The Gap Thomas Suddendorf 2013-11-12 There exists an undeniable chasm between the capacities of humans and those of animals. Our minds have spawned civilizations and technologies that have changed the face of the Earth, whereas even our closest animal relatives sit unobtrusively in their dwindling habitats. Yet despite longstanding debates, the nature of this apparent gap has remained unclear. What exactly is the difference between our minds and theirs? In *The Gap*, psychologist Thomas Suddendorf provides a definitive account of the mental qualities that separate humans from other animals, as well as how these differences arose. Drawing on two decades of research on apes, children, and human evolution, he surveys the abilities most often cited as uniquely human -- language, intelligence, morality, culture, theory of mind, and mental time travel -- and finds that two traits account for most of the ways in which our minds appear so distinct: Namely, our open-ended ability to imagine and reflect on scenarios, and our insatiable drive to link our minds together. These two traits explain how our species was able to amplify qualities that we inherited in parallel with our animal counterparts; transforming animal communication into language, memory into mental time travel, sociality into mind reading, problem solving into abstract reasoning, traditions into culture, and empathy into morality. Suddendorf concludes with the provocative suggestion that our unrivalled status may be our own creation -- and that the gap is growing wider not so much because we are becoming smarter but because we are killing off our closest intelligent animal relatives. Weaving together the latest findings in animal behavior, child development, anthropology, psychology, and neuroscience, this book will change the way we think about our place in nature. A major argument for reconsidering what makes us human, *The Gap* is essential reading for anyone interested in our evolutionary origins and our relationship with the rest of the animal kingdom.

Holy Anorexia Rudolph M. Bell 2014-05-09 Is there a resemblance between the contemporary anorexic teenager counting every calorie in her single-minded pursuit of thinness, and an ascetic medieval saint examining her every desire? Rudolph M. Bell suggests that the answer is yes. "Everyone interested in anorexia nervosa . . . should skim this book or study it. It will make you realize how dependent upon culture the definition of disease is. I will never look at an anorexic patient in the same way again."—Howard Spiro, M.D., *Gastroenterology* "[This] book is a first-class social history and is well-documented both in its historical and scientific portions."—Vern L. Bullough, *American Historical Review* "A significant

contribution to revisionist history, which re-examines events in light of feminist thought. . . . Bell is particularly skillful in describing behavior within its time and culture, which would be bizarre by today's norms, without reducing it to the pathological."—Mary Lassance Parthun, Toronto Globe and Mail "Bell is both enlightened and convincing. His book is impressively researched, easy to read, and utterly fascinating."—Sheila MacLeod, New Statesman

Women in Italian Renaissance Culture and Society Letizia Panizza 2017-12-02 "An impressive collection of 29 essays by British, American and Italian scholars on important historical, artistic, cultural, social, legal, literary and theatrical aspects of women's contributions to the Italian Renaissance, in its broadest sense. Many contributions are the result of first-hand archival research and are illustrated with numerous unpublished or little-known reproductions or original material. The subjects include: women and the court (Dilwyn Knox, Evelyn S Welch, Francine Daenens and Diego Zancani); women and the church (Gabriella Zarri, Victoria Primhak, Kate Lowe, Francesca Mediolini and Ruth Chavasse); legal constraints and ethical precepts (Marina Graziosi, Christine Meek, Brian Richardson, Jane Bridgeman and Daniela De Bellis); female models of comportment (Marta Ajmarm Paola Tinagli and Sara F Matthews Grieco); women and the stage (Richard Andrews, Maggie Guensbergberg, Rosemary E Bancroft-Marcus); women and letters (Diana Robin, Virginia Cox, Pamela J Benson, Judy Rawson, Conor Fahy, Giovanni Aquilecchia, Adriana Chemello, Giovanna Rabitti and Nadia Cannata Salamone)."

Earthly Paradise Milad Doueihi 2009 Paradise has shaped our poetic and religious imagination and informed literary and theological accounts of man's relation with his creator, with language and history. Doueihi contemplates the philosophical reception and uses of Paradise, marked by the rise of critical and historical methods in the Early Modern period.

The Development of the Modern State Gianfranco Poggi 1978 The institutional features and the past and future role of the state should be a central concern of contemporary sociological and political theory, but until now they have been sadly neglected. Lately, in particular, the state's increasing involvement in the management of industrial and industrializing societies has made it even more important to understand its past development, its current activities, and the related trends in its structure and in its relation to the larger society. As a contribution to this task, Gianfranco Poggi reviews the main phases in the institutional history of the modern state. Restating a typology elaborated, among others by Max Weber, he outlines first the feudal system of rule, then the late-medieval Ständestaat and the absolutist state. Next the book discusses the nineteenth-century constitutional state, seen as the most accomplished embodiment of the modern, Western state. Finally, it points out the major developments which have occurred since the end of the last century in the relationship between the state and society, and identifies the threat these pose to the persistence of Western political values. Throughout, the discussion draws upon an impressive body of literature on the modern state (much of it not available in English) from the fields of history, law, and the social sciences.

On Running for the Consulship Quintus Tullius Cicero 2015-08-31 Quintus Tullius Cicero (102 BC - 43 BC) was the younger brother of the celebrated orator, philosopher and statesman Marcus Tullius Cicero. He was born into a family of the equestrian order, as the son of a wealthy landowner in Arpinum, some 100 kilometres south-east of Rome. Cicero's well-to-do father arranged for him to be educated with his brother in Rome, Athens and probably Rhodes in 79-77 BC. He married about 70 BC Pomponia (sister of his brother's friend Atticus), a dominant woman of strong personality. He divorced her after a long disharmonious marriage with much bickering between the spouses in late 45 BC. His brother, Marcus, tried several times to reconcile the spouses, but to no avail. The couple had a son born in 66 BC named Quintus Tullius Cicero after his father. Quintus was Aedile in 66 BC, Praetor in 62 BC, and Proprætor of the Province of Asia for three years 61-59 BC. Under Caesar during the Gallic Wars, he was Legatus (accompanying Caesar on his second expedition to Britain in 54 BC and surviving a Nervian siege of his camp during Ambiorix's revolt), and under

his brother in Cilicia in 51 BC. During the civil wars he supported the Pompeian faction, obtaining the pardon of Caesar later. During the Second Triumvirate when the Roman Republic was again in civil war, Quintus, his son, and his famous brother, were all proscribed. He fled from Tusculum with his brother. Later Quintus went home to bring back money for travelling expenses. His son, Quintus minor, hid his father, and did not reveal the hiding place although he was tortured. When Quintus heard this, he gave himself up to try and save his son; however, both father and son, and his famous brother, were all killed in 43 BC, as proscribed persons.

Artemisia Anna Banti 1995-01-01 Artemisia Gentileschi, born in 1598, the daughter of an esteemed painter, taught art in Naples and painted the great women of Roman and biblical history: Esther, Judith, Cleopatra, Bathsheba. She also painted the rich and royal, but her wealthy male patrons wanted admiration while her women models wanted disguise. This woman, who had been violated in her youth and reviled as a rap victim in a public trial before going off to heretical England, who was rejected by her father and later abandoned by her husband and misunderstood by her daughter, who could not read or write but who could only paint—this woman was one of the first modern times to uphold through her work and deeds the right of women to pursue careers compatible with their talents and on an equal footing with men. Artemisia lives again in Anna Banti's novel, which was first published to critical acclaim in Italy in 1947 (Banti was the pseudonym of Lucia Lopresti, 1895-1978). Recognized as a consummate stylist, she was one of the most successful women writers in Italy before the resurgence of the feminist movement. Although Artemisia describes life in seventeenth-century Rome, Florence, and Naples, the time setting of the novel is, in a deeper sense, a historical, merging as it does the experience of a woman dead for three centuries with the terrors of World War II experienced by the author. Shirley D'Ardia Caracciolo's English translation of Banti's novel skillfully renders its complexity and poignancy as a study of courage.

Semantic Polarities and Psychopathologies in the Family Valeria Ugazio 2013-08-21 The gap between psychotherapeutic practice and clinical theory is ever widening. Therapists still don't know what role interpersonal relations play in the development of the most common psychopathologies. Valeria Ugazio bridges this gap by examining phobias, obsessive-compulsions, eating disorders, and depression in the context of the family, using an intersubjective approach to personality. Her concept of "semantic polarities" gives a groundbreaking perspective to the construction of meaning in the family and other interpersonal contexts. At no point is theory left in the wasteland of abstraction. The concreteness of the many case studies recounted, and examples taken from well-known novels, will allow readers to immediately connect the topics discussed with their own experience.

The Legal Imagination James Boyd White 1985-12-15 White extends his theory of law as constitutive rhetoric, asking how one may criticize the legal culture and the texts within it. "A fascinating study of the language of the law. . . . This book is to be highly recommended: certainly, for those who find the time to read it, it will broaden the mind, and give lawyers a new insight into their role."—New Law Journal

Pinocchio, the Tale of a Puppet Carlo Collodi 2011-02 Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!" Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing

adventures faced by Pinnocchio. It includes 40 illustrations.

Don't Tell the Grown-Ups Alison Lurie 1998-07-20 In sixteen spirited essays, Pulitzer Prize-winning novelist Alison Lurie, who is also one of our wittiest and most astute cultural commentators, explores the world of children's literature--from Lewis Carroll to Dr. Seuss, Mark Twain to Beatrix Potter--and shows that the best-loved children's books tend to challenge rather than uphold respectable adult values.

The Dialogical Self H. J. M. Hermans 1993 Contemporary research in personality, social psychology and sociology has renewed an interest in the self. This volume argues that the self may consist of multiple selves, any of which may interact with each other in a dialogical fashion. The self is presented as a non-unitary embodiment that transcends the limits of individualism and rationalism. Beginning with philosophical discussion of the self, this volume discusses the decentralization of the self in narrative psychology, the retreat of the omniscient narrator in literary sciences, the genesis of self-knowledge in children and the concept of modern society as a multiplicity of collective voices.

Nobiltà Di Dame Fabritio Caroso 1986 Fabritio Caroso was dancing master to some of the greatest princely families of Italy, and Nobiltà di dame, his sumptuous collection of ballroom dances and their music, reflects an age that believed that the person of high rank should be a work of art, uniting strength and beauty. Caroso's detailed instructions (including rules for steps, style and etiquette, and forty-eight actual choreographies) are unequalled by any contemporary manual in their specificity and clarity. Most dances are preceded by an engraving showing the opening position and illustrating many aspects of dress, posture, and gesture. A full scholarly apparatus, giving new information unavailable elsewhere, makes the book even more valuable to dancers and to students of dance and music at the junction of the Renaissance and Baroque eras.

Gender, Power and Privilege in Early Modern Europe Penny Richards 2014-07-30 Surveying court life and urban life, warfare, religion, and peace, this book provides a comprehensive history of how gender was experienced in early modern Europe. Gender, Power and Privilege in Early Modern Europe shows how definitions of sexuality and gender roles operated and more particularly, how such definitions--and the activities they generated and reflected--articulated concerns inside a given culture. This means that the volume embodies an interdisciplinary approach: literature as well as history, religious studies, economics, and gender studies form the basis of this cultural history of early modern Europe. There are new approaches to understanding famous figures, such as Elizabeth I, James VI and I and his wife Anna of Denmark; Francis I; St. Teresa of Avila. Other chapters investigate topics such as militarism and court culture, and wider groups, such as urban citizens and noble families. The collection also studies ways in which gender and sexual orientation were represented in literature, as well as examinations of the theoretical issues involved in studying history from the angle of gender.

A History of the Internet and the Digital Future Johnny Ryan 2010-09-15 A History of the Internet and the Digital Future tells the story of the development of the Internet from the 1950s to the present and examines how the balance of power has shifted between the individual and the state in the areas of censorship, copyright infringement, intellectual freedom, and terrorism and warfare. Johnny Ryan explains how the Internet has revolutionized political campaigns; how the development of the World Wide Web enfranchised a new online population of assertive, niche consumers; and how the dot-com bust taught smarter firms to capitalize on the power of digital artisans. From the government-controlled systems of the Cold War to today's move towards cloud computing, user-driven content, and the new global commons, this book reveals the trends that are shaping the businesses, politics, and media of the digital future.

Asylums Erving Goffman 2017-09-08 A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.

The Satires of Ludovico Ariosto Lodovico Ariosto 1759

Probable Truth Vincent Gillespie 2013 Editing as an academic mode of work has had a variable 'press' - it is often seen as just plumbing. But without editions no historian of whatever critical persuasion could operate. Texts that are not edited are effectively invisible. The advent of electronic means of text production has also raised new possibilities and new problems that need to be openly considered rather than ignored. The papers in this volume reflect those concerns, and explore the ways forward. How do the best editorial procedures of the past get transmitted to the future? A distinguished line-up of experienced editors and younger scholars actively grappling with these issues reflect on their engagement with the challenges of textual theory and editorial practice. No single solution emerges as applicable to all texts and for all editions; the individual characteristics of each text and its transmission, together with the intended audience of each edition, emerge as primary areas for consideration.

The Art of Good Manners Bodleian Library 2014-04-25 In taking soup do not gurgle or make throat noises. Speak well of others or not at all is a good rule. 'The Art of Good Manners' covers such topics as table manners, pronunciation, introductions, conversation, courtship and children's behaviour. It guides the reader in appropriate behaviour during each course at a dinner party and warns of possible pitfalls - 'to peel an orange, apple or pear with a fruit knife and fork requires some practice' - as well as explaining how a gentleman is expected to behave when ladies are present.

Beyond the Canon M. Grever 2007-10-11 'Beyond the Canon' deals with recent politicized processes of canonization and its implications for historical culture in a globalizing and postcolonial world. The volume discusses the framing and transmission of historical knowledge and its consequences for the construction of narratives and the teaching of history in multicultural environments.

Journeys Out of the Body Robert A. Monroe 2014-11-12 The definitive work on the extraordinary phenomenon of out-of-body experiences, by the founder of the internationally known Monroe Institute. Robert Monroe, a Virginia businessman, began to have experiences that drastically altered his life. Unpredictably, and without his willing it, Monroe found himself leaving his physical body to travel via a "second body" to locales far removed from the physical and spiritual realities of his life. He was inhabiting a place unbound by time or death. Praise for Journeys Out of the Body "Monroe's account of his travels, Journeys Out of the Body, jam-packed with parasitic goblins and dead humans, astral sex, scary trips into mind-boggling other dimensions, and practical tips on how to get out of your body, all told with wry humor, quickly became a cult sensation with its publication in 1971, and has been through many printings. Whatever their 'real' explanation, Monroe's trips made for splendid reading." —Michael Hutchinson, author of Megabrain "Robert Monroe's experiences are probably the most intriguing of any person's of our time, with the possible exception of Carlos Castaneda's." —Joseph Chilton Pierce, author of Magical Child "This book is by a person who's clearly a sensible man and who's trying to tell it like it is. No ego trips. Just a solid citizen who's been 'out' a thousand times now and wants to pass his experiences to others." —The Last Whole Earth Catalog

Contested Categories Ayo Wahlberg 2016-05-13 Drawing on social science perspectives, Contested Categories presents a series of empirical studies that engage with the often shifting and day-to-day realities of life sciences categories. In doing so, it shows how such categories remain contested and dynamic, and that the boundaries they create are subject to negotiation as well as re-configuration and re-stabilization processes. Organized around the themes of biological substances and objects, personhood and the genomic body and the creation and dispersion of knowledge, each of the volume's chapters reveals the elusive nature of fixity with regard to life science categories. With contributions from an international team of scholars, this book will be essential reading for anyone interested in the social, legal, policy and ethical implications of science and technology and the life sciences.

Our Lady of the Turks Carmelo Bene 2022-01-31 Carmelo Bene (1937-2002) was a notorious Italian actor, writer, and director who inaugurated his theater in 1959 with Camus' Caligula then exploded onto the artistic scene with his outré Christ '63. Later, he collaborated with Pasolini, Glauber Rocha, Bussotti and others as well as philosophers, like Gilles Deleuze. His novel Our Lady of the Turks (1964) recounts the bizarre, eccentric rituals of a young actor on a knightly quest, in the manner of the Crusaders, to hone his art so that he may ultimately become an idiot, if not a saint. C.B. describes Our Lady of the Turks as the jeu de cartes of a perverse novel on the idiolect. It is an amusing and merciless parody of "interior life," risibly entrusted to the third-person narrative form: a monody peopled by a thousand and one voices. A setting and a vision of a south of the south of the saints (the "homegrown" baroque, the Moorish kitsch of a palace, the cathedral-ossuary of the Otranto martyrs, etc.), "crusts" summoned to feed an ethnic fire... The music is elsewhere. The only novel in C.B.'s prodigious oeuvre, Our Lady of the Turks was (re)elaborated on stage (1966; 1973) and in images in an eponymous film, which Bene calls "a 1968 film, or better yet, the 'anti-1968 film' par excellence [that was] misunderstood to the bitter end." Translated by Carole Viers-Andronico, this is the second in a series of three separate volumes of Bene's writings that Contra Mundum will publish. As one of the only true 'spiritual' heirs of Artaud, Anglophones must at last reckon with Bene's genuinely radical transvaluation of every form of aesthetics.

Haiku for a Season / Haiku Per Una Stagione Andrea Zanzotto 2012-10-27 Andrea Zanzotto is one of the most important and acclaimed poets of postwar Italy. This collection of ninety-one pseudo-haiku in English and Italian—written over several months during 1984 and then revised slowly over the years—confirms his commitment to experimentation throughout his life. Haiku for a Season represents a multilevel experiment for Zanzotto: first, to compose poetry bilingually; and second, to write in a form foreign to Western poetry. The volume traces the life of a woman from youth to adulthood, using the seasons and the varying landscape as a mirror to reflect her growth and changing attitudes and perceptions. With a lifelong interest in the intersections of nature and culture, Zanzotto displays here his usual precise and surprising sense of the living world. These never-before-published original poems in English appear alongside their Italian versions—not strict translations but parallel texts that can be read

separately or in conjunction with the originals. As a sequence of interlinked poems, Haiku for a Season reveals Zanzotto also as a master poet of minimalism. Zanzotto's recent death is a blow to world poetry, and the publication of this book, the last that he approved in manuscript, will be an event in both the United States and in Italy.

Doing Work Based Research Carol Costley 2010-03-25 With the growth of practitioner research, this book leads the way by addressing key issues faced by 'insider researchers' - those doing research projects in the organizations and communities in which they themselves work, or where they are already familiar with the setting. The authors explore the implications of these research contexts, and discuss approaches and methodologies that researchers in these contexts might adopt, with a particular focus on ethics - one of the key concerns for students undertaking a research project of this type.
