The Barrio Gangs of San Antonio, 1915-2015 Mike Tapia 2017-06-22 *Barrio Gangs* is the most comprehensive academic case study of barrio group dynamics in a major Texas city to date. This is a sociological work on the history of barrio gangs in San Antonio and other large Texas cities to the present day. It examines the century-long evolution of urban barrio subcultures using public archives, oral histories, old photos, and other forms of qualitative data. The study gives special attention to the barrio gangs' "heyday," from the 1940s through the 1960s, comparing their attributes to those of modern groups. It illustrates how social and technological changes have affected barrio networking processes and the intensity of the street lifestyle over time. Intergenerational shifts and the tension that accompanies such changes are also central themes in the book. Few other places are so conducive to such historical exploration as is San Antonio. Street ignobility in the barrio no doubt mirrors processes found in other Chicano communities in Texas and the Southwest. The gang contexts in major Chicano population centers have lengthy historical bases rooted in weak opportunity structures, oppression, and discrimination. This work shows that participation in street violence, drug selling, and other parts of the informal economy are functional adaptations to the social structure; the forces propelling the formation of barrio gangs are not temporary social phenomena.

The Search for Roots Primo Levi 2003-03-24 Here is a collection of writings that Primo Levi considered to be essential reading. These 30 pieces reflect his knowledge of science and deep passion for literature, and his survival of Auschwitz - making it an anthology that is both universal and autobiographical.

The Selected Poetry of Emilio Villa Emilio Villa 2014-06-11 While Emilio Villa (1914-2003) was referred to as Zeus because of his greatness and Rabelais because of his mental voracity, for decades his work remained in oblivion, only recently surfacing to reveal him to be one of the most formidable figures of the Italian Novecento, if not of world culture. His marginalization was in part self-inflicted, due to his sibylline nature if not to his great erudition, which gave rise to a poetics so unconventional that few knew what to make of it: a biblicist who composed experimental verse in over ten different languages, including tongues from Milanese dialect and Italian to French, Portuguese, ancient Greek, and even Sumerian and Akkadian. As Andrea Zanzotto declared, "From the very beginning, Villa was so advanced that, even today, his initial writings or graphemes appear ahead of the times and even the future, suspended between a polymorphous sixth sense and pure non-sense." In merging his background as a scholar, translator, and philologist of ancient languages with his conception of poetics, Villa creates the sensation that, when reading his work, we are coming into contact with language at its origins, spoken as if for the first time, with endless possibilities. Whether penning verse, translating Homer's *Odyssey*, or writing on contemporary or primordial art, Villa engages in a paleoization of the present and a modernization of the past, wherein history is abolished and interpretation suspended, leaving room only for the purely generative linguistic act, one as potent today as it was eons ago. This volume of Villa's multilingual poetry ranges across his entire writing life and also includes selections from his translation of the Bible, his writings on ancient and modern art, and his visual poetry. Presented in English for the very first time, *The Selected Poetry of Emilio Villa* also contains material that is rare even to Italian readers. In adhering to the original notion of poetry as making, Villa acts as the poet-faber in tandem

with his readers, creating une niche dans un niche for them to enter and create within, as if language itself were an eternal and infinite void in which creation remains an ever possible and continuously new event. * As the universe expands and its galaxies grow further apart with a speed proportionate to their respective distances, so does the linguistic universe of Emilio Villa. - Adriano Spatola

A Communication to My Friends Richard Wagner 2008-10 Wilhelm Richard Wagner (1813-1883) was a German composer, conductor, music theorist, and essayist, primarily known for his operas (later called music dramas). Wagner's musical style is often considered the epitome of classical music's Romantic period, due to its unprecedented exploration of emotional expression. He transformed musical thought through his idea of Gesamtkunstwerk (total artwork), the synthesis of all the poetic, visual, musical and dramatic arts, epitomized by his monumental four-opera cycle *The Ring of the Niebelung* (1876). Wagner even went so far as to build his own opera-house to try to stage these works as he had imagined them. His literary friendship with Franz Liszt led to a long-lived correspondence later compiled in the two volumes of *Correspondence of Wagner and Liszt* (1889); a book that was attributed to both musicians. Among his other famous works are *Tristan and Isolde*, which broke important new musical ground, *My Life* (in two volumes) (1880), and *The Flying Dutchman*.

A Friday in August Antonio D'Alfonso 2005 A filmmaker who makes documentaries on hit-men, Fabrizio Notti is invited to show his latest piece, a work of fiction, at a film festival in Montreal. The reviews have been mixed and his family is in trouble. The trip to his hometown also serves as a pretext for an existential pilgrimage towards love and belonging. His search leads him, on a Friday in August, back through time, through this vast, moving landscape that is memory, to his first love and, ultimately, to himself.

Masked Men Steve Cohan 1997-12-22 The fifties marks the moment when a heterosexual/homosexual dualism came to dominate U.S. culture's thinking about masculinity. The films of this era record how gender and sexuality did not easily come together in a normative manhood common to American men. Instead these films demonstrate the widely held perception of a crisis of masculinity. *Masked Men* documents how movies of the fifties represented masculinity as a multiple masquerade. Hollywood's star system positioned the male actor as a professional performer and as a body intended to solicit the erotic interest of male and female viewers alike. Drawing on publicity, poster art, fan magazines, and the popular press as a means of following the links between fifties stars, their films, and the social tensions of the period, Cohan juxtaposes Hollywood's narratives of masculinity against the personae of leading men like Cary Grant, Humphrey Bogart, John Wayne, Charlton Heston, Yul Brynner, William Holden, Montgomery Clift, Marlon Brando, and Rock Hudson. *Masked Men* focuses on the gender and sexual masquerades that organized their performances of masculinity on and off screen.

The Voices in Wartime Anthology explores the experience of war through the literary arts from ancient times to the present. The anthology features the voices of US veterans of the Iraq war; experts on war trauma and the history of war; and poets from around the world. It includes: Jose Diaz, US Army Reserve military policeman and father of two. He returned to the US in the fall of 2004 after serving a year's deployment in Iraq as a military police sergeant in the Army Reserves. Brian Turner, who earned an MFA in Creative Writing (poetry) from the University of Oregon, and then served in the US Army for seven years. He was an infantry team leader in Iraq for a year beginning November 2003, and served with the Stryker Brigade Combat Team, 2nd Infantry Division. Lt. General William Lennox, superintendent of the United States Military Academy at West Point. He wrote his Ph.D. dissertation on American war poetry. Paul Mysliwiec, US Army First Lieutenant who led his unit through the invasion of Baghdad in spring 2003 and then spent months searching for Iraqi weapons of mass destruction. Emily Warn, a poet, teacher, and activist--and the author of "The Novice Insomniac" and three other collections of poetry. Chris Hedges, a former "New York Times" war correspondent with 15 years of experience in places such as El Salvador, Kosovo, and the Persian Gulf. Craig White, NBC cameraman, embedded with the 3rd Infantry Division, one of the first US Army units to enter Baghdad in April 2003. Sinan Antoon, Iraqi poet, filmmaker, and human rights activist. Chris Abani, Nigerian human rights activist and refugee. Nguyen Duy, widely considered the most important Vietnamese poet of his generation. Antonietta Villamil, Columbian poet, peace and human rights activist. Sheila Sebron, disabled, African-American Air Force veteran living with chronic PTSD and severe pain. John Henry Parker, veteran and founder of Veterans and Families. "If history and literature have taught us anything," said anthology editor and film producer Andrew Himes, "it is that in the midst of trauma, violence and death, it is the poets who help us make sense of the senseless. In a world turned upside down, listening attentively to the stories of others can open our hearts, our minds, and point the way to change."

On Greek Religion Robert Parker 2011-03-15 "There is something of a paradox about our access to ancient Greek religion. We know too much, and too little. The materials that bear on it far outreach an individual's capacity to assimilate: so many casual allusions in so many literary texts over more than a millennium, so many direct or indirect references in so many inscriptions from so many places in the Greek world, such an overwhelming abundance of physical remains. But genuinely revealing evidence does not often cluster coherently enough to create a vivid sense of the religious realities of a particular time and place. Amid a vast archipelago of scattered islets of information, only a few are of a size to be habitable."—from the Preface In On Greek Religion, Robert Parker offers a provocative and wide-ranging entrée into the world of ancient Greek religion, focusing especially on the interpretive challenge of studying a religious system that in many ways remains desperately alien from the vantage point of the twenty-first century. One of the world's leading authorities on ancient Greek religion, Parker raises fundamental methodological questions about the study of this vast subject. Given the abundance of evidence we now have about the nature and practice of religion among the ancient Greeks—including literary, historical, and archaeological sources—how can we best exploit that evidence and agree on the central underlying issues? Is it possible to develop a larger, "unified" theoretical framework that allows for coherent discussions among archaeologists, anthropologists, literary

scholars, and historians? In seven thematic chapters, Parker focuses on key themes in Greek religion: the epistemological basis of Greek religion; the relation of ritual to belief; theories of sacrifice; the nature of gods and heroes; the meaning of rituals, festivals, and feasts; and the absence of religious authority. Ranging across the archaic, classical, and Hellenistic periods, he draws on multiple disciplines both within and outside classical studies. He also remains sensitive to varieties of Greek religious experience. Also included are five appendixes in which Parker applies his innovative methodological approach to particular cases, such as the acceptance of new gods and the consultation of oracles. On Greek Religion will stir debate for its bold questioning of disciplinary norms and for offering scholars and students new points of departure for future research.

Bound by Distance Pasquale Verdicchio 1997 Bound by Distance takes its place among a growing body of scholarship the goal of which is to challenge the kind of thinking that reproduces the "West" as a stable and homogenous political and discursive entity. The Italian nation, with its peculiar process of formation, the continuous tensions between its own northern and southern regions, and its history of emigration, provides an important case for complicating and reassessing concepts of national, racial, economic, and cultural dominance. The author analyzes the interactive space of the history of Italian state formation, Italian subaltern literature, Italian emigrant writing, and the current situation of North African and Asian immigrants to Italy, in order to contest the "feigned homogeneity" of the Italian nation and to complicate and reassess concepts of national, racial, economic, and cultural dominance.

Theatrical Translation and Film Adaptation Phyllis Zatlin 2005-10-12 Translation and film adaptation of theatre have received little study. In filling that gap, this book draws on the experiences of theatrical translators and on movie versions of plays from various countries. It also offers insights into such concerns as the translation of bilingual plays and the choice between subtitling and dubbing of film.

Julius Evola Gianfranco de Turrís 2020-07-07 An intimate portrait of Evola and his wartime activities that rebuts many of the Fascist pseudo-myths about him • Traces the Baron's activities in Italy, Germany, and Austria during World War II • Clarifies Evola's relations with Nazism and Fascism and reveals how he passionately rejected both ideologies because they were totalitarian • Draws on personal conversations with those who knew Evola, new documentation never before made public, and letters from the Hakl and Scaligero archives Baron Giulio Cesare Andrea Evola, known to the English-speaking world as Julius Evola (1898-1974), was an Italian philosopher, magician, painter, occultist, Orientalist, linguist, and champion mountain climber. Often considered a pillar of Neo-Fascist thought, Evola opposed Fascism and called himself a "radical traditionalist." In this exploration of Evola's inner and outer life from World War II into the early 1950s, Gianfranco de Turrís, who knew Evola when he was alive and is the executor of his estate, offers a new portrait of Julius Evola and debunks many of the pseudo-myths about his activities during the war. Drawing on personal conversations with those who knew him and new documentation never before made public, including letters from the Hakl and Scaligero archives, the author traces Evola's activities--including his time on the run and living under assumed names--in Italy, Germany, and Austria from 1943 into the mid-1950s. He shares a thorough account of the Baron's sojourn at Hitler's headquarters in Rastenburg, his work for the German secret military services, and his passionate rejection of the racial theories that were the core of Nazi ideology. The author outlines Evola's critiques of Fascism and Nazism and also explores Evola's disapproval of the Italian Social Republic because it was destroying traditional values in favor of modernity. Detailing the Baron's occult and magical work during the war, de Turrís shows that the only thing Evola took with him when he escaped Italy was the UR Group papers, material that would later become the three-volume work Introduction to Magic. Sharing details from Evola's long hospital stays during and after the war, the author proves that the injury that led to Evola's paralysis was caused by an Allied bombing raid in Vienna and not, as rumor has it, by a sex magic act gone horribly wrong. The author shares photographs from the time period and the Baron's

correspondence with René Guenon on the possibility of restoring the spiritual and magical power of an authentic Freemasonry. Offering conclusive evidence that Evola was not part of the Nazi regime, de Turris sheds light on the inner workings of this legendary occult figure and what Evola believed was the best approach for the magus to take in the modern world.

Devils in Paradise Pasquale Verdicchio 1997 In these essays Pasquale Verdicchio stresses the need to view the cultural works of minority groups not solely from the perspective of their immigrant roots, but primarily as post-emigrant products. Through writings on diverse figures such as Antonio Gramsci, the Super Mario Brothers, or Spike Lee, and on subjects that range from literature to sculpture and photography, the author closes in on a possible intellectual synthesis for what might be considered the most complex question of this end of century: What is the identity and place of a minority individual?

The Voice of Memory Primo Levi 2018-05-18 Over the course of more than twenty-five years, Primo Levi gave more than two hundred newspaper, journal, radio and television interviews speaking with such varied authors as Philip Roth and Germaine Greer. Marco Belpoliti and Robert Gordon have selected and translated thirty-six of the most important of these interviews for *The Voice of Memory*.

Seeing Double Susan A. Stephens 2003-01-27 When, in the third century B.C.E., the Ptolemies became rulers in Egypt, they found themselves not only kings of a Greek population but also pharaohs for the Egyptian people. Offering a new and expanded understanding of Alexandrian poetry, Susan Stephens argues that poets such as Callimachus, Theocritus, and Apollonius proved instrumental in bridging the distance between the two distinct and at times diametrically opposed cultures under Ptolemaic rule. Her work successfully positions Alexandrian poetry as part of the dynamic in which Greek and Egyptian worlds were bound to interact socially, politically, and imaginatively. The Alexandrian poets were image-makers for the Ptolemaic court, *Seeing Double* suggests; their poems were political in the broadest sense, serving neither to support nor to subvert the status quo, but to open up a space in which social and political values could be imaginatively re-created, examined, and critiqued. *Seeing Double* depicts Alexandrian poetry in its proper context—within the writing of foundation stories and within the imaginative redefinition of Egypt as "Two Lands"—no longer the lands of Upper and Lower Egypt, but of a shared Greek and Egyptian culture.

The Gender of Death Karl S. Guthke 1999 Why is it that in some cultures and times, literature, folklore, and art commonly represent death as a man, in others as a woman? Karl S. Guthke shows that these choices, which often contradict the grammatical gender of the word 'death' in the language concerned, are neither arbitrary nor accidental. In earlier centuries, the gender of the figure of death contributed to the interpretation of biblical

narrative - in particular, whether the original sin was that of Adam or Eve - and also reflected the importance of the classical figure of Thanatos. More recently, the gender of death as angel, lover, or bride - whether terrifying or welcome - has carried powerful psychological and social connotations. Tracing the gender of representations of death in art and literature from medieval times to the present day, Guthke offers astonishing new insights into the nature and perception of the Western self in its cultural, intellectual, and literary context.

Nights on the Heights Giuseppe Bonaviri 1990 *Nights on the Heights* is the second of a trilogy of novels published by Bonaviri from the late sixties to the early seventies - all dealing with exploratory travel, incredible pursuits and strange adventures. Written in an inimitable style, in a language at once archaistic and ultramodern, lyrical and prosaic, this unusual work stands out prominently in the panorama of contemporary Italian narration. Although set primarily in and around Mineo, Sicily - the navel of the author's universe or, as he once called it, his «observatory» - the action spreads radially to other, sometimes distant locations, extending also into the realms of mythology. A cornucopia of true and imagined realities, of ancient and modern philosophy, of primitive and futuristic science, this absorbing, unclassifiable novel now appears in English for the first time.

Those Who from Afar Look Like Flies Luigi Ballerini 2017-08-28 *Those Who from Afar Look Like Flies* is an anthology of poems and essays that aims to provide an organic profile of the evolution of Italian poetry after World War II. Beginning with the birth of *Officina* and *Il Verri*, and culminating with the crisis of the mid-seventies, this tome features works by such poets as Pasolini, Pagliarani, Rosselli, Sanguineti and Zanzotto, as well as such forerunners as Villa and Cacciatore. Each section of this anthology, organized chronologically, is preceded by an introductory note and documents every stylistic or substantial change in the poetics of a group or individual. For each poet, critic, and translator a short biography and bibliography is also provided.

Aliens in Wonderland Alpha 2010-02 An informative in-depth look at the lives of several extraterrestrials (E.T.'s), Extraterrestrial Biological Entities (E.B.E.'s), and aliens, what their lives are like on their planets in their galaxies, what their spaceships are like, and how they are connected to us here on Earth. In addition, the book delves into how they are important to our religion and military strength. This novel also looks at some historical revelations, future predictions, and current happenings including an interesting collection of anecdotes regarding an ex-CIA agent who gets his wishes granted. It's the author's intention to, at the very least, bridge the gaps that exist between the religions of our generation. One gap is between our present long standing accepted knowledge of our concept of God, and our comprehensible real God. As well, a gap exists between how we are told we should interpret and demonstrate the meaning of God and how we show our faith and prove our belief in the living Creator. These are some things that the author thinks everyone needs to know about God, Satan, and UFOs. This book has been a long time in the making, twenty years, but somehow it still manages to remain ahead of its time, in most cases.

A Man Runs Into a Woman Sarah Jane Barnett 2012 In *A Man Runs into a Woman*, Barnett looks at the different ways to tell a person's story: two middle-aged men strike up an unlikely friendship, one couple reconnects after the war, while another couple leave the worst unsaid, and a cross-

dressing man talks with his daughter. A series of nine distinctive poems explore the gap between the heartfelt last words of Texas death row inmates, and the grim police reports of their crimes.

It is concerned with the coasts of the Red Sea and Indian Ocean and may be described as a combined trade directory and Admiralty Handbook, giving sailing directions and information about navigational hazards, harbours, imports and exports. It is of great value for the study of the commerce of the Roman Empire and the early history of East Africa, South Arabia and India.
