Visotonic Loredana Michelis 2013-03-01 Have you ever considered toning up your face through a series of exercises, just as you can do it for the rest of the body? It can be done... and it works! This method employs both some American miming and acting techniques as well as some muscular rehabilitation techniques used in hospitals. The result is that the face becomes more tonic and expressive (a combination which is impossible to achieve through plastic surgery!). It simply requires the use of your hands and takes up less than 15 minutes a day: the first results will appear just after three weeks.

2012-2021 - The Dawn of the Sixth Sun Sergio Magana "Ocelocoyotl" 2012-09-01 What happens on and after December 21, 2012? There has been much confusion and many predictions based on the Mayan calendar. Some people think time on Earth will end, but what if there was an intact and complete resource from the ancestors that will give us the wisdom we need for the shift and an understanding of the coming era? In "2012-2021: The Dawn of the Sixth Sun," Sergio Magana (Ocelocoyotl), mystic and teacher of the ancient Toltec/Aztec lineage of Mesoamerica, discloses an in-depth understanding from a rich and uninterrupted oral tradition, the meaning of the shift from the Fifth to the Sixth Sun, the possibilities presented to humanity at this time, and ancient teachings and practices designed to support this shift. The Toltecs knew how to interpret the mathematical or universal order that governs all of existence by measuring and observing cycles of time, and the impact they had on the Earth, human consciousness, and perception.

Water for Unity Masaru Emoto 2015-06-15 This book is connected to a worldwide movement which is going to organise several large international events in 2016, as they already did in 2015. The essayists themselves are part of this movement and readers can join too. They will experiment, for instance, with using intention to lower the radioactivity level of Fukushima's water. It is a very young movement but one that has already generated much interest. This is a collection of short essays from 17 very well-known authors who have a solid scientific background or renown within their ancestral traditions. What they have in common is that each one, within their discipline, is aiming to use water's molecular structure and memory to improve our world.

MBraining Marvin Oka 2012 Integrating the methodologies of Neuro-Linguistic Programming, cognitive linguistics and behavioral modeling, this source book describes the foundational underpinnings of mBIT and mBraining. "Multiple brains" refers to neural networks: the enteric, cardiac, and cephalic nervous systems.
