A History of Wine in Europe, 19th to 20th Centuries, Volume I Silvia A. Conca Messina

2019-11-01 This two-volume collection analyses the evolution of wine production in European regions across the nineteenth and twentieth centuries. France and Italy in particular have shaped modern viticulture, by improving oenological methods and knowledge, then disseminating them internationally. This first volume looks closely at the development of winegrowing, with cases ranging from Italian and French regions to smaller producers such as Portugal and Slovenia.

Penso con le mani Franco Galloni 2021-06-10T00:00:00+02:00 Nell'epoca in cui le scienze storiche ed esatte sono la nuova religione dell'umanità, ha ancora senso interrogarle sia prese singolarmente che nel loro complesso? Potrebbero davvero dirci qualcosa in più del mondo o, forse, da una migliore prospettiva? In realtà le scienze - siano esse biologia, fisica, chimica, psicologia o antropologia - e le loro rispettive scoperte empiriche non fanno altro che dissolversi in frammenti. Gli scienziati disperano che possa darsi una teoria generale della scienza e si rifugiano nell'empirismo, nel quale tutti i tentativi di formare una visione del mondo generale sono abbandonati; o, ancora, nello specialismo in cui tutto il mondo è ridotto alla particolare teoria specialistica della scienza con la quale il teorico è in pratica impegnato. Franco Galloni, in questo libro, partendo dalla constatazione che la scienza si dissolve nella Babele reazionaria dei saperi, mostra come l'unica via per individuare una connessione e una gerarchia in questo ambito sia il materialismo storico e dialettico. Grazie a questo strumento di pensiero si può abbracciare la realtà nella sua interezza, pur all'interno del campo delle singole scienze, poiché esso trae la sua origine dalla prassi ed è in grado di fornire una teoria rivoluzionaria perché "la realtà dobbiamo servire, negare, mutare".

Storia del Banco di Sicilia Pier Francesco Asso 2017-09-21T00:00:00+02:00 Saggi di: Manfredi Alberti, Pier Francesco Asso, Laura Azzolina, Antonino Blando, Leandra D'Antone, Sebastiano Nerozzi, Giandomenico Piluso, Aurora Romano. Il Banco di Sicilia è stato una delle più importanti banche italiane. Fin dalle sue origini (1867) ha esercitato un ruolo centrale nella vita dell'Isola, non solo influenzando i processi di sviluppo economico e di trasformazione produttiva, ma anche concorrendo a determinarne i mutevoli equilibri negli assetti sociali e politici. Utilizzando fonti in larga parte inedite, il volume esamina per la prima volta le vicende di una banca che fino al 1926 godette del diritto di emissione monetaria, operando come banca delle banche, in un rapporto di cooperazione-competizione con gli altri istituti di emissione, al cui vertice era posta la Banca d'Italia. Fra le due guerre, il Banco trasformò radicalmente il suo modello di attività, impiantando quasi da zero i servizi di credito commerciale, ampliando la sua presenza in Italia e all'estero, estendendo la sua operatività nel credito speciale a lungo termine. Nel secondo dopoguerra, nel quadro dell'autonomia regionale siciliana, esso esercitò la funzione di una vera e propria finanziaria di sviluppo, sostenendo l'avvio di importanti iniziative industriali. A partire dai primi anni sessanta il rapido esaurirsi della parabola di sviluppo dell'economia siciliana, le strategie gestionali ambiziose e poco attente al controllo dei costi e della qualità del credito, i forti condizionamenti di natura politica e ambientale, determinarono quel deterioramento delle condizioni di bilancio che, seppur con fasi di ripresa, accompagnò le vicende del Banco per oltre un trentennio, fino alla trasformazione in società

per azioni e all'assorbimento in gruppi creditizi di portata nazionale. Il volume descrive dunque le principali strategie aziendali, i mutamenti istituzionali e l'andamento economico del Banco di Sicilia dal 1867 al 1991, analizzandolo anche come luogo di selezione e affermazione delle élites e dei ceti dirigenti, in un complesso di rapporti personali, familiari, politici, che rende la sua storia inestricabilmente legata alla storia della Sicilia.

Sustainable Food and Agriculture Clayton Campanhola 2018-11-30 Sustainable Food and Agriculture: An Integrated Approach is the first book to look at the imminent threats to sustainable food security through a cross-sectoral lens. As the world faces food supply challenges posed by the declining growth rate of agricultural productivity, accelerated deterioration of quantity and quality of natural resources that underpin agricultural production, climate change, and hunger, poverty and malnutrition, a multi-faced understanding is key to identifying practical solutions. This book gives stakeholders a common vision, concept and methods that are based on proven and widely agreed strategies for continuous improvement in sustainability at different scales. While information on policies and technologies that would enhance productivity and sustainability of individual agricultural sectors is available to some extent, literature is practically devoid of information and experiences for countries and communities considering a comprehensive approach (cross-sectoral policies, strategies and technologies) to SFA. This book is the first effort to fill this gap, providing information on proven options for enhancing productivity, profitability, equity and environmental sustainability of individual sectors and, in addition, how to identify opportunities and actions for exploiting cross-sectoral synergies. Provides proven options of integrated technologies and policies, helping new programs identify appropriate existing programs Presents mechanisms/tools for balancing trade-offs and proposes indicators to facilitate decision-making and progress measurement Positions a comprehensive and informed review of issues in one place for effective education, comparison and evaluation

Paesaggio Guido Ferrara 2007 Una raccolta di saggi come questa vuole essere soprattutto la testimonianza di un percorso disciplinare, un cammino simile peraltro a quello compiuto in altre università italiane e tuttavia unico nella sua evoluzione e particolare come ogni esperienza lo è. Dieci anni di lavoro scientifico e didattico sul paesaggio meritavano una riflessione e noi l'abbiamo fatta nell'unico modo che conosciamo: scrivendo. Non c'è, dunque, né potrebbe esserci nessuna volontà celebrativa, è solo un modo, fra i tanti, di compiere una sorta di autoanalisi, di comprendere più approfonditamente noi stessi e di far meglio conoscere agli altri la nostra vicenda, quello che abbiamo prodotto, come l'abbiamo fatto e quali risultati sono stati conseguiti, al fine di poterlo confrontare e mettere a disposizione di quanti si occupano della stessa area disciplinare o di problematiche ad essa vicine.

La questione agraria Angelo Ventura 2018-05-02T00:00:00+02:00 Lungo tutto il Novecento la «questione agraria» ha rappresentato uno dei temi cruciali, non solo nella pratica degli studi di storia, ma anche nel dibattito politico e culturale su scala più generale. L'impatto della modernità sulle società rurali tradizionali, a qualunque latitudine, è stato cuore e motore delle grandi rivoluzioni contadine in Asia come in Europa o in America Latina. È dalla trasformazione delle campagne che ha preso vigore la creazione di nuove élites sociali e imprenditoriali; di epocali trapassi di regime; di imponenti innovazioni produttive, commerciali, organizzative; per non parlare delle culture e delle mentalità. Non stupisce dunque che la storia agraria abbia rappresentato un terreno necessario di indagine anche per la storia d'Italia, e che Angelo Ventura, uno degli storici più significativi del secondo Novecento, abbia dedicato una costante attenzione a questo nodo essenziale della «grande trasformazione». Colpisce, nei saggi che compongono il volume, la rara

capacità di muoversi su uno spettro cronologico assai ampio, dal Quattrocento fino agli sviluppi più recenti. È un respiro temporale che consente di cogliere elementi essenziali dell'evoluzione delle campagne sul lungo periodo, senza mai ricorrere a paradigmi o preconcetti interpretativi, a cominciare dal solido stereotipo delle «tare d'origine». I saggi qui raccolti, scritti negli anni settanta, rappresentano ancora oggi un magnifico modello di quella «integrazione» dei piani d'indagine - economico, politico, culturale - che solo i maestri sanno restituire.

A History of Italian Wine Manuel Vaquero Piñeiro 2022-08-31 This book analyzes the evolution of Italian viticulture and winemaking from the 1860s to the new Millennium. During this period the Italian wine sector experienced a profound modernization, renovating itself and adapting its products to international trends, progressively building the current excellent reputation of Italian wine in the world market. Using unpublished sources and a vast bibliography, authors highlight the main factors favoring this evolution: public institutional support to viticulture; the birth and the growth of Italian wine entrepreneurship; the improvement in quality of the winemaking processes; the increasing relevance of viticulture and winemaking in Italian agricultural production and export; and the emergence of wine as a cultural product.

Medieval Callings Jacques Le Goff 1995-12-18 These essays by eleven internationally renowned historians present nuanced profiles of the major social and professional groups—the callings-of the Middle Ages. The contributors focus on attitudes of medieval men and women toward their own society. Through a variety of techniques, from a reading of the Song of Roland to a reading of administrative records, they identify characteristic viewpoints of members of the fighting class, the clergy, and the peasantry. Along with vivid descriptions of what life was like for warrior knights, monks, high churchmen, criminals, lepers, shepherds, and prostitutes, this innovative approach offers a valuable new perspective on the complex social dynamics of feudal Europe. "Very useful discussions of texts, both learned and literary."—Christopher Dyer, *Times Literary Supplement*

Agriculture in Capitalist Europe, 1945-1960 Carin Martiin 2016-06-17 In the years before the Second World War agriculture in most European states was carried out on peasant or small family farms using technologies that relied mainly on organic inputs and local knowledge and skills, supplying products into a market that was partly local or national, partly international. The war applied a profound shock to this system. In some countries farms became battlefields, causing the extensive destruction of buildings, crops and livestock. In others, farmers had to respond to calls from the state for increased production to cope with the effects of wartime disruption of international trade. By the end of the war food was rationed when it was obtainable at all. Only fifteen years later the erstwhile enemies were planning ways of bringing about a single agricultural market across much of continental western Europe, as farmers mechanised, motorized, shed labour, invested capital, and adopted new technologies to increase output. This volume brings together scholars working on this period of dramatic technical, commercial and political change in agriculture, from the end of the Second World War to the emergence of the Common Agricultural Policy in the early 1960s. Their work is structured around four themes: the changes in the international political order within which agriculture operated; the emergence of a range of different market regulation schemes that preceded the CAP; changes in technology and the extent to which they were promoted by state policy; and the impact of these political and technical changes on rural societies in western Europe.

Scusate il ritardo Gianni Pittella 2016-01-25T00:00:00+01:00 «La prima cosa è un cambiamento del punto di vista. Non più un Mezzogiorno chiuso a contemplare se stesso e i suoi difetti: al contrario, una regione cruciale per gli sviluppi storici di un'area assai più vasta, di cui si colloca ben al centro. Mezzogiorno cuore d'Europa e del Mediterraneo». Si può colmare, il «ritardo» del Sud? Si possono concepire i suoi problemi in termini di concreta ricerca delle soluzioni? O si deve pensare al «divario» come a una irremissibile condanna? Dopo decenni di discussioni stanche e ripetitive, declinate via via in tono minore, cui ha corrisposto una sostanziale paralisi nella elaborazione di progetti e iniziative, il dibattito sulle condizioni del nostro Mezzogiorno sta assumendo auspicabilmente, in questa fase, caratteri più concreti. Alle storiche contrapposizioni tra meridionalismo classico e neomeridionalismo, o tra intervento «dall'alto» e intervento «dal basso», sembra possibile sostituire una visione di sintesi più operativa. Si tratta di indicare i filoni fondamentali di un disegno di sviluppo che riguardi quelle dotazioni economiche e civili di cui il Sud ha più che mai bisogno. Questo volume è il frutto della collaborazione tra due personalità che hanno condotto esperienze impegnative in campi diversi, ma che si sono ritrovate in una interpretazione innovativa del Mezzogiorno, della sua evoluzione e delle sue prospettive: Gianni Pittella, forte della lunga attività svolta nel Parlamento europeo, da vicepresidente di questa istituzione e ora capogruppo del Pse; e Amedeo Lepore, storico economico e meridionalista di grande competenza, ora impegnato nella Giunta regionale della Campania. Al centro del lavoro vi è l'idea di una «convergenza attiva» del Mezzogiorno nel contesto nazionale ed europeo. Una convergenza che richiede, da parte dei meridionali, sangue e passione, e soprattutto la capacità di guidare il proprio percorso di riscatto. Al governo nazionale e alle istituzioni europee si impone d'altro canto il compito di garantire una strategia nazionale ed europea, partendo dalla consapevolezza che «se il Sud ha bisogno di buone politiche, non è meno vero che l'Italia e l'Europa hanno bisogno del Sud». Dopo avere avanzato una diagnosi complessiva della «questione», il libro propone anche un blocco di undici progetti, in grado di contribuire al disegno di una nuova frontiera meridionale. Apre il volume una prefazione di Matteo Renzi, che delinea il quadro delle strategie con cui l'attuale governo intende operare nella prospettiva di una politica nazionale per il Mezzogiorno.

Julius Caesar Luciano Canfora 2007-02-05 This book is a splendid profile of an extraordinary man, and a radically new interpretation of one of the most controversial figures in history. Caesar played a leading role in the politics and culture of a world empire, dwarfing his contemporaries in ambition, achievement and appetite. For that, he has occupied a central place in the political imagination of Europe ever since. Yet he remains something of an enigma, struck down by his own lieutenants because he could be neither comprehended nor contained. In surviving evidence he emerges as incommensurate and nonpareil, just beyond the horizons of contemporary political thought and understanding. The result of Luciano Canfora's many years of research is a fascinating portrait of the Roman dictator, combining the evidence of political history and psychology. The product of a comprehensive study of the ancient sources, it paints an astonishingly detailed portrait of a complex personality whose mission of 'Romanisation' lies at the root of modern Europe. Key Features* Easy, engaging and pleasurable to read* About 42 chronological studies of events create a full portrait of Caesar and the contemporary Roman background* Space is devoted to the details surrounding his assassination

ministro dell'agricoltura (1974-1980) è ancora oggi figura poco conosciuta agli studiosi come al pubblico dei lettori. Questo libro, basato su un'ampia ricognizione di fonti americane inedite, conservate presso i national archives nel Maryland, consente di addentrarsi nelle relazioni diplomatiche internazionali e di lumeggiare aspetti interessanti della sua azione politica, in un'Italia attraversata da una profonda crisi economica e sociale. Dal "compromesso storico" ai contrasti interni alla con l'Europa e gli Usa ai delicati incontri con l'ambasciatore americano a Roma, emergono i tratti di un politico a tutto tondo, impegnato a salvaguardare le prospettive di sviluppo dell'agricoltura italiana in un difficile contesto nazionale e internazionale.

Agricoltura-mondo Guido Fabiani 2015-10-13T00:00:00+02:00 Alla metà del secolo scorso, nelle economie avanzate, l'agricoltura rappresentava ancora una fonte importante di reddito e di occupazione. Oggi il suo contributo alla formazione della ricchezza e all'impiego di forza lavoro è minimo. Ma è divenuto grande il peso dei sistemi agroalimentari. È avvenuto un cambiamento radicale nelle campagne, che ha inciso sulle abitudini alimentari, sugli stili di vita, sullo stesso immaginario dei nostri contemporanei. Il viaggio di Guido Fabiani nell'agricoltura mondiale abbraccia tutto il Novecento, fino a oggi. Si parte dalla rivoluzione avvenuta nei sistemi economici avanzati in seguito alla Grande crisi del 1929 e quindi alle diverse forme di intervento statale - il New Deal negli Usa, la collettivizzazione in Urss e l'autarchia agricola in Italia -, per passare alla fase segnata dall'egemonia statunitense e poi, con l'affermarsi dei paesi dell'Unione europea, alla costituzione dei due più forti sistemi agro-alimentari al mondo, che hanno dominato la scena per alcuni decenni. Il quadro sta cambiando velocemente: le agricolture emergenti possono giocare un ruolo da protagoniste nello scenario globale; sono cresciute le esigenze alimentari delle popolazioni, specie in alcune aree geografiche; si è alterato il rapporto uomo/natura con riflessi pericolosi sull'uso e la conservazione delle risorse naturali. Se l'agricoltura è diventata un laboratorio di modernizzazione, si diffonde sempre più la consapevolezza, anche ai massimi vertici delle istituzioni internazionali, che il paradigma fin qui dominante non è più sostenibile. Produzione biologica, agriturismo, agricoltura sociale, presidio del territorio, valorizzazione delle produzioni tradizionali, ecosostenibilità sono le attività dell'agricoltura contemporanea. Restano aperti, e affascinanti, gli interrogativi circa le forme che prenderà il nuovo modello di agricoltura.

This Bridge Will Not Be Gray Dave Eggers 2018-03-13 A "witty [and] compelling" true story for kids about San Francisco's Golden Gate Bridge—and why it's orange—by the New York Times–bestselling author! (Fast Company). In this delightfully original nonfiction book, National Book Award and Pulitzer Prize finalist Dave Eggers tackles one of the most famous architectural monuments in the world: the Golden Gate Bridge—and all the arguments and debates about building it and what it should look like. Cut-paper illustrations by Tucker Nichols enliven the tale, and this revised edition also includes real-life letters from local constituents making the case for keeping the bridge orange. With sly humor and lots of fascinating historical facts, this is an accessible, enjoyable read for kids (or adults), transporting readers to the glorious Golden Gate no matter where they live. "Eggers's featherlight humor provides laughs throughout." —Publishers Weekly (starred review). "A love letter to infrastructure." —The New York Times "A story compelling enough to keep adults interested as they read it (and re-read it and re-read it) each night at bedtime." —Fast Company

Storia dell'agricoltura italiana in età contemporanea 1989

The Oxford Handbook of Italian Politics Erik Jones 2015 The Oxford Handbook of Italian Politics provides a comprehensive look at the political life of one of Europe's most exciting and turbulent democracies. Under the hegemonic influence of Christian Democracy in the early post-World War II decades, Italy went through a period of rapid growth and political transformation. In part this resulted in tumult and a crisis of governability; however, it also gave rise to innovation in the form of Eurocommunism and new forms of political accommodation. The great strength of Italy lay in its constitution; its great weakness lay in certain legacies of the past. Organized crime--popularly but not exclusively associated with the mafia--is one example. A self-contained and well entrenched 'caste' of political and economic elites is another. These weaknesses became apparent in the

breakdown of political order in the late 1980s and early 1990s. This ushered in a combination of populist political mobilization and experimentation with electoral systems design, and the result has been more evolutionary than transformative. Italian politics today is different from what it was during the immediate post-World War II period, but it still shows many of the influences of the past.

La Coldiretti e la storia d'Italia Emanuele Bernardi 2020-09-14T00:00:00+02:00 La Confederazione dei coltivatori diretti è ancora oggi largamente rappresentativa del mondo agricolo italiano, ma la sua storia, iniziata con la fondazione nel 1944 e intrecciata inestricabilmente alle vicende più generali del nostro paese, è ancora poco conosciuta: una lacuna che questo libro intende colmare. Dedicato agli anni cruciali della lunga presidenza di Paolo Bonomi (1944-1980), basato su un'ampissima gamma di fonti, ricco di suggestioni, spunti e curiosità, il volume ripercorre sia la dimensione locale della Coldiretti, sia i legami internazionali che contribuirono alla sua crescita. L'autore conduce il lettore nelle stanze dell'organizzazione, seguendone il percorso dalla fondazione all'insediamento a Palazzo Rospigliosi a Roma e fin nel Dipartimento di Stato a Washington, dove Bonomi si recò per la prima volta nel 1954. Tra locale, nazionale e globale, la Coldiretti si vide coinvolta nei momenti più significativi della storia d'Italia: dagli appuntamenti elettorali alle crisi internazionali (le rivolte nel mondo sovietico del 1956 e 1968; il Muro di Berlino; la strage di piazza Fontana), dai problemi della produzione a quelli dell'ambiente e del welfare state; dalla centralità della quantità del cibo a quella della qualità, con l'affermarsi del «mangiare italiano». Erede del processo di nazionalizzazione delle masse e del cibo avviato con la prima guerra mondiale e dal fascismo, la Coldiretti visse così tutte le diverse fasi della vita della Repubblica e le contraddizioni di lungo periodo del «miracolo economico», per confrontarsi con l'ascesa di populismo, antipolitica e antieuropeismo, quasi che i recenti sviluppi politici e sociali del nostro paese trovino nella seconda metà del Novecento alcune delle loro radici e spiegazioni. Ne emerge il profilo di un'organizzazione capace di seguire i propri associati dalla culla alla tomba, ma anche in grado di influenzare la storia nazionale.

Scenari del mondo contemporaneo dal 1815 a oggi Giovanni Montroni 2014-09-01T00:00:00+02:00 Il manuale ripercorre le vicende della storia mondiale lungo un arco di tempo bisecolare che dal congresso di Vienna arriva fino ai nostri giorni. Dopo aver delineato vicende demografiche, evoluzioni ambientali, trasformazioni di sistemi produttivi e forme di organizzazione del lavoro industriale negli ultimi due secoli, il volume adotta un scansione cronologica definita da avvenimenti considerati particolarmente periodizzanti: congresso di Vienna (1814-1815), nascita dell'Impero tedesco (1871), prima guerra mondiale (1914- 1918), invasione dell'Ungheria (1956), crollo del sistema sovietico (1991). L'ultimo capitolo segue le più recenti vicende mondiali fino al 2004.

It is the 14th in the series of annual reports that tracks development progress in Asia and the Pacific, assesses ADB's development effectiveness, and identifies areas where the institution's performance needs to be strengthened.

Esodo e ritorno Autori Vari 2022-07-19T17:00:00+02:00 Come è cambiato e come sta cambiando il rapporto tra la campagna, chi la abita e chi la lavora? Quanto è reale il ritrovato interesse - anche nei giovani - per un'attività agricola, lontano dalla città e a diretto contatto con il mondo animale e vegetale? È possibile parlare di un "ritorno alla terra", quasi a riequilibrare la grande fuga creatasi tra gli anni Cinquanta e Settanta? Sono domande alle quali si cerca di dare risposte non banali, non soltanto grazie alla competenza di esperti e tecnici, ma anche di artisti - in particolare registi e documentaristi - che hanno colto, con la loro sensibilità, questi aspetti. A partire da una prospettiva storica, rivisitando aspetti e momenti dell'esodo, ci si spinge verso l'attualità, per riflettere su alcuni dei temi di un "ritorno" tutto da verificare e governare.

Percorsi ulivi xylella: Rural paths un progetto per combattere l'emergenza ecologica nell'entroterra salentino Michele Spano 2018-05-29 Il secondo libro della collana "The Proactive Revolution In Architecture" diretta da Antonino Saggio, affronta la crisi della epidemia batteriologica che ha devastato ampia parte del territorio del Salento. Il libro opera una disamina del dedalo di

informazioni, delle azioni politiche amministrative e sociali, degli allarmi veri e presunti. Analizza inoltre esempi internazionali riusciti di integrazione tra architettura, ambiente e attività rurali. Nel libro viene individuato un vasto territorio investito dall'epidemia, lo si analizza nelle sue possibilità e nelle sue specifiche criticità. Michele Spano individua una parte in cui può sorgere un campus agricolo destinato alla gestione dell'emergenza e il rilancio agricolo della zona, una ipotesi niente affatto ipotetica, ma prevista dai provvedimenti ministeriali per affrontare la crisi. Nasce così un piccolo centro di mixité con residenza, laboratorio, aule specializzate che si innesta in continuità con i percorsi di valorizzazione del parco agricolo.

History of the Italian Agricultural Landscape Emilio Sereni 2014-07-14 Emilio Sereni's classic work is now available in an English language edition. History of the Italian Agricultural Landscape is a synthesis of the agricultural history of Italy in its economic, social, and ecological context, from antiquity to the mid-twentieth century. From his perspective in the Italian tradition of cultural Marxism, Sereni guides the reader through the millennial changes that have affected the agriculture and ecology of the regions of Italy, as well as through the successes and failures of farmers and technicians in antiquity, the middle ages, the Renaissance, and the Industrial Revolution. In this sweeping historical survey, he describes attempts by successive generations to adapt Italy's natural environment for the purposes of agriculture and to respond to its changing ecological problems. History of the Italian Agricultural Landscape first appeared in 1961. At the time of its publication it was a pathbreaking work, parallel in its importance for Italy to Marc Bloc's masterwork of 1931, *The Original Characteristics of French Rural History*. Sereni invented the concept of the historical "agricultural landscape": an interdisciplinary characterization of rural life involving economic and social history, linguistics, archeology, art history, and ecological studies. Originally published in 1997. The Princeton Legacy Library uses the latest print-on-demand technology to again make available previously out-of-print books from the distinguished backlist of Princeton University Press. These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions. The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905.

The New Regional Pattern Ludwig Hilberseimer 1949 In this new book—a companion volume to his *THE NEW CITY* (now out of print)—the author demonstrates again the soundness and practicability of his planning theories. But here he is dealing with, and applying these planning-principles on a large scale, reaching far beyond the city's boundaries into adjacent regions, integrating agriculture and industry and merging vast territory into an organic self-sufficient entity. And here the author brings together an immense amount of heretofore unavailable information on this vital phase of planning. He unfolds a grand plan for better living, treating the whole complex subject as a major social, economic and political problem. The benefits of regional planning are many. Guided by an unselfish spirit it can restore order in the present chaos and regenerate the life of the people. A planned integration of agriculture and industry can bring our economic life into a sound and stable balance. By an organic development of the environment, toward the establishment of the good life, regional planning can create the condition to help us preserve our resources and our very life. In the present volume a good part is given to historical consideration together with facts, ways and means of achieving this task of regional planning. No utopian dreamer, Hilberseimer's plans are entirely feasible and his book should be read by many peoples of diverse professions. -- from dust jacket.

Storia dell'agricoltura italiana in età contemporanea Piero Bevilacqua 1989

Il cibo e la terra Piero Bevilacqua 2018-11-30T00:00:00+01:00 Oggi l'agricoltura, così come si è sviluppata negli ultimi 70 anni, pone all'umanità intera problemi drammatici: consuma il 70% delle risorse idriche del pianeta; concorre al processo di riscaldamento globale; sterilizza e desertifica terre fertili; inquina le acque. Fortunatamente questa è solo una faccia della luna. La lotta a un modello insostenibile di produzione del cibo e la riscoperta della biodiversità stanno diventando un fenomeno di massa. E l'Italia, con la sua tradizione alimentare, ne è all'avanguardia.

Urban Agriculture Europe Frank Lohrberg 2016 "How can agriculture contribute to the

sustainable development of European cities? How can agriculture and horticulture create vital urban spaces that have new social and ecological qualities and are also economically viable? Urban Agriculture Europe is the first comprehensive, transdisciplinary publication about urban agriculture in Europe. Apart from well-known examples of urban food gardens in Western European metropolises, this volume also studies innovative forms of periurban agriculture, bringing in experiences in Eastern and Southern Europe. The contributions approach urban agriculture from the point of view of social science, the economy, agricultural ecology, and spatial planning and address the role of citizens, involved parties, and politics, as well as operational models and planning tools. Case studies from Barcelona, Dublin, Geneva, Milan, Sofia, Warsaw, and the Ruhr Metropolis allow a comparative view of European practice. Statements from involved parties and guidance for cities and regions round off the publication."--Page 4 of cover.
