The Scent of the Moon Selene Calloni Williams

2016-07-18T13:35:00+02:00 Kazimir, Svetlana and Anastasia are real characters. They live in a very remote part of the Siberian steppe. Kazimir is a white shaman with extraordinary power, a healer whose fame has reached as far as Kazakhstan, Mongolia and Moscow. Svetlana is a black shaman, able to travel through the underworld, the realm of the invisible, of ancestors, of dreams, of the soul, and take others with her, on extraordinary shamanic voyages. Anastasiya, Svetlana's niece, is one of the very few shamans in the world who masters the art of both white and black shamanism. By whoever knows her, or even just heard of her, she is considered a reincarnation of the Princess of Altay. Selene Calloni Williams and her son Michelangelo have met these three shamans by chance during one of their extraordinary research trips, while attempting to reach the burial site of the Princess of Altay. To gain the three shamans' trust, Selene and Michelangelo have visited them on several occasions since, even in winter when the steppe is freezes at minus 40 degrees. One day, Svetlana decided to entrust them with a "tale of power". A "tale of power" has the ability of communicating images containing new possibilities of thought and action. In this world everything is imagination and nothing which hasn't been imagined before can happen. For example, how could the first man have hunted the first mammoth, or the first tyrannosaurus

have devoured the first velociraptor, if within instinct the image of hunt hadn't existed? In order for behaviour to exist there always must be a guiding image. These are the images which the ancients addressed as gods and which psychoanalysts define as archetypes: the original forms of all experiences. Shamans are able to converse with gods. They are bards, storytellers, they know tales able to bring images into existence, create possibilities which were previously unexplored, and thus can solve otherwise insurmountable problems. These are not just any stories; they're "tales of power". This book tells the story of the passionate love which bonds a boy and a girl, an old man and an old woman, tells of eagles and underworlds, describes the "shamanic journey" and the triumph of love over fear and death. It is not just any story; it shares active secrets, treasures, like magic diamonds which enter the body between one page and the other, between an adventure and the other. This book can be read at the blink of an eye, the same blink with which the great spirit of the Black Eagle, the lord of the dead, will carry you down to the underworld, to then take you back, changed forever, to your life: it's magic, it's poetry.

2021-01-14 The papers reprinted in this volume have been selected with two considerations in mind: they record ethnographical observations from my field work among the Tallensi and in Ashanti that are not easily accessible elsewhere but continue to be useful for comparative studies and as background to current research in Ghana; and they represent applications of methods of analysis and schemes of interpretation that were emerging in British structural anthropology at the time of their publication. The Monographs on Social Anthropology were established in 1940 and aim to publish results of modern anthropological research of primary interest to specialists.

Tobacco and Shamanism in South America Johannes Wilbert

1987-01-01 An ethnography of magic-religious, medicinal and recreational tobacco use among nearly 300 native South

American societies. Wilbert found that South American Indians use tobacco in many ways and that a close functional relation exists between tobacco and shamanism.

Authentic Movement Patrizia Pallaro 1999-05-01 Patrizia Pallaro's second volume of essays on Authentic Movement, eight years after her first, is a tour de force. It is indeed "an extraordinary array of papers", as Pallaro puts it, and an immensely rich, moving and highly readable sweep through the landscapes of Authentic Movement, "this form of creative expression, meditative discipline and/or psychotherapeutic endeavour". You don't need to practice Authentic Movement to get a lot out of this book, but it certainly helps! I defy anyone to

read the first two sections and not be curious to have their own experience.' - Sesame Institute 'Authentic Movement can be seen as a means by which analysts can become more sensitive to unconscious, especially pre-verbal aspects of themselves and their patients.' - Body Psychotherapy Journal Newsletter 'This book is a collection of articles, some of which are interviews, brought together for the first time. It is very valuable to have them all together in one place...It is a wonderful collection of articles on topics you have always wanted to read, such as the role of transference in dance therapy or Jung and dance therapy. The book also includes scripts for exercises.' - Somatics Authentic Movement, an exploration of the unconscious through movement, was largely defined by the work of Mary Starks Whitehouse, Janet Adler and Joan Chodorow. The basic concepts of Authentic Movement are expressed for the first time in one volume through interviews and conversations with these important figures, and their key papers. They emphasize the importance of movement as a means of communication, particularly unconscious or 'authentic' movement, emerging when the individual has a deep, self-sensing awareness - an attitude of 'inner listening'. Such movement can trigger powerful images, feelings and kinesthetic sensations arising from the depths of our stored childhood memories or connecting our inner selves to the transcendent. In exploring Authentic Movement these questions are asked: - How does authentic movement differ from other forms of dance and movement therapy? - How may 'authentic' movement be experienced?

Kandinsky and Old Russia Neil A. Weiss 1995-01-01 Vasiliï Kandinsky, whom many consider to be the father of abstract painting, was also a trained ethnographer with an abiding interest in the folklore of Old Russia. In this provocative book, Peg Weiss provides an entirely new interpretation of Kandinsky's art by examining for the first time how this commitment to his ethnic Russian heritage influenced the painter's work throughout his career.

Return from Tomorrow George G. Ritchie 2007-09-01 At the age of twenty, George Ritchie died in an Army hospital. Nine minutes later, he returned to life. What happened to him during those minutes was so compelling that it changed his life forever. In *Return from Tomorrow*, Ritchie tells of his transforming encounter with the Son of God, who led him to encounters with other nonphysical beings at the very doorway of eternity. Ritchie's extraordinary experience not only altered his view of eternity, but it has also altered the lives of hundreds of thousands of readers. One of the most startling and hopeful descriptions of the realm beyond, this classic will inspire readers from all walks of life. It includes a brand-new preface from Elizabeth Sherrill.

The Way of the Shaman Michael Harner 2011-07-26 This classic on shamanism pioneered the modern shamanic renaissance. It is the foremost resource and reference on shamanism. Now, with a new introduction and a guide to current resources, anthropologist Michael Harner provides the definitive handbook on practical shamanism - what it is, where it came from, how you can participate. "Wonderful, fascinating... Harner really knows what he's talking about." CARLOS CASTANEDA "An intimate and practical guide to the art of shamanic healing and

the technology of the sacred. Michael Harner is not just an anthropologist who has studied shamanism; he is an authentic white shaman." STANILAV GROF, author of 'The Adventure Of Self Discovery' "Harner has impeccable credentials, both as an academic and as a practising shaman. Without doubt (since the recent death of Mircea Eliade) the world's leading authority on shamanism." NEVILL DRURY, author of 'The Elements of Shamanism' Michael Harner, Ph.D., has practised shamanism and shamanic healing for more than a quarter of a century. He is the founder and director of the Foundation for Shamanic Studies in Norwalk, Connecticut.

Lamas, Shamans and Ancestors Anna Balikci 2008-01-01 This careful study of the co-existence over time of Buddhism and shamanism among the Lhopo (Bhutia) people of Sikkim sheds new light on their supposedly hostile relationship. It examines the working relationships between Buddhist lamas and practitioners of "bon," taking into consideration the sacred history of the land as well as its more recent political and economic transformation. Their interactions are presented in terms of the contexts in which lamas and shamans meet, these being rituals of the sacred land, of the individual and household, and of village and state. Village lamas and shamans are shown to share a conceptual view of reality which is at the base of their amiable coexistence. In contrast to the hostility which, the recent literature suggests, characterizes the lama-shaman relationship, their association reveals that the real confrontation occurs when village Buddhism is challenged by its conventional counterpart.

Horizons of Shamanism Peter Jackson 2020-10-09 "The multifarious and sometimes contested concept of "shamanism" has aroused intense popular and scholarly interest since its initial coinage by the Russian scholar V. M. Mikhailovsky in the late

19th century. In this book, three leading scholars, representing different branches of the humanities, dwell on the current status of shamanic practices and conceptions of the soul, both as 'etic' scholarly categories in historical research and as foci of spiritual revitalization among the indigenous populations of post-Soviet Siberia. Framed by an introduction and a critical afterword by historian of religions Ulf Drobin, the three essays address issues crucial to the understanding of cultural history and the history of religions. Marjorie Mandelstam Balzer, Research Professor in CERES, and the Department of Anthropology at the University of Georgetown, Jan N. Bremmer, professor emeritus and former Chair of Religious Studies at the Faculty of Theology and Religious Studies of the University of Groningen and Carlo Ginzburg at Scuola Normale Superiore di Pisa. The editor Peter Jackson, is Professor at the Department of Ethnology, History of Religions and Gender Studies at Stockholm University." Men and Bears AA.VV. 2020-01-23 The time of Carnival represents a "wild" time at the end of winter and pointing to the beginning of a new season. It is characterized by the irruption of border figures, animal masks, characters which recall the world of the dead and which bring within themselves the germ of a vital force, of the energy that produces the reawakening of nature and announces the growth and fertility of the new crops. This wild domain shows itself under the shapes of a contiguity between human and animal: the costumes, the masks, refer to a world in which the characteristics of the human and those of the animal are fused and intertwined. Among these figures, in particular, emerge those of the Wild Man, the human being who takes on animal-like attributes and aspects, and of the Bear, the animal that, more than all the others, gets as close as possible to the

human and seems to reflect a deformed image of it. Such symbolic images come from far off times and places to tell a story that belongs to our common origins. The bear assumes attributes and functions alike in very different cultural contexts, such as the Sámi of Finland or North-American hunter-gatherers, and represents a boundary between the world of nature and the human world, between the domain of animals and the difficult construction of humanity: a process continued for centuries, perhaps millennia, and which cannot still be said complete.

Gender on the Market Deborah Kapchan 2010-11-24 Selected by Choice magazine as an Outstanding Academic Book for 1996
Gender on the Market is a study of Moroccan women's expressive culture and the ways in which it both determines and responds to current transformations in gender roles. Beginning with women's emergence into what has been defined as the most paradigmatic of Moroccan male institutions—the marketplace—the book elucidates how gender and commodity relations are experienced and interpreted in women's aesthetic practices. Deborah Kapchan compellingly demonstrates that Moroccan women challenge some of the most basic cultural assumptions of their society—especially ones concerning power and authority.

Facial Reflexology - Dien Chan Zone Beatrice Moricoli and Vittorio Bergagnini 2016-11-24 “The key to health is on your face and in your hands” This book presents a self-care method unique in its genre, which offers extraordinary, sometimes amazing and often immediate results for all kinds of disharmony in the body. The method began life in 1980s Vietnam - like many important discoveries, a result of war and necessity - independent of resource availability. It was developed by a group of acupuncturists to put healing in the hands of the masses by replacing needles with equally effective blunt rounded tools. It is the most recent reflexology on the planet and has nothing to do with other oriental techniques related to the face. Today ‘Dien Chan’ is a popular and accepted method of healthcare in its home

country and part of their official system. However, it is the work of two self declared Italian 'free-sprits', over the past twenty years, which has suitably translated the technique and advanced it to meet the needs of modern Westerners. No longer a painful stimulation of pre-defined points; it has evolved to a relaxing massage of zones and individual, personalised points. 'Dien Chan Zone' incorporates simplified principles and teachings of Traditional Chinese Medicine, protocols for allergies and intolerances, a unique Facial-Cranial reflexology and a beauty treatment to tone muscle and regulate skin function. It is the authors' overriding intention to facilitate learning and to make this method accessible to everyone. In this book they share full instructions for self-treatment which they know present a great frontier of freedom, and the medicine of the future. Contains 95 full colour maps Beatrice Moricoli, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is the first female teacher of Dien Chan (Zone) in Italy, but for many years has practiced also as a therapist and teacher of Reiki, Shiatsu, Tui Na, Chinese Medicine and 'The Blowing Technique'. Vittorio Bergagnini, founder of S.I.R.F.A./A.I.R.F.I. in Milan, is a teacher of Dien Chan Zone as well as Tai Chi Chuan, Reiki, Foot Reflexology and Wung Chun.

Voicing the Word Marina Spunta 2004 Drawing on the recent renewal of interest in the debate on orality and literacy this book investigates the varying perceptions and representations of orality in contemporary Italian fiction, providing a fresh perspective on this rich and fast-developing debate and on the study of the Italian literary language. The book brings together a

number of complementary approaches to orality from the fields of linguistics, literary and media studies and offers a detailed analysis of a broad variety of authors and texts that appeared over the last three decades - ranging from internationally acclaimed writers such as Celati, Duranti and Tabucchi, through De Luca and Baricco, to the latest generation of writers, such as Campo, Ballestra and Nove. By exploring the complementary facets of Italian orality, and its diachronical developments since the seventies, this study questions the traditionally dichotomic approach to the study of orality and literacy and posits a more flexible, cross-modal approach that accounts for the increasing hybridisation of text forms and media and for the greater interaction between the spoken and the written as well as their representations.

Kandinsky's Quest Igor Aronov 2006 This book studies Vasily Kandinsky's (1866-1944) pre-1908 figurative art that formed the basis for his later abstractions. It analyzes many published and unpublished facts of the artist's life and work and brings together numerous historical comparative data from painting, literature, the social sciences, ethnography, folklore, esthetics, and philosophy. This study penetrates deeply into Kandinsky's inner world and breaks new ground by interpreting the artist's enigmatic early imagery as his personal many-layered symbolism that expresses his complex personality, his internal responses to Russian and Western European life and culture, and his quest for spiritual truths.

Sciamanesimo e guarigione Luciano Silva 2016-02-01
Sciamanesimo e guarigione è un testo ricco di spunti di riflessione, uno strumento utile non solo agli studiosi e ai praticanti di sciamanesimo, ma anche a coloro che desiderano integrare nella loro vita queste pratiche millenarie. Chiunque sia in generale interessato alla psicologia, alla spiritualità e alla crescita personale troverà illuminante la sua lettura. Attingendo tanto alle sue esperienze personali quanto alle testimonianze di

numerosi praticanti contemporanei, in questo suo libro sulla guarigione sciamanica, Luciano Silva ci accompagna in un affascinante e coinvolgente viaggio alla scoperta di dimensioni della coscienza di solito ignorate e trascurate. In tutte le forme di sciamanesimo l'uomo è sempre stato concepito come un microcosmo olistico in cui corpo, anima e spirito sono realtà inscindibili ed interrelate. Se vogliamo realmente risanare le nostre e le altrui ferite, dobbiamo espandere il concetto che abbiamo di noi stessi, tutto centrato su di un "io" che si sente separato ed isolato, fino ad abbracciare la confortante inclusività del "noi". Dobbiamo riconoscere che siamo esseri non solo fisici, ma anche spirituali, che viviamo in un mondo fatto di relazioni. È a questa totalità e a queste relazioni che gli sciamani da millenni guardano quando osservano un essere umano: noi e la Natura circostante, noi e gli altri, noi e il mondo spirituale, noi come custodi, e non come semplici utilizzatori, della meraviglia che ci circonda.

He has received major literary prizes (including the Premio Montale) and has translated into Italian the works of Shelley, D.H. Lawrence and Walt Whitman. He has traveled extensively, has visited the United States to present his poetry, and now lives in Imperia, Italy, and in Nice, France. *The Ocean and the Boy*, Conte's first full-length book of poetry, is written in an intensely personal style, fusing myth and everyday reality. In this dual-language edition, the first

English translation of a complete poetry book by Conte, the editor-translator, Italian-born poet Laura Stortoni, has included a translator's note, biographical and bibliographical data, endnotes and an introduction by Italo Calvino.

Religions of China Daniel E. Overmyer 1998-03-10 The guiding themes of Chinese religion as it is actually lived! This short work explains basic ideas and practices of Chinese religions in direct and simple language, with many examples and analogies for increased understanding. Its basic assumption is that religion is best understood as an aspect of everyday life as something that makes sense to those who practice it even if outsiders might be puzzled at first. While Overmyer's treatment focuses on traditional China before the twentieth century, many of the beliefs and practices described are still alive, at least in some Chinese communities. While the basic concern of this book is, first, to understand Chinese religions in their own right, it takes the additional step of exploring what modern students might learn from them.

The Active Side of Infinity Carlos Castaneda 1999-12-22

"Ordinarily, events that change our path are impersonal affairs, and yet extremely personal. My teacher, don Juan Matsus, said this is guiding me as his apprentice to collect what I considered to be the memorable events of my life.... Don Juan described the total goal of the shamanistic knowledge that he handled as the preparation for facing the definitive journey: the journey that every human being has to take at the end of his life. He said that what modern man referred to vaguely as life after death was, for those shamans, a concrete region filled to capacity with practical affairs of a different order than the practical affairs of daily life, yet bearing a similar functional practicality. Don Juan considered

that to collect the memorable in their lives was, for shamans, the preparation for their entrance into that concrete region, which they called the active side of infinity." In this book written immediately before his death, anthropologist and shaman Carlos Castaneda gives us his most autobiographical and intimately revealing work ever, the fruit of a lifetime of experience and perhaps the most moving volume in his oeuvre.
