Her view on children and their absorbent minds was a landmark departure from the educational model at the time. This book helped start a revolution in education. Since this book first appeared there have been both cognitive and neurological studies that have confirmed what Maria Montessori knew decades ago.

Transforming Violent Conflict Oliver Ramsbotham 2010-01-25 This book investigates intractable conflicts and their main verbal manifestation - radical disagreement - and explores what can be done when conflict resolution fails. The book identifies agonistic dialogue - dialogue between enemies - as the key to linguistic intractability. It suggests how agonistic dialogue can best be studied, explored, understood and managed even in the most severe political conflicts when negotiation, mediation, problem solving, dialogue for mutual understanding, and discourse ethics are unsuccessful. This approach of viewing radical disagreement as the central topic of analysis and conflict management is a new innovation in this field, and also supplements and enhances existing communicative transformational techniques. It also has wider implications for cognate fields, such as applied ethics, democratic theory, cultural studies and the philosophy of difference. This book will be of great interest to students of conflict resolution, peace and conflict studies, ethnic conflict and International Relations in general. Oliver Ramsbotham is Emeritus Professor of Conflict Resolution at the University of Bradford, UK, Chair of the Oxford Research Group, President of the Conflict Research Society and co-author of Conflict Resolution in Contemporary Conflict.

Happiness Thich Nhat Hanh 2005-07-20 Thich Nhat Hanh's central teaching is that, through mindfulness, we can learn to live in the present moment instead of in the past and in the future. It's only way to truly develop peace, both in one's self and in the world. Now, for the first time, all Thich Nhat Hanh's key practices are collected in one accessible and easy-to-use volume. Happiness is structured to introduce those new to Buddhist teachings as well as for more experienced practitioners, serving as a quintessential resource of mindfulness practices. Integrating these practices into daily life allows the reader to begin to cultivate peace and joy within him/herself, leading to solidity and freedom from fear, misunderstanding, and suffering. With the practices offered in Happiness, Thich Nhat Hanh encourages the reader to learn to do all the things they do in daily life with mindfulness; to walk, sit, work, eat, and drive, with full awareness of what they are doing. It can bring about a shift towards one of the principles of engaged Buddhism, a shift towards practicing mindfulness in every moment of the day and not just while 'formally' meditating. Thich Nhat Hanh encourages his readers to "try to be intelligent and skillful in their practice, approaching every aspect of the practice with curiosity and a sense of search. It's important to practice with understanding and not just for the form and appearance. Enjoy your practice with a relaxed and gentle attitude, with an open mind and receptive heart."

Visual Merchandising Karin Zaghi 2019-02-20T00:00:00+01:00 Why a book on Visual Merchandising? Because Visual Merchandising gives substance to something that has to change its very essence: the store. The rise of new communication artifacts in today's multichannel context means that the store needs to transform its role and its methods for interacting with both customers and producers. The store has to offer value through proactive interaction with its customers. If value in the store visit lies in living an experience, regardless of making a purchase, Visual Merchandising lays the groundwork for that experience. This book is for people who deal with communication - for the store and in the store - distributors, agencies, and university students in Master's programs, along with all those interested in Marketing, Communication, or Retailing.

MhGAP Intervention Guide for Mental, Neurological and Substance-Use Disorders in Non-specialized Health Settings - Version 2.0 World Health Organization 2017-01-27 Mental, neurological and substance use (MNS) disorders are highly prevalent, accounting for a substantial burden of disease and disability globally. In order to bridge the gap between available resources and the significant need for services, the World Health Organization launched the Mental Health Gap Action Programme (mhGAP). The objective of mhGAP is to scale-up care and services using evidence-based interventions for prevention and management of priority MNS conditions. The mhGAP Intervention Guide version 1.0 for MNS disorders for non-specialist health settings was developed in 2010 as a simple technical tool to allow for integrated management of priority MNS conditions using protocols for clinical decision-making. With uptake in over 90 countries, mhGAP-IG 1.0 version has had widespread success. It is our pleasure to present mhGAP version 2.0, with updates incorporating new evidence-based guidance, enhanced usability, and new sections to expand its use by both health care providers as well as programme managers. It is our hope that this guide will continue to provide the road-map to deliver care and services for people with MNS disorders around the world and lead us closer to achieving the goal of universal health coverage.

The New Leaders Paolo A.Ruggeri 2015-02-18 «The motivational drive that led me to write my first book, THE NEW LEADERS, sprang from the need to understand group dynamics and how to manage groups successfully: improving others and above all helping them to live a better, more fulfilling and proactive life. After all, people's success is measured by the success of those around them.» Paolo Ruggeri This book, written in simple and stimulating language, is the fruit of over ten years of research. It provides an analytical description of the successful solutions adopted by managers and entrepreneurs who have been successful in creating groups of extremely motivated and productive people. The book is divided into three parts. In the first part we analyze a number of factors and causes that lead the manager's effectiveness to decline; in the second part we

provide a very detailed analysis of staff motivation; the third and last part analyzes the character and philosophy of the motivational manager and company. It includes case histories of companies that have successfully resolved personnel management problems, providing many practical examples that every manager and entrepreneur can immediately apply in order to improve their staff's productivity.

Compasito Nancy Flowers 2007-01-01 Living among other people, in their families and communities, children become aware from a very early age of questions related to justice, and they search for the meaning of the world. By fostering an understanding of human rights, shaping opinion and developing attitudes, human rights education strongly supports this natural interest and learning process. This is what human rights education is about and this is what 'Compasito manual on human rights education for children' is for. 'Compasito' is a starting point for educators, teachers and trainers who are ready to deal with human rights education with children of 7-13 years. The book covers the key concepts of human rights and children's rights, and provides substantial theoretical background to 13 key human rights issues, such as democracy, citizenship, gender equality, environment, media, poverty, and violence. The 42 practical activities serve to engage and motivate children to recognise human rights issues in their own environment. They help children to develop critical thinking, responsibility and a sense of justice, and help them learn how to take action to contribute to the betterment of their school or community. The manual also gives practical tips on how it can be used in various formal and non-formal educational settings.

How to Have Creative Ideas Edward de Bono 2012-05-31 Everybody wants to be creative. Creativity makes life more fun, more interesting and more full of achievement, but too many people believe that creativity is something you are born with and cannot be learned. In How to Have Creative Ideas Edward de Bono - the leading authority on creative thinking - outlines 62 different games and exercises, built around random words chosen from a list, to help encourage creativity and lateral thinking. For example, if the task were to provide an idea for a new restaurant and the random word chosen was 'cloak', ideas generated might be: a highwayman theme; a Venetian theme with gondolas; masked waiters and waitresses. Or, if asked to make a connection between the two random words 'desk' and 'shorts', readers may come up with: both are functional; desks have 'knee holes' and shorts expose the knees; traditionally they were both male-associated items. All the exercises are simple, practical and fun, and can be done by anyone.

Secrets of the Baby Whisperer Tracy Hogg 2001-06-01 "TRACY HOGG HAS GIVEN PARENTS A GREAT GIFT-the ability to develop early insight into their child's temperament." -Los Angeles Family When Tracy Hogg's *Secrets of the Baby Whisperer* was first published, it soared onto bestseller lists across the country. Parents everywhere became "whisperers" to their newborns, amazed that they could actually communicate with their baby within weeks of their child's birth. Tracy gave parents what for some amounted to a miracle: the ability to understand their baby's every coo and cry so that they could tell immediately if the baby was hungry, tired, in real distress, or just in need of a little TLC. Tracy also dispelled the insidious myth that parents must go sleepless for the first year of a baby's life-because a happy baby sleeps through the night. Now you too can benefit from Tracy's more than twenty years' experience. In this groundbreaking book, she shares simple, accessible programs in which you will learn: • E.A.S.Y.-how to get baby to eat, play, and sleep on a schedule that will make every member of the household's life easier and happier. • S.L.O.W.-how to interpret what your baby is trying to tell you (so you don't try to feed him when he really wants a nap). • How to identify which type of baby yours is-Angel, Textbook, Touchy, Spirited, or Grumpy-and then learn the best way to interact with that type. • Tracy's Three Day Magic-how to change any and all bad habits (yours and the baby's) in just three days. At the heart of Tracy's simple but profound message: treat the baby as you would like to be treated yourself. Reassuring, down-to-earth, and often flying in the face of conventional wisdom, *Secrets of the Baby Whisperer* promises parents not only a healthier, happier baby but a more relaxed and happy household as well.

Dear Data Giorgia Lupi 2016-09-13 Equal parts mail art, data visualization, and affectionate correspondence, Dear Data celebrates "the infinitesimal, incomplete, imperfect, yet exquisitely human details of life," in the words of Maria Popova (Brain Pickings), who introduces this charming and graphically powerful book. For one year, Giorgia Lupi, an Italian living in New York, and Stefanie Posavec, an American in London, mapped the particulars of their daily lives as a series of hand-drawn postcards they exchanged via mail weekly—small portraits as full of emotion as they are data, both mundane and magical. Dear Data reproduces in pinpoint detail the full year's set of cards, front and back, providing a remarkable portrait of two artists connected by their attention to the details of their lives—including complaints, distractions, phone addictions, physical contact, and desires. These details illuminate the lives of two remarkable young women and also inspire us to map our own lives, including specific suggestions on what data to draw and how. A captivating and unique book for designers, artists, correspondents, friends, and lovers everywhere.

How to Relax Thich Nhat Hanh 2015-09-18 How to Relax is part of The Mindfulness Essentials series of how-to titles by Zen Master Thich Nhat Hanh, introducing beginners and reminding seasoned practitioners of the essentials of mindfulness practice. Pocket-sized, with original two color illustrations by Jason DeAntonis, How to Relax shows how critical it is to regularly interrupt the hub-bub and routine of our lives to stop, relax mindfully, and recharge. Thich Nhat Hanh says that when we relax, we "become calm water, and we will reflect reality as it is. If we're not calm, the image we reflect will be distorted. When the image is distorted by our minds, it's not the reality, and it causes lots of suffering." Relaxation is essential for accessing the tranquility and joy that lead to increased personal well-being. With sections on healing, relief from nonstop thinking, transforming unpleasant sounds, solitude, being peace, and more, How to Relax includes meditations you can do to help you achieve the benefits of relaxation no matter where you are. Scientific studies indicate that meditation contributes tremendously to well-being, general health, and longevity. How to Relax is a unique gift for those who want a simple guide to achieving deep relaxation, controlling stress, and renewing mental freshness and clarity, appropriate for those practicing in any spiritual tradition, whether seasoned practitioners or new to meditations. With fifteen two color drawings by celebrated artist Jason DeAntonis.
