Not Made Visible Matias Faldbakken 2007 Tiré du site Internet de JRP/Ringier : "Matias Faldbakken (*1973) is an artist and writer living in Oslo. Son of the celebrated Norwegian author Knut Faldbakken, he has published two novels, "The Cocka Hola Company" and "Macht und Rebel" under the alias Abo Rasul. Drenched with acid humor and continuously hitting below the waist, his books immediately caused a considerable stir in Norway. If, in these publications, he underlines the differences and similarities between the so-called underground and the mainstream, and between the "independent" and the "commercial" in everyday life, these subjects are also central to his art practice. Fascinated with systems of knowledge, power, order, and exchange, he shows an interest in understanding how art and artists can be active participants in these systems. Faldbakken studied at the National Academy of Fine Arts in Bergen as well as at the Städelschule in Frankfurt am Main. He represented Norway in the Nordic Pavillion at the Venice Biennial in 2005, as well as showing his work in the Wrong Gallery at the Whitney Biennial, the Stedelijk Museum Amsterdam, the National Museum Oslo, the Sydney Biennial and the KW Institute for Contemporary Art Berlin, among others."

Media Activism in the Digital Age Victor Pickard 2017-07-06 The growing subfield of media activism studies has gained wide attention in recent years, but little consensus exists regarding its central questions and concerns. This book begins to chart an evolving research agenda by providing a cross-section of provocative work in this area. Victor Pickard and Guobin Yang have assembled essays by leading scholars and activists to provide case studies of feminist, technological, and political interventions during different historical periods and at local, national, and global levels. Looking at the underlying theories, histories, politics, ideologies, tactics, strategies and aesthetics, the book takes an expansive view of media activism. It explores how varieties of activism are mediated through communication technologies, how activists deploy strategies for changing the structures of media systems, and how governments and corporations seek to police media activism. From memes to zines, hacktivism to activism, this volume considers activist practices involving both older kinds of media and newer digital, social, and network-based forms. The book captures an exciting moment in the evolution of media activism studies and offers an invaluable guide to a vibrant and evolving field of research.

Conversational Italian for Travelers Kathryn Occhipinti 2015-07-15 The textbook, *Conversational Italian for Travelers*, is a fun, friendly book, not formal like most language books, and teaches everything one needs to know to travel to Italy. If you want to really understand the Italian of today, you need this book! We learn language and culture as we follow the character Caterina in dialogues that detail her travels through Italy. As she boards planes, trains, and finally takes a ride in her cousin's car, we learn how to do these things in Italian. When she meets up with her Italian family, we learn the phrases of communicating with others, including what to say if you meet someone special, how to go shopping and how to use the telephone. Finally, Caterina goes on a trip to Lago Maggiore with her Italian family, and we learn phrases needed to stay at a hotel, go sight-seeing, and of course, go to the restaurant and order wonderful Italian food! Many Italian dishes commonly ordered in Italian restaurants are listed in the last three chapters of the book.

The Green Marketing Manifesto John Grant 2009-08-11 We are currently eating, sleeping and breathing a new found religion of everything 'green'. At the very heart of responsibility is industry and commerce, with everyone now racing to create their 'environmental' business strategy. In line with this awareness, there is much discussion about the 'green marketing opportunity' as a means of jumping on this bandwagon. We need to find a sustainable marketing that actually delivers on green objectives, not green theming. Marketers need to give up the many strategies and approaches that made sense in pure commercial terms but which are unsustainable. True green marketing must go beyond the ad models where everything is another excuse to make a brand look good; we need a green marketing that does good. The Green Marketing Manifesto provides a roadmap on how to organize green marketing effectively and sustainably. It offers a fresh start for green marketing, one that provides a practical and ingenious approach. The book offers many examples from companies and brands who are making headway in this difficult arena, such as Marks & Spencer, Sky, Virgin, Toyota, Tesco, O2 to give an indication of the potential of this route. John Grant creates a 'Green Matrix' as a tool for examining current practice and the practice that the future needs to embrace. This book is intended to assist marketers, by means of clear and practical guidance, through a complex transition towards meaningful green marketing. Includes a foreword by Jonathon Porritt.

Using Italian J. J. Kinder 2004-07 This 2002 book is a guide to Italian usage for students who have already acquired the basics of the language and wish to extend their knowledge. Unlike conventional grammars, it gives special attention to those areas of vocabulary and grammar which cause most difficulty to English-speakers. Careful consideration is given throughout to questions of style, register, and politeness which are essential to achieving an appropriate level of formality or informality in writing and speech. It surveys the contemporary linguistic scene in Italy and gives ample space to the new varieties of Italian that are emerging in modern Italy. The influence of the dialects in shaping the development of Italian is also acknowledged. Clear, readable and easy to consult via its two indexes, this is an essential reference for learners seeking access to the finer nuances of the Italian language.

Aquinas and the Market Mary L. Hirschfeld 2018-11-26 Economists investigate the workings of markets and tend to set ethical questions aside. Theologians often dismiss economics, losing insights into the influence of market incentives on individual behavior. Mary L. Hirschfeld bridges this gap by showing how a humane economy can lead to the good life as outlined in the thought of St. Thomas Aquinas.

In Cold Blood Truman Capote 2013-02-19 Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

[Global Guidelines for the Prevention of Surgical Site Infection](#) World Health Organization 2017-01-27 Surgical site infections are caused by bacteria that get in through incisions made during surgery. They threaten the lives of millions of patients each year and contribute to the spread of antibiotic resistance. In low- and middle-income countries, 11% of patients who undergo surgery are infected in the process. In Africa, up to 20% of women who have a caesarean section contract a wound infection, compromising their own health and their ability to care for their babies. But surgical site infections are not just a problem for poor countries. In the United States, they contribute to patients spending more than 400 000 extra days in hospital at a cost of an additional US \$10 billion per year. No international evidence-based guidelines had previously been available before WHO launched its global guidelines on the prevention of surgical site infection on 3 November 2016, and there are inconsistencies in the interpretation of evidence and recommendations in existing national guidelines. These new WHO guidelines are valid for any country and suitable to local adaptations, and take account of the strength of available scientific evidence, the cost and resource implications, and patient values and preferences.

Writing and Developing Your College Textbook Mary Ellen Lepionka 2008 This is the comprehensively revised second edition of a popular professional book on textbook writing and finding one's way in the higher education publishing world—for academic authors and editors, college instructors, and instructional designers. The second edition has two new chapters on the latest industry trends—such as the pricing revolt, open access movement, and wiki-textbook phenomenon, and on the use of learning objectives to structure textbook package development. Every chapter features new sections, links, forms, models, or examples from an even greater range of college courses. Contains updated and expanded appendices, glossary entries, references, bibliography entries, and index. BISAC: Language Arts & Disciplines/Authorship and Publishing

[Understanding Deaf Culture](#) Paddy Ladd 2003-02-18 This book presents a 'Traveller's Guide' to Deaf Culture, starting from the premise that Deaf cultures have an important contribution to make to other academic disciplines, and human lives in general. Within and outside Deaf communities, there is a need for an account of the new concept of Deaf culture, which enables readers to assess its place alongside work on other minority cultures and multilingual discourses. The book aims to assess the concepts of culture, on their own terms and in their many guises and to apply these to Deaf communities. The author illustrates the pitfalls which have been created for those communities by the medical concept of 'deafness' and contrasts this with his new concept of "Deafhood", a process by which every Deaf child, family and adult implicitly explains their existence in the world to themselves and each other.

Radiological English Ramón Ribes 2006-12-02 This is an introductory book to radiological English on the basis that there are a lot of radiologists, radiology residents, radiology nurses, radiology students, and radiographers worldwide whose English level is indeterminate because their reading skills are much higher than their fluency. It is intended to help those health care professionals who need English for their work but do not speak English on a day-to-day basis.

[The Dissemination of News and the Emergence of Contemporaneity in Early Modern Europe](#) Brendan Dooley 2016-12-05 Modern communications allow the instant dissemination of information and images, creating a sensation of virtual presence at events that occur far away. This sensation gives meaning to the notions of 'real time' and of a 'present' that is shared within and among societies—in other words, a sensation of contemporaneity. But how were time and space conceived before modernity? When did this begin to change in Europe? To help answer such questions, this volume looks at the exchange of information and the development of communications networks at the dawn of journalism, when widespread public and private networks first emerged for the transmission of political news. What happened in Prague quickly reached Venice, and what happened in Naples was soon the talk of Hamburg. Gradually, enough became known about daily affairs around Europe for people to begin to think in terms of a 'shared present'. An analysis of contemporaneity adds a new dimension to the study of the origins of news and media history, as well as to the origins of a European identity. For whilst our understanding of the circulation of manuscript newsletters and printed reports has increased in recent years, much less is known about the impact of this burgeoning journalism on a pan-European scale. Each essay in this volume explores the ways in which this international impact helped foster a developing sense of contemporaneity that encompassed not just single countries, but Europe as a whole. Taken together the collection offers the first panoramic view of the way stories were born, grew and matured during their transmission from source to source, from country to country. The results published here suggest that a continent-wide network, including manuscript and print, for the transmission of stories from place to place, existed and was effective.

Hokkaido Highway Blues Will Ferguson 2003 It had never been done before. Not in 4000 years of Japanese recorded history had anyone followed the Cherry Blossom Front from one end of the country to the other. Nor had anyone hitchhiked the length of Japan. But, heady on sakura and sake, Will Ferguson bet he could do both. The resulting travelogue is one of the funniest and most illuminating books ever written about Japan. And, as Ferguson learns, it illustrates that to travel is better than to arrive.

Moral Blindness Zygmunt Bauman 2013-04-24 Evil is not confined to war or to circumstances in which people are acting under extreme duress. Today it more frequently reveals itself in the everyday insensitivity to the suffering of others, in the inability or refusal to understand them and in the casual turning away of one's ethical gaze. Evil and moral blindness lurk in what we take as normality and in the triviality and banality of everyday life, and not just in the abnormal and exceptional cases. The distinctive kind of moral blindness that characterizes our societies is brilliantly analysed by Zygmunt Bauman and Leonidas Donskis through the concept of *adiaphora*: the placing of certain acts or categories of human beings outside of the universe of moral obligations and evaluations. *Adiaphora* implies an attitude of indifference to what is happening in the world – a moral numbness. In a life where rhythms are dictated by ratings wars and box-office returns, where people are preoccupied with the latest gadgets and forms of gossip, in our 'hurried life' where attention rarely has time to settle on any issue of importance, we are at serious risk of losing our sensitivity to the plight of the other. Only celebrities or media stars can expect to be noticed in a society stuffed with sensational, valueless information. This probing inquiry into the fate of our moral sensibilities will be of great interest to anyone concerned with the most profound changes that are silently shaping the lives of everyone in our contemporary liquid-modern world.

A Winter Walk Henry David Thoreau 2018-07 A Winter Walk Henry David Thoreau New England transcendentalist Henry David Thoreau's 1843 essay "A Winter Walk" is a loving celebration of winter and walking. Thoreau vividly renders the winter season, writing of its sparkling beauty, its purity, and its stillness, and perfectly describing the warmth, coziness, and cheer to be found back at the home hearth. This short work is part of Applewood's "American Roots," series, tactile mementos of American passions by some of America's most famous writers. We are delighted to publish this classic book as part of our extensive Classic Library collection. Many of the books in our collection have been out of print for decades, and therefore have not been accessible to the general public. The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature, and our view is that this is a significant literary work, which deserves to be brought back into print after many decades. The contents of the vast majority of titles in the Classic Library have been scanned from the original works. To ensure a high quality product, each title has been meticulously hand curated by our staff. Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work. We hope that you will enjoy this wonderful classic work, and that for you it becomes an enriching experience.

The Parables of Jesus Joachim Jeremias 2003 In this text, Joachim Jeremias explores the variety of ways of interpreting the parables of Jesus, including their translation; the way different audiences altered the parables Jesus told; and the role of the New Testament writers in shaping their telling of the parables. He also provides a thematic discussion of the theological messages contained within the parables.

Music Therapy Leslie Bunt 2014-04-24 Music therapy is recognised as being applicable to a wide range of healthcare and social contexts. Since the first edition of *Music Therapy: An art beyond words*, it has extended into areas of general medicine, mainstream education and community practice. This new edition revises the historical and theoretical perspectives and recognises the growing evidence and research base in contemporary music therapy. Leslie Bunt and Brynjulf Stige document the historical evolution of music therapy and place the practice within seven current perspectives: medical, behavioural, psychoanalytical, humanistic, transpersonal, culture-centred and music-centred. No single perspective, individual or group approach is privileged, although the focus on the use of sounds and music within therapeutic relationships remains central. Four chapters relate to areas of contemporary practice across different stages of the lifespan: child health, adolescent health, adult health and older adult health. All include case narratives and detailed examples underpinned by selected theoretical and research perspectives. The final two chapters of the book reflect on the evolution of the profession as a community resource and the emergence of music therapy as an academic discipline in its own right. A concise introduction to the current practice of music therapy around the world, *Music Therapy: An art beyond words* is an invaluable resource for professionals in music therapy and music education, those working in the psychological therapies, social work and other caring professions, and students at all levels.

The ABC of Enlightenment Osho 2011-03-14 The inner world needs its own vocabulary, and Osho is a master of creating a language to describe experiences of the inner world that is simple, unpretentious and clear. 'The ABC of Enlightenment' is not just a dictionary but a book on life itself. It contains concise quotes by Osho on a large variety of topics. For those who are unfamiliar with him, this is an easy introduction to his way of life and also an entertaining reference book. From 'Absolute' to 'Zen' Osho is never at lack of profoundness and both traditional and contemporary issues are redefined and reinterpreted for a contemporary understanding.

In Other Words Jhumpa Lahiri 2017-01-19 On a post-college visit to Florence, Pulitzer Prize-winning author Jhumpa Lahiri fell in love with the Italian language. Twenty years later, seeking total immersion, she and her family relocated to Rome, where she began to read and write solely in her adopted tongue. A startling act of self-reflection, *In Other Words* is Lahiri's meditation on the process of learning to express herself in another language—and the stunning journey of a writer seeking a new voice.
