**Remembrance of Repasts** David Evan Sutton 2001 "Proust's famous madeleine captures the power of food to evoke some of our deepest memories. Why does food hold such power? What does the growing commodification and globalization of food mean for our capacity to store the past in our meals--in the smell of olive oil or the taste of a fresh-cut fig? This book offers a theoretical account of the interrelationship of culture, food and memory. Sutton challenges and expands anthropology's current focus on issues of embodiment, memory and material culture, especially in relation to transnational migration and the flow of culture across borders and boundaries. The Greek island of Kalymnos in the eastern Aegean, where Islanders claim to remember meals long past--both humble and spectacular--provides the main setting for these issues, as well as comparative materials drawn from England and the United States. Despite the growing interest in anthropological accounts of food and in the cultural construction of memory, the intersection of food with memory has not been accorded sustained examination. Cultural practices of feasting and fasting, global flows of food as both gifts and commodities, the rise of processed food and the relationship of orally transmitted recipes to the vast market in speciality cookbooks tie traditional anthropological mainstays such as ritual, exchange and death to more current concerns with structure and history, cognition and the 'anthropology of the

senses'. Arguing for the crucial role of a simultaneous consideration of food and memory, this book significantly advances our understanding of cultural processes and reformulates current theoretical preoccupations."--Bloomsbury Publishing.

Eat Love Marije Vogelzang 2008 Eating concepts by Marije Vogelzang: her interest is in the verb "to eat." Not only does she think deeply about what is on the plate, but also about everything that surrounds the act of eating, exploring the intimacy of design that actually goes inside your body and following the journey of food from seed all the way to poop.

**History of the Italian Agricultural Landscape** Emilio Sereni 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in

1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. The Gypsies Jan Yoors 1987-09-01 At the age of twelve, Jan Yoors ran away from his cultural Belgian family to join a wandering band, a kumpania, of Gypsies. For ten years, he lived as one of them, traveled with them from country to country, shared both their pleasures and their hardships and came to know them as no one, no outsider, ever has. Here, in this firsthand and highly personal account of an extraordinary people, Yoors tells the real story of the Gypsies fascinating customs and their never-ending struggle to survive as free nomads in a hostile world. He vividly describes the texture of their daily life: the Gypsies as lovers, spouses, parents, healers, and mourners; their loyalties and enmities; their moral and ethical beliefs and practices; their language and culture; and the history and traditions behind their

fierce pride. The exultant celebrations, the daring frontier crossings, the yearly horse fairs, the convoluted business deals in which Gypsy shrewdness combined with all the apparatus of modern technology are all brought to life in this memorable portrait of the most romanticized, yet most maligned and least-known people on earth. An insiders story, *The Gypsies* lifts the veil of secrecy that for so long has enshrouded this race of strangers in our midst.

**European Food History** Hans Jürgen Teuteberg 1992 A comprehensive comparative review bringing together all current approaches - social, psychological, medical, aesthetic and economic - to the study of the history of food and diet, covering the whole of Europe from the Middle Ages to the 19th century and, often, beyond.

**The Flavors of Modernity** Gian-Paolo Biasin 2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by

writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate. Originally published in 1993. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. *Under the Jaguar Sun* Italo Calvino 1988 One of Italy's greatest and most popular writers offers three witty, fantastical stories, each dominated by one of three senses--taste, hearing, or smell.

The Culture of Food Massimo Montanari 1996-12-09 This book is about the history of food in Europe and the part it has played in the evolution of the European cultures over two millennia. It has been a driving force in national and imperial ambition, the manner of its production and consumption a means by which the identity and status of regions, classes and individuals have been and still are expressed. In this wide-ranging exploration of its history the author weaves deftly between the classes, regions and nations of Europe, between the habits of late antiquity and the problems of modernity. He examines the interlinked evolutions of consumption, production and taste, to show both what these reveal of the varied cultures and peoples of Europe in the past and what they suggest about the present.

**Confessions of a Flesh-eater** David Madsen 1997 Confessions of a Flesh-Eater is the story of a grand passion - the story of man and meat, and the intimate relationship between them. That man is Orlando Crispe, universally acknowledged as one of the finest exponents in the world of classical and creative cuisine, and at present languishing in a Roman prison, charged with the murder of at least four people. The confessions of Orlando Crispe constitute a detailed and frank account of the love affair between a master and his medium. For Crispe, the consumption of flesh is essentially an act of love, a communion as intimate as the act of sex, and such intimacy inevitably achieves its own proper apotheosis between persons. The novel gives Orlando Crispe's classic menus and readers who wish to try them are advised that whenever human flesh is specified, animal flesh can be used instead - indeed it should be.

**The Diary of A Young Girl (Deluxe Hardbound Edition)** Anne Frank 2022-12-06 A thirteen-year-old Jewish girl and her family abandoned their house in Amsterdam and went into hiding in 1942, when Nazis occupied Holland. They and another family stayed cloistered in the "Secret Annex" of an old office building for the next two years, until their whereabouts were revealed to the Gestapo. They suffered starvation, boredom, the daily cruelties of living in tight quarters, and the ever-present prospect of discovery and death because they were cut off from the outside world. Anne Frank kept a diary throughout this time, recording vivid recollections of her events. Her story is a fascinating meditation on human tenacity and weakness, as well as a riveting self-portrait of a sensitive and vibrant young woman whose promising future was sadly cut short.

The Silent Duchess Dacia Maraini 2000-01-01 The stunning English translation of the International Man Booker Prize Finalist

novel hailed as “a story of grace and endurance, not mere survival” (The New York Times Book Review). Winner of the Premio Campiello, short-listed for the Independent Foreign Fiction Award, and published to critical acclaim in fourteen languages, this “spellbinding” historical novel by one of Italy’s premier authors is now available in this luminous new translation (Booklist). In early 18th century Sicily, noblewoman Marianna Ucrìa is trapped in a world of silence after a terrible childhood trauma left her deaf and mute. Married off to a lecherous uncle, she struggles to educate and elevate herself against all convention—and find her true place in a world that sees her as little more than property. In language that conveys the keen vision and deep human insight possessed by her protagonist, Dacia Maraini captures the splendor and the corruption of Marianna’s world, as well as the strength of her unbreakable spirit, in “one of those rare, rich, deep, strange novels that create a world so fantastic and so real you want to start reading it again as soon as you come to the last page” (Newsday).

**Pride and Pudding** Regula Ysewijn 2016-02-24

The life and times of the Great British Pudding, both savoury and sweet - with 80 recipes re-created for the 21st century home cook Jamie Oliver says of Pride and Pudding 'A truly wonderful thing of beauty, a very tasty masterpiece!' BLESSED BE HE THAT INVENTED PUDDING The great British pudding, versatile and wonderful in

all its guises, has been a source of nourishment and delight since the days of the Roman occupation, and probably even before then. By faithfully recreating recipes from historical cookery texts and updating them for today's kitchens and ingredients, Regula Ysewijn has revived over 80 beautiful puddings for the modern home cook. There are ancient savoury dishes such as the Scottish haggis or humble beef pudding, traditional sweet and savoury pies, pastries, jellies, ices, flummeries, junkets, jam roly-poly and, of course, the iconic Christmas pudding. Regula tells the story of each one, sharing the original recipe alongside her own version, while paying homage to the cooks, writers and moments in history that helped shape them.

*The Land of Hunger* Piero Camporesi 1996 In this highly original book, Camporesi explores the two worlds of feast and famine in early modern Europe. Camporesi brings together a mosaic of images from Italian folklore: phantasmagoric processions of giants, pigs, vagabonds, down-trodden rogues, charlatans and beggars in rags. He reconstructs a world inhabited by the strange forces of peasant culture, and describes the various rituals - carnivals, festivities, competitions and funerals - in which food played a central role. Camporesi's description alternates between the lives of the "haves" and the "have-nots". He moves from the starving underworld of "criminalized poverty", where people were forced to develop the art of living at the expense of others simply in order to survive, to the gastronomic culture of the well-fed, with their excessive eating habits, oily foods and colourful table manners. "The Land of Hunger" is a graphic and engaging journey into the folk culture of early modern Europe. It will consolidate Camporesi's reputation as one of the most original and imaginative historians of our time.

**Myth and Symbol in Ancient Egypt** Robert Thomas Rundle Clark 1978 This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart

**Hunger and Work in a Savage Tribe** Audrey I. Richards  
2013-11-05 The force of hunger in shaping human character and social structure has been largely overlooked. This omission is a serious one in the study of primitive society, in which starvation is a constant menace. This work remedies this deficiency and opens up new lines of anthropological inquiry. The whole network of social institutions is examined which makes possible the consumption, distribution, and production of food-eating customs, as well as the religion and magic of food-production.

**The Book of Disquiet: The Complete Edition** Fernando Pessoa  
2017-08-29 For the first time—and in the best translation ever—the complete Book of Disquiet, a masterpiece beyond comparison The Book of Disquiet is the Portuguese modernist master Fernando Pessoa’s greatest literary achievement. An “autobiography” or “diary” containing exquisite melancholy observations, aphorisms, and ruminations, this classic work grapples with all the eternal questions. Now, for the first time the texts are presented chronologically, in a complete English edition by master translator Margaret Jull Costa. Most of the texts in The Book of Disquiet are written under the semi-heteronym Bernardo Soares, an assistant bookkeeper. This existential masterpiece was first published in Portuguese in 1982, forty-seven years after Pessoa’s death. A monumental literary event, this exciting, new, complete edition spans Fernando Pessoa’s entire writing life.

*The Leopard* Giuseppe Di Lampedusa 2007-11-06 Set in the 1860s, *The Leopard* tells the spellbinding story of a decadent, dying Sicilian aristocracy threatened by the approaching forces of democracy and revolution. The dramatic sweep and richness of observation, the seamless intertwining of public and private

worlds, and the grasp of human frailty imbue *The Leopard* with its particular melancholy beauty and power, and place it among the greatest historical novels of our time. Although Giuseppe di Lampedusa had long had the book in mind, he began writing it only in his late fifties; he died at age sixty, soon after the manuscript was rejected as unpublishable. In his introduction, Gioacchino Lanza Tomasi, Lampedusa's nephew, gives us a detailed history of the initial publication and the various editions that followed. And he includes passages Lampedusa wrote for the book that were omitted by the original Italian editors. Here, finally, is the definitive edition of this brilliant and timeless novel. (Translated from the Italian by Archibald Colquhoun.)

**The Talisman Italian Cook Book** Ada Boni 1975

**Asylums** Erving Goffman 2017-09-08 A total institution is defined by Goffman as a place of residence and work where a large number of like-situated, individuals, cut off from the wider society for an appreciable period of time, together lead an enclosed, formally administered round of life. Prisons serve as a clear example, providing we appreciate that what is prison-like about prisons is found in institutions whose members have broken no laws. This volume deals with total institutions in general and, mental hospitals, in particular. The main focus is, on the world of the inmate, not the world of the staff. A chief concern is to develop a sociological version of the structure of the self. Each of the essays in this book were intended to focus on the same issue--the inmate's situation in an institutional context. Each chapter approaches the central issue from a different vantage point, each introduction drawing upon a different source in sociology and having little direct relation to the other chapters. This method of presenting material may be irksome, but it allows the reader to pursue the main theme of each paper analytically and comparatively past the point that would be allowable in chapters

of an integrated book. If sociological concepts are to be treated with affection, each must be traced back to where it best applies, followed from there wherever it seems to lead, and pressed to disclose the rest of its family.
