The Italian Tragedy in the Renaissance Salvatore Di Maria 2002 This book is about the Renaissance revitalization of classical drama. Using a cultural and theatrical approach, it shows how Italian playwrights made ancient tragedy relevant to their audiences. The book challenges the traditional critical approach to the Italian Renaissance tragedy as a mere literary work, and calls attention to the complementary function of the theatrical text, which is 'reconstructed' from the stage directions embedded in the discourse of the characters.

Geometry of the Passions Remo Bodei 2018-08-08 The passions have long been condemned as a creator of disturbance and purveyor of the temporary loss of reason, but as Remo Bodei argues in *Geometry of the Passions*, we must abandon the perception that order and disorder are in a constant state of collision. By means of a theoretical and historical analysis, Bodei interprets the relationship between passion and reason as a conflict between two complementary logics. *Geometry of the Passions* investigates the paradoxical conflict-collaboration between passions and reason, and between individual and political projects. Tracing the roles passion and reason have played throughout history, including in the political agendas of Descartes, Hobbes, and the French Jacobins, *Geometry of the Passions* reveals how passion and reason may be used as a vehicle for affirmation rather than self-enslavement.

Polish Scientific Philosophy Francesco Coniglione 1993 One can often encounter an opinion that Polish scientific (or analytic) philosophy (or the Lvov-Warsaw School) deserves to be much better known than actually is. This book is thought as a response to such a claim. The papers collected in this volume are divided into two parts: Background and Influence and History and Systematics. However, there is no sharp borderline between themes which are touched in both parts. Generally speaking, all papers of the first part relate the Lvov-Warsaw School to some philosophical movements (Brentanism, phenomenology and Marxism) external to it whereas the papers collected in the second one focus on internal issues connected with the school (only Roberto Poli takes into

account Brentano's views in his discussion of reism). Since the Polish school of mathematical logic is much better known than the Polish analytic philosophy we decided to omit here any treatment of the former. Thus, this collection centers on purely philosophical matters. We projected this volume not as an exhaustive panorama of Polish analytic philosophy but rather as a series of essays on particular persons or topic. As a result one can find here papers on Twardowski, Ajdukiewicz, Kotarbinski, Tarski and Lukasiewicz as well as on ethics on science, nominalism, and the methodology of psychology. We hope that this book will contribute to a better knowledge and evaluation of Polish achievements in analytic philosophy. We would like to express our gratitude to Professor Leszek Nowak, the editor-in-chief of Poznan Studies in the Philosophy of the Sciences and the Humanities, who initiated the idea of the collection and helped in its preparation.

Censorship and Literature in Fascist Italy Guido Bonsaver 2007-01-01 The history of totalitarian states bears witness to the fact that literature and print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crack-down of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

A Window on the Italian Female Modernist Subjectivity Rossella M. Riccobono 2013-09-17 This collection of essays surveys some of the artistic productions by female figures who stood at the forefront of Italian modernity in the fields of literature, photography, and even the theatre, in order to explore how artistic engagement in women informed their views on, and reactions to the challenges of a changing society and a 'disinhibiting' intellectual landscape. However, one other objective takes on a central role in this volume: that of opening a window on the re-definition of the subjectivity of the self that occurred during an intriguing and still not fully studied period of artistic and societal changes. In particular, the present volume aims to define a female Italian Modernism which can be seen as complementary, and not necessarily in opposition, to its male counterpart.

The Life and Thought of Lev Karsavin Dominic Rubin 2013 "At last, Russia has begun to speak in a truly original voice." So said Anatoly Vaneev, a Soviet dissident who became Karsavin's disciple in the Siberian gulag where the philosopher spent his last two years. The book traces the unusual trajectory of this inspiring voice: Karsavin started his career as Russia's brightest historian of Catholic mysticism; however, his radical methods - which were far ahead of their time - shocked his conservative colleagues. The shock continued when Karsavin turned to philosophy, writing flamboyant and dense essays in a polyphonic style, which both Marxists and religious traditionalists found provocative. There was no let-up after he was expelled by Lenin from Soviet Russia: in exile, he became a leading theorist in the Eurasian political movement, combining Orthodox theology with a left-wing political orientation. Finally, Karsavin found stability when he was invited to teach history in Lithuania: there he spent twenty years reworking his philosophy, before suffering the German and Soviet invasions of his new homeland, and then deportation and death. Clearing away misunderstandings and putting the work and life in context, this book shows how Karsavin made an original contribution to European philosophy, inter-religious dialogue, Orthodox and Catholic theology, and the understanding of history.

Digital Skills and Life-long Learning: Digital Learning as a New Insight of Enhanced

Learning by the Innovative Approach Joining Technology and Cognition Dina Di Giacomo 2019-03-01 Recently, technology and aging have been key research areas in human cognition. The Research Topic "Digital Skills and Life-long Learning: Digital Learning as a New Insight of Enhanced Learning by the Innovative Approach Joining Technology and Cognition" investigated technology's impact on cognitive and intellectual processes, highlighting how intensively technology can change and/or enhance the cognitive functioning throughout one's lifespan. The aim of this Research Topic was to provide an outlook through multidisciplinary research and development while addressing the dynamic intersection of cognition, mind, and technology. Our scope was 1) to favor the cognitive technology debate, 2) to overcome the dichotomies of technology and psychology, 3) to emphasize the advances in knowledge and well-being. This Research Topic comprises review studies and original articles, focused on digital skills that enhance human potential. Transversal approaches and cross-sectorial analysis were encouraged, leading to investigation areas related to cognitive and mental processing—in educational, rehabilitation, clinical settings—across aging. Articles of high relevance to the Research Topic were submitted on the subjects of a) research in human performance and human factors, b) new research and technologies addressing the needs of a growing populace, and c) cognitive aging and cognitive rehabilitation research.

Homosexuality and Italian Cinema Mauro Giori 2017-11-18 This book is the first to establish the relevance of same-sex desires, pleasures and anxieties in the cinema of post-war Italy. It explores cinematic representations of homosexuality and their significance in a wider cultural struggle in Italy involving society, cinema, and sexuality between the 1940s and 1970s. Besides tracing the evolution of representations through both art and popular films, this book also analyses connections with consumer culture, film criticism and politics. Giori uncovers how complicated negotiations between challenges to and valorization of dominant forms of knowledge of homosexuality shaped representations and argues that they were not always the outcome of hatred but also sought to convey unmentionable pleasures and complicities. Through archival research and a survey of more than 600 films, the author enriches our understanding of thirty years of Italian film and cultural history.

Inscribing Sorrow Christos Tsagalis 2008-12-10 Fourth-century Attic grave epigrams reflect a transitional phase in the evolution of the genre of epigram. They testify to a shift of interest towards social issues such as the family, the deceased's age and profession. In a turbulent period of restlessness and uncertainty that followed the devastating Peloponnesian war, the commemoration of the departed in private monuments became an effective mechanism of displaying publicly a new set of social concerns. This book explores this decisive phase in the evolution of the epigram by reconstructing as many ancient contexts as possible on the one hand, and studying sepulchral epigrams as a poetic art on the other.

Reading Lucretius in the Renaissance Ada Palmer 2014-10-13 Ada Palmer explores how Renaissance poets and philologists, not scientists, rescued Lucretius and his atomism theory. This heterodoxy circulated in the premodern world, not on the conspicuous stage of heresy trials and public debates but in the classrooms, libraries, studies, and bookshops where quiet scholars met transformative ideas.

The Work of Art Gérard Genette 1997 What art is--its very nature--is the subject of this book by one

of the most distinguished continental theorists writing today. Informed by the aesthetics of Nelson Goodman and referring to a wide range of cultures, contexts, and media, *The Work of Art* seeks to discover, explain, and define how art exists and how it works. To this end, Gérard Genette explores the distinction between a work of art's immanence--its physical presence--and transcendence--the experience it induces. That experience may go far beyond the object itself. Genette situates art within the broad realm of human practices, extending from the fine arts of music, painting, sculpture, and literature to humbler but no less fertile fields such as haute couture and the culinary arts. His discussion touches on a rich array of examples and is bolstered by an extensive knowledge of the technology involved in producing and disseminating a work of art, regardless of whether that dissemination is by performance, reproduction, printing, or recording. Moving beyond examples, Genette proposes schemata for thinking about the different manifestations of a work of art. He also addresses the question of the artwork's duration and mutability.

Conversations with Picasso Brassai 2002-12 "Read this book if you want to understand me."—Pablo Picasso *Conversations with Picasso* offers a remarkable vision of both Picasso and the entire artistic and intellectual milieu of wartime Paris, a vision provided by the gifted photographer and prolific author who spent the early portion of the 1940s photographing Picasso's work. Brassai carefully and affectionately records each of his meetings and appointments with the great artist, building along the way a work of remarkable depth, intimate perspective, and great importance to anyone who truly wishes to understand Picasso and his world.

Orphic Songs Dino Campana 1984 This vivid presentation of Campana demonstrates why Italian readers have cherished his poems since the first appearance of *Canti Orfici* in 1914. Charles Wright's translation, Jonathan Galassi's introduction, and, as afterword, Montale's thoughtful essay on Campana, identify the heart of this poet's achievement.

My Mother-in-Law Drinks Diego De Silva 2014-12-04 He makes you laugh, though you can never be quite sure why. He's affable enough, of course, but it's not so much that. He is both a kind of halfwit and a genius, flippant and profound, chaotic and yet possessed of a Zen-like calm. He's easily distracted but tends to hound-dog every thought until he has it by the throat. His conversation is labyrinthine but he is capable of moments of blinding lucidity. The thing is, you can't help but love him. He is Vincenzo Malinconico, an underemployed lawyer whose wife has sort of left him ("he's the kind of man you marry not once but twice, and leave both times"), whose teenage children worry him to death, and whose profession mostly consists in appearing as if he has one. In this sequel to *I Hadn't Understood*, a Neapolitan mafia boss has been kidnapped by a mild-mannered computer engineer who holds the camorrista responsible for the accidental death of his son. The engineer plans to conduct an impromptu trial on live television during which he will list the various crimes of the accused, sentencing him before a captivated national audience and executing him accordingly. The standoff between law enforcement officers and the kidnapper becomes a tragi-comic reality show. The only hope of a happy ending rests with Vincenzo Malinconico, Neapolitan lawyer, poster-

child for the proverbial mid-life crisis, and inveterate flâneur. He hardly has a reputation for decisiveness, but now is called upon to play a decisive role in resolving this drama in course with, hopefully, no loss of life, his own included.

Encyclopedia of Nineteenth-Century Photography John Hannavy 2013-12-16 The Encyclopedia of Nineteenth-Century Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard, definitive reference work on the subject for years to come. Its coverage is global - an important 'first' in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground-breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates and groupings which helped photography develop from being 'a solution in search of a problem' when first invented, to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth-Century Photography an essential reference source for academics, students, researchers and libraries worldwide.

The Cry of the Wolf Melvin Burgess 2012-08-02 It was a mistake for Ben to tell the Hunter that there were still wolves in Surrey. For the Hunter was a fanatic, always on the lookout for unusual prey. Driven by an ambition to wipe out the last English wolves, the Hunter set out on a savage quest. But what happens when the Hunter becomes the hunted?

The Other Venice Predrag Matvejević 2007 To know a city is to become intimately intertwined with its nooks, crevices, secret passageways, and dark places where its lifeblood flows--and what city has more of those than Venice? In *The Other Venice*, Predrag Matvejevic ventures past the infamous canals and cobblestone streets of the tourist's Venice to find the heart of the ancient Italian metropolis. A lyric re-imagining of the City of Romance, *The Other Venice* utterly reconfigures the Venetian landscape, as Matvejevic follows both real and imaginary maps, contemporary and historical, to trace out the details of this sensuous city. He probes into what the ancient metropolis means to its people, the nation, and global culture. But he also finds hints of life in the smallest and most mundane details--ancient bridges, rust-flecked boats, wall sculptures, rivers, and piazzas scattered throughout the city. Each has a little-known story and with Matvejevic as our guide, he reveals the stories behind them all. The book carries readers to a Venice that has escaped the eyes of writers, artists, and photographers through the centuries, and Matejevic by turns plays a historian, cartographer, anthropologist, and philologist as he unravels elusive artifacts of time past. Arresting black-and-white photographs by renowned photographer Sarah Quill accompany the text, offering a silent testament to Matvejevic's pilgrimage. A fascinating and beautifully written guide, *The Other Venice* reminds us that there is always another mystery to uncover in the city of water and stone.

Colour Rudolf Steiner 2013-04-03 Building on the achievements of Goethe in his *Theory of Colour*, Rudolf Steiner shows how colour affects us in many areas of life, including our health, our sense of well-being, and our feelings. Distinguishing between 'image' and 'lustre' colours, he lays the foundation, based on his spiritual-scientific research, for a practical technique of working with colour that leads to a new direction in artistic creativity. His many penetrating remarks on some of the great painters of the past are supplemented by a deep concern to see a cultural, spiritual renewal emerge in the present time. 'If you realize', he states, 'that art always has a relation to the spirit, you will understand that both in creating and appreciating it, art is something through which one enters the spiritual world.' This volume is the most comprehensive compilation of Rudolf Steiner's insights into the nature of colour, painting and artistic creation. It is an invaluable source of reference and study not only for artists and therapists but for anyone interested in gaining an appreciation of art as a revelation of spiritual realities.

The Architecture of Pica Ciamarra Associati Antonietta Iolanda Lima 2019-04 Since 1970, based in an isolated building situated on the peninsula of Posillipo, Pica Ciamarra Associati (www.pcaint.eu) has acted as a laboratory of architectural and urban design which has gradually incorporated new members and new energies over the time: using a multidisciplinary approach, the roots of the architectural practice lie in the intensive theoretical and practical work begun in the early 1960s by Massimo Pica Ciamarra. Since then the practice has been marked by a continuous relationship with Le Carré Bleu Feuille internationale d'architecture and leading members of the cultural milieu of Team 10: this has led to constant attention to everything that lies beyond form, to the relationship with contexts that also include non-spatial contexts, and to high levels of integration and dialectical discussion. According to Pica Ciamarra Associati, a design transcends the approaches of a single sector, providing simultaneous solutions to contradictory requirements, combining utopia and practicality. The poetics of the fragment: it mediates between architecture and the urban dimension; some designs also have the aim of becoming absorbed within a context as 'informed fragments'. This monograph is the result of an intensive period of work and consists of two interacting parts. It stems from research into the archive of the studio Pica Ciamarra and conversation with the members of the architectural practice. Organised diachronically, the book tells the long story, unfolding over a period of over fifty years of a team of Neapolitan architects and designers, who have maintained the lively spirit of the practice which is still geared towards the future. The textual and iconographic account tells a story and offers an interpretation that highlights the vibrant atmosphere of the studio, based on a consistency of thought and action, and fuelled by an interest in many different forms of knowledge. The contextualisation of the events related to the studio, as they unfolded over time, is wide-ranging, coherent and connotative. Antonietta Iolanda Lima, professor of history of architecture at the University of Palermo, has always tried, through theory, teaching and design, to disseminate the importance of history which can embrace innovation and tradition to an equal degree, forming a new architectural language. According to her view of architecture, history and design are closely connected, a 'single entity' as is reflected by her career. Since the 1980s, her academic work has gained increasing importance, a way of avoiding narrow sectoral approaches in the training of future architects, offering a holistic stance of the history of architecture and an architecture that contributes to shaping critical thought and a thriving cultural life.

Federico Fellini Tullio Kezich 2007-03-06 A lively and authoritative journey into the world of a cinema master With the revolutionary *8 1/2*, Federico Fellini put his deepest desires and anxieties before the lens in 1963, permanently impacting the art of cinema in the process. Now, more than forty years later, film critic and Fellini confidant Tullio Kezich has written the work by which all other biographies of the filmmaker are sure to be measured. In this moving and intimately revealing account of a lifetime spent in pictures, Kezich uses his friendship with Fellini as a means to step outside the frame of myth and anecdote that surrounds him—much, it turns out, of the director's own making. A great lover of women and a meticulous observer of dreams, Fellini, perhaps more than any other director of the twentieth century, created films that embodied a thoroughly modern sensibility, eschewing traditional narrative along with religious and moral precepts. His is an art of delicate pathos, of episodic films that directly address the intersection of reality, fantasy, and desire that exists as a product of mid-century Italy—a country reeling from a Fascist regime as it struggled with an outmoded Catholic national identity. As Kezich reveals, the dilemmas Fellini presents in his movies reflect not only his personal battles but those of Italian society. The result is a book that explores both the machinations of cinema and the man who most grandly embraced the full spectrum of its possibilities, leaving his indelible mark on it forever.

Birth and Death of the Housewife Paola Masino 2010-07-02 Stepping out of her beloved trunk full of bread crumbs, dust, spider webs, books, and ragged funeral ornaments, the young protagonist of

Paola Masino's most controversial novel realizes that her fate is already sealed. She will have to conform to society's expectations of a woman: her wild imagination will have to be controlled, her intelligence kept at bay. In short, she will have to become a Housewife. Subject to Fascist censorship before its first publication in 1945, *Birth and Death of the Housewife* offers a surrealist criticism of Fascism and the rigid notion of womanhood it promoted. In her depiction of a woman's struggle to play a role that simply does not correspond to her desires, Masino expresses a frustration and a rebellious instinct rarely found among her contemporaries. Defying interpretations and standing alone among the heroines of twentieth-century Italian literature, Masino's *Housewife* remains an uncomfortable, enigmatic figure whose impudent determination to challenge the bulwarks of traditional female roles reaches beyond historical boundaries and resonates powerfully with contemporary readers.

Mr Charles Booth's Inquiry Rosemary O'Day 1993-07-01 Charles Booth's pioneering survey, *Life and Labour of the People in London*, published in 17 volumes between 1889 and 1903, was a landmark in empirical social investigation. His panorama of London life has dominated all subsequent accounts: its scope, precision and detail make it an unrivalled source for the period. Mr. Charles Booth's *Inquiry* is the first systematic account of the making of the survey, based upon an intensive examination of the huge Booth archive. This contains far more material than was eventually published, in particular on women, work, religion, education, housing and social relations, as well as on poverty. While the book acknowledges the leading role of Booth himself, it highlights the significance of the contributions of his associates, including Beatrice Potter (Webb), Octavia Hill, Llewellyn Smith and G.H. Duckworth. *Life and Labour of the People in London* is a founding text of both social history and modern sociology. It has however commonly been misunderstood and frequently misused. Mr Charles Booth's *Inquiry* sets the survey in perspective and demonstrates the richness of the Booth archive and its potential for modern scholarship in both history and the social sciences.
