showing us that there is something fictional about our relation to animals. Literature and Animal Studies combines a broad mapping of literary animals with detailed readings of key animal texts to offer a new way of organizing literary history that emphasizes genera over genres and a new way of classifying animals that is premised on tropes rather than taxa. The book makes us see animals and our relation to them with fresh eyes and, in doing so, prompts us to review the role of literature in a culture that considers it an endangered art form.

**Jinchalo** Matthew Forsythe 2012-02-14 From the author of *Ojingogo*, another tale of enchantment and adventure *Jinchalo* is Korean for "Really?" and that question (formulated variously as "What is and what isn't?" "What is real?" and "What is imagined?") is at the heart of this book. A companion to Matthew Forsythe's vastly successful *Ojingogo*, *Jinchalo* stars the same little girl as its heroine. When the mischievous shape-shifter *Jinchalo* hatches from a mysterious egg, he starts our heroine adventuring anew. Magical troubles drag the pair out of the safety of her home, through the small village where she resides, up, up, and away. In the course of their flight, they visit a robot garden, follow a vine into the clouds, and leave the village far behind. These comics are firmly rooted in Korean folktales and stylistic conventions, with a playful, joyous drawn line. *Jinchalo* welcomes readers back into Forsythe's Miyazaki-tinged dreamscape where spotted octopi fly and bears give piggyback rides, where hummingbirds are larger than people and a sad furry monster wearing a bowler hat lurks around every corner. Forsythe uses page space innovatively in this wordless, panel-less book, and his storytelling is compelling for all ages, both simple and intricately detailed.
