Adat and Indigeneity in Indonesia Hauser-Schäublin, Brigitta 2013-11-11 A number of UN conventions and declarations (on the Rights of Indigenous Peoples, the Protection and Promotion of the Diversity of Cultural Expressions and the World Heritage Conventions) can be understood as instruments of international governance to promote democracy and social justice worldwide. In Indonesia (as in many other countries), these international agreements have encouraged the self-assertion of communities that had been oppressed and deprived of their land, especially during the New Order regime (1966-1998). More than 2,000 communities in Indonesia who define themselves as masyarakat adat or “indigenous peoples” had already joined the Indigenous Peoples’ Alliance of the Archipelago” (AMAN) by 2013. In their efforts to gain recognition and selfdetermination, these communities are supported by international donors and international as well as national NGOs by means of development programmes. In the definition of masyarakat adat, “culture” or adat plays an important role in the communities’ self-definition. Based on particular characteristics of their adat, the asset of their culture, they try to distinguish themselves from others in order to substantiate their claims for the restitution of their traditional rights and property (namely land and other natural

resources) from the state. The authors of this volume investigate how differently structured communities - socially, politically and religiously - and associations reposition themselves vis-à-vis others, especially the state, not only by drawing on adat for achieving particular goals, but also dignity and a better future.

Interpersonal Relationships in Education: From Theory to Practice David Zandvliet
2014-08-07 This book brings together recent research on interpersonal relationships in education from a variety of perspectives including research from Europe, North America and Australia. The work clearly demonstrates that positive teacher-student relationships can contribute to student learning in classrooms of various types. Productive learning environments are characterized by supportive and warm interactions throughout the class: teacher-student and student-student. Similarly, at the school level, teacher learning thrives when there are positive and mentoring interrelationships among professional colleagues. Work on this book began with a series of formative presentations at the second International Conference on Interpersonal Relationships in Education (ICIRE 2012) held in Vancouver, Canada, an event that included among others, keynote addresses by David Berliner, Andrew Martin and Mieke Brekelmans. Further collaboration and peer review by the editorial team resulted in the collection of original research that this book comprises. The volume (while eclectic) demonstrates how constructive learning environment relationships can be developed and sustained in a variety of settings. Chapter contributions come from a range of fields including educational and social psychology, teacher and school effectiveness research, communication and language studies, and a variety of related fields. Together, they cover the important influence of the relationships of teachers with individual students, relationships among peers, and the relationships between teachers and their professional colleagues.

Guns, Germs, and Steel: The Fates of Human Societies Jared Diamond 1999-04-17

"Fascinating.... Lays a foundation for understanding human history."—Bill Gates In this "artful, informative, and delightful" (William H. McNeill, New York Review of Books) book, Jared Diamond convincingly argues that geographical and environmental factors shaped the modern world. Societies that had had a head start in food production advanced beyond the hunter-gatherer stage, and then developed religion --as well as nasty germs and potent weapons of war --and adventured on sea and land to conquer and decimate preliterate cultures. A major advance in our understanding of human societies, *Guns, Germs, and Steel* chronicles the way that the modern world came to be and stunningly dismantles racially based theories of human history. Winner of the Pulitzer Prize, the Phi Beta Kappa Award in Science, the Rhone-Poulenc Prize, and the Commonwealth club of California's Gold Medal.

Hoosiers and the American Story Madison, James H. 2014-10-01 A supplemental textbook for middle and high school students, *Hoosiers and the American Story* provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

State of the World's Indigenous Peoples United Nations Department of Economic and Social Affairs 2011-05-09 While indigenous peoples make up around 370 million of the world's population – some 5 per cent – they constitute around one-third of the world's 900 million extremely poor rural people. Every day, indigenous communities all over the world face issues of violence and brutality. Indigenous peoples are stewards of some of the most biologically diverse areas of the globe, and their biological and cultural wealth has allowed indigenous peoples to gather a wealth of traditional knowledge which is of immense value to all humankind. The publication discusses many of the issues addressed by the Declaration on the Rights of Indigenous Peoples and is a cooperative effort of independent experts working with the Secretariat of the Permanent Forum on Indigenous Issues. It covers poverty and well-being, culture, environment, contemporary education, health, human rights, and includes a chapter on emerging issues.

Social Inequality in Canada Alan Stewart Frizzell 1996 Social Inequality in Canada brings a comparative perspective to the question of the uniqueness of Canadian society. Do Canadians believe they can succeed on the basis of their own abilities? And how do they compare with Americans, Germans, Italians, Australians and Russians? There is much debate as to how Canadians differ from or resemble citizens of other countries, particularly the United States.

Investing in Cultural Diversity and Intercultural Dialogue Unesco 2009-01-01 This report

analyses all aspects of cultural diversity, which has emerged as a key concern of the international community in recent decades, and maps out new approaches to monitoring and shaping the changes that are taking place. It highlights, in particular, the interrelated challenges of cultural diversity and intercultural dialogue and the way in which strong homogenizing forces are matched by persistent diversifying trends. The report proposes a series of ten policy-oriented recommendations, to the attention of States, intergovernmental and non-governmental organizations, international and regional bodies, national institutions and the private sector on how to invest in cultural diversity. Emphasizing the importance of cultural diversity in different areas (languages, education, communication and new media development, and creativity and the marketplace) based on data and examples collected from around the world, the report is also intended for the general public. It proposes a coherent vision of cultural diversity and clarifies how, far from being a threat, it can become beneficial to the action of the international community.

Communication Between Cultures Larry A. Samovar 2016-01-01 Packed with current research and examples, bestselling COMMUNICATION BETWEEN CULTURES, 9E equips readers with a

deep understanding and appreciation of different cultures while helping them develop practical communication skills. Part I introduces the study of communication and culture; Part II focuses on the ability of culture to shape and modify our view of reality; Part III puts the theory of intercultural communication into practice; and Part IV converts knowledge into action. This is the only text to consistently emphasize religion and history as key variables in intercultural communication. Compelling examples help readers examine their own assumptions, perceptions, and cultural biases--so they can understand the subtle and profound ways culture affects communication. The ninth edition offers expanded discussions of the impact of globalization, a new chapter on intercultural communication competence, and more coverage of new technology. Anthropology and the Racial Politics of Culture Lee D. Baker 2010-02-10 In the late nineteenth century, if ethnologists in the United States recognized African American culture, they often perceived it as something to be overcome and left behind. At the same time, they were committed to salvaging "disappearing" Native American culture by curating objects, narrating practices, and recording languages. In *Anthropology and the Racial Politics of Culture*, Lee D. Baker examines theories of race and culture developed by American anthropologists during the late nineteenth century and early twentieth. He investigates the role that ethnologists played in creating a racial politics of culture in which Indians had a culture worthy of preservation and exhibition while African

Americans did not. Baker argues that the concept of culture developed by ethnologists to understand American Indian languages and customs in the nineteenth century formed the basis of the anthropological concept of race eventually used to confront “the Negro problem” in the twentieth century. As he explores the implications of anthropology’s different approaches to African Americans and Native Americans, and the field’s different but overlapping theories of race and culture, Baker delves into the careers of prominent anthropologists and ethnologists, including James Mooney Jr., Frederic W. Putnam, Daniel G. Brinton, and Franz Boas. His analysis takes into account not only scientific societies, journals, museums, and universities, but also the development of sociology in the United States, African American and Native American activists and intellectuals, philanthropy, the media, and government entities from the Bureau of Indian Affairs to the Supreme Court. In *Anthropology and the Racial Politics of Culture*, Baker tells how anthropology has both responded to and helped shape ideas about race and culture in the United States, and how its ideas have been appropriated (and misappropriated) to wildly different ends.

The Skilled Helper Gerard Egan 2014 Internationally recognised for its successful problem-management approach to effective helping, this book offers a step-by-step guide to the counselling process.

I'm Not Racist But ... 40 Years of the Racial Discrimination Act Tim Soutphommasane
2015-06-01 Is Australia a 'racist' country? Why do issues of race and culture seem to ignite public debate so readily? Tim Soutphommasane, Australia's Race Discrimination Commissioner, reflects on the national experience of racism and the progress that has been made since the introduction of the Racial Discrimination Act in 1975. As the first federal human rights and discrimination legislation, the Act was a landmark demonstration of Australia's commitment to eliminating racism. Published to

coincide with the Act's fortieth anniversary, this book gives a timely and incisive account of the history of racism, the limits of free speech, the dimensions of bigotry and the role of legislation in our society's response to discrimination. With contributions by Maxine Beneba Clarke, Bindi Cole Chocka, Benjamin Law, Alice Pung and Christos Tsiolkas.

An Introduction to Sociolinguistics Ronald Wardhaugh 2014-10-24 Thoroughly updated and revised, *An Introduction to Sociolinguistics*, 7th Edition presents a comprehensive and fully updated introduction to the study of the relationship between language and society. Building on Ronald Wardhaugh's classic text, co-author Janet Fuller has updated this seventh edition throughout with new discussions exploring language and communities, language and interaction, and sociolinguistic variation, as well as incorporating numerous new exercises and research ideas for today's students. Taking account of new research from the field, the book explores exciting new perspectives drawn from linguistic anthropology, and includes new chapters on pragmatics, discourse analysis, and sociolinguistics and education. With an emphasis on using examples from languages and cultures around the world, chapters address topics including social and regional dialects, multilingualism, discourse and pragmatics, variation, language in education, and language policy and planning. A new companion website including a wealth of additional online material, as well as a glossary and a variety of new exercises and examples, helps further illuminate the ideas presented in the text. *An Introduction to Sociolinguistics*, 7th Edition continues to be the most indispensable and accessible introduction to the field of sociolinguistics for students in applied and theoretical linguistics, education, and anthropology.

Language, Culture, and Society James Stanlaw 2018-04-24 Why should we study language? How do the ways in which we communicate define our identities? And how is this all changing in the

digital world? Since 1993, many have turned to Language, Culture, and Society for answers to questions like those above because of its comprehensive coverage of all critical aspects of linguistic anthropology. This seventh edition carries on the legacy while addressing some of the newer pressing and exciting challenges of the 21st century, such as issues of language and power, language ideology, and linguistic diasporas. Chapters on gender, race, and class also examine how language helps create - and is created by - identity. New to this edition are enhanced and updated pedagogical features, such as learning objectives, updated resources for continued learning, and the inclusion of a glossary. There is also an expanded discussion of communication online and of social media outlets and how that universe is changing how we interact. The discussion on race and ethnicity has also been expanded to include Latin- and Asian-American English vernacular.

World Migration Report 2020 United Nations 2019-11-27 Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

At Risk Piers Blaikie 2014-01-21 The term 'natural disaster' is often used to refer to natural events such as earthquakes, hurricanes or floods. However, the phrase 'natural disaster' suggests an uncritical acceptance of a deeply engrained ideological and cultural myth. At Risk questions this myth and argues that extreme natural events are not disasters until a vulnerable group of people is exposed. The updated new edition confronts a further ten years of ever more expensive and deadly

disasters and discusses disaster not as an aberration, but as a signal failure of mainstream 'development'. Two analytical models are provided as tools for understanding vulnerability. One links remote and distant 'root causes' to 'unsafe conditions' in a 'progression of vulnerability'. The other uses the concepts of 'access' and 'livelihood' to understand why some households are more vulnerable than others. Examining key natural events and incorporating strategies to create a safer world, this revised edition is an important resource for those involved in the fields of environment and development studies.

The American Yawp Joseph L. Locke 2019-01-22 "I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before

chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

Schools of Thought Rexford Brown 1993-08-10 As a result of his visits to classrooms across the nation, Brown has compiled an engaging, thought-provoking collection of classroom vignettes which show the ways in which national, state, and local school politics translate into changed classroom practices. "Captures the breadth, depth, and urgency of education reform".--Bill Clinton.

Urban Socio-Economic Segregation and Income Inequality Maarten van Ham 2021-03-29 This open access book investigates the link between income inequality and socio-economic residential segregation in 24 large urban regions in Africa, Asia, Australia, Europe, North America, and South America. It offers a unique global overview of segregation trends based on case studies by local author teams. The book shows important global trends in segregation, and proposes a Global Segregation Thesis. Rising inequalities lead to rising levels of socio-economic segregation almost everywhere in the world. Levels of inequality and segregation are higher in cities in lower income countries, but the growth in inequality and segregation is faster in cities in high-income countries. This is causing convergence of segregation trends. Professionalisation of the workforce is leading to changing residential patterns. High-income workers are moving to city centres or to attractive coastal areas and gated communities, while poverty is increasingly suburbanising. As a result, the urban geography of inequality changes faster and is more pronounced than changes in segregation

levels. Rising levels of inequality and segregation pose huge challenges for the future social sustainability of cities, as cities are no longer places of opportunities for all.

Counseling Across Cultures Paul B. Pedersen 2015-01-14 Offering a primary focus on North American cultural and ethnic diversity while addressing global questions and issues, *Counseling Across Cultures*, Seventh Edition, edited by Paul B. Pederson, Walter J. Lonner, Juris G. Draguns, Joseph E. Trimble, and María R. Scharrón-del Río, draws on the expertise of 48 invited contributors to examine the cultural context of accurate assessment and appropriate interventions in counseling diverse clients. The book's chapters highlight work with African Americans, Asian Americans, Latinos/as, American Indians, refugees, individuals in marginalized situations, international students, those with widely varying religious beliefs, and many others. Edited by pioneers in multicultural counseling, this volume articulates the positive contributions that can be achieved when multicultural awareness is incorporated into the training of counselors.

Cross-Cultural Psychology Eric B. Shiraev 2016-08-12 Written in a conversational style that transforms complex ideas into accessible ones, this international best-seller provides an interdisciplinary review of the theories and research in cross-cultural psychology. The book's unique critical thinking framework, including Critical Thinking boxes, helps to develop analytical skills. Exercises interspersed throughout promote active learning and encourage class discussion. Case in Point sections review controversial issues and opinions about behavior in different cultural contexts. Cross-Cultural Sensitivity boxes underscore the importance of empathy in communication. Numerous applications better prepare students for working in various multicultural contexts such as teaching, counseling, health care, and social work. The dynamic author team brings a diverse set of experiences in writing this book. Eric Shiraev was raised in the former Soviet Union and David Levy

is from Southern California. Sensation, perception, consciousness, intelligence, human development, emotion, motivation, social perception, interaction, psychological disorders, and applied topics are explored from cross-cultural perspectives. New to the 6th Edition: Over 200 recent references, particularly on studies of non-western regions such as the Middle East, Africa, Asia, & Latin America as well as the US and Europe. New chapter on personality and the self with an emphasis on gender identity. New or revised chapter opening vignettes that draw upon current events. More examples related to the experiences of international students in the US and indigenous people. Many more figures and tables that appeal to visual learners. New research on gender, race, religious beliefs, parenting styles, sexual orientation, ethnic identity and stereotypes, conflict resolution, immigration, intelligence, physical abuse, states of consciousness, DSM-5, cultural customs, evolutionary psychology, treatment of psychological disorders, and acculturation. Revised methodology chapter with more attention to issues related specifically to cross-cultural research and more on qualitative and mixed methods. A companion website at www.routledge.com/9781138668386 where instructors will find a test bank containing multiple choice, true and false, short answer, and essay questions and answers for each chapter, and a complete set of tables and figures from the text; and students will find chapter outlines, flashcards of key terms, and links to further resources and the authors' Facebook page. Intended as a text for courses on cross-cultural psychology, multicultural psychology, cultural psychology, cultural diversity, and the psychology of ethnic groups and a resource for practitioners, researchers, and educators who work in multicultural environments.

The Age of Migration Stephen Castles 2014 This leading text in the field provides a comprehensive assessment of the nature, extent and dimensions of international population movements and of their consequences. Thoroughly revised and updated, the 5th edition assesses the impact of the global

economic crisis for migration and includes new material on climate change and migration.

Unequal Relations Augie Fleras 2010 *Unequal Relations* provides comprehensive coverage of the important issues and topics for courses on race and ethnicity including racism, multiculturalism and diversity. It gives students an introduction to the politics of race, ethnic, and Aboriginal relations as fundamentally unequal relations within a dynamic Canada, that is both rapidly changing and increasingly diverse, yet more uncertain and confused. Three themes prevail in addressing this dynamic: the social, the political, and the national.

Multiculturalism and Integration Michael Clyne 2011-07-01 Multiculturalism has been the official policy of all Australian governments (Commonwealth and State) since the 1970s. It has recently been criticised, both in Australia and elsewhere. Integration has been suggested as a better term and policy. Critics suggest it is a reversion to assimilation. However integration has not been rigorously defined and may simply be another form of multiculturalism, which the authors believe to have been vital in sustaining social harmony.

Bringing Them Home Australia. Human Rights and Equal Opportunity Commission 2007 This DVD was produced in 1997 and forms part of the 'Bringing them home' education resource for use in Australian classrooms. This resource is based on 'Bringing them home', the report of the 'National Inquiry into the Separation of Aboriginal and Torres Strait Islander children from Their Families', and on the history of forcible separation and other policies which have impacted on the lives of Indigenous Australians.

Canada's Relationship with Inuit Sarah Bonesteel 2008 Inuit have lived in Canada's north since time immemorial. The Canadian government's administration of Inuit affairs, however, has been generally shorter and is less well understood than the federal government's relations with First Nations and

Métis. We hope to correct some of this knowledge imbalance by providing an overview of the federal government's Inuit policy and program development from first contact to 2006. Topics that are covered by this book include the 1939 Re Eskimo decision that gave Canada constitutional responsibility for Inuit, post World War II acculturation and defence projects, law and justice, sovereignty and relocations, the E-number identification system, Inuit political organizations, comprehensive claim agreements, housing, healthcare, education, economic development, self-government, the environment and urban issues. In order to develop meaningful forward-looking policy, it is essential to understand what has come before and how we got to where we are. We believe that this book will be a valuable contribution to a growing body of knowledge about Canada-Inuit relations, and will be an indispensable resource to all students of federal Inuit and northern policy development.

Introducing Intercultural Communication Shuang Liu 2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local, introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including:

- theory corners with concise, boxed-out digests of key theoretical concepts
- case illustrations putting the main points of each chapter into context
-

learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion • a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes. This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

Introduction to Sociology 2e Heather Griffiths 2017-12-31 *Introduction to Sociology 2e* adheres to the scope and sequence of a typical, one-semester introductory sociology course. It offers comprehensive coverage of core concepts, foundational scholars, and emerging theories, which are supported by a wealth of engaging learning materials. The textbook presents detailed section reviews with rich questions, discussions that help students apply their knowledge, and features that draw learners into the discipline in meaningful ways. The second edition retains the book's conceptual organization, aligning to most courses, and has been significantly updated to reflect the latest research and provide examples most relevant to today's students. In order to help instructors transition to the revised version, the 2e changes are described within the preface. The images in this textbook are grayscale. Authors include: Heather Griffiths, Nathan Keirns, Eric Strayer, Susan Cody-Rydzewski, Gail Scaramuzzo, Tommy Sadler, Sally Vyain, Jeff Bry, Faye Jones

Recovering Canada John Borrows 2017-06-22 Canada is covered by a system of law and governance that largely obscures and ignores the presence of pre-existing Indigenous regimes. Indigenous law, however, has continuing relevance for both Aboriginal peoples and the Canadian state. In his in-depth examination of the continued existence and application of Indigenous legal values, John Borrows suggests how First Nations laws could be applied by Canadian courts, and

tempers this by pointing out the many difficulties that would occur if the courts attempted to follow such an approach. By contrasting and comparing Aboriginal stories and Canadian case law, and interweaving political commentary, Borrows argues that there is a better way to constitute Aboriginal / Crown relations in Canada. He suggests that the application of Indigenous legal perspectives to a broad spectrum of issues that confront us as humans will help Canada recover from its colonial past, and help Indigenous people recover their country. Borrows concludes by demonstrating how Indigenous peoples' law could be more fully and consciously integrated with Canadian law to produce a society where two world views can co-exist and a different vision of the Canadian constitution and citizenship can be created.

Racial Formation in the United States Michael Omi 2014-06-20 Twenty years since the publication of the Second Edition and more than thirty years since the publication of the original book, *Racial Formation in the United States* now arrives with each chapter radically revised and rewritten by authors Michael Omi and Howard Winant, but the overall purpose and vision of this classic remains the same: Omi and Winant provide an account of how concepts of race are created and transformed, how they become the focus of political conflict, and how they come to shape and permeate both identities and institutions. The steady journey of the U.S. toward a majority nonwhite population, the ongoing evisceration of the political legacy of the early post-World War II civil rights movement, the initiation of the 'war on terror' with its attendant Islamophobia, the rise of a mass immigrants rights movement, the formulation of race/class/gender 'intersectionality' theories, and the election and reelection of a black President of the United States are some of the many new racial conditions *Racial Formation* now covers.

The Routledge International Companion to Multicultural Education James A. Banks

2009-09-10 This volume is the first authoritative reference work to provide a truly comprehensive international description and analysis of multicultural education around the world. It is organized around key concepts and uses case studies from various nations in different parts of the world to exemplify and illustrate the concepts. Case studies are from many nations, including the United States, the United Kingdom, Canada, Australia, France, Germany, Spain, Norway, Bulgaria, Russia, South Africa, Japan, China, India, New Zealand, Malaysia, Singapore, Indonesia, Brazil, and Mexico. Two chapters focus on regions - Latin America and the French-speaking nations in Africa. The book is divided into ten sections, covering theory and research pertaining to curriculum reform, immigration and citizenship, language, religion, and the education of ethnic and cultural minority groups among other topics. With forty newly commissioned pieces written by a prestigious group of internationally renowned scholars, The Routledge International Companion to Multicultural Education provides the definitive statement on the state of multicultural education and on its possibilities for the future.

World Heritage Sites and Indigenous Peoples' Rights Stefan Disko 2014 This book includes twenty case studies of World Heritage sites from around the world that explore, from a human rights perspective, indigenous peoples' experiences with World Heritage sites and with the processes of

the World Heritage Convention. The book will serve as a resource for indigenous peoples, World Heritage site managers, and UNESCO, as well as academics, and it will contribute to discussions about what changes or actions are needed to ensure that World Heritage sites can play a consistently positive role for indigenous peoples, in line with the spirit of the United Nations Declaration on the Rights of Indigenous Peoples.

Global Education Monitoring Report 2020 UNESCO 2020-07-07 This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.
