Countering the Problem of Falsified and Substandard Drugs Institute of Medicine 2013-06-20

The adulteration and fraudulent manufacture of medicines is an old problem, vastly aggravated by modern manufacturing and trade. In the last decade, impotent antimicrobial drugs have compromised the treatment of many deadly diseases in poor countries. More recently, negligent production at a Massachusetts compounding pharmacy sickened hundreds of Americans. While the national drugs regulatory authority (hereafter, the regulatory authority) is responsible for the safety of a country's drug supply, no single country can entirely guarantee this today. The once common use of the term counterfeit to describe any drug that is not what it claims to be is at the heart of the argument. In a narrow, legal sense a counterfeit drug is one that infringes on a registered trademark. The lay meaning is much broader, including any drug made with intentional deceit. Some generic drug companies and civil society groups object to calling bad medicines counterfeit, seeing it as the deliberate conflation of public health and intellectual property concerns. *Countering the Problem of Falsified and Substandard Drugs* accepts the narrow meaning of counterfeit, and, because the nuances of trademark infringement must be dealt with by courts, case by case, the report does not discuss the problem of counterfeit medicines.

The Poison Plot Elaine Forman Crane 2018-05-15 An accusation of attempted murder rudely interrupted Mary Arnold's dalliances with working men and her extensive shopping sprees. When her husband Benedict fell deathly ill and then asserted she had tried to kill him with poison, the result was a dramatic petition for divorce. The case before the Rhode Island General Assembly and its tumultuous aftermath, during which Benedict died, made Mary a cause célèbre in Newport through the winter of 1738 and 1739. Elaine Forman Crane invites readers into the salacious domestic life of Mary and Benedict Arnold and reveals the seamy side of colonial Newport. The surprise of *The Poison Plot*, however, is not the outrageous acts of Mary or the peculiar fact that attempted murder was not a convictable offense in Rhode Island. As Crane shows with style, Mary's case was remarkable precisely because adultery, criminality and theft, and even spousal homicide were well known in the New England colonies. Assumptions of Puritan propriety are overturned by the facts of rough and tumble life in a port city: money was to be made, pleasure was to be had, and if marriage became an obstacle to those pursuits a woman had means to set things right. *The Poison Plot* is an intimate drama constructed from historical documents and informed by Crane's deep knowledge of elite and common life in Newport. Her keen eye for telling details and her sense of story bring Mary, Benedict, and a host of other characters—including her partner in adultery, Walter Motley, and John Tweedy the apothecary who sold Mary toxic drugs—to life in the homes, streets, and shops of the port city. The result is a vivid tale that will change minds about life in supposedly prim and proper New England.

'A New Type of History' Beverley Southgate 2015-05-22 Linking fiction with history and historical theory, *'A New Type of History': Fictional Proposals for dealing with the Past* focuses on a selection of nineteenth- and twentieth-century novelists – Tolstoy, Proust, John Cowper Powys, Virginia Woolf, Wyndham Lewis, Penelope Lively, and James Hamilton-Paterson – who have criticized scientifically based history and proposed alternative ways of approaching the past: more subjective and personal, colourful and imaginative, and above all ethically orientated. In this, it is argued, they have been reverting to an earlier rhetorical model for history, which is now being increasingly adopted by practising historians. This 'new type of history' may lack the claimed 'objectivity' and 'truth' of its immediate predecessor, but it opens the way for an ethically focused subject that may be used (in Nietzsche's words) 'for the purpose of life'. Providing a new take on both novelists and historiography, and ranging widely from the nineteenth century to the present day, this cross-disciplinary study will be valuable reading for all those interested in the intersection and interplay between fiction and history.

Japanese Notebooks 2017-05-02 Japan is a place of special fascination for the acclaimed international comics creator Igort, who has visited and lived there more than 20 times, and worked in the country's manga industry for more than a decade. In this masterful new book—part graphic memoir, part cultural meditation—Igort vividly recounts his personal experiences in Japan, creating comics amid the activities of everyday life, and finding inspiration everywhere: in nature, history, custom, art, and encounters with creators including animation visionary Hayao Miyazaki. With beautifully illustrated reflections on subjects from printmaking to Zen Buddhism, imperial history to the samurai code, Japanese film, literature, and manga, this is a richly rewarding book for anyone interested in Japan or comic arts practiced at the highest level.

Each entry includes a biographical narrative of the person or people, highlighting the significance of their lives and witness. A devotional collect is provided in both Rite I and Rite II language and a set of indexing "tags" suggests how the entry fits into the broader scope of Christian history and delineates the Christian gifts and virtues that may have inspired the person's ministries. This edition is printed on a special synthetic paper coated with a unique clay coating which

combines the advantages of paper with the durability of plastic. This paper looks and feels like paper but stands up to water, weather, grease, chemicals and resists tearing in both directions.

Aiming at Targets Robert C. Seamans 1996 An essential volume in the NASA History Series by Robert C. Seamans, Jr., the Associate Administrator of NASA during the Apollo program. A stirring insider's account of NASA and the manned space program at the highest levels. Relationships with the Department of Defense, the Apollo 204 fire, the assassination of President Kennedy, and more. *Aiming at Targets* is a series of fascinating topical vignettes covering the author's professional life. Taken together, like broad brushstrokes in an impressionist painting, they give a better picture of Bob Seamans and his work than a detailed recitation of facts and dates could hope to do. This is a cheerful account of an interesting and successful career. The book is full of good stories, with many memorable characters. Like the proverbial sundial, it counts the sunny hours.

Father Ed Dowling Glenn F. Chesnut 2015-07-17 The story of Father Ed Dowling, S.J., the Jesuit priest who served for twenty years as sponsor and spiritual guide to Bill Wilson, the co-founder of Alcoholics Anonymous. An icy evening in December 1940 saw the first meeting of two extraordinary spiritual leaders. Father Ed said that the graces he received from meeting Bill Wilson were as great as those he had received from his ordination as a priest, and Bill in turn described encountering the Jesuit as being like a second conversion experience, where he could feel the transcendent presence of God filling the entire room with grace. The good priest taught Wilson about St. Ignatius Loyolas Spiritual Exercises, about the eternal battle between good and evil which the Spanish saint described in that book, and explained the Jesuit understanding of the way we can use our deepest emotions to receive guidance from God while serving on that battlefield. The co-founder of the twelve step movement in turn supplied Father Ed with some of the most valuable tools he possessed for carrying out small group therapy on a wide range of different kinds of troubled people. Together the two men discussed Poulains Graces of Interior Prayer and Bills attempts to make spiritual contact with both spooks and saints, and explored the world of LSD experiences and the teachings of the Catholic, Hindu, and Buddhist mystics in Aldous Huxleys Perennial Philosophy. And we will see how Father Ed, with his deep social conscience, helped Bill W. turn his book on the Twelve Traditions into a Bill of Rights for the twelve step movement, and how he laid out his own spiritual vision of Alcoholics Anonymous at the A.A. International in St. Louis in 1955.

The collection of approximately 400 articles, alphabetically arranged and written by some seventy faculty members and alumni in addition to the author, covers all aspects of Princeton life in the past as well as in the present. Of special interest are the biographies of eminent Princetonians, including the University's presidents, well-known trustees, distinguished deans, famous alumni, and some of Princeton's most prominent and popular professors. Other articles in the book embrace a wide range of topics: histories of academic departments, programs, and research units; descriptions of the honor system, the preceptorial method, the four-course plan, and coeducation; a historical survey of the University's acquisition of land and the development of its campus, together with articles on its principal buildings; pieces on student activities; accounts of alumni activities; articles on athletics; portraits of notable personalities; and commentaries on a host of lighter topics such as the cane spree, beer jackets, the Faculty Song, the proctors, and Veterans of Future Wars. Among the most important articles are one summarizing Woodrow Wilson's Sesquicentennial address, "Princeton in the Nation's Service," and a dozen others recording faculty and alumni achievements toward the goal encompassed by that phrase. Originally published in 1978.

Strengthening Forensic Science in the United States National Research Council 2009-07-29 Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. *Strengthening Forensic Science in the United States* gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

The Varieties of Religious Experience William James 2009-01-01 Harvard psychologist and philosopher William James' *The Varieties of Religious Experience: A Study in Human Nature* explores the nature of religion and, in James' observation, its divorce from science when studied academically. After publication in 1902 it quickly became a canonical text of philosophy and psychology, remaining in print through the entire century. "Scientific theories are organically conditioned just as much as religious emotions are; and if we only knew the facts intimately enough, we should doubtless see 'the liver' determining the dicta of the sturdy atheist as decisively as it does those of the Methodist under conviction anxious about his soul. When it alters in one way the blood that percolates it, we get the Methodist, when in another way, we get the atheist form of mind."

The First Forensic Hanging Summer Strevens 2018-09-30 'For the sake of decency, gentlemen, don't hang me high.' This was the last request of modest murderess Mary Blandy, who was hanged for poisoning her father in 1752. Concerned that the young men in the crowd who had thronged to see her execution might look up her skirts as she was 'turned off' by the hangman, this last nod to propriety might appear farcical in one who was about to meet her maker. Yet this was just another aspect of a case which attracted so much public attention in its day that some determined spectators even went to the lengths of climbing through the courtroom windows to get a glimpse of Mary while on trial. Indeed her case remained newsworthy for the best part of 1752, for months garnering

endless scrutiny and mixed reaction in the popular press. Opinions are certainly still divided on the matter of Mary's 'intention' in the poisoning of her father, and the extent to which her coercive lover, Captain William Cranstoun, was responsible for this murder by proxy. Yet Mary Blandy's trial was also notable in that it was the first time that detailed medical evidence had been presented in a court of law on a charge of murder by poisoning, and the first time that any court had accepted toxicological evidence in an arsenic poisoning case. The forensic legacy of the acceptance of Dr Anthony Addington's application of chemistry to a criminal investigation is another compelling aspect of *The First Forensic Hanging*.

Burned at the Stake Summer Strevens 2017-10-18 A true story of crime and punishment in eighteenth-century England, and the first trial in recorded history to employ forensic evidence. In 1706, nineteen-year-old Mary Channing was convicted of poisoning her husband and became the last woman to be burned at the stake in Dorset. Despite the likely culpability of her lover, and her impressive attempts to defend herself, the jury took only half an hour to find her guilty, having accepted the groundbreaking toxicological evidence by prosecutors. When the day finally arrived, Mary's execution was made into something of a county fair, with ten thousand spectators gathering to see the young mother consigned to the flames upon the floor of Dorchester's ancient Roman amphitheater, Maumbury Rings. More than three hundred years after her barbaric demise, Mary's fate still holds a macabre fascination, as it did then for author Thomas Hardy, for whom it became an obsession. Hardy recorded the details of Mary's execution in his notebooks, expressed doubt of her guilt, and used her as the inspiration for his poem, "The Mock Wife". Yet while Mary Channing has been granted a kind of grim celebrity, as well as an established place in the annals of female murderers, a measure of compelling sympathy for her case is another lasting aspect of her legacy is this "dramatic and fascinating" chronicle of a woman accused (Ripperologist Magazine).

The Yorkshire Witch Summer Strevens 2017-01-31 On the morning of 20 March 1809, the woman who had earned herself the title of 'The Yorkshire Witch' was hanged upon York's 'New Drop' gallows before an estimated crowd of 20,000 people. Some of those who came to see Mary Bateman die had traveled all the way from Leeds, many of them on foot, and many of them were doubtless the victims of her hoaxes and extortion. A consummate con-artist, Mary was extremely adept at identifying the psychological weaknesses of the desperate and poor who populated the growing industrial metropolis of Leeds at the turn of the nineteenth century. Exploiting their fears and terror of witchcraft, Mary Bateman was well placed to rob them of all their worldly goods, yet she did much more than cause misery and penury; though tried and convicted on a single murder charge, the contemporary branding of Bateman as a serial killer is doubtless accurate. Meticulously researched,

this accessible, and at times shocking retelling of Mary Bateman's life, and indeed her death, is the first since the publication chronicling her criminal career appeared in print in 1811, two years after her execution. Not only focusing on the details of her felonies and the consequences to her victims, it also examines the macabre legacy of her mortal remains, a bone of contention (literally you might say!) with the continuous public display of her skeleton in the Thackray Medical Museum until the recent removal of this controversial exhibit.

Women Writers and Old Age in Great Britain, 1750-1850 Devoney Looser 2008-08-01 This groundbreaking study explores the later lives and late-life writings of more than two dozen British women authors active during the long eighteenth century. Drawing on biographical materials, literary texts, and reception histories, Devoney Looser finds that far from fading into moribund old age, female literary greats such as Anna Letitia Barbauld, Frances Burney, Maria Edgeworth, Catharine Macaulay, Hester Lynch Piozzi, and Jane Porter toiled for decades after they achieved acclaim -- despite seemingly concerted attempts by literary gatekeepers to marginalize their later contributions. Though these remarkable women wrote and published well into old age, Looser sees in their late careers the necessity of choosing among several different paths. These included receding into the background as authors of "classics," adapting to grandmotherly standards of behavior, attempting to reshape masculinized conceptions of aged wisdom, or trying to create entirely new categories for older women writers. In assessing how these writers affected and were affected by the culture in which they lived, and in examining their varied reactions to the prospect of aging, Looser constructs careful portraits of each of her Subjects and explains why many turned toward retrospection in their later works. In illuminating the powerful and often poorly recognized legacy of the British women writers who spurred a marketplace revolution in their earlier years only to find unanticipated barriers to acceptance in later life, Looser opens up new scholarly territory in the burgeoning field of feminist age studies.

[Cannibals All!](#) George Fitzhugh 1857 Southern intellectual George Fitzhugh provides a passionate defense of slavery in this nearly 400-page volume published in 1857. Further developing ideas in his previous work *Sociology for the South*, Fitzhugh not only defends slavery but attacks the entire liberal tradition. Attacking Adam Smith, John Locke, Thomas Jefferson and others, Fitzhugh argues that free markets are harmful to society by forcing the lower classes into crushing labor and poverty. The answer, Fitzhugh argues, is slavery--not only for blacks, but for whites as well. "Slavery," he writes, "is a form, and the very best form, of socialism."

Social Transformations in Hardy's Tragic Novels D. Musselwhite 2003-09-16 Drawing on the theoretical work of Deleuze and Guattari and that of Jean Laplanche - particularly his major and as yet still relatively unfamiliar notion of the phantasme - Social Formation in Hardy's Major Novels is an original and groundbreaking rereading of Hardy's four major tragic novels. The readings are sophisticated and yet accessible. The theoretical work is complemented by the use of new and hitherto unregarded major empirical findings that reveal the very heart of Hardy's creative universe.
