Polymer Clay Gemstones-The Art of Deception Kim Schlinke 2013-10 This is not your ordinary how-to book! Austin TX based authors and polymer clay artists Kim Schlinke and Randee M. Ketzler artfully mix a clever mystery with 20 how-to projects that show step-by step photographs and instructions to create your own "ancient artifacts." These polymer clay masterpieces are beautiful enough to grace a museum collection-or yours! At 206 pages, this lavishly photographed book is stuffed with a multitude of projects that can be done just as presented with highly detailed step-by-step instruction, or used as starting points to make faux gems for use in all sorts of designs. Priced retail at \$30, the hefty book's how-to projects weigh in at the mere cost of \$1.50 each. Animal lovers will be pleased to note that our authors also give us the secrets of making replicas of ivory and tiger claw that involve no cruelty towards elephants or wild cats whatsoever! Projects featured in this compendium include: Celtic Bronze Fibula, Navajo Silver Pendant, Art Nouveau Golden Ginkgo Brooch, Carnelian Choker of Ancient Rome, Amethyst Cabochons and Nugget Beads, Amethyst Silver Art Nouveau Pendant, Black Opal Cabochons, Barbarian Bracelet, Chrysoprase Cabochons (A and B Grade), Hammered Cuff Bracelet, Ancient Limestone Fossil Pebbles, Cycladic Goddess, Leopardskin Jasper, Primitive Pebble Bracelet, Faux Twigs, Fantastical Forgeries Bracelet, Blue Lace Agate Tile Bracelet, Copper & Rhodochrosite Tiered Necklace, Snowflake Jades, Qin Dynasty Bangles, Amber Caravan Necklace, Primeval Coral Rock Hound Necklace, Ammolite Cabochons, Gothic Revival Pendant, Victorian Mourning Brooch, Faux Tiger Claw, Victorian Raj Brooch, Faux Tiffany Glass Scarabs, Faux Ivory Cuff Bracelet Find out how it is all done-and "who done it"-along with our intrepid protagonists, Parker and Peele. "What is this stuff?" wondered Parker, and her companion pointed her umbrella to the drawings that plastered the walls. "The raw materials for the best forgeries ever seen" replied her friend. "This is where they were created." Together they examined the drawings, exclaiming softly as they recognized several objects from the Museum. Parker picked up one of the colorful lumps and frowned. "What is this, Peele? It's soft like clay, but I've never seen these colors before." "No," said her friend, "nor have I-at least in this form. I suspect it requires a catalyst of some type to render it into the false gems-ah, here!" Peele uncovered an array of electric ovens. "Heat-how charming. This must be some type of polymer, which, when brought to the proper temperature, then hardens. I have heard rumors. Could become just about anything, in skilled hands."

Non-Native Prosody Jürgen Trouvain 2007-01-01 Non-Native Prosody: Phonetic Description and Teaching Practice is a response to the increasing

interest in the field of prosody in second language acquisition and teaching. The volume presents an overview of the state of the art in second language prosody learning and teaching and brings together linguistic research on the description and modelling of non-native prosodic structures with L2 teaching methods and practices. The first part comprises descriptions of non-native prosodic structures (including intonation, stress and speech rhythm) as well as methodological considerations of research in second language acquisition written by experts in the field. These overviews of current theoretical models and results from empirical studies are presented in a format accessible to language teachers. In the second part, some of the leading teaching practitioners and developers of phonological learning materials present a variety of methods and exercises in the area of prosody. The accompanying audio examples on a CD-ROM make a useful addition illustrating the descriptions and exercises for various target and source languages.

Roman Art Paul Zanker 2012-01-10 Traditional studies of Roman art have sought to identify an indigenous style distinct from Greek art and in the process have neglected the large body of Roman work that creatively recycled Greek artworks. Now available in paperback, this fresh reassessment offers instead a cultural history of the functions of the visual arts, the messages that these images carried, and the values that they affirmed in late Republican Rome and the Empire. The analysis begins at the point at which the characteristic features of Roman art started to emerge, when the Romans were exposed to Hellenistic culture through their conquest of Greek lands in the third century B.C. As a result, the values and social and political structure of Roman society changed, as did the functions and character of the images it generated. This volume, presented in very clear and accessible language, offers new and fascinating insights into the evolution of the forms and meanings of Roman art. "Zanker, one of the foremost ancient Roman art historians, has produced an excellent general study of Roman art and its reception. . . . This book would be ideal for students at all levels interested in Roman art, history, and culture."—Choice

Venice and the Renaissance Manfredo Tafuri 1995-03-27 Pursuing the intersections of Venetian culture from the beginning of the sixteenth century through the first decades of the seventeenth, Manfredo Tafuri develops a story crowded with characters and full of surprises. He engages the

doges Andrea Gritti and Leonardo Dona; architects and artists Sansovino, Serlio, Palladio, and Scamozzi; and scientists Francesco Barozzi and Galileo. He records the battle that was fought for architecture as metaphor for absolute truth and good government, and contrasts these with the myths that inspired them.

Italian Architecture Andrew Hopkins 2002 The years from 1520 to 1630 were crucial in the development of Western architecture, but to label as Mannerist the transition from Michelangelo's "licentious" New Sacristy in Florence to Borromini's innovative S. Carlo alle Quattro Fontane is coming to seem unduly simplistic. In this carefully researched and original study, Andrew Hopkins examines the century's changing functional demands, the political forces, the patronage system, and local traditions. Exploring a wide range of Italian buildings (including those outside the major urban centers), he introduces us to dozens of neglected architects whose works will come as a revelation. By 1630, architecture had taken on a new dynamism that would soon conquer Italy, Europe, and the New World: the baroque. 209 b/w illustrations.

Ideology Teun A Van Dijk 1998-02-05 The definition of ideology continues to occupy scholars across a wide range of disciplines. In this book, Teun A van Dijk sketches a challenging new multidisciplinary framework for theorizing ideology. He defines ideology as the basis of the social representations of a group, its functions in terms of social relations between groups, and its reproduction as enacted by discourse. Contemporary racist discourse is examined to illustrate these ideological relations between cognition, society and discourse.

The Limits of Grammaticalization Anna Giacalone Ramat 1998-01-01 The earliest use of the term "grammaticalization" was to refer to the process whereby lexical words of a language (such as English keep in "he keeps bees") become grammatical forms (such as the auxiliary in "he keeps looking at me"). Changes of this kind, which involve semantic fading and a downshift from a major to a minor category, have generally been agreed to come under the heading of grammaticalization. But other changes that equally contribute to new grammatical forms do not involve this kind of fading. In recent years, a debate has arisen over how to constrain the term theoretically. Is grammaticalization to be distinguished from "lexicalization", the creation and fixing of new words out of older patterns of compounding? If so, how is the line to be drawn between a form that is grammatical and one that is lexical? Should the term "grammaticalization" be extended to the study of the origins of grammatical constructions in general? If so, it will have to include broader issues such as word order change and the reanalysis of phrases. What principles govern these processes? Is grammaticalization a unidirectional event, or can change occur in the reverse direction? The authors of the papers in this volume approach these important questions from a variety of data types, including historical texts, creoles, and a typologically broad sample of modern and ancient languages.
