**The Fashion History Reader** Giorgio Riello 2010 This is an innovative work that provides a broad introduction to the complex literature in the fields of fashion studies, and dress and fashion history. The book connects a diverse range of approaches and incorporates non-Western literature within better-known studies from Europe and North America.

Meaning and Textuality François Rastier 1997 Rastier proposes a theoretical framework for the semantic description and typology of texts, establishing a critical debate among various streams of research before arriving at a synthesis of literary semiotics, thematics, and linguistic semantics.

**The Nature of History Reader** Keith Jenkins 2004 The question of what the nature of history is, is a key issue for all students of history. It is recognized by many that the past and history are different phenomena and that the way the past is actively historicized can be highly problematic and contested.

**The History of Reading, Volume 3** R. Crone 2011-08-26 We inhabit a textually super-saturated and increasingly literate world. This volume encourages readers to consider the diverse methodologies used by historians of reading globally, and indicates how future research might take up the challenge of recording and interpreting the practices of readers in an increasingly digitized society.

**Balkan Legacies of the Great War** Othon Anastasakis 2016-04-29 This is a rich yet succinct account of an underexplored story: the consequences of the Great War for the region which ignited it. It offers a fascinating tapestry: the collapse of Empires, the birth of Turkey and Yugoslavia, Greece as both victor and loser, Bulgaria's humiliating defeat; bitter memories, forced migrations, territorial implications and collective national amnesias. The legacies live on. The contributions in this volume significantly enhance the debate about how the Great War is remembered in South East Europe, and why it still evokes such strong emotions and reactions, more than a century after its beginnings.

The Great Cauldron Marie-Janine Calic 2019-06-10 We often think of the Balkans as a region beset by turmoil and backwardness, but from late antiquity to the present it has been a dynamic meeting place of cultures and religions. Marie-Janine Calic invites us to reconsider the history of this intriguing, diverse region as essential to the story of global Europe.

*Theodule Sabot's Confession* Guy de Maupassant 2014-09-08 "Theodule Sabot's Confession" is a short story by Guy de Maupassant. Henri René Albert Guy de Maupassant (5 August 1850 - 6 July 1893) was a popular 19th-century French writer, considered one of the fathers of the modern short story and one of the form's finest exponents. A protégé of Flaubert, Maupassant's stories are characterized by their economy of style and efficient,

effortless dénouements. Many of the stories are set during the Franco-Prussian War of the 1870s and several describe the futility of war and the innocent civilians who, caught in the conflict, emerge changed. He authored some 300 short stories, six novels, three travel books, and one volume of verse. His first published story "Boule de Suif" ("Ball of Fat", 1880) is often considered his masterpiece. He delighted in clever plotting, and served as a model for Somerset Maugham and O. Henry in this respect. His stories about expensive jewellery ("The Necklace", "La parure") are imitated with a twist by Maugham ("Mr Know-All", "A String of Beads") and Henry James ("Paste"). Taking his cue from Balzac, Maupassant wrote comfortably in both the high-Realist and fantastic modes; stories and novels such as "L'Héritage" and *Bel-Ami* aim to recreate Third Republic France in a realistic way, whereas many of the short stories (notably "Le Horla" and "Qui sait?") describe apparently supernatural phenomena. The supernatural in Maupassant, however, is often implicitly a symptom of the protagonists' troubled minds; Maupassant was fascinated by the burgeoning discipline of psychiatry, and attended the public lectures of Jean-Martin Charcot between 1885 and 1886. This interest is reflected in his fiction. Maupassant is notable as the subject of one of Leo Tolstoy's essays on art: *The Works of Guy de Maupassant*. Friedrich Nietzsche's autobiography mentions him in the following text: "I cannot at all conceive in which century of history one could haul together such inquisitive and at the same time delicate psychologists as one can in contemporary Paris: I can name as a sample - for their number is by no means small, ... or to pick out one of the stronger race, a genuine Latin to whom I am particularly attached, Guy de Maupassant."

**Ecocriticism and Italy** Serenella Iovino 2016-01-28 Winner of the MLA Aldo and Jeanne Scaglione Prize for Italian Studies 2016 Winner of the American Association for Italian Studies Book Prize 2016 This book is available as open access through the Bloomsbury Open Access programme and is available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). Written by one of Europe's leading critics, *Ecocriticism and Italy* reads the diverse landscapes of Italy in the cultural imagination. From death in Venice as a literary trope and petrochemical curse, through the volcanoes of Naples to wine, food and environmental violence in Piedmont, Serenella Iovino explores Italy as a text where ecology and imagination meet. Examining cases where justice, society and politics interlace with stories of land and life, pollution and redemption, the book argues that literature, art and criticism are able to transform the unexpressed voices of these suffering worlds into stories of resistance and practices of liberation.

**The Returns of Odysseus** Irad Malkin 1998-11-30 This remarkably rich and multifaceted study of early Greek exploration makes an original contribution to current discussions of the encounters between Greeks and non-Greeks. Focusing in particular on myths about Odysseus and other heroes who visited foreign lands on their mythical voyages homeward after the Trojan War, Irad Malkin shows how these stories functioned to mediate encounters and conceptualize ethnicity and identity during the Archaic and Classical periods. Synthesizing a wide range of archaeological, mythological, and literary sources, this exceptionally learned book strengthens our understanding of early Greek exploration and city-founding along the coasts of the Western Mediterranean, reconceptualizes the role of myth in ancient societies, and revitalizes our understanding of ethnicity in antiquity. Malkin shows how the figure of Odysseus became a proto-colonial hero whose influence transcended the Greek-speaking world. The return-

myths constituted a generative mythology, giving rise to oral poems, stories, iconographic imagery, rituals, historiographical interpretation, and the articulation of ethnic identities. Reassessing the role of Homer and alternative return-myths, the book argues for the active historical function of myth and collective representations and traces their changing roles through a spectrum of colonial perceptions—from the proto-colonial, through justifications of expansion and annexation, and up to decolonization.

*The History of Reading* Shafquat Towheed 2011 'The History of Reading' offers an accessible overview of this developing discipline, from the rise of literacy through to the current trend of book clubs.

The Case for Books Robert Darnton 2009-07-22 The invention of writing was one of the most important technological, cultural, and sociological breakthroughs in human history. With the printed book, information and ideas could disseminate more widely and effectively than ever before -- and in some cases, affect and redirect the sway of history. Today, nearly one million books are published each year. But is the era of the book as we know it -- a codex of bound pages -- coming to an end? And if it is, should we celebrate its demise and the creation of a democratic digital future, or mourn an irreplaceable loss? The digital age is revolutionizing the information landscape. Already, more books have been scanned and digitized than were housed in the great library in Alexandria, making available millions of texts for a curious reader at the click of a button, and electronic book sales are growing exponentially. Will this revolution in the delivery of information and entertainment make for more transparent and far-reaching dissemination or create a monopolistic stranglehold? In *The Case for Books*, Robert Darnton, an intellectual pioneer in the field of the history of the book and director of Harvard University's Library, offers an in-depth examination of the book from its earliest beginnings to its shifting role today in popular culture, commerce, and the academy. As an author, editorial advisor, and publishing entrepreneur, Darnton is a unique authority on the life and role of the book in society. This book is a wise work of scholarship -- one that requires readers to carefully consider how the digital revolution will broadly affect the marketplace of ideas.

When The World Spoke French Marc Fumaroli 2011-06-14 A New York Review Books Original During the eighteenth century, from the death of Louis XIV until the Revolution, French culture set the standard for all of Europe. In Sweden, Austria, Italy, Spain, England, Russia, and Germany, among kings and queens, diplomats, military leaders, writers, aristocrats, and artists, French was the universal language of politics and intellectual life. In *When the World Spoke French*, Marc Fumaroli presents a gallery of portraits of Europeans and Americans who conversed and corresponded in French, along with excerpts from their letters or other writings. These men and women, despite their differences, were all irresistibly attracted to the ideal of human happiness inspired by the Enlightenment, whose capital was Paris and whose king was Voltaire. Whether they were in Paris or far away, speaking French connected them in spirit with all those who desired to emulate Parisian tastes, style of life, and social pleasures. Their stories are testaments to the appeal of that famous "sweetness of life" nourished by France and its language.

**From Montaigne to Molière** Arthur Augustus Tilley 1923

**Rome 1630** Yves Bonnefoy 2020 Velazquez. Poussin. Carvaggio. Bernini. Despite their disparate backgrounds, these greats of European Baroque art converged at one remarkable place in time: Rome, 1630. In response to the Protestant Reformation, the Catholic Church turned to these masters of Baroque art to craft works celebrating the glories of the heavens manifested on earth. And so, with glittering monuments like Bernini's imposing bronze columns in St. Peter's Basilica, Rome, 1630 came to be the crossroads of seventeenth-century art, religion, and power. In *Rome, 1630*, the renowned French poet and critic Yves Bonnefoy devotes his attention to this single year in the Baroque period in European art. Richly illustrated with artwork that reveals the unique, yet instructive, place of Rome in 1630 in European art history, Bonnefoy dives deep into this transformative movement. The inclusion of five additional essays on seventeenth-century art situate Bonnefoy's analysis within a lively debate on Baroque art and art

history. Translator Hoyt Rogers's afterword pays homage to the author himself, situating Rome, 1630 in Bonnefoy's productive career as a premier French poet and critic.

*Perpetual Inventory* Rosalind E. Krauss 2013-02-08 In essays that span three decades, one of contemporary art's most esteemed critics celebrates artists who have persevered in the service of a medium. The job of an art critic is to take perpetual inventory, constantly revising her ideas about the direction of contemporary art and the significance of the work she writes about. In these essays, which span three decades of assessment and reassessment, Rosalind Krauss considers what she has come to call the "post-medium condition"—the abandonment by contemporary art of the modernist emphasis on the medium as the source of artistic significance. Jean-François Lyotard argued that the postmodern condition is characterized by the end of a "master narrative," and Krauss sees in the post-medium condition of contemporary art a similar farewell to coherence. The master narrative of contemporary art ended when conceptual art and other contemporary practices jettisoned the specific medium in order to juxtapose image and written text in the same work. For Krauss, this spells the end of serious art, and she devotes much of *Perpetual Inventory* to "wrest[ling] new media to the mat of specificity." Krauss also writes about artists who are reinventing the medium, artists who persevere in the service of a nontraditional medium ("strange new apparatuses" often adopted from commercial culture), among them Ed Ruscha, Christian Marclay, William Kentridge, and James Coleman.

**Dante in the Long Nineteenth Century** Aida Audeh 2012-03-15 This collection of essays provides an account of Dante's reception in a range of media-visual art, literature, theatre, cinema, and music—from the late eighteenth century through to the early twentieth and explores various appropriations and interpretations of his works and persona during the era of modernization in Europe, the USA, and beyond.

*The Great War and Memory in Central and South-Eastern Europe* Oto Luthar 2016-03-21 A new, nuanced and revelatory account of the war waged as a revenge campaign against culturally "inferior" peoples of the Balkans.

**Extended Temporalities** Aa. Vv. 2016-06-27T00:00:00+02:00 This book contains a series of reflections on the theme of temporalities in cinema in the world of art. They do so interweaving various paths, and various structures, in order to arrive at different destination points. Which temporalities, one may wonder. On the boundary between cinema and contemporary art, where boundaries actually no longer exist, the idea of temporality is affected by paths opened up in historical moments which are actually so recent as to be simply in front of our eyes. Video, for example, derived from television, has since been "overtaken" by the digital evolution, yet does not relinquish its domestic function: it re-creates itself in new forms. The same also applies to cinema. Art is certainly not limited to this, but, since it is determined by its technical form, in this it continually finds essence and continuity: thus a temporality emerges which is determined by technology and by technological change. Just as with the temporality determined by the spectator's viewing experience, it reveals itself as being, in part, the personal essence of the subject. Therefore they are extended temporalities, since they are determined by the unique and unrepeatable combination of the length as predicted by the creator of the work, and the unpredictable time management of the observer of the work, sometimes bored, thoughtful, concentrated, patient... An extendable temporality.

**The World of Prostitution in Late Imperial Austria** Nancy Meriwether Wingfield 2017 In this study of prostitution in late imperial Austria, Nancy M. Wingfield brings to light the real women behind contemporary constructions of prostitution, with the aim of restoring their historical agency and placing them in their larger social context

*Fashion at the Time of Fascism* Mario Lupano 2009 The first visual history of Modernist Italian fashion during Benito Mussolini's Fascist regime, and the product of immense research, *Fashion at the Time of Fascism* charts the fashion industry's ambivalent negotiation of international couture and the bizarre dictates of Fascism, and the legacy of this era in shaping today's fashion industry. Authors Mario Lupano and Alessandra Vaccari explore

and compare a huge range of forgotten archival sources, such as women's glossies, fashion, film and gossip magazines, photo archives, exhibition and commercial catalogues, books, manuals and magazines on tailoring, dressmaking, design and architecture, and corporate and government journals. This abundance of materials is presented in a fluid sequence of image and text that charts the rhythms, rituals and lifestyles of the typical Italian day through the four basic themes of "Measurements," "Model," "Brand" and "Parade." Each section includes texts that highlight the key figures and phases in Italian fashion, from the 1920s to the early 1940s, juxtaposing them with Modernism's broader salient themes and emphasizing the conscious use of glamour in the regime's super-choreographed portrayal of itself. Fashion at the Time of Fascism is further enriched by a thorough iconographic index and a detailed reference list, making the volume a revelation for both general readers and scholars. --Publisher description.

**Printing, Writers and Readers in Renaissance Italy** Brian Richardson 1999-08-05 The spread of printing to Renaissance Italy had a dramatic impact on all users of books. As works came to be diffused more widely and cheaply, so authors had to adapt their writing and their methods of publishing to the demands and opportunities of the new medium, and reading became a more frequent and user-friendly activity. *Printing, Writers and Readers in Renaissance Italy* focuses on this interaction between the book industry and written culture. After describing the new technology and the contexts of publishing and bookselling, it examines the continuities and changes faced by writers in the shift from manuscript to print, the extent to which they benefited from print in their careers, and the greater accessibility of books to a broader spectrum of readers, including women and the less well educated. This is the first integrated study of a topic of central importance in Italian and European culture.

**Dante on View** Antonella Braida 2007 *Dante on View* opens an important new dimension in Dante studies. The volume's interdisciplinary approach to reception brings together literary criticism, visual culture and performance studies. Dante's *Commedia* is re-created through the performances of readers and artists in a wide range of media. The essays analyse creative uses of the poet from medieval manuscript illumination to nineteenth and twentieth-century stage productions, from film to ballet and hyperinstruments.

*Book Was There* Andrew Piper 2012-10-12 Andrew Piper grew up liking books and loving computers. While occasionally burying his nose in books, he was going to computer camp, programming his Radio Shack TRS-80, and playing Pong. His eventual love of reading made him a historian of the book and a connoisseur of print, but as a card-carrying member of the first digital generation—and the father of two digital natives—he understands that we live in electronic times. *Book Was There* is Piper's surprising and always entertaining essay on reading in an e-reader world. Much ink has been spilled lamenting or championing the decline of printed books, but Piper shows that the rich history of reading itself offers unexpected clues to what lies in store for books, print or digital. From medieval manuscript books to today's playable media and interactive urban fictions, Piper explores the manifold ways that physical media have shaped how we read, while also observing his own children as they face the struggles and triumphs of learning to read. In doing so, he uncovers the intimate connections we develop with our reading materials—how we hold them, look at them, share them, play with them, and even where we read them—and shows how reading is interwoven with our experiences in life. Piper reveals that reading's

many identities, past and present, on page and on screen, are the key to helping us understand the kind of reading we care about and how new technologies will—and will not—change old habits. Contending that our experience of reading belies naive generalizations about the future of books, *Book Was There* is an elegantly argued and thoroughly up-to-date tribute to the endurance of books in our ever-evolving digital world.

**Medieval English Nunneries** Eileen Power 2010-10-31 A fascinating study of medieval English convents, showing their ideals, lifestyle, organisation, relationships inside and outside the cloister, and failings.

**The Republic of Letters** Marc Fumaroli 2018-09-18 A provocative exploration of intellectual exchange across four centuries of European history by the author of *When the World Spoke French*. In this fascinating study, preeminent historian Marc Fumaroli reveals how an imagined "republic" of ideas and interchange fostered the Italian Renaissance, the Enlightenment, and the French Revolution. He follows exchanges among Petrarch, Erasmus, Descartes, Montaigne, and others from the fifteenth through the eighteenth centuries, through revolutions in culture and society. Via revealing portraits and analysis, Fumaroli traces intellectual currents engaged with the core question of how to live a moral life—and argues that these men of letters provide an example of the exchange of knowledge and ideas that is worthy of emulation in our own time. Combining scholarship, wit, and reverence, this thought-provoking volume represents the culmination of a lifetime of scholarship.

**Hypertext 3.0** George P. Landow 2006-02-10 From *Intermedia to Microcosm, Storyspace, and the Web*, Landow offers information about the kinds of hypertext, different modes of linking, attitudes toward technology, and the proliferation of pornography and gambling on the Internet. He also includes new material on developing Internet-related technologies.

**Institutional Critique and After** Southern California Consortium of Art Schools 2006 « Institutional critique and after explores the history and contemporary reassessment of the Institutional Critique movement launched in the late 1960s, redeveloped in the 1980s, and vigorously reoriented in recent years to address issues such as globalization. In this publication, the histories, theories, diverse locations, and different kinds of institutional alternative space are investigated, looking at traditional forms of art but also at installation, performance, new media practices, and cultural activism. Its central questions turn on the critical potential of art (and institutions) and whether—and if so how—they can stimulate social or political change. »

**Moderating Masculinity in Early Modern Culture** Todd W. Reeser 2006 *Moderating Masculinity in Early Modern Culture* proposes a definition of gender based on a ternary model in which moderation and masculinity are inextricably linked. Like the Aristotelian virtue of moderation, which requires the presence of excess a

**Music in Renaissance Lyons** Frank Dobbins 1992 The first comprehensive study of musical life in Lyons at a time when the city was a leading European commercial and cultural center, this book surveys the vast repertoire of music copied and published, relating it to social, political, economic, intellectual, and religious life. The great wealth of the city's literature is scrutinized for references which provide testimony to the musical attitudes and activities of resident or visiting patrons and amateurs. Information on the composers who lived or worked in Lyons is gleaned from contemporary records, dedications, and correspondence as well as from their musical output. The masses, motets, chansons, madrigals, psalms, and instrumental music for church, state, and citizen are reviewed, reflecting changes in form and style that occur in response to the requirements of visiting courts of an increasingly demanding bourgeoisie, led by affluent Italian patricians and eventually a more intrusive Protestant community.

**Queer (Re)Readings in the French Renaissance** Gary Ferguson 2016-12-05 Focusing on multiple aspects of Renaissance culture, and in particular its preoccupation with the reading and rewriting of classical sources, this book examines representations of homosexuality in sixteenth-century France. Analysing a wide range of texts and topics, it presents an assessment of queer theory that is grounded in historical examples, including French translations of Boccaccio's *Decameron*, the poetry of Ronsard, works in praise of and satirising Henri III and his mignons,

Montaigne's *Essais*, Brantôme's *Dames galantes*, the figures of the androgyne and the hermaphrodite, and religious discourses and practices of penance and confession. Close comparison with the ancient models on which they drew - the elegy and epic, the works of Plato, Ovid, Lucian, and others - reveals Renaissance writers redeploying an established set of cultural understandings and assumptions at once congruent and at odds with their own society's socio-sexual norms. Throughout this study, emphasis is placed on the coexistence of different models of homosexuality during the Renaissance - homosexual desire was simultaneously universal and individual, neither of these views excluding the other. Insisting equally on points of convergence and difference between Renaissance and modern understandings of homosexuality, this book works towards a historicisation of the concept of queerness.

*The Mystic Spiral* Jill Purce 1974 As the inward-winding labyrinth, it constitutes the hero's journey to the still center where the secret of life is found. As the spherical vortex, spiraling through its own center, it combines the inward and outward directions of movement. In this original and engrossing book, Jill Purce traces the significance of one man's central symbols from the double spirals of Stone Age art and the interlocking spirals of the Chinese Yin Yang symbol to the whorls of Celtic crosses, Maori tattoos and the Islamic arabesque. Many of the superb images here were intended as objects of contemplation; for the spiral is a cosmic symbol. Art and Imagination series: These large-format, gloriously-illustrated paperbacks cover Eastern and Western religion and philosophy, including myth and magic, alchemy and astrology. The distinguished authors bring a wealth of knowledge, visionary thinking and accessible writing to each intriguing subject.

*The Power of Culture* Richard Wightman Fox 1993-04 "We are in the midst of a dramatic shift in sensibility, and 'cultural' history is the rubric under which a massive doubting and refiguring of our most cherished historical assumptions is being conducted. Many historians are coming to suspect that the idea of culture has the power to restore order to the study of the past. Whatever its potency as an organizing theme, there is no doubt about the power of the term 'culture' to evoke and stand for the depth of the re-examination not taking place. At a time of deep intellectual disarray, 'culture' offers a provisional, nominalist version of coherence: whatever the fragmentation of knowledge, however centrifugal the spinning of the scholarly wheel, 'culture'—which (even etymologically) conveys a sense of safe nurture, warm growth, budding or ever-present wholeness—will shelter us. The PC buttons on historians' chests today stand not for 'politically correct' but 'positively cultural.'—from the Introduction More and more scholars are turning to cultural history in order to make sense of the American past. This volume brings together nine original essays by some leading practitioners in the field. The essays aim to exhibit the promise of a cultural approach to understanding the range of American experiences from the seventeenth century to the present. Expanding on the editors' pathbreaking *The Culture of Consumption*, the contributors to this volume argue for a cultural history that attends closely to language and textuality without losing sight of broad configurations of power that social and political history at its best has always stressed. The authors here freshly examine crucial topics in both private and public life. Taken together, the essays shed new light on the power of culture in the lives of Americans past and present.
