**Turkey in Africa** Federico Donelli 2021-04-08 Africa is increasingly becoming an arena for geopolitical competition over its resources and, in the last two decades, has seen many emerging powers such as China, India, Russia, Japan and Brazil attempting to strengthen their ties with the continent. Turkey's involvement has been much less discussed, despite the fact that Turkey's strategic involvement with several sub-Saharan African states has been deepening since its active engagement in the Somali crisis of 2011. Federico Donelli brings to light the extent of Turkey's involvement in Africa and analyses the unique characteristics, benefits, challenges and limits of Turkish policy in the region. The book examines the Turkish diplomatic programme as well as its domestic reception, which includes humanitarian aid, religious links such as the OIC (Organisation of Islamic Cooperation), as well as private business links. Crucially, Donelli examines what makes Turkish involvement different from that of other international actors in the region - its historic ties with North Africa under the Ottoman Empire.

*Pluralism in Islamic Contexts - Ethics, Politics and Modern Challenges* Mohammed Hashas 2021-03-12 This book brings together international scholars of Islamic philosophy, theology and politics to examine these current major questions: What is the place of pluralism in the Islamic founding texts? How have sacred and prophetic texts been interpreted throughout major Islamic intellectual history by the Sunnis and Shi'a? How does contemporary Islamic thought treat religious and political diversity in modern nation states and in societies in transition? How is pluralism dealt with in modern major and minor Islamic contexts? How does modern political Islam deal with pluralism in the public sphere? And what are the major internal and external challenges to pluralism in Islamic contexts? These questions that have become of paramount relevance in religious studies especially during the last three-four decades are answered as critically highlighted in Islamic founding sources, the formative classical sources and how it has been lived and practiced in past and present Islamic majority societies and communities around the world. Case studies cover Egypt, Turkey, Indonesia, and Thailand, besides various internal references to other contexts.

*Urban Notables and Arab Nationalism* Philip S. Khoury 2003-12-11 This study attempts to correct the imbalance and, in the process, provides a fascinating interpretation of the rise of the ideology of nationalism within the Arab world. The book focuses on the social and political life of the great notable families of Ottoman Damascus, who, before World War I, played a crucial part in translating the idea into political action.

**Appeal to the Turk** Giovanni Ricci 2018 This book sheds some light on something unmentionable, that public powers and individuals in the Christian world had been doing for a long time: to solve their diverse personal and political issues, they appealed to the Turks. This especially happened in Renaissance Italy, particularly exposed both to the Turkish peril and seduction; and even some popes, in quarrel with other Christian princes, engaged in this practice. It seems clear that the prevailing historical memory, often hinged on conflict, is the result of a formal and morally charged selection of facts. If the Italian capitals germinated the plans, the actions were then spread quite widely along the coasts of the Mediterranean or into the interior of the Balkans or in Istanbul. In this, the Italian states were in the avant-garde, at least half a century before France established the so-called impious alliance with the Ottoman Empire.

**Choreographies of Shared Sacred Sites** Elazar Barkan 2014-11-11 This anthology explores the dynamics of shared religious sites in Turkey, the Balkans, Palestine/Israel, Cyprus, and Algeria, indicating where local and national stakeholders maneuver between competition and cooperation, coexistence and conflict. Contributors probe the notion of coexistence and the logic that underlies centuries of "sharing," exploring when and why sharing gets interrupted—or not—by conflict, and the policy consequences. These essays map the choreographies of shared sacred spaces within the framework of state-society relations, juxtaposing a site's political and religious features and exploring whether sharing or contestation is primarily religious or politically motivated. Although religion and politics are intertwined phenomena, the contributors to this volume understand the category of "religion" and the "political" as devices meant to distinguish between the theological and confessional aspects of religion and the political goals of groups. Their comparative approach better represents the transition in some cases of sites into places of hatred and violence, while in other instances they remain noncontroversial. The essays clearly delineate the religious and political factors that contribute to the context and causality of conflict at these sites and draw on history and anthropology to shed light on the often rapid switch from relative tolerance to distress to peace and calm.

North African Mosaic Nabil Boudraa 2009-03-26 This book's ambition is to offer the most recent scholarship on North African cultures at a time when the very notion of culture is being re-evaluated in the shifting tides that both associate and divorce the forces of nationalism, globalism and neo-liberalism. Another ambition is to be a readable document about the past and the potential of North African civilizations. Those which have been crystallized into a polysemic voice from centuries of occupations, exchanges and what is now commonly called hybridizations. In this work the collective position of the authors, with their different fields of experience, is that the languages, musics, and the many expressions of common life in North Africa continue to flourish. That they are a bridge between sub-Saharan peoples and Europe. That they are a necessary antidote to the anemic political discourses that have prevailed since decolonization. That they are seminal for the future of the African continent as it begins its true voyage into democracy. It is difficult, at this juncture, to measure the distance that, in the decades to come, will be achieved on that voyage. It is, however, less difficult to evaluate the importance of North Africa on tomorrow's world. If the past is an indicator, it will be an important force in the cross-flow of trade, ideas and of global destinies.

The Unity of the Nations Pope Benedict XVI 2015-03-20 What did ancient Christians and pagans believe makes the unity of the nations? Just as he began serving as a major adviser at the Second Vatican Council in 1962, Joseph Ratzinger (the future Pope Benedict XVI) studied this question in lectures delivered at Austria's University of Salzburg. These lectures, originally published in German, are now made available in English in this volume.

**Sharing the Sacred** Anna Bigelow 2010-02-04 The author looks at a place where the conditions for religious conflict are present, but active conflict is absent, focusing on a Muslim majority Punjab town (Malkerkotla) where both during the Partition and subsequently there has been no inter-religious violence.

**Overcoming Religious Illiteracy** D. Moore 2007-10-02 In *Overcoming Religious Illiteracy*, Harvard professor and Phillips Academy teacher Diane L. Moore argues that though the United States is one of the most religiously diverse nations in the world, the vast majority of citizens are woefully

ignorant about religion itself and the basic tenets of the world's major religious traditions. The consequences of this religious illiteracy are profound and include fueling the culture wars, curtailing historical understanding and promoting religious and racial bigotry. In this volume, Moore combines theory with practice to articulate how to incorporate the study of religion into the schools in ways that will invigorate classrooms and enhance democratic discourse in the public sphere.

Freud and Jung on Religion Michael Palmer 2003-09-02 Palmer analyses Freud's claim that religion is an obsessional neurosis, considers Jung's rejection of Freud's theory, and looks at Jung's assertion that it is the absence of religion, not its presence, which leads to neurosis.

**Christianity and Islam Under the Sultans** - F. W. Hasluck 2008-11 CHRISTIANITY AND ISLAM UNDER THE SULTANS by THE LATE F. W. HASLUCK, Originally published in 1929. EDITOR'S NOTE: MY husband spent most of his life from 1899 to 1916 in Greece and Turkey. During the first fourteen years of this period, working as an archaeologist rather than as an orientalist, he studied at various times the classical archaeology of Greece, the medieval and modern\* history of Smyrna, the rise and development of the Orthodox monasteries of Mount Athos, the records of medieval geography and travel in the Near East, and the Genoese and Venetian coins and heraldry found in that area. The fruits of these studies were several books and some fifty articles. In the spring of 1913 he visited Konia, the ancient Iconium. There he became interested in the interplay of Christianity and Islam within the Turkish empire, and from that time this subject and its derivatives occupied most of his attention. The result of his researches is this work, the first comprehensive study of Turkish folk-lore and its relations with Christianity. The inequalities of the work, however, are so obvious that they call for an explanation of the circumstances in which it has been written and published. After his visit to Konia the author read and wrote steadily until the outbreak of the war. His delicate health made active military service impossible, and he continued his researches, amid ever-increasing difficulties, until the summer of 1915. Then he joined the Intelligence Department of the British Legation at Athens, where use was found for his exceptional knowledge of the languages and general conditions of the Near East. He found the work uncongenial, but he devoted himself entirely to it and had only his weekly holiday for writing. Late in 1916 the lung trouble that had long sapped his strength was diagnosed and he was sent to Switzerland. There was considerable danger from German submarines at that time on the sea journey from Greece to Italy, and to avoid risk of loss he left behind him in Athens such of his manuscripts as did not exist in duplicate. In Switzerland he continued to read and to write, so far as

his gradually declining health and strength allowed. He died there on February 22, 1920, a few days after his forty-second birthday. It then fell to me to publish as much of his work as possible. On the present subject he had intended to publish two books, the first entitled ' Transferences from Christianity to Islam and Vice Versa ' and the second ' Studies in Turkish Popular History and Religion \ Since, however, their contents were cognate and ' Studies ' was left very unfinished, my friends advised their fusion. This has been carried out, ' Transferences ' being represented in the present edition by Part I and Chapters XXV-XXXVIII of Part III, and ' Studies ' by Part II and Chapters XXXIX-LX of Part III. The title of the present edition was given by me. Very few of the manuscripts had passed the author as ready for publication. One-third of the total number were nearly ready. Four-fifths of the others, including those in Athens, were in a provisional form, and one fifth existed only in notes. In my editorial work I have preserved the original text as scrupulously as possible. Certain repetitions were deleted after the two books were combined, and defective chapters have been written up and completed to the best of my ability, but these are the only parts of the text which are not as my husband wrote them

**The Political Language of Islam** Bernard Lewis 2018-12-14 What does jihad really mean? What is the Muslim conception of law? What is Islam's stance toward unbelievers? Probing literary and historical sources, Bernard Lewis traces the development of Islamic political language from the time of the Prophet to the present. His analysis of documents written in Arabic, Persian, and Turkish illuminates differences between Muslim political thinking and Western political theory, and clarifies the perception, discussion, and practices of politics in the Islamic world. "Lewis's own style, combining erudition with a simple elegance and subtle humor, continues to inspire. In an era of specialization and narrowing academic vision, he stands alone as one who deserves, without qualification, the title of historian of Islam."—Martin Kramer, Middle East Review "A superb effort at synthesis that presents all the relevant facts of Middle Eastern history in an eminently lucid form. . . . It is a book that should prove both rewarding and congenial to the Muslim reader."—S. Parvez Manzoor, Muslim World Book Review "By bringing his thoughts together in this clear, concise and readable account, [Lewis] has placed in his debt scholars and all who seek to understand the Muslim world."—Ann K. S. Lambton, Bulletin of the School of Oriental and African Studies "[Lewis] constructs a fascinating account of the ways in which Muslims have conceived of the relations between ruler and ruled, rights and duties, legitimacy and illegitimacy, obedience and rebellion, justice and oppression. And he shows how changes in political attitudes and concepts can be traced through changes in the political vocabulary."—Shaul Bakhash, New York Review of Books

**True and False Reform in the Church** Yves Congar 2010-12-01 Archbishop Angelo Roncalli (later Pope John XXIII) read True and False Reform during his years as papal nuncio in France and asked, A reform of the church 'is such a thing really possible?' A decade later as pope, he opened the Second Vatican Council by describing its goals in terms that reflected Congar's description of authentic reform: reform that penetrates to the heart of doctrine as a message of salvation for the whole of humanity, that retrieves the meaning of prophecy in a living church, and that is deeply rooted in history rather than superficially related to the apostolic tradition. Pope John called the council not to reform heresy or to denounce errors but to update the church's capacity to explain itself to the world and to revitalize ecclesial life in all its unique local manifestations. Congar's masterpiece fills in the blanks of what we have been missing in our reception of the council and its call to "true reform." Yves Congar, OP, a French Dominican who died in 1995, was the most important ecclesiologist in modern times. His writings and his active participation in Vatican II had an immense influence upon the council documents. With a few other contemporaries, Congar pioneered a new style of theological research and writing that linked the great tradition of Scripture and the Fathers to contemporary pastoral questions with lucidity and passion. His key concerns were the unity of the church, lay apostolic life, and a revival of the church's theology of the Holy Spirit. He was named a cardinal by Pope John Paul II in recognition of his profound contributions to the Second Vatican Council. Pal Philibert, OP, has taught pastoral theology in the United States and abroad. He is a Dominican friar of the Southern Province. His translation of a collection of Congar's essays on the liturgy has recently been published by Liturgical

Press under the title *At the Heart of Christian Worship*. His book *The Priesthood of the Faithful: Key to a living Church* (Liturgical Press, 2005) reflects the ecclesiology of Yves Congar and his Vision of the apostolic life of the faithful. "

*Sectarian Gulf* Toby Matthiesen 2013-07-03 As popular uprisings spread across the Middle East, popular wisdom often held that the Gulf States would remain beyond the fray. In *Sectarian Gulf*, Toby Matthiesen paints a very different picture, offering the first assessment of the Arab Spring across the region. With first-hand accounts of events in Bahrain, Saudi Arabia, and Kuwait, Matthiesen tells the story of the early protests, and illuminates how the regimes quickly suppressed these movements. Pitting citizen against citizen, the regimes have warned of an increasing threat from the Shia population. Relations between the Gulf regimes and their Shia citizens have soured to levels as bad as 1979, following the Iranian revolution. Since the crackdown on protesters in Bahrain in mid-March 2011, the "Shia threat" has again become the catchall answer to demands for democratic reform and accountability. While this strategy has ensured regime survival in the short term, Matthiesen warns of the dire consequences this will have—for the social fabric of the Gulf States, for the rise of transnational Islamist networks, and for the future of the Middle East.

*Living Islam* Ayse Saktanber 2018-10-30 How and why have women come to play a central role in the political project of Islamic revivalism and in the power struggles between Islamic and secular forces in Turkey? Ayse Saktanber rejects approaches to this issue that ask what Islam means for the position of women or see Muslim women as the 'reverse' or the 'dark' side of modernity. She examines the experiences of women for whom the discourse of modernity has no relevance and looks at the ways in which they have become crucial agents in the effort to make Islam a living social practice in a secular order. Full of fascinating accounts of the lives of Islamist women, this study is essential for anyone interested in the contemporary Muslim world.

Religion in Prison James A. Beckford 2005-10-20 This is the first in-depth study of relations between the Anglican Church and other faiths in the Prison Service Chaplaincy. It examines the increasingly controversial role of Anglican chaplains in facilitating the religious and pastoral care of the increasing population of prisoners from non-Christian backgrounds. Drawing useful contrasts with the situation in the United States, it shows how the struggle for equal opportunities in a multi-faith society is politicizing relations among the Church, the state and religious minorities in England.

*Sudditi o cittadini?* Autori Vari 2019-03-04T00:00:00+01:00 Come cambiarono gli imperi europei, coloniali e no, a cavallo della Prima guerra mondiale? Fu la guerra del 1914-18 a decretare la decadenza degli imperi e la loro sostituzione con un sistema di Stati-nazione? Sudditi o cittadini? risponde a questi e ad altri interrogativi, e mostra come la forma di governo imperiale, utilizzando concetti articolati di sudditanza e cittadinanza, sia stata capace di trasformarsi e perfino di rilanciarsi nel periodo fra le due guerre mondiali, contando sul fatto che le popolazioni subalterne degli imperi ambissero a riforme inclusive piuttosto che alla rivoluzione.

Political Order and Inequality Carles Boix 2015-02-16 The fundamental question of political theory, one that precedes all other questions about the nature of political life, is why there is a state at all. Is human cooperation feasible without a political authority enforcing it? Or do we need a state to live together? This problem then opens up two further questions. If a state is necessary to establish order, how does it come into place? And, when it does, what are the consequences for the political status and economic welfare of its citizens? Combining ethnographical material, historical cases, and statistical analysis, this book describes the foundations of stateless societies, why and how states emerge, and the basis of political obligation. As a result of this inquiry, it explains the economic and political roots of inequality, describes the causes of the stagnation of the preindustrial world, and explores what led to the West's prosperity of the past two centuries.

*Islam and English Law* Robin Griffith-Jones 2013-04-11 Former Archbishop of Canterbury Rowan Williams triggered a storm of protest when he suggested that some accommodation between British law and Islam's shari'a law was 'inevitable'. His foundational lecture introduced a series of public discussions on Islam and English Law at the Royal Courts of Justice and the Temple Church in London. This volume combines developed versions of these discussions with new contributions. Theologians, lawyers and sociologists look back on developments since the Archbishop spoke and forwards along trajectories opened by the historic lecture. The contributors provide and advocate a forward-looking dialogue, asking how the rights of all citizens are honoured and their responsibilities met. Twenty specialists explore the evolution of English law, the implications of Islam, shari'a and jihad and the principles of the European Convention on Human Rights, family law and freedom of speech. This book is for anyone interested in the interaction between religion and secular society.

**Christians and Jews in the Ottoman Empire** Benjamin Braude 2014 How did the vast Ottoman empire, stretching from the Balkans to the Sahara, endure for more than four centuries despite its great ethnic and religious diversity? The classic work on this plural society, the two-volume *Christians and Jews in the Ottoman Empire*, offered seminal reinterpretations of the empire's core institutions and has sparked more than a generation of innovative work since it was first published in 1982. This new, abridged, and reorganized edition, with a substantial new introduction and bibliography covering issues and scholarship of the past thirty years, has been carefully designed to be accessible to a wider readership.

*Islamic Empires* Justin Marozzi 2019-08-29 'Outstanding, illuminating, compelling ... a riveting read' Peter Frankopan, Sunday Times Islamic civilization was once the envy of the world. From a succession of glittering, cosmopolitan capitals, Islamic empires lorded it over the Middle East, North Africa, Central Asia and swathes of the Indian subcontinent. For centuries the caliphate was both ascendant on the battlefield and triumphant in the battle of ideas, its cities unrivalled powerhouses of artistic grandeur, commercial power, spiritual sanctity and forward-looking thinking. *Islamic Empires* is a history of this rich and diverse civilization told through its greatest cities over fifteen centuries, from the beginnings of Islam in Mecca in the seventh century to the astonishing rise of Doha in the twenty-first. It dwells on the most remarkable dynasties ever to lead the Muslim world - the Abbasids of Baghdad, the Umayyads of Damascus and Cordoba, the Merinids of Fez, the Ottomans of Istanbul, the Mughals of India and the Safavids of Isfahan - and some of the most charismatic leaders in Muslim history, from Saladin in Cairo and mighty Tamerlane of Samarkand to the poet-prince Babur in his mountain kingdom of Kabul and the irrepressible Maktoum dynasty of Dubai. It focuses on these fifteen cities at some of the defining moments in Islamic history: from the Prophet Mohammed receiving his divine revelations in Mecca and the First Crusade of 1099 to the conquest of Constantinople in 1453 and the phenomenal creation of the merchant republic of Beirut in the nineteenth century.

Self-Defence and Religious Strife in Early Modern Europe Robert von Friedeburg 2017-07-05 Recent research has begun to highlight the importance of German arguments about legitimate resistance and self-defence for French, English and Scottish Protestants. This book systematically studies the reception of German thought in England, arguing that it played a much greater role than has hitherto been acknowledged. Both the Marian exiles, and others concerned with the fate of continental Protestantism, eagerly read what German reformers had to say about the possibility of resisting the religious policies of a monarch without compromising the institution of monarchy itself. However, the transfer of German arguments to England, with its individual political and constitutional environment, necessarily involved the subtle transformation of these arguments into forms compatible with local traditions. In this way, German arguments contributed significantly to the emergence of new theories, emphasising natural rights.

**Taming the Wild Field** Willard Sunderland 2016-03-10 Stretching from the tributaries of the Danube to the Urals and from the Russian forests to

the Black and Caspian seas, the vast European steppe has for centuries played very different roles in the Russian imagination. To the Grand Princes of Kiev and Muscovy, it was the "wild field," a region inhabited by nomadic Turko-Mongolic peoples who repeatedly threatened the fragile Slavic settlements to the north. For the emperors and empresses of imperial Russia, it was a land of boundless economic promise and a marker of national cultural prowess. By the mid-nineteenth century the steppe, once so alien and threatening, had emerged as an essential, if complicated, symbol of Russia itself. Traversing a thousand years of the region's history, Willard Sunderland recounts the complex process of Russian expansion and colonization, stressing the way outsider settlement at once created the steppe as a region of empire and was itself constantly changing. The story is populated by a colorful array of administrators, Cossack adventurers, Orthodox missionaries, geographers, foreign entrepreneurs, peasants, and (by the late nineteenth century) tourists and conservationists. Sunderland's approach to history is comparative throughout, and his comparisons of the steppe with the North American case are especially telling. *Taming the Wild Field* eloquently expresses concern with the fate of the world's great grasslands, and the book ends at the beginning of the twentieth century with the initiation of a conservation movement in Russia by those appalled at the high environmental cost of expansion.

**American Sacred Space** David Chidester 1995-11-22 In a series of pioneering studies, this book examines the creation—and the conflict behind the creation—of sacred space in America. The essays in this volume visit places in America where economic, political, and social forces clash over the sacred and the profane, from wilderness areas in the American West to the Mall in Washington, D.C., and they investigate visions of America as sacred space at home and abroad. Here are the beginnings of a new American religious history—told as the story of the contested spaces it has inhabited. The contributors are David Chidester, Matthew Glass, Edward T. Linenthal, Colleen McDannell, Robert S. Michaelsen, Rowland A. Sherrill, and Bron Taylor.

[Sharing Sacred Spaces in the Mediterranean](#) Dionigi Albera 2012-02-20 "Will spark debate . . . and hopefully further research into points of contact between the monotheistic religions, and others." —The Levantine Review While devotional practices are usually viewed as mechanisms for reinforcing religious boundaries, in the multicultural, multiconfessional world of the Eastern Mediterranean, shared shrines sustain intercommunal and interreligious contact among groups. Heterodox, marginal, and largely ignored by central authorities, these practices persist despite aggressive, homogenizing nationalist movements. This volume challenges much of the received wisdom concerning the three major monotheistic religions and the "clash of civilizations," as contributors examine intertwined religious traditions along the shores of the Near East from North Africa to the Balkans.

**La massoneria in Egitto** Barbara De Poli 2018-10-23T00:00:00+02:00 A partire dalla spedizione di Bonaparte, questo volume segue le tracce delle logge massoniche egiziane, attraverso quasi due secoli. Al Cairo e ad Alessandria, le vite di intellettuali, borghesi, militari, politici egiziani, levantini ed europei - tra i quali spiccheranno gli esuli risorgimentisti italiani - si intrecceranno all'ombra dei templi del Grande Oriente d'Egitto e della Gran Loggia Nazionale. Nel segno del più fertile cosmopolitismo, le officine diverranno luogo di espressione dei più importanti movimenti di riforma culturale e politica che a cavallo tra Otto e Novecento forgeranno l'Egitto moderno; in seguito, importanti mutamenti geopolitici sanciranno l'epilogo di quella fortunata esperienza, formalmente conclusa nel 1964. In tale lungo percorso, le logge si faranno riflesso di una storia di incontri ma anche di aspri scontri, restituendo l'immagine di una libera muratoria capace di farsi strumento e voce delle più importanti sfide che gli uomini di quelle epoche affrontavano.

*Pilgrims and Sacred Sites in China* Susan Naquin 1992 Until now, China has been scarcely represented in the burgeoning comparative literature on pilgrimage. This volume remedies that omission, discussing the interaction between pilgrims and sacred sites from the tenth century to the present. From the perspectives of literature, art, history, religion, politics, and anthropology, the essays focus on China's most famous pilgrimage mountains as well as lesser known sites.

An Introduction to Islamic Law Wael B. Hallaq 2009-07-09 The study of Islamic law can be a forbidding prospect for those entering the field for the first time. Wael Hallaq, a leading scholar and practitioner of Islamic law, guides students through the intricacies of the subject in this absorbing introduction. The first half of the book is devoted to a discussion of Islamic law in its pre-modern natural habitat. The second part explains how the law was transformed and ultimately dismantled during the colonial period. In the final chapters, the author charts recent developments and the struggles of the Islamists to negotiate changes which have seen the law emerge as a primarily textual entity focused on fixed punishments and ritual requirements. The book, which includes a chronology, a glossary of key terms, and lists of further reading, will be the first stop for those who wish to understand the fundamentals of Islamic law, its practices and history.

Domestic and Regional Uncertainties in the New Turkey Alessio Chiriatti 2017-06-20 Turkey has faced, in the last two decades, a number of critical events, like wars, conflicts and frictions in the Balkans, the Caucasus, and the Middle East, that have represented a huge challenge for its foreign policy and civil and economic interventions. Turkish multi-directionality and multidimensionality have been tested by these occurrences, demonstrating that what some scholars and experts had defined as a "model" contained failures as well as success. This book examines these dynamics through case studies of the humanitarian, cultural, economic and political dimensions of Turkey's role in a diffuse neighbourhood, in which the country has tried to exert its power in recent decades. Starting from the questions that the Cold War and the arrival of the AKP in government have opened for Ankara, the volume illustrates two of the most important sides of the Turkish strategic repositioning in the international system. The first part is focused on the main humanitarian and political struggles in contemporary Turkish society, while the second explores the main fault-lines in Turkey's regional policy and the development of the country's foreign policy. As such, the book represents a valuable resource for both graduate and undergraduate students, academics and researchers in the areas of Turkish studies, foreign policy, regional politics, Middle Eastern studies, security, political economy and European studies as well as for the general public.

Religious Rules, State Law, and Normative Pluralism - A Comparative Overview Rossella Bottoni 2016-07-07 This book is devoted to the study of the interplay between religious rules and State law. It explores how State recognition of religious rules can affect the degree of legal diversity that is available to citizens and why such recognition sometime results in more individual and collective freedom and sometime in a threat to equality of citizens before the law. The first part of the book contains a few contributions that place this discussion within the wider debate on legal pluralism. While State law and religious rules are two normative systems among many others, the specific characteristics of the latter are at the heart of tensions that emerge with increasing frequency in many countries. The second part is devoted to the analysis of about twenty national cases that provide an overview of the different tools and strategies that are employed to manage the relationship between State law and religious rules all over the world.

**The Domain of Constant Excess** Rohan Bastin 2002-12-01 The Sri Lankan ethnic conflict that has occurred largely between Sinhala Buddhists and Tamil Hindus is marked by a degree of religious tolerance that sees both communities worshipping together. This study describes one important site of such worship, the ancient Hindu temple complex of Munnesvaram. Standing adjacent to one of Sri Lanka's historical western ports, the fortunes of the Munnesvaram temples have waxed and waned through the years of turbulence, violence and social change that have been the country's lot since

the advent of European colonialism in the Indian Ocean. Bastin recounts the story of these temples and analyses how the Hindu temple is reproduced as a center of worship amidst conflict and competition.
