Ephemeral Bodies Julius Ritter von Schlosser 2008 The material history of wax is a history of disappearance--wax melts, liquefies, evaporates, and undergoes innumerable mutations. Wax is tactile, ambiguous, and mesmerizing, confounding viewers and scholars alike. It can approximate flesh with astonishing realism and has been used to create uncanny human simulacra since ancient times--from phallic amulets offered to heal distressing conditions and life-size votive images crammed inside candlelit churches by the faithful, to exquisitely detailed anatomical specimens used for training doctors and Medardo Rosso's "melting" portraits. The critical history of wax, however, is fraught with gaps and controversies. After Giorgio Vasari, the subject of wax sculpture was abandoned by art historians; in the twentieth century it once again sparked intellectual interest, only soon to vanish. The authors of the eight essays in *Ephemeral Bodies*--including the first English translation of Julius von Schlosser's seminal "History of Portraiture in Wax" (1910-11)--break new ground as they explore wax reproductions of the body or body parts and assess their conceptual ambiguity, material impermanence, and implications for the history of Western art.

Rosso, Medardo, 1858-1928 19??

Medardo Rosso Harry Cooper 2003 The Italian artist Medardo Rosso (1858-1928) is a key figure in the development of modern sculpture. His portraits and figure studies have long been considered sculptural equivalents to Impressionism's concern with light at the expense of form. This book presents an artist more deeply concerned with materials, process, and the reproduction of his works than previously imagined. technical, and phenomenological perspectives. Drawing on a wealth of new archival material and close-up study of the sculptures, the authors show that Rosso's waxes, which are his best-known works, were not modelled by hand but cast with the help of gelatin moulds. The authors compare wax, plaster, and bronze casts of the same subjects to show that the manipulation of materials for visual effect was at the heart of his work. The book also reproduces and analyses Rosso's fascinating photographs of his own sculpture, which offer important clues to the charged relationship he sought to create between viewers and the mysterious busts and figures he made.

Medardo rosso, by margaret scolari barr Medardo Rosso 1963

Medardo Rosso: Sight Unseen and His Encounters with London Oona Doyle 2018-07-24 Rosso was a revolutionary sculptor who subverted traditional modeling and casting methods to animate the surfaces of his sculptures. He went against prevailing monumental and heroic tendencies by depicting vulnerable subjects such the poor, children and the elderly. Some of his works, like *Enfant au sein* (late 1889?90), on view at Galerie Thaddaeus Ropac, border on abstraction. He adopted a performative approach to sculpture by casting his bronzes in public in a theatrical *mise-en-scène*, and he invented unique exhibition strategies by installing his work alongside those of other artists.00Exhibition: Thaddaeus Ropac Gallery, Ely House, London, UK (23.11.2017-10.02.2018).

Brancusi, Rosso, Man Ray. Framing Sculpture Peter van der Coelen 2014 This catalogue is published to accompany the exhibition of the same name in Museum Boijmans Van Beuningen, Rotterdam (8 February-11 May 2014). The exhibition is a unique meeting of the work of three of the most influential artists of the twentieth century: Constantin Brancusi (1876-1957), Medardo Rosso (1858-1928) and Man Ray (1890-1976). The works exhibited and discussed in the catalogue, forty-five sculptures and some hundred photographs they took of them, offer a glimpse over the shoulders of these artists. Not only were Brancusi, Rosso and Man Ray all crucial in the development of modern sculpture, they were innovators in the way they involved photography in their work-not so much for recording it, but as a means of explaining how viewers should look at and interpret their sculptures. They played with the possibilities of the medium-experimental for the time-using overexposure, innovative camera angles and blurring the foreground or background.

A Moment's Monument Sharon Hecker 2017-06-13 Medardo Rosso (1858-1928) is one of the most original and influential figures in the history of modern art, and this book is the first historically substantiated critical account of his life and work. An innovative sculptor, photographer, and draftsman, Rosso was vital in paving the way for the transition from the academic forms of sculpture that persisted in the nineteenth century to the development of new and experimental forms in the twentieth. His antimemorial, antiheroic work reflected alienation in the modern experience yet also showed deep feeling for interactions between self and other. Rosso's art was also transnational: he refused allegiance to a single culture or artistic heritage and declared himself both a citizen of the world and a maker of art without national limits. In this book, Sharon Hecker develops a narrative that is an alternative to the dominant Franco-centered perspective on the origin of modern sculpture in which Rodin plays the role of lone heroic innovator. Offering an original way to comprehend Rosso, *A Moment's Monument* negotiates the competing cultural imperatives of nationalism and internationalism that shaped the European art world at the fin de siècle.

Medardo Rosso 2018-03-27 The Italian artist Medardo Rosso (1858-1928) was instrumental in expanding the definition of sculpture for the modern era. Focusing on everyday people as his subjects, Rosso portrayed fugitive physical or emotional states, employing innovative casting and modeling techniques in plaster, bronze and wax, his signature material. *Medardo Rosso: Experiments in Light and Form* features nearly 100 works of sculpture, drawing and photography, and explores Rosso's efforts to capture and manipulate light. It presents extensive installation photography, documenting the works on view within the variable natural and artificial light of the Pulitzer Arts Foundation building. The book also features original scholarly essays by the exhibition co-curators and other contributors, as well as an illustrated checklist--presenting a selection of Rosso's lesser-known experiments in drawing and photography, in addition to some of his most celebrated sculptures.

Barry X Ball. Medardo Rosso Project. Ediz. a Colori Elisabetta Barisoni 2019 Since 2013, Barry X Ball has been engaged in a 3D scanning project of the works of Medardo Rosso held in Italian public collections. He renders Rosso's complex forms in minute detail, "reinvented, almost revisited" in various materials, from golden calcite to pink and white Iranian onyx, or highly transparent materials such as Mexican white onyx. The results are striking three-dimensional pieces that mirror Rosso's sculptures. The charge of energy and mystery that the brilliant Italian artist embodied in his creations remains intact and is coupled with a contemporary vision that examines the potential and limits of forms and materials. The result is a virtuoso dialogue with Rosso's works and with the masterpieces of sculpture in the Venetian museum's permanent collection.

En Passant Alexander Eiling 2020-05-19 Discover the sculptures of Impressionism and how they embody the movement's ideals. Is there such a

thing as "Impressionist sculpture"? Since 1881 when Edgar Degas presented Little Dancer Aged Fourteen at the Sixth Impressionist Exhibition in Paris, the term has existed along with the discourse around it. This book is dedicated to the extensive examination of the question what it would mean to translate the characteristics of Impressionist painting, such as light, colour, ephemerality, and the ethereal, into sculpture. The book features a selection of artists including Edgar Degas, Auguste Rodin, and Medardo Rosso and examines the artistic processes that traverse genres in which one medium is enhanced by others. This valuable, fascinating resource offers a unique addition to the scholarship on the Impressionist era.

Medardo Rosso Medardo Rosso 1988

Medardo Rosso Medardo Rosso 2003 With his figures, Italian sculptor Medardo Rosso succeeded in contributing decisively to the development of modern sculpture. The artist's points of focus were the moment when the sculpture was perceived and the fusion of the figure with its surroundings. He worked almost exclusively on portrait heads; wax became a substitute for bronze, allowing him to work the surface of the sculpture to its finest perfection and to use different hues, adequate expression for the fleetingness of the apparition. And they are fleeting--one hardly knows if the portrayed faces are receding from the sculpture's surface or pushing up against it. In Paris, where Rosso spent the greater part of his life, he found understanding friends in Edgar Degas and the collector Henri Rouart, while friendship with Rodin miscarried because of the rivalry between the two sculptors. At around the turn of the century, Rosso's sculptures could be seen at many large European exhibitions; the Futurists would soon hold him up as a model. This publication, a scholarly survey of the artist's work, makes clear that although Rosso limited himself to very few motifs, their many different versions translated into independent works.
