L'Unione Europea e il Mediterraneo AA. VV. 2018-01-30T00:00:00+01:00 1581.30

Politiche dell'Unione Europea e diritto dell'economia Eugenio Picozza 2013-06-04 Il volume rappresenta il primo tentativo di illustrare in modo organico e dettagliato, settore per settore, le politiche pubbliche dell'Unione Europea, unitamente a puntuali riferimenti alla loro recezione e/o trasposizione nell'ordinamento giuridico italiano. Esso contiene anche un'ampia e circostanziata introduzione sul concetto e sull'ambito di applicazione delle politiche comunitarie, nonché un'approfondita analisi della nuova legge generale n. 234 del 2012 sugli obblighi e relativi adempimenti derivanti allo Stato italiano dalla partecipazione all'Unione Europea. Pensato come ideale complemento del manuale "Diritto dell'economia" di Eugenio Picozza e Vincenzo Ricciuto (Giappichelli, Torino, 2013), facente parte della collana Trittico giuridico, appare uno strumento ideale e particolarmente utile per studiosi, operatori professionali e magistrati, che abbiano l'esigenza di approfondire lo stato della normativa comunitaria e nazionale nei settori di azione dell'Unione Europea e le principali problematiche applicative ad essi inerenti.

Mediated discourse at the European Parliament: Empirical investigations Marta Kajzer-Wietrzny 2022-08-29 The purpose of this book is to showcase a diverse set of directions in empirical research on mediated discourse, reflecting on the state-of-the-art and the increasing intersection between Corpus-based Interpreting Studies (CBIS) and Corpus-based Translation Studies (CBTS). Undeniably, data from the European Parliament (EP) offer a great opportunity for such research. Not only does the institution provide a sizeable sample of oral debates held at the EP together with their simultaneous interpretations into all languages of the European Union. It also makes available written verbatim reports of the original speeches, which used to be translated. From a methodological perspective, EP materials thus guarantee a great degree of homogeneity, which is particularly valuable in corpus studies, where data comparability is frequently a challenge. In this volume, progress is visible in both CBIS and CBTS. In interpreting, it manifests itself notably in the availability of comprehensive transcription, annotation and alignment systems. In translation, datasets are becoming substantially richer in metadata, which allow for increasingly refined multi-factorial analysis. At the crossroads between the two fields, intermodal investigations bring to the fore what these mediation modes have in common and how they differ. The volume is thus aimed in particular at Interpreting and Translation scholars looking for new descriptive insights and methodological approaches in the investigation of mediated discourse, but it may be also of interest for (corpus) linguists analysing parliamentary discourse in general.

Fifteen into one? Wolfgang Wessels 2018-07-30 This electronic version has been made available under a Creative Commons (BY-NC-ND) open access license. This book takes up traditional approaches to political science. It aims to offer a mixture of conventional and specific analyses and insights for different groups of readers. In view of the European Union's multi-level and multi-actor polity, the book highlights the complex procedural and institutional set-up of nation states preparing and implementing decisions made by the institutions of the European Community (EC). In looking at the emerging and evolving realities of the European polity, it shows how European institutions and Member States (re-)act and interact in a new institutional and procedural set-up. It explores how governmental and non-governmental actors in different national settings adapt to common challenges, constraints and opportunities for which they are mainly themselves responsible. The book discusses the Belgian policy toward European integration as a significant demonstration of its commitment to multilateralism and international co-operation in security and economic affairs. Attitudes to European integration in Denmark, Germany, Finland, Greece, and Spain are discussed. Tendencies towards 'Europeanisation' and 'sectoralisation' of the ministerial administration during the process of European integration and the typical administrative pluralism of the Italian political system seem to have mutually reinforced each other. Strong multi-level players are able to increase their access and influence at both levels and to use their position on one level for strengthening their say on the other. German and Belgian regions might develop into these kinds of actors. A persistent trend during the 1990s is traced towards stronger national performers, particularly in terms of adaptations and reactions to Maastricht Treaty.

L'attuazione delle politiche dell'Unione europea a livello regionale e locale - e-Book RASPADORI FABIO 2021-04-09 Le Regioni e gli Enti locali sono da tempo una componente naturale del panorama sociale europeo. Il nostro continente, infatti, molto più di quanto si possa dire per altre aree geografiche, presenta una forte connotazione territoriale, e questo in termini: sociali, culturali, etnici, economici ed anche politici. Questa ultima componente è stata, ed in parte lo è ancora, alla base di una forte conflittualità interna rinvenibile in molti Stati del vecchio continente. L'Unione europea si è inserita in questo delicato confronto svolgendo un ruolo duplice ed apparentemente contraddittorio. Da una parte, ha rafforzato le identità regionali e dall'altra, ne ha "irreggimentato" le dinamiche. Il risultato, raggiunto da ultimo con l'entrata in vigore del Trattato di Lisbona del 2009, è un'ulteriore emersione della componente territoriale nel percorso unionista, alla quale ha è corrisposto un conseguente consolidamento anche sul piano interno. Il volume "L'attuazione delle politiche dell'Unione europea a livello regionale e locale" indaga alcuni aspetti di questo interessante processo, che non sembra aver esaurito la sua spinta propulsiva. I contributi presentati dimostrano come gli enti territoriali, oltre a proporsi quali attori - se non protagonisti, sicuramente non più semplici comparse - della Governance multilivello europea, svolgono compiti che appaiono indispensabili ad assicurare un'effettiva realizzazione degli obiettivi che le istituzioni europee puntano a raggiungere. Come risulta, in particolare, guardando alla politica ambientale ed energetica unionista e alla complessa azione europea volta ad innalzare la qualità della regolamentazione, sia sul piano europeo che su quello interno. Anche nel campo delle politiche a favore dell'occupazione e dello sviluppo economico, l'Unione, pur rimanendo priva di strumenti che le consentano di imporre percorsi comuni, trova nelle Regioni e negli Enti locali dei soggetti particolarmente attenti e ricettivi agli stimoli che provengono dall'Europa. Ambiente ed energia; Better regulation e trasparenza; politiche per l'occupazione, lo sviluppo e l'innovazione corrispondono alle tematiche sulle quali si sono incentrati gli studi e le attività didattiche durante i tre anni della Cattedra Jean Monnet (2017-2020), della quale questa opera costituisce il risultato finale.

The History of the European Union Giuliano Amato 2019-02-07 The European Union celebrated its 60th anniversary in 2017, but celebrations were muted by Brexit and the growing sense of a crisis of identity. However, as this seminal work shows, the history and ambition of the European Union are considerable. Written by key stakeholders who, between them, acted as architects, adjudicators and arbitrators of the project, it presents the definitive history of the first two generations of the European Union. This book revisits the birth and consolidation of the great project of a united Europe and the political, institutional, judicial and economical frameworks of the European Union: from the process towards integration, to the advancements and the impasses in building a political union.

Treaty on the Functioning of the European Union - A Commentary Hermann-Josef Blanke 2021-05-31 The Commentary on the Treaty on the Functioning of the European Union (four volumes) is a major European project that aims to contribute to the development of ever closer conceptual and dogmatic standpoints with regard to the creation of "Europeanised research on Union law". Following on from the Commentary on the Treaty of the European Union, this book presents detailed explanations, article by article, of all the provisions of the TFEU, discussing the application of Union law in the national legal orders and its interpretation by the Court of Justice of the EU. The authors are academics and practitioners from twenty-eight European states and different legal fields, some from a constitutional law background, others experts in the field of international law and EU law. Reflecting the various approaches to European legal culture, this book promotes a system concept of European Union law toward more unity notwithstanding its rich diversity grounded in national traditions.

The Oxford Handbook of European Islam Jocelyne Cesari 2015 For centuries, Muslim countries and Europe have engaged one another through theological dialogues, diplomatic missions, political rivalries, and power struggles. In the last thirty years, due in large part to globalization and migration from Islamic countries to the West, what was previously an engagement across national and cultural boundaries has increasingly become an internalized encounter within Europe itself. Questions of the Hijab in schools, freedom of expression in the wake of the Danish Cartoon crisis, and the role of Shari'a have come to the forefront of contemporary European discourse. The Oxford Handbook of European Islam is the first collection to present a comprehensive approach to the multiple and changing ways Islam has been studied across European countries. Parts one to three address the state of knowledge of Islam and Muslims within a selection of European countries, while presenting a critical view of the most up-to-date data specific to each country. These chapters analyze the immigration cycles and policies related to the presence of Muslims, tackling issues such as discrimination, post-colonial identity, adaptation, and assimilation. The thematic chapters, in parts four and five, examine secularism, radicalization, Shari'a, Hijab, and Islamophobia with the goal of synthesizing different national discussion into a more comparative theoretical framework. The Handbook attempts to balance cutting edge assessment with the knowledge that the content itself will eventually be superseded by events. Featuring eighteen newly-commissioned essays by noted scholars in the field, this volume will provide an excellent resource for students and scholars interested in European Studies, immigration, Islamic studies, and the sociology of religion.

Immigration Detention in the European Union Izabella Majcher 2020-03-04 This book offers a unique comparative assessment of the evolution of immigration detention systems in European Union member states since the onset of the "refugee crisis." By applying an analytical framework premised on international human rights law in assessing domestic detention regimes, the book reveals the extent to which EU legislation has led to the adoption of laws and practices that may disregard fundamental rights and standards. While emphasizing policies and laws adopted in response to the "refugee crisis," the volume also shows how these policies have evolved—and in many cases grown more restrictive—even as the "crisis" has begun to recede from the borders of many European countries. To sharpen awareness of contrasting developments across the region, the book's country chapters are organised into geographic sections that reveal how variations in migration pressures have in some cases resulted in contrasting detention practices even as the EU directives have sought to harmonise immigration laws. A critical focus of the book are the evolving domestic norms related to grounds for detention, length of detention, non-custodial "alternatives to detention," the treatment of children, and conditions of detention. With its systematic and comparative assessment of immigration detention regimes across the EU, the book will be helpful for both academics and practitioners who seek a comprehensive guide to the evolution of one of today's more important human rights dilemmas—states' efforts to control global migration.

Urban Regeneration and Community Empowerment Through ICTs Francesca De Filippi 2022-08-10 This book deals with the issue of Digital Participatory Platforms (DPPs) for urban governance. It explains the role and potential that ICTs play in the decision-making processes of the Public Administration and citizens' participation. The book also illustrates the main technologies that encourage innovation and social inclusion, with particular focus on use of DPPs in urban regeneration programs and projects. It presents international best practices from local to European level and it describes the process of creation, development and testing of a DPP project with reference to the Italian case. The book is divided into three parts: the first one gives a framework of neighborhood urban and civic engagement through ICTs, studying in depth the role of ICTs in support of Public Administration's processes and citizens participation; the second part investigates the topic of Digital Participatory Platforms (DPPs) with the description of their potentialities, the presentation of some international best practices and a specific focus on the Italian context; the third part draws the conclusions of this path by asking which are the main challenges in the adoption of Digital Participatory Platforms, in order to increase citizen participation and collaboration via technology.

L'Europa sicura Serena Giusti 2021-05-07T00:00:00+02:00 A cinquant'anni dalla firma dei Trattati di Roma, l'Unione Europea ha contribuito a creare uno spazio di sicurezza e stabilità, realizzando così l'obiettivo primario di pace e sviluppo perseguito dai sei Stati fondatori. Gli Stati membri sono ora ventisette e, attraverso l'allargamento a Est, le istituzioni comunitarie hanno ricomposto le profonde fratture prodotte dalla Guerra fredda. Negli stessi anni in cui si faceva carico dell'unificazione, l'Unione Europea si trovava impreparata di fronte a vecchie e nuove minacce: le guerre in Jugoslavia e Kosovo, le ripetute crisi in Medio Oriente, fino agli attentati terroristici a Madrid e Londra. Di fronte a sfide così vicine e urgenti, quali sono le potenzialità dell'Unione come security provider? Come superare i limiti di un apparato istituzionale macchinoso e ancora dominato da interessi nazionali contrastanti? E se anche l'Europa diventasse più forte e assertiva, come cambierebbero i suoi rapporti con il resto del mondo? Il volume risponde a queste domande attraverso la descrizione delle politiche finora messe in atto dall'Unione e l'analisi critica e puntuale dei successi e fallimenti dell'Unione Europea nel settore della sicurezza.

Refuge in a Moving World Elena Fiddian-Qasimiyeh 2020-07-17 *Refuge in a Moving World* draws together more than thirty contributions from multiple disciplines and fields of research and practice to discuss different ways of engaging with, and responding to, migration and displacement. The volume combines critical reflections on the complexities of conceptualizing processes and experiences of (forced) migration, with detailed analyses of these experiences in contemporary and historical settings from around the world. Through interdisciplinary approaches and methodologies - including participatory research, poetic and spatial interventions, ethnography, theatre, discourse analysis and visual methods - the volume documents the complexities of refugees' and migrants' journeys. This includes a particular focus on how people inhabit and negotiate everyday life in cities, towns, camps and informal settlements across the Middle East and North Africa, Southern and Eastern Africa, and Europe.

The Palgrave Handbook of National Parliaments and the European Union C. Neuhold 2016-04-30 This handbook offers a comprehensive picture of the European activities of national parliaments in all 28 member states of the European Union. In the aftermath of the Lisbon Treaty, it assesses the extent to which national legislatures actually matter in European governance.

The Treaty on European Union (TEU) Hermann-Josef Blanke 2013-11-26 The major Commentary on the Treaty on European Union (TEU) is a European project that aims to contribute to the development of ever closer conceptual and dogmatic standpoints with regard to the creation of a "Europeanised research on Union law". This publication in English contains detailed explanations, article by article, on all the provisions of the TEU as well as on several Protocols and Declarations, including the Protocols No 1, 2 and 30 and Declaration No 17, having steady regard to the application of Union law in the national legal orders and its interpretation by the Court of Justice of the EU. The authors of the Commentary are academics from ten European states and different legal fields, some from a constitutional law background, others experts in the field of international law and EU law professionals. This should lead to more unity in European law notwithstanding all the legitimate diversity. The different traditions of constitutional law are reflected and mentioned by name thus striving for a common framework for European constitutional law.

Observing Eurolects Laura Mori 2018-12-15 Focusing on the multi-faceted topic of Eurolects, this volume brings together knowledge and methodologies from various disciplines, including sociolinguistics, legal linguistics, corpus linguistics, and translation studies. The legislative varieties of eleven EU official and working languages (Dutch, English, Finnish, French, German, Greek, Italian, Latvian, Maltese, Polish, Spanish) are analyzed using corpus methodologies in order to investigate the variational dynamics and translation-induced patterns of the different languages. The underlying assumption is that, within the sociolinguistic continua of the EU languages, it is possible to single out specific legislative varieties (Eurolects) that originate at a supra-national level. This research hypothesis is strongly supported by the empirical findings derived from detailed corpus analyses of each language. This work represents the first systematic and comprehensive linguistic research conducted on a wide range of EU languages using the same protocol and applying corpus methodologies to the extensive Eurolect Observatory Multilingual Corpus.

Asylum Determination in Europe Nick Gill 2018-01-01 Drawing on new research material from ten European countries, *Asylum Determination in Europe: Ethnographic Perspectives* brings together a range of detailed accounts of the legal and bureaucratic processes by which asylum claims are decided. The book includes a legal overview of European asylum determination procedures, followed by sections on the diverse actors involved, the means by which they communicate, and the ways in which they make life and death decisions on a daily basis. It offers a contextually rich account that moves beyond doctrinal law to uncover the gaps and variances between formal policy and legislation, and law as actually practiced. The contributors employ a variety of disciplinary perspectives - sociological, anthropological, geographical and linguistic - but are united in their use of an ethnographic methodological approach. Through this lens, the book captures the confusion, improvisation, inconsistency, complexity and emotional turmoil inherent to the process of claiming asylum in Europe.

The Consequences of the Crisis on European Integration and on the Member States Stelio Mangiameli 2017-02-23 The book examines the economic crisis in the European Union and its consequences for European integration and the member states. Discussing the provisions introduced by the Treaty of Lisbon, from the effects of macroeconomic monitoring to the restraints produced by the Fiscal Compact, it offers an analysis of the European Union's current situation and the effects of the measures adopted to manage the crisis, also making reference to how Europe is perceived by its citizens. Moreover, the chapters offer thoughts on the European integration process, in particular the effects that the policies adopted to tackle the crisis have had on the economic and financial sovereignty of the member states. This detailed examination of the situation of the EU between the Treaty of Lisbon and the Fiscal Compact is characterized by an original multidisciplinary approach that offers an articulate reflection on the criticalities that affect the actions of both European and national institutions.

Italy in the European Union Sergio Fabbrini 2008 Based on an analytical evaluation of both the weaknesses and strengths of the Italian political system, *Italy in the European Union* is the first book to offer a detailed and comprehensive description of Italy's contribution to European Union policy-making. The contributors to this volume systematically explore the role played by Italian institutional and noninstitutional actors in several decision-making processes. They show how Italian institutional actors define and promote national policy preferences that are compatible with those of the other European member states. However, the book functions on two levels: it is both a nuanced picture of Italy's role in the EU and a study of the EU as it has been transformed by subsequent waves of enlargement. In a compound polity of twenty-seven member states the formation of stable hegemonic coalitions is implausible-the concept of national interest, which still informs much of the literature on the EU, is logically and empirically unusable in many EU policy realms. Combining empirical investigation and theoretical analysis, this book is indispensable for scholars, students, and practitioners who study or observe Italian politics. It is also necessary for those who want to understand the transformation of European politics and the European Union's increasing development as a compound polity. Contributions by: Marco Brunazzo, Maurizio Carbone, Sabrina Cavatorto, Vincent Della Sala, Alessia Donà, Sergio Fabbrini, Paolo Foradori, Giorgio Giraudi, Renata Lizzi, Simona Piattoni, Paolo Rosa, Stefano Sacchi, Alberta M. Storia e politica dell'Unione europea Paolo Cacace 2013-03-07T00:00:00+01:00 Dopo la bocciatura della costituzione europea, in seguito ai referendum francese e olandese, il libro ricostruisce la ricerca di una alternativa e, dopo la firma del Trattato di Lisbona, il defatigante processo di ratifica. Particolare attenzione è riservata alle vicende della crisi globale e al suo impatto sulle finanze e l'economia dei Paesi membri. Una crisi che ha rivelato le debolezze dell'Unione, ma anche la sua capacità di cercare nuove soluzioni e di creare nuove istituzioni, e che l'ha posta di fronte a una scelta ineludibile tra la rinuncia definitiva al sogno dei suoi fondatori e la ripresa di un cammino verso un'ulteriore integrazione secondo un modello diverso da quello delle origini, ma questa volta al sicuro da ogni arretramento. Una storia della vicenda europea fin dalle sue origini, dunque, che con questa nuova edizione si arricchisce degli ultimi otto anni di vita dell'Unione, tra i più complessi, gli anni che ci hanno fatto temere un suo inevitabile declino.

Digital Resources, Creativity and Innovative Methodologies in Language Teaching and Learning Adriana Teresa Damascelli 2017-06-20 The concept of university language centres has changed in recent decades. Initially conceived as laboratories for practical and autonomous language-learning, they are now considered as places with more specific and complex functions in language teaching and learning. University language centres now constitute networks for exchanging knowledge and know-how in order to respond to ever-changing, multilingual and multicultural contexts. At the same time, the availability and acquisition of new technologies is contributing to the creation of new tools for the provision of appropriate services and training. This collection covers a wide range of topics related to the activities, experiences and applied research carried out in Italian university language centres. It provides further evidence of the important role university language centres play in promoting language expertise, developing tools and adopting digital resources, and providing support and training for language teaching. Technology, creativity, methodologies and plurilingualism are key topics in the book as they constitute the essential ingredients for effective and successful language teaching and learning. The volume's thirty-three chapters provide multi-perspective approaches, showing how the real contexts of current language education need the integration of theoretical backgrounds with the best practices resulting from practical experience.

European Democratic Institutions and Administrations Francesco Merloni 2018-09-03 This book presents the results of extensive international comparative research into the effects of the economic and financial crisis on democratic institutions and social cohesion policies. The collected studies describe and analyse the measures (often referred to as "reforms") adopted to counter the crisis and the effects of these measures. It investigates three areas: the impact on the functioning of institutions, with respect to the relationship between representative institutions and governments, and the organisational structure of administrations at national and local levels; the impact that the austerity policies on public spending have on social rights; and the impact on traditional instruments of public action (administrative simplification, public services delivering, the use of common assets). The general findings highlight the effect of reducing the administrative and government capacity of the democratic institutions: the public sector, rather than being innovative and made more effective, declines, offering increasingly poor public services and making bad decisions, fuelling substantive or formal privatisation solutions, which in turn cause further weakening.

Crisis and Post-Crisis in Rural Territories Fatma Nil Döner 2020-08-31 This book sheds light on the effects of the financial and economic crisis in a diverse set of countries of Southern and Mediterranean Europe. Drawing on case studies from Greece, Italy, Portugal, Spain, and Turkey, this book presents a broad and integrative perspective on the impact of the crisis in different rural territories, discussing the similarities and dissimilarities of those impacts together with the resilience strategies adopted in each context. The impacts of the crisis in rural restructuring processes are also taken in consideration in this volume. Based on diverse theoretical and methodological approaches, the book discusses the challenges presented by the new socioeconomic contexts emerging from the crisis, as well as the resilience strategies adopted in rural territories by old and new actors. The book compiles nine empirical chapters dealing with the different cases and a final chapter devoted to the discussion of the shared and dissimilar processes of rural change. This book is a useful and valuable resource for scholars and post-graduate students from different disciplines, such as rural sociology, geography, anthropology, regional planning and agricultural studies.

Dizionario storico dell'integrazione europea AA.VV. 2018-06-08T00:00:00+02:00 Il Dizionario storico dell'integrazione europea (Dizie) è diviso in tre sezioni: la prima riguarda gli Stati membri dell'Unione europea, i paesi candidati all'adesione e quelli che hanno deciso di lasciare l'Unione; la seconda contiene un'ampia rassegna delle figure storiche e dei personaggi più rilevanti del processo di integrazione europea e della più recente vita politica dell'Unione europea; la terza infine riguarda le istituzioni, le normative e le politiche comunitarie Paesi La prima sezione contiene le voci che si riferiscono ai singoli paesi, volte a ripercorrere gli snodi fondamentali dell'iter di integrazione seguito da ciascuno di essi. Particolare attenzione è dedicata alla storia e ai dibattiti avvenuti in seno ai vari paesi, così come alle loro posizioni rispetto alle prospettive di allargamento e di integrazione. Personaggi La seconda sezione riguarda le biografie dei principali attori politici e diplomatici. Oltre alle vicende politiche e istituzionali dei padri fondatori delle Comunità europea, particolare attenzione è dedicata alle biografie di quei diplomatici, funzionari comunitari, uomini politici, intellettuali e pubblicisti, la cui storia personale si è variamente intrecciata con il processo di integrazione. Istituzioni, normative e politiche europee Nella terza sezione sono analizzati il funzionamento delle istituzioni, le normative e politiche comunitarie. Nelle voci ivi contenute, si ripercorrono i passaggi chiave che dai progetti di cooperazione internazionale hanno portato alla firma dei primi trattati e alle prime convenzioni. L'attenzione è rivolta quindi ai progetti di creazione di un'Assemblea costituente europea, alla nascita del Consiglio d'Europa e agli avvenimenti che hanno spinto gli Stati europei coinvolti a trasferire poteri e competenze a organismi sovranazionali. La nascita della Comunità europea del carbone e dell'acciaio (CECA), il fallimento della Comunità europea di difesa (CED), i trattati della Comunità economica europea (CEE) e della Comunità europea dell'energia atomica (CEEA o EURATOM) costituiscono il filo conduttore della ricostruzione proposta. Essa, inoltre, prenderà in considerazione la fusione degli organi esecutivi di queste istituzioni nonché l'analisi del contesto storico in cui furono presentate le prime domande di adesione che portarono all'ampliamento del gruppo dei fondatori, fino a includere gli odierni candidati. Il significato delle elezioni a suffragio universale diretto del Parlamento europeo, l'entrata in vigore del Sistema monetario europeo (SME), la firma dell'Atto unico europeo (AUE), il trattato di Maastricht, i referendum sulle ratifiche del trattato sull'Unione europea (UE), il trattato di Amsterdam, i vertici di Nizza e Lacken, il trattato di Lisbona sono presentati nell'ambito di un prospetto unitario che permetterà al lettore di cogliere gli elementi di continuità e rottura, i progressi compiuti e le battute d'arresto nel lungo percorso della costruzione dell'Europa unita.

Diritti fondamentali e politiche dell'Unione Europea dopo Lisbona Stefano Civitarese Matteucci 2013 Interrogarsi oggi sul ruolo dei diritti fondamentali e delle politiche europee dopo la revisione di Lisbona è operazione indispensabile alla comprensione di quale strada stia prendendo il processo d'integrazione europea, non solo alla luce delle importanti novità che essa introduce, ma anche in considerazione delle ripercussioni che derivano dagli avvenimenti occorsi, a livello mondiale, tra la fine del secolo scorso e l'inizio del nuovo millennio, sull'integrazione e soprattutto sulle politiche dell'Unione. La crisi ha reso, se possibile, ancora più attuale l'interrogativo sulla costruzione dell'Unione europea a partire dai diritti, prospettiva che potrebbe essere considerata, per così dire, parte del suo genoma, se è vero che sotto il profilo della cultura giuridica europeo-occidentale l'affermazione dei diritti nel corso degli ultimi due secoli ha assunto una portata rivoluzionaria. Dalla più recente tappa dell'evoluzione della storia europea dei diritti, la "costituzionalizzazione" della Carta di Nizza, ci si attende, allora, soprattutto un avanzamento sul piano del rapporto tra i diritti di prima generazione - funzionali all'obiettivo del mercato interno - e quelli sociali. E in fondo questa è la chiave di lettura più interessante perché spiega le persistenti tensioni esistenti tra la dimensione dei diritti fondamentali di scala costituzionale nazionale e quella dei diritti riconosciuti (anche) al livello dell'Unione --

Cultural Heritage, Sustainable Development and Human Rights Laura Pineschi 2023-12-04 The importance of cultural heritage - in both its tangible and intangible forms - to sustainable development and its economic, social and environmental components is increasingly evident in the recent practice of intergovernmental and non-governmental organizations at the universal and regional level. Due consideration for the

integration of the cultural dimension in the implementation of Agenda 2030 has begun to grow in various international fora, including initiatives to emphasize the role and contribution of tangible and intangible heritage as drivers and enablers of sustainable development. It has also been recognized that the inherent links between cultural heritage and sustainable development cannot be correctly addressed without taking into account their various implications for the effective enjoyment of all human rights, including cultural rights. This book offers a thorough academic investigation on the importance of cultural heritage to sustainable development and cultural rights from an international law perspective. Providing an in-depth review of the possible intersections between cultural heritage, sustainable development and cultural rights and the limits of the current legal and institutional framework, it will be of interest to researchers and scholars of international law, cultural heritage law, environmental law and human rights law.

European Governance G. P. E. Walzenbach 2006 Confronting sophisticated theoretical reasoning with the actual realities of policy-making, this book is essential reading for all those interested in the risks and opportunities of a comparative-interdisciplinary approach to European governance.

The Amsterdam Treaty Finn Laursen 2002 This publication examines the Amsterdam Treaty negotiated by the Intergovernmental Conference 1996-1997. It looks at the preferences of the main actors, the Member States, the Commission and the European Parliament, as well as the negotiation process that produced the Treaty. The book includes chapters on each of the main actors as well as the most important substantive issues: the changes in the Union's first pillar, mainly in respect to environment and employment policies, changes in the second pillar, the Common Foreign and Security Policy, the creation of a new Area of Freedom, Security and Justice, as well as the introduction of new provisions on "closer cooperation" or flexibility. Concluding chapters seek to confront the Treaty reform process with leading integration theories.
