Lighthouse Keeper's Daughter Lenore Skomal 2010-06-15 The Lighthouse Keeper's Daughter is the absorbing, painstakingly researched story of Ida Lewis and the fearless rescues she made at Lime Rock Lighthouse in Newport, Rhode Island. Born in 1842, Ida began tending the light at age fifteen after her father, the keeper of the light, was disabled by a stroke. When her father died in 1872, Ida's mother assumed the role of lighthouse keeper but Ida continued to do the work. Then when her mother died in 1879, Ida was officially appointed to the job, where she remained until her death in 1911. Ida is credited with saving at least eighteen lives during her nearly forty years on the tiny island in Newport Harbor. She became famous nationwide in the late 1860s after one of her daring rescues, and the town of Newport celebrated her on Independence Day 1869. In 1924, the Rhode Island legislature officially changed the name of Lime Rock Lighthouse to Ida Lewis Lighthouse. In 1928, all but a portion of Lime Rock used for the light tower was sold to yachtsmen who preserved the historic house and established the Ida Lewis Yacht Club. In 1995, a Coast Guard

buoy tender was named for her.

Lighthouses Toby Chance 2008-09-26 The Great Exhibition, Crystal Palace, 1851: James Chance, of the glass-making firm Chance Brothers, is nervously showcasing a new lens, that, unknown to him, will revolutionise lighthouse production, propel his family business into a position of world leadership, save countless lives and have far-reaching consequences for trade, empire and the map of the world. This is where "Lighthouses" begins. The true-life story that follows is of one man and his family's unexpected role in an exciting race to perfect this technology, against European rivals and colleagues, as they strive to regain for Britain the leadership position she had lost to the French in the 1820s. This fascinating story places James Chance and the Chance Brothers firm against the backdrop of a time in which lighthouse manufacture was transformed from a craft into a scientific, high-precision industry. As a tool for globalisation, and with immense strategic and economic value, lighthouses helped to establish a network of communications that transformed the trade maps of countries and empires.

Guiding Lights Shona Riddell 2020-10-01 Women have a long history of keeping the lights burning,

from tending ancient altar flames or bonfires to modern-day lighthouse keeping. Yet most of their stories are little-known. *Guiding Lights* includes true stories from around the world, chronicling the lives of the extraordinary women who mind the world's storm-battered towers. From Hannah Sutton and her partner Grant, the two caretakers living alone on Tasmania's wild Maatsuyker Island, to Karen Zacharuk, the keeper in charge of Cape Beale on Canada's Vancouver Island, where bears, cougars and wolves roam, the lives of lighthouse women are not for the faint of heart. Stunning photographs from throughout history accompany accounts of the dramatic torching of Puysegur Point, one of NZ's most inhospitable lighthouses; 'haunted' lighthouses in across the US and their tragic tales; lighthouse accidents and emergencies around the world; and two of the world's most legendary lighthouse women: Ida Lewis (US) and Grace Darling (UK), who risked their lives to save others. The book also explores our dual perception of lighthouses: are they comforting and romantic beacons symbolizing hope and trust, or storm-lashed and forbidding towers with echoes of lonely, mad keepers? Whatever our perception, stories of women's courage and dedication in minding the lights — then and now — continue to capture our imagination and inspire.

Touring New Jersey's Lighthouses Mary Beth Temple 2004 New Jersey's coastal heritage is a proud one. Though thousands of lives were lost on her rocks and shoals, many more were saved by the constancy of her lights. From fortress-style to Victorian Gothic to iron towers thrust into the sky, New Jersey's lighthouses came in all shapes and sizes. Eleven are accessible today, and all have something to add to a visitor's appreciation of the history of the Jersey Shore. Come with us now as we explore the long lives of these eleven lighthouses. If you have visited some or all of them, this book will serve as a great memento of your visit. If you haven't, sit back and let us help plan your tour.

Stargazing Peter Hill 2012-03-16 When Peter Hill, a student at Dundee College of Art, answered an advert in *The Scotsman* seeking lighthouse keepers, little did he imagine that within a month he would be living with three men he didn't know in a lighthouse on Pladda, a small remote island off the west coast of Scotland. Hill was nineteen, it was 1973 and, with his head fed by Vietnam, Zappa, Kerouac, Vonnegut, Watergate and Coronation Street, he spent six months on various lighthouses, "keeping" with all manner of unusual and fascinating people. Within thirty years this way of life was to have disappeared entirely. The resulting book is a charming and beautifully written memoir that is not only a heartfelt lament for Hill's own youth and innocence but also for a simpler and more honest age.

The Lonely Lighthouse Lisa McNeill 2016-05-29 The lonely lighthouse feels sad but he makes some friends in surprising places and realises he isn't lonely after all. The Last Lighthouse Keeper John Cook 2020-07-02 John Cook's ripping life story exposes Tasmania's old kero-fuelled lighthouses: relentless physically and emotionally demanding labour, done under the often cruel vagaries of nature. Noble work that can ultimately redeem a lost soul. Or break them.' MATTHEW EVANS I loved the life of the island, because I knew my body was more alive than it was on the mainland. People asked how we stood the isolation and boredom, but in some ways, it was more stimulating to have your senses turned up. In Tasmania, John Cook is known as 'The Keeper of the Flame'. As one of Australia's longest-serving lighthouse keepers, John spent 26 years tending Tasmania's well-known kerosene 'lights' at Tasman Island, Maatsuyker Island and Bruny Island. From sleepless nights keeping the lights alive, battling the wind and sea as they ripped at gutters and flooded stores, raising a joey, tending sheep and keeping ducks and chickens, the life

of a keeper was one of unexpected joy and heartbreak. But for John, nothing was more heartbreaking than the introduction of electric lights, and the lighthouses that were left empty forever. Evocatively told, *The Last Lighthouse Keeper* is a love story between a man and a dying way of life, as well as a celebration of wilderness and solitude.

Treating readers to a memorable cast of characters and "fascinating anecdotes" (New York Review of Books), Dolin shows how the story of the nation, from a regional backwater colony to global industrial power, can be illustrated through its lighthouses—from New England to the Gulf of Mexico, the Great Lakes, the Pacific Coast, and all the way to Alaska and Hawaii. The Lighthouse Michael O'Brien 2020-08-11 Ethan McQuarry is a young lighthouse keeper on a tiny island, the rugged outcropping of easternmost Cape Breton Island on the Atlantic Ocean. A man without any family, he sees himself as a silent "vigilant", performing his duties courageously year after year, with an admirable sense of responsibility. He cherishes his solitude and is grateful that his interactions with human beings are rare. Even so, he is haunted by his aloneness in the world and by a feeling that his life is meaningless. His courage, his integrity, his love of the sea and wildlife, of practical skills and of learning are, in the end, not enough. He is faced with internal storms and sometimes literal storms of terrifying power. From time to time he becomes aware that messengers are sent to him from what he calls "the awakensness" in existence, "the listeningness." But he cannot at first recognize them as messengers nor understand what they might be telling him, until he finds himself caught up in catastrophic events, and begins to see the mysterious undercurrents of reality—and the hidden face of love. "They that go down to the sea in ships, trading upon the waters, they see the works of the Lord and his wonders in the deep." - Psalm 107: 23

The Lighthouse Effect Steve Pemberton 2021-09-28 In this stirring follow-up to his memoir, Steve Pemberton gives practical encouragement for how you can be a "human lighthouse" for others and

through these inspiring stories will renew your hope for humanity. Our polarized, divisive culture seems to be without heroes and role models. We are adrift in a dark sea of disillusionment and distrust and we need "human lighthouses" to give us hope and direct us back to the goodness in each other and in our own hearts. Steve Pemberton found a lighthouse in an ordinary man named John Sykes, his former high school counselor. John gave Steve a safe harbor after Steve escaped an abusive foster home and together they navigated a new path that led to personal and professional success. Through stories of people like John and several others, you will identify how the hardships you have overcome equip you to be a "human lighthouse," inspiring those around you. The humble gestures of kindness that change the course of our lives can shift the course for America too. With a unique vision for building up individuals and communities and restoring trust, *The Lighthouse Effect* opens your eyes to those who are quietly heroic. You will reflect on the lighthouses in your own life and be reminded that the greatest heroes are alongside us--and within us.

The Lightkeeper's Daughters Jean E. Pendziwol 2017-07-04 "Jean Pendziwol's beautifully written novel captured me from the very first page. Its descriptions of the windswept lightkeeper's station of Elizabeth's and Emily's youth are so crisply rendered I felt I was standing on its shores watching the great ships cross the stormy waters of Lake Superior. Even more than its vivid evocation of a unique time and place, *The LightKeeper's Daughters* is a sensitive and moving examination of the nature of identity, the importance of family, and the possibility of second chances."—Heather Young, author of *The Lose Girls* With the haunting atmosphere and emotional power of *The Language of Flowers*, *Orphan Train*, and *The Light Between Oceans*, critically acclaimed children's author Jean E. Pendziwol's adult debut is an affecting story of family, identity, and art that involves a decades-old

mystery. Though her mind is still sharp, Elizabeth's eyes have failed. No longer able to linger over her beloved books or gaze at the paintings that move her spirit, she fills the void with music and memories of her family, especially her beloved twin sister, Emily. When her late father's journals are discovered after an accident, the past suddenly becomes all too present. With the help of Morgan, a delinquent teenager performing community service at her senior home, Elizabeth goes through the diaries, a journey through time that brings the two women closer together. Entry by entry, these unlikely friends are drawn deep into a world far removed from their own, to Porphyry Island on Lake Superior, where Elizabeth's father manned the lighthouse and raised his young family seventy years before. As the words on these musty pages come alive, Elizabeth and Morgan begin to realize that their fates are connected to the isolated island in ways they never dreamed. While the discovery of Morgan's connection sheds light onto her own family mysteries, the faded pages of the journals will shake the foundation of everything Elizabeth thinks she knows and bring the secrets of the past into the light.

Women who Kept the Lights Mary Louise Clifford 2000 Hundreds of American women have kept the lamps burning in lighthouses since Hannah Thomas tended Gurnet Point Light in Plymouth, Massachusetts, while her husband was away fighting in the War for Independence. *Women Who Kept the Lights* details the careers of 32 intrepid women who were official keepers of light stations on the Atlantic, Gulf, and Pacific Coasts, on Lake Champlain and the Great Lakes, staying at their posts for periods ranging from a few years to half a century. Most of these women served in the nineteenth century, when the keeper lit a number of lamps in the tower at dusk, replenished their fuel or replaced them at midnight, and every morning polished the lamps and lanterns to keep their lights shining brightly. Several of these stalwart women were commended for their courage in

remaining at their posts through severe storms and hurricanes. A few went to the rescue of seamen when ships capsized or were wrecked. Their varied stories paint a multifaceted picture of a unique profession in our maritime history.

A Short Bright Flash: Augustin Fresnel and the Birth of the Modern Lighthouse Theresa Levitt 2013-06-03 Describes the life of the man who invented a new lighthouse lens, capable of shining brighter, farther and more efficiently than existing light sources, and his fight against the scientific elite, his poor health and the limits of his era's technology. 13,000 first printing.

Hello Lighthouse Sophie Blackall 2019-02-07 A beautiful picture book about hope, change and the passing of time. Winner of the Caldecott Medal 2019. On the highest rock of a tiny island at the edge of the world stands a lighthouse. From dusk to dawn, the lighthouse beams, sending its light out to sea, guiding the ships on their way. As the seasons pass and the waves rise and fall, outside, the wind blows; inside, the lighthouse keeper writes, and the rhythms of his life unfold. But change is on the horizon... Lighthousekeeping Jeanette Winterson 2011-02-04 Motherless and anchorless, red-headed Silver is taken in by the timeless Mr. Pew, keeper of the Cape Wrath lighthouse, located at the isolated northwestern tip of Scotland. Pew teaches her to "man the light" but more importantly he tells her ancient tales of longing and rootlessness, of ties that bind and of the slippages that occur throughout every life, not least those of the local inhabitants. One local, Babel Dark, a nineteenth-century clergyman who loved one woman but married another, opens like a map that Silver must follow. Caught in her own particular darknesses, she embarks on an Ulyssean sift through the stories we tell ourselves, stories of love and loss, of passion and regret, stories of unending journeys that move through places and times, and the bleak finality of the shores of betrayal. A story of mutability, of talking birds and stolen books, of Darwin and Stevenson and of the Jekyll and Hyde in all of us, *Lighthousekeeping* is a way in to the rooms of our own that we secretly inhabit and the lighthouses

we strive towards. Jeanette Winterson is one of the most extraordinary and original writers of her generation and this shows her at her lyrical best.

The Lighthouse Stevensons Bella Bathurst 2011-06-28 For centuries the seas around Scotland were notorious for shipwrecks. Mariners' only aids were skill, luck, and single coal-fire light on the east coast, which was usually extinguished by rain. In 1786 the Northern Lighthouse Trust was established, with Robert Stevenson appointed as chief engineer a few years later. In this engrossing book, Bella Bathurst reveals that the Stevensons not only supervised the construction of the lighthouses under often desperate conditions but also perfected a design of precisely chiseled interlocking granite blocks that would withstand the enormous waves that batter these stone pillars. The same Stevensons also developed the lamps and lenses of the lights themselves, which "sent a gleam across the wave" and prevented countless ships from being lost at sea. While it is the writing of Robert Louis Stevenson that brought fame to the family name, this mesmerizing account shows how his extraordinary ancestors changed the shape of the Scotland coast against incredible odds and with remarkable technical ingenuity.

Hudson River Lighthouses Hudson River Maritime Museum 2019-06-17 Lighthouses were built on the Hudson River in New York between 1826 to 1921 to help guide freight and passenger traffic. One of the most famous was the iconic Statue of Liberty. This fascinating history with photos will bring the time of traffic along the river alive. Set against the backdrop of purple mountains, lush hillsides, and tidal wetlands, the lighthouses of the Hudson River were built between 1826 and 1921 to improve navigational safety on a river teeming with freight and passenger traffic. Unlike the towering beacons of the seacoasts, these river lighthouses were architecturally diverse, ranging from short conical towers to elaborate Victorian houses. Operated by men and women who at times risked and lost their lives in service of safe navigation, these beacons have overseen more than a century of extraordinary technological and social change. Of the dozens of historic lighthouses and beacons that once dotted the Hudson River, just eight remain, including the iconic Statue of Liberty, New York Harbor's great monument to freedom and immigration, which served as an official lighthouse between 1886 and 1902. Hudson River Lighthouses invites readers to explore these unique icons and their fascinating stories.

The Ultimate Lighthouse Book is a panoramic, lavishly illustrated history of these legendary buildings and celebrates the rich heritage of our ancestors' courageous efforts to guide mariners through treacherous seas and storms. Over 200 color photographs are featured in this fully revised, expanded and updated edition.
