Food is Culture Massimo Montanari 2006 Elegantly written by a distinguished culinary historian, *Food Is Culture* explores the innovative premise that everything having to do with food--its capture, cultivation, preparation, and consumption--represents a cultural act. Even the "choices" made by primitive hunters and gatherers were determined by a culture of economics (availability) and medicine (digestibility and nutrition) that led to the development of specific social structures and traditions. Massimo Montanari begins with the "invention" of cooking which allowed humans to transform natural, edible objects into cuisine. Cooking led to the creation of the kitchen, the adaptation of raw materials into utensils, and the birth of written and oral guidelines to formalize cooking techniques like roasting, broiling, and frying. The transmission of recipes allowed food to acquire its own language and grow into a complex cultural product shaped by climate, geography, the pursuit of pleasure, and later, the desire for health. In his history, Montanari touches on the spice trade, the first agrarian societies, Renaissance dishes that synthesized different tastes, and the analytical attitude of the Enlightenment, which insisted on the separation of flavors. Brilliantly researched and analyzed, he shows how food, once a practical necessity, evolved into an indicator of social standing and religious and political identity. Whether he is musing on the origins of the fork, the symbolic power of meat, cultural attitudes toward hot and cold foods, the connection between cuisine and class, the symbolic significance of certain foods, or the economical consequences of religious holidays, Montanari's concise yet intellectually rich reflections add another dimension to the history of human civilization. Entertaining and surprising, *Food Is Culture* is a fascinating look at how food is the ultimate embodiment of our continuing attempts to tame, transform, and reinterpret nature.

Nevertheless Carlo Ginzburg 2022-01-25 From the master of "micro-history" a reconstruction of two contrasting early-modern thinkers *Nevertheless* comprises essays on Machiavelli and on Pascal. The ambivalent connection between the two parts is embodied by the comma (,) in the subtitle: Machiavelli, Pascal. Is this comma a conjunction or a disjunction? In fact, both. Ginzburg approaches Machiavelli's work from the perspective of casuistry, or case-based ethical reasoning. For as Machiavelli indicated through his repeated use of the adverb *nondimanco* ("nevertheless"), there is an exception to every rule. Such a perspective may seem to echo the traditional image of Machiavelli as a cynical, "machievellian" thinker. But a close analysis of Machiavelli the reader, as well as of the ways in which some of Machiavelli's most perceptive readers read his work, throws a different light on Machiavelli the writer. The same hermeneutic strategy inspires the essays on the Provinciales, Pascal's ferocious attack against Jesuitical casuistry. Casuistry vs anti-casuistry; Machiavelli's secular attitude towards religion vs Pascal's deep religiosity. We are confronted, apparently, with two completely different worlds. But Pascal read Machiavelli, and reflected deeply upon his work. A belated, contemporary echo of this reading can unveil the complex relationship between Machiavelli and Pascal - their divergences as well as their unexpected convergences.

Golda Slept Here Suad Amiry 2014-11-17 Politics enters the lives of every family in Palestine. In this literary-historical tour de force, Suad Amiry traces the lives of individual members of Palestinian families and, through them, the histories of both Palestine and the émigré Palestinian community in other countries of the Middle East. Amiry mixes nostalgia with anger while mocking Israeli doublespeak that seeks to wipe out any trace of a Palestinian past in West Jerusalem. She juxtaposes serial bombardments and personal tragedies; evokes the sights and smells of Palestinian architecture and food; and weaves for us the tapestry that is the Palestinian reality, caught between official histories and private memories. Through poetry and prose, monologue and dialogue, we glimpse the lost Palestinian landscape, obscured by the silent battle between remembering and forgetting.

The Culture of Food Massimo Montanari 1996-12-09 This book is about the history of food in Europe and the part it has played in the evolution of the European cultures over two millennia. It has been a driving force in national and imperial ambition, the manner of its production and consumption a means by which the identity and status of regions, classes and individuals have been and still are expressed. In this wide-ranging exploration of its history the author weaves deftly between the classes, regions and nations of Europe, between the habits of late antiquity and the problems of modernity. He examines the interlinked evolutions of consumption, production and taste, to show both what these reveal of the varied cultures and peoples of Europe in the past and what they suggest about the present.

Birth and Death of the Housewife Paola Masino 2010-07-02 Stepping out of her beloved trunk full of bread crumbs, dust, spider webs, books, and ragged funeral ornaments, the young protagonist of Paola Masino's most controversial novel realizes that her fate is already sealed. She will have to conform to society's expectations of a woman: her wild imagination will have to be controlled, her intelligence kept at bay. In short, she will have to become a Housewife. Subject to Fascist censorship before its first publication in 1945, *Birth and Death of the Housewife* offers a surrealist criticism of Fascism and the rigid notion of womanhood it promoted. In her depiction of a woman's struggle to play a role that simply does not correspond to her desires, Masino expresses a frustration and a rebellious instinct rarely found among her contemporaries. Defying interpretations and standing alone among the heroines of twentieth-century Italian literature, Masino's *Housewife* remains an uncomfortable, enigmatic figure whose impudent determination to challenge the bulwarks of traditional female roles reaches beyond historical boundaries and resonates powerfully with contemporary readers.

The Gypsies Jan Yoors 1987-09-01 At the age of twelve, Jan Yoors ran away from his cultural Belgian family to join a wandering band, a kumpania, of Gypsies. For ten years, he lived as one of them, traveled with them from country to country, shared both their pleasures and their hardships and came to know them as no one, no outsider, ever has. Here, in this firsthand and highly personal account of an extraordinary people, Yoors tells the real story of the Gypsies fascinating customs and their never-ending struggle to survive as free nomads in a hostile world. He vividly describes the texture of their daily life: the Gypsies as lovers, spouses, parents, healers, and mourners; their loyalties and enmities; their moral and ethical beliefs and practices; their language and culture; and the history and traditions behind their fierce pride. The exultant celebrations, the daring frontier crossings, the yearly horse fairs, the convoluted business deals in which Gypsy shrewdness combined with all the apparatus of modern technology are all brought to life in this memorable portrait of the most romanticized, yet most maligned and least-known people on earth. An insiders story, *The Gypsies* lifts the veil of secrecy that for so long has enshrouded this race of strangers in our midst.

Materada Fulvio Tomizza 2000 Francesco Koslovic—even his name straddles two cultures. And during the spring of 1955, in the village of Materada

on the Istrian Peninsula, his two worlds are coming apart. Materada, the first volume of Fulvio Tomizza's celebrated Istrian Trilogy, depicts the Istrian exodus of the hundreds of thousands who had once thrived in a rich ethnic mixture of Italians and Slavs. Complicating Koslovic's own departure is his attempt to keep the land that he and his brother have worked all their lives. A picture of a disappearing way of life, a tale of feud and displacement, and imbued with the tastes, tales, and songs of his native Istria, Koslovic's story is a testament to the intertwined ethnic roots of Balkan history.

The Flavors of Modernity Gian-Paolo Biasin 2017-03-14 From Rabelais's celebration of wine to Proust's madeleine and Virginia Woolf's boeuf en daube in *To the Lighthouse*, food has figured prominently in world literature. But perhaps nowhere has it played such a vital role as in the Italian novel. In a book flowing with descriptions of recipes, ingredients, fragrances, country gardens, kitchens, dinner etiquette, and even hunger, Gian-Paolo Biasin examines food images in the modern Italian novel so as to unravel their function and meaning. As a sign for cultural values and social and economic relationships, food becomes a key to appreciating the textual richness of works such as Lampedusa's *The Leopard*, Manzoni's *The Betrothed*, Primo Levi's *Survival in Auschwitz*, and Calvino's *Under the Jaguar Sun*. The importance of the culinary sign in fiction, argues Biasin, is that it embodies the oral relationship between food and language while creating a sense of materiality. Food contributes powerfully to the reality of a text by making a fictional setting seem credible and coherent: a Lombard peasant eats polenta in *The Betrothed*, whereas a Sicilian prince offers a monumental macaroni timbale at a dinner in *The Leopard*. Similarly, Biasin shows how food is used by writers to connote the psychological traits of a character, to construct a story by making the protagonists meet during a meal, and even to call attention to the fictionality of the story with a metanarrative description. Drawing from anthropology, psychoanalysis, sociology, science, and philosophy, the author gives special attention to the metaphoric and symbolic meanings of food. Throughout he blends material culture with observations on thematics and narrativity to enlighten the reader who enjoys the pleasures of the text as much as those of the palate.
