Development and Religion Matthew Clarke 2011-01-01 Development and Religion explores how the world's five major religions Hinduism, Buddhism, Judaism, Christianity and Islam understand and practice development through an examination of their sacred texts, social teaching and basic beliefs. Religious belief is a common human characteristic with eighty percent of the world's population professing religious faith. Observable in all societies, religious belief is pervasive, profound, persuasive and persistent. The premise of this book is that despite this, religion has long been ignored within mainstream development paradigms and by development practitioners (both locally and at the international level) resulting in sub-optimal development outcomes. Matthew Clarke argues that each religion offers useful insights into various issues concerning development that should be considered by donors, NGOs, and others seeking to improve the lives of the poor. Undergraduate and postgraduate students of development studies, religious studies and theology will gratefully welcome this highly regarded book.

An Introduction to the Study of Some Living Religions of the East (Classic Reprint) Sydney Cave 2018-03-04 An Introduction to the Study of Some Living Religions of the East is a textbook by author Sydney Cave, who lived amongst Hindus for many years of his life and intimately studied other

Eastern religions. He intended this work to be a beginner's guide to the study of non-Christian religions. Cave has divided this textbook into five sections, each discussing a separate religion or religions. Hinduism, Zoroastrianism, Buddhism, Confucianism, Taoism, and Islam are all explored in depth in this book. The author follows a similar path for each section of the book. Each religion is introduced with a focus on its history and core beliefs. Important religious figures are discussed, with a focus on the spiritual significance of these individuals. The societies where these religions are practiced are also analyzed, helping to add some much needed social context to the discussion. As a primer on the non-Christian religions, Sydney Cave's book is largely a success. The reader with little or no knowledge of the religions discussed will certainly find themselves with a greater understanding of the world's religions upon conclusion of this book. The author's style is eminently readable, with clear, concise prose lending an air of authority to the text. His section on Hinduism, the religion in which Cave is most knowledgeable, is probably the highlight of the book and is certainly the most thorough. An Introduction to the Study of Some Living Religions of the East is a terrific guide for those interested in learning about the world's religions. Any student of religious studies will find this to be a valuable text, as will anybody else with an interest in learning more about the belief systems of the people that surround them. Religion in the Classroom Jennifer Hauver James 2014-11-13 Dilemmas surrounding the role for religious beliefs and experiences permeate the school lives of teachers and teacher educators. Inspired by the need for teachers and students to more fully understand such dilemmas, this book examines the relationship between religion and teaching/learning in a democratic society. Written for pre-service and in-service teachers, it will engage readers in thinking about how their own religious backgrounds affect their teaching; how students' religious backgrounds influence their learning; how common experiences of school and classroom life privilege some religions at the expense of others; and how students can better understand diverse religious beliefs and interact with people from other backgrounds. The focus is specifically on classroom issues related to religious understandings and experiences of teachers and students, and the implications of those for developing democratic citizens. Grounded in both research and personal experience, each chapter provides thought-provoking evidence related to the role of religion in schools and society and asks readers to consider the consequences of varied ways of responding to the dilemmas posed.

Faith Ed Linda K. Wertheimer 2016-08-23 An intimate cross-country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth-grade field trip. The class was visiting a mosque to learn about world religions when a handful of boys, unnoticed by their teachers, joined the line of worshippers and acted out the motions of the Muslim call to prayer. A video of the prayer went viral with the title "Wellesley, Massachusetts Public School Students Learn to Pray to Allah." Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren. Wellesley school officials defended the course, but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom. Courts long ago banned public school teachers from preaching of any kind. But the question remains: How much should schools teach about the world's religions? Answering that question in recent decades has pitted schools against their communities. Veteran education journalist Linda K. Wertheimer spent months with that class, and traveled to other communities around the nation, listening to voices on all sides of the controversy, including those of clergy, teachers, children, and parents who are Muslim, Jewish, Christian, Sikh, or atheist. In Lumberton, Texas, nearly a hundred people filled a school-board meeting to protest a teacher's dress-up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam. In Wichita, Kansas, a Messianic Jewish family's opposition to a bulletin-board display about Islam in an elementary school led to such upheaval that the school had to hire extra security. Across the country, parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths. But in Modesto, a city in the heart of California's Bible Belt, teachers have avoided problems since 2000, when the school system began requiring all high school freshmen to take a world religions course. Students receive comprehensive lessons on the three major world religions, as well as on Sikhism, Hinduism, Buddhism, and often Shintoism, Taoism, and Confucianism. One Pentecostal Christian girl, terrified by "idols," including a six-inch gold Buddha, learned to be comfortable with other students' beliefs. Wertheimer's fascinating investigation, which includes a return to her rural Ohio school, which once ran weekly Christian Bible classes, reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans.

A Short Introduction to Hinduism Klaus K. Klostermaier 1998 This book is a clear, accessible and comprehensive presentation of Hinduism as a living faith, a religion that boasts over 800 million

adherents. So immense in variety is the Hindu tradition and so ancient its origins, that composing an introduction to the subject could be a daunting task. Klostermaier, however, an accomplished expert in the field, succeeds in presenting the key features of the Hindu religion succinctly and informatively. The text includes chapters on: the diversity of religions within the different Hindu communities; the Hindu philosophical quest; the cultural and sociological framework provided by the Vedic tradition; the place of Hinduism among other religions. For individuals seeking to understand what is known as "Hinduism", for followers and students alike, this has to be one of the first books to read on the subject. - Back cover.

Living Our Religions Anjana Narayan 2009 The population of the South Asian Diaspora in the US is over 2.5 million people. Yet in a post 9/11 climate of opinion, little is known about this group beyond images of Muslim and Hindu fundamentalists and terrorists. This is particularly true of women where simplistic assumptions about veils and subordination obscure the voices of the women themselves. Rarely are Hindu and Muslim American women—many of whom are social workers, physicians, lawyers, academics, students, homemakers—asked about their everyday lives and religious beliefs. Living our Religions brings out these hidden stories from South Asian American women of Bangladeshi, Pakistani, Indian and Nepali origin. Their accounts show how diverse and culturally dynamic religious practices emerge within the intersection of histories and politics of specific locales. The authors describe the race, gender, and ethnic boundaries they encounter; they also document how they resist and challenge these boundaries. Living our Religions cuts through the myths and ethnocentrism of popular portrayals to reveal the vibrancy, courage and agency of an invisible minority. Other Contributors: Shobha Hamal Gurung, Selina Jamil, Salma Kamal, Shweta Majumdar, Bidya Ranjeet, Shanthi Rao, Aysha Saeed, Monoswita Saha, Neela, Bhattacharya Saxena, Parveen Talpur, Elora Halim Chowdhury and Rafia Zakaria

Diaspora of the Gods Joanne Punzo Waghorne 2004-09-16 Many Hindus today are urban middle-class people with religious values similar to those of their professional counterparts in America and Europe. Just as modern professionals continue to build new churches, synagogues, and now mosques, Hindus are erecting temples to their gods wherever their work and their lives take them. Despite the perceived exoticism of Hindu worship, the daily life-style of these avid temple patrons differs little from their suburban neighbors. Joanne Waghorne leads her readers on a journey through this new middle-class Hindu diaspora, focusing on their efforts to build and support places of worship. She seeks to trace the changing religious sensibilities of the middle classes as written on their temples and on the faces of their gods. She offers detailed comparisons of temples in Chennai (formerly Madras), London, and Washington, D.C., and interviews temple priests, devotees, and patrons. In the process, she illuminates the interrelationships between ritual worship and religious edifices, the rise of the modern world economy, and the ascendancy of the great middle class. The result is a comprehensive portrait of Hinduism as lived today by so many both in India and throughout the world. Lavishly illustrated with professional photographs by Dick Waghorne, this book will appeal to art historians as well as urban anthropologists, scholars of religion, and those interested in diaspora, transnationalism, and trends in contemporary religion. It should be especially appealing for course use because it introduces the modern Hinduism practiced by the friends and neighbors of students in the U.S. and Britain.

World Religions Richard Viladesau 1994 Appropriate for college theology students or inquiring general readers, this anthology presents a concise history of Christian stances on other forms of belief and brief introductions to and excerpts from significant writings of the sacred books of the

great world religious traditions.
