The Worlds of Langston Hughes Vera M. Kutzinski 2012-10-15 The poet Langston Hughes was a tireless world traveler and a prolific translator, editor, and marketer. Translations of his own writings traveled even more widely than he did, earning him adulation throughout Europe, Asia, and especially the Americas. In *The Worlds of Langston Hughes*, Vera Kutzinski contends that, for writers who are part of the African diaspora, translation is more than just a literary practice: it is a fact of life and a way of thinking. Focusing on Hughes's autobiographies, translations of his poetry, his own translations, and the political lyrics that brought him to the attention of the infamous McCarthy Committee, she shows that translating and being translated—and often mistranslated—are as vital to Hughes's own poetics as they are to understanding the historical

network of cultural relations known as literary modernism. As Kutzinski maps the trajectory of Hughes's writings across Europe and the Americas, we see the remarkable extent to which the translations of his poetry were in conversation with the work of other modernist writers. Kutzinski spotlights cities whose role as meeting places for modernists from all over the world has yet to be fully explored: Madrid, Havana, Buenos Aires, Mexico City, and of course Harlem. The result is a fresh look at Hughes, not as a solitary author who wrote in a single language, but as an international figure at the heart of a global intellectual and artistic formation.

**Children First** Maggie Black 1996 Celebrating UNICEF's 50th anniversary in 1996, *Children First* examines changes in public attitudes and government policies which have put children at the top of the international agenda in the 1990s. Starting from the International Year of the Child in 1979, development historian Maggie Black studies the two movements which have done most to raise the visibility of children in the public consciousness:- the child survival campaign, which culminated in the 1990 World Summit for Children- the movement for children's rights, which resulted in the 1989 International Convention on the Rights of the Child, now ratified by 177 countries. *Children First* explores what brought these two movements such unprecedented success, and asks: Is this new found concern for the world's children likely to last?

**Disinventing and Reconstituting Languages** Sinfree Makoni 2007 This book questions assumptions about the nature of language. Looking at diverse contexts from sign languages in Indonesia to literacy practices in Brazil, the authors argue that unless we change and reconstitute the ways in which languages are taught and conceptualized, language studies will not be able to improve the social welfare of language users.

**No Logo** Naomi Klein 2000-01-15 "What corporations fear most are consumers who ask questions. Naomi Klein offers us the arguments with which to take on the superbrands." Billy Bragg from the bookjacket.

**Nation, State, and Economy** Ludwig Von Mises 2006 Essential to Mises's concept of a classical liberal economy is the absence of interference by the state. In World War I, Germany and its allies were overpowered by the Allied Powers in population, economic production, and military might, and its defeat was inevitable. Mises believed that Germany should not seek revenge for the peace of Versailles; rather it should adopt liberal ideas and a free-market economy by expanding the

international division of labor, which would help all parties. "For us and for humanity," Mises wrote, "there is only one salvation: return to rationalistic liberalism." Ludwig von Mises (1881-1973) was the leading spokesman of the Austrian School of economics throughout most of the twentieth century. Bettina Bien Greaves is a former resident scholar and trustee of the Foundation for Economic Education and was a senior staff member at FEE from 1951 to 1999. Please note: This title is available as an ebook for purchase on Amazon, Barnes and Noble, and iTunes.

*Towards a General Theory of Translational Action* Katharina Reiss 2014-04-08 This is the first English translation of the seminal book by Katharina Reiß and Hans Vermeer, *Grundlegung einer allgemeinen Translationstheorie*, first published in 1984. The first part of the book was written by Vermeer and explains the theoretical foundations and basic principles of skopos theory as a general theory of translation and interpreting or 'translational action', whereas the second part, penned by Katharina Reiß, seeks to integrate her text-typological approach, first presented in 1971, as a 'specific theory' that focuses on those cases in which the skopos requires equivalence of functions between the source and target texts. Almost 30 years after it first appeared, this key publication is now finally accessible to the next generations of translation scholars. In her translation, Christiane

Nord attempts to put Skopos theory and her own concept of 'function plus loyalty' to the test, by producing a comprehensible, acceptable text for a rather heterogeneous audience of English-speaking students and scholars all over the world, at the same time as acting as a loyal intermediary for the authors, to whom she feels deeply indebted as a former student and colleague.

**Tourism, Ethnicity, and the State in Asian and Pacific Societies** Michel Picard 1997-05-01 The expansion of international tourism is changing the relationship between ethnic groups and states around the globe. Yet tourism's importance for the understanding of ethnicity in the modern world has been generally neglected within the field of ethnic studies. This pioneering volume investigates how international tourism development, state policies of ethnic management, and the active responses of local ethnic groups intersect to reshape ethnic identities and ethnic relations in Asian and Pacific societies. It analyzes the ways in which the very meaning of ethnicity and culture are being contested and reworked in the wake of tourism's impact. Following an introduction that explores the close but often ambivalent relationship between tourism promotion and state ethnic policies, individual contributors examine tourism's varied effects in China, Singapore, Malaysia, Thailand, Indonesia, and the island Pacific in rich ethnographic detail.

Sociocultural Perspectives on Language Change in Diaspora David R. Andrews 1999 This book is a sociolinguistic examination of the Russian speech of the American "Third Wave", the migration from the Soviet Union which began in the early 1970s under the policy of détente. Within the framework of bilingualism and language contact studies, it examines developments in emigré Russian with reference to the late Cold-War period which shaped them and the post-Soviet era of today. The book addresses matters of interest not only to Russianists, but to linguists of various theoretical persuasions and to sociologists, anthropologists and cultural historians working on a range of

related topics. No knowledge of the Russian language is assumed on the part of the reader, and all linguistics examples are presented in standard transliteration and fully explicated.

**The Listening Inventory** Donna S. Geffner 2006

**Changing the Terms** Sherry Simon 2000 This volume explores the theoretical foundation and undercurrents of translation in diverse postcolonial contexts. In doing so the authors examine complex sequences of intercultural contact and encroachment, fusion, and breach. The impact that history and political relations have had on the role of translation in the evolution of literary and cultural relations is demonstrated and examined in detail. A strength of this collection of essays lies in the various postcolonial contexts it deals with the challenges posed to the commonly held views on postcolonial theory.

However, making media can be a chaotic process. The realities of working in the field and the rigid structures of scholarly evaluation often act as barriers to honest accounts of entertainment-education practice. In this collection of essays, experienced practitioners offer unique insight into how entertainment-education works and present a balanced view of its potential pitfalls. This book gives readers an opportunity to learn from the successes and mistakes of the experts, taking a behind-the-scenes look at the business of making entertainment-education media.

**Bare Nominals in Brazilian Portuguese** Albert Wall 2017-11-15 Over the last three decades, Brazilian Portuguese bare nominals have turned into a hot topic in the cross-linguistic study of nominal syntax and semantics. This contribution is the first comprehensive, book-length treatment of the issue, covering both the long-standing discussion about the adequate analysis of these forms as well as the establishment of a solid empirical basis for future research. The book goes further than previous accounts in also taking into consideration the phonetic-phonological dimension, showing the advantages of a more comprehensive account. The empirical section outlines an innovative approach in which different methods and data types are combined and focuses on the underresearched definite / specific / referential uses and interpretations of bare singulars. The book also addresses the traditional topics in the study of bare nominals - genericity, the mass/count distinction, NP-internal plural agreement, the NP/DP distinction, and syntax-semantics-phonology interface questions - in the light of the new findings.

Beginning with the first explorations of Brazil by the Portuguese, Darlene J. *Nineteen Eighty-Four* George Orwell 2021-01-09 "Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself

a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.
