Making War, Making Women Melissa A. McEuen 2011-02-15 Drawing on war propaganda, popular advertising, voluminous government records, and hundreds of letters and other accounts written by women in the 1940s, Melissa A. McEuen examines how extensively women's bodies and minds became "battlegrounds" in the U.S. fight for victory in World War II. Women were led to believe that the nation's success depended on their efforts--not just on factory floors, but at their dressing tables, bathroom sinks, and laundry rooms. They were to fill their arsenals with lipstick, nail polish, creams, and cleansers in their battles to meet the standards of ideal womanhood touted in magazines, newspapers, billboards, posters, pamphlets and in the rapidly expanding pinup genre. Scrutinized and sexualized in new ways, women understood that their faces, clothes, and comportment would indicate how seriously they took their responsibilities as citizens. McEuen also shows that the wartime rhetoric of freedom, democracy, and postwar opportunity coexisted uneasily with the realities of a racially stratified society. The context of war created and reinforced whiteness, and McEuen explores how African Americans grappled with whiteness as representing the true American identity. Using perspectives of cultural studies and feminist theory, *Making War, Making Women* offers a broad look at how women on the American home front grappled with a political culture that used their bodies in service of the war effort.

Hell Hath No Fury Meghan R. Henning 2021-09-21 The first major book to examine ancient Christian literature on hell through the lenses of gender and disability studies Throughout the Christian tradition, descriptions of hell's fiery torments have shaped contemporary notions of the afterlife, divine justice, and physical suffering. But rarely do we consider the roots of such conceptions, which originate in a group of understudied ancient texts: the early Christian apocalypses. In this pioneering study, Meghan Henning illuminates how the bodies that populate hell in early Christian literature—largely those of women, enslaved persons, and individuals with disabilities—are punished after death in spaces that mirror real carceral spaces, effectually criminalizing those bodies on earth. Contextualizing the apocalypses alongside ancient medical texts, inscriptions, philosophy, and patristic writings, this book demonstrates the ways that Christian depictions of hell intensified and preserved ancient notions of gender and bodily normativity that continue to inform Christian identity.

Food, Agriculture and Social Change Stephen Sherwood 2017-05-22 In recent years, food studies scholarship has tended to focus on a number of increasingly abstract, largely unquestioned concepts with regard to how capital, markets and states organize and operate. This has led to a gulf between public policy and people's realities with food as experienced in homes and on the streets. Through grounded case studies in seven Latin American countries, this book explores how development and social change in food and agriculture are fundamentally experiential, contingent and unpredictable. In viewing development in food as a socio-political-material experience, the authors find new objects, intersubjectivities and associations. These reveal a multiplicity of processes, effects and affects largely absent in current academic literature and public policy debates. In their attention to the contingency and creativity found in households, neighbourhoods and social networks, as well as at the borders of human-nonhuman experience, the book explores how people diversely meet their food needs and passions while confronting the region's most pressing social, health and environmental concerns.

From the case of the beautiful Diana Perry, who suffered years of abuse at the hands of her husband before taking the matter into her own hands, to Bobby, a woman whose gruesome interest in blood led to one of the most horrific seduction killings ever seen, this book tells the chilling stories of women who kill, and examines exactly what triggers their murderous intent. The astonishing truth lies within these pages...

Resistance (At All Costs) Kimberley Strassel 2019-10-15 Wall Street Journal columnist and New York Times bestselling author Kim Strassel argues that the all-out "Resistance" has become dangerously reckless in its obstruction of President Trump. Among the most consistent and aggressive criticisms of Donald Trump is that he is a threat to American democracy -- a human wrecking ball demolishing our most basic values and institutions. *Resistance (At All Costs)* makes the opposite case -- that it is Trump's critics, in their zeal to oppose the president, who are undermining our foundations. From the FBI's unprecedented counterintelligence investigation into the Trump campaign, to bureaucratic sabotage, to media partisanship, to the drive-by character assassination of Trump nominee Brett Kavanaugh, the president's foes have thrown aside norms, due process and the rule of law. *Resistance (At All Costs)* shows that the reaction to Trump will prove far more consequential and damaging to our nation long-term than Trump's time in office. Instant New York Times

Outrageous Truth... Robert Jeffress 2013-07-24 SEVEN OUTRAGEOUS TRUTHS YOU CAN STILL BELIEVE . . . AND WHY "Every other religion is wrong." "God sends good people to Hell." "Homosexuality is a perversion." "Evolution is a myth." "God is ultimately responsible for suffering in the world." "Husbands are to lead their families." "America is a Christian nation." In Hell? Yes! Dr. Robert Jeffress issues a bold wakeup call to all believers—from college students to grandparents—to stop apologizing for and start proclaiming the tough but essential truths that Christians have historically embraced. And he provides the finest biblical, scientific, and historical evidence needed to defend these core beliefs in a culture turned hostile to God's truth. Dr. Jeffress believes the secular spirit of political correctness is holding the church hostage. And the tragic result is that the revolutionary, life-changing, positive message of the Christian faith is being watered down. If you are weary of a Christianity that waffles and wavers about controversial issues—if you are ready to stand up and compassionately yet forcefully and intelligently say, "This is what I believe and here's why"—then this book is for you!

The Journey to the Undiscovered Country William Powell Tuck 2012-08-01 What happens at the end? What do we mean by the end? When will we see the last things? The theological term for "the last things" is eschatology. It is the Christian doctrine which is concerned with the final "things," death, the second coming of Christ, the resurrection of the dead, the immortality of the soul, the final judgment, heaven and hell. Even though these themes are at the heart of the Christian faith, it is often difficult to voice with clarity what we mean by them. In *The Journey to the Undiscovered Country*, William Powell Tuck says, "Although there is no clear, simple, New Testament answer on all of these issues, the New Testament is unequivocal in its hope for men and women in Jesus Christ. No one can speak with certainty about such matters as the mystery of death, the resurrection, heaven and hell, the second coming, or the final judgment of God. However, the New Testament does offer some concrete pointers which I believe can be helpful to us. I invite you to join me as we look to see if we can gain some insight to determine the future hope for those who die in Christ." This book is suitable for personal reading and study or for use as Sunday School curriculum.

Role-play as a Heritage Practice Michal Mochocki 2021-03-29 Role-play as a Heritage Practice is the first book to examine physically performed role-enactments, such as live-action role-play (LARP), tabletop role-playing games (TRPG), and hobbyist historical reenactment (RH), from a combined game studies and heritage studies perspective. Demonstrating that non-digital role-plays, such as TRPG and LARP, share many features with RH, the book contends that all three may be considered as heritage practices. Studying these role-plays as three distinct genres of playful, participatory and performative forms of engagement with cultural heritage, Mochocki demonstrates how an exploration of the affordances of each genre can be valuable. Showing that a player's engagement with history or heritage material is always multi-layered, the book clarifies that the layers may be conceptualised simultaneously as types of heritage authenticity and as types of in-game immersion. It is also made clear that RH, TRPG and LARP share commonalities with a multitude of other

media, including video games, historical fiction and film. Existing within, and contributing to, the fiction and non-fiction mediasphere, these role-enactments are shaped by the same large-scale narratives and discourses that persons, families, communities, and nations use to build memory and identity. Role-play as a Heritage Practice will be of great interest to academics and students engaged in the study of heritage, memory, nostalgia, role-playing, historical games, performance, fans and transmedia narratology.

But Sharona is equally horrified by Arcana's "magical" weapons. Neither side expected the confrontation and each thinks the other fired first. But as the initial disastrous contact snowballs into all-out warfare, both sides can agree on one thing. The portal which brought them together is Hell's Gate itself! At the publisher's request, this title is sold without DRM (Digital Rights Management). The authors treat both societies sympathetically and realistically, with human vices and virtues evenly distributed."³/₄Publishers Weekly

Life After Death Alan Segal 2010-06-23 A magisterial work of social history, *Life After Death* illuminates the many different ways ancient civilizations grappled with the question of what exactly happens to us after we die. In a masterful exploration of how Western civilizations have defined the afterlife, Alan F. Segal weaves together biblical and literary scholarship, sociology, history, and philosophy. A renowned scholar, Segal examines the maps of the afterlife found in Western religious texts and reveals not only what various cultures believed but how their notions reflected their societies' realities and ideals, and why those beliefs changed over time. He maintains that the afterlife is the mirror in which a society arranges its concept of the self. The composition process for Judaism, Christianity, and Islam begins in grief and ends in the victory of the self over death. Arguing that in every religious tradition the afterlife represents the ultimate reward for the good, Segal combines historical and anthropological data with insights gleaned from religious and philosophical writings to explain the following mysteries: why the Egyptians insisted on an afterlife in heaven, while the body was embalmed in a tomb on earth; why the Babylonians viewed the dead as living in underground prisons; why the Hebrews remained silent about life after death during the period of the First Temple, yet embraced it in the Second Temple period (534 B.C.E. -70 C.E.); and why Christianity placed the afterlife in the center of its belief system. He discusses the inner dialogues and arguments within Judaism and Christianity, showing the underlying dynamic behind them, as well as the ideas that mark the differences between the two religions. In a thoughtful examination of the influence of biblical views of heaven and martyrdom on Islamic beliefs, he offers a fascinating perspective on the current troubling rise of Islamic fundamentalism. In tracing the organic, historical relationships between sacred texts and communities of belief and comparing the visions of life after death that have emerged throughout history, Segal sheds a bright, revealing light on the intimate connections between notions of the afterlife, the societies that produced them, and the individual's search for the ultimate meaning of life on earth.

Hell Hath No Fury Anna Holmes 2003-12-30 It's as old as time: the breakup letter. The kiss-off. The Dear John. The big adios. Simple in its premise, stunningly perfect in its effect. From Anne Boleyn to Sex and the City writer/producer Cindy Chupack, from women both well-known and unknown, imaginary and real, the letters here span the centuries and the emotions—providing a stirring, utterly gratifying glimpse at the power, wit, and fury of a woman's voice. In a never-before-published letter, Anaïs Nin gives her lover, C. L. Baldwin, a piece of her mind. Charlotte Brontë, in formal fashion, refuses the marriage proposal of Henry Nussey. In a previously unpublished letter, Sylvia Plath writes to her childhood friend and brief lover, Phillip McCurdy, expressing her wish to maintain a platonic relationship. And "Susie Q." lets "Johnny Smack-O" know that she's onto his philandering. The brilliance of the mad missives, caustic communiqués, downhearted dispatches, sweet send-offs, and every other sort of good-bye that fills these pages will surely resonate with anyone who has ever loved, lost, left, languished, or laughed a hearty last laugh.

The Refrigerator Monologues Catherynne M. Valente 2017-06-06 From the New York Times bestselling author Catherynne Valente comes a ferocious riff on the women in superhero comics. The Refrigerator Monologues is a collection of linked stories from the points of view of the wives and girlfriends of superheroes, female heroes, and anyone who's ever been "refrigerated": comic book women who are killed, raped, brainwashed, driven mad, disabled, or had their powers taken so that a male superhero's storyline will progress. In an entirely new and original superhero universe, Valente subversively explores these ideas and themes in the superhero genre, treating them with the same love, gravity, and humor as her fairy tales. After all, superheroes are our new fairy tales and these six women have their own stories to share.
