Inky Fingers Anthony Grafton 2020-06-09 The author of *The Footnote* reflects on scribes, scholars, and the work of publishing during the golden age of the book. From Francis Bacon to Barack Obama, thinkers and political leaders have denounced humanists as obsessively bookish and allergic to labor. In this celebration of bookmaking in all its messy and intricate detail, renowned historian Anthony Grafton invites us to see the scholars of early modern Europe as diligent workers. Meticulously illuminating the physical and mental labors that fostered the golden age of the book—the compiling of notebooks, copying and correction of texts and proofs, preparation of copy—he shows us how the exertions of scholars shaped influential books, treatises, and forgeries. *Inky Fingers* ranges widely, tracing the transformation of humanistic approaches to texts in the seventeenth and eighteenth centuries and examining the simultaneously sustaining and constraining effects of theological polemics on sixteenth-century scholars. Grafton draws new connections between humanistic traditions and intellectual innovations, textual learning and craft knowledge, manuscript and print. Above all, Grafton makes clear that the nitty-gritty of bookmaking has had a profound impact on the history of ideas—that the life of the mind depends on the work of the hands.

Translation and Rewriting in the Age of Post-Translation Studies Edwin Gentzler 2016-11-03 In *Translation and Rewriting in the Age of Post-Translation Studies*, Edwin Gentzler argues that rewritings of literary works have taken translation to a new level: literary texts no longer simply originate, but rather circulate, moving internationally and intersemiotically into new media and forms. Drawing on traditional translations, post-translation rewritings and other forms of creative adaptation, he examines the different translational cultures from which literary works emerge, and the translational elements within them. In this revealing study, four concise chapters give detailed analyses of the following classic works and their rewritings: *A Midsummer Night's Dream* in Germany *Postcolonial Faust* Proust for Everyday Readers *Hamlet* in China. With examples from a variety of genres including music, film, ballet, comics, and video games, this book will be of special interest for all students and scholars of translation studies and contemporary literature.

Colour and colour naming: crosslinguistic approaches João Paulo Silvestre 2016-09-01 The Colour and Colour Naming conference, held in 2015 at the University of Lisbon, offered a chance to explore colour naming processes from a cross-linguistic approach. The conference was an initiative of the working group Lexicography And Lexicology from a Pan-European Perspective, itself part of the COST action European Network of Lexicography. The working group investigates the various ways by which vocabularies of European languages can be represented in dictionaries and how existing information from single language dictionaries can be displayed and interlinked to better communicate their common European heritage. The proceedings gather together a selection of studies originally presented at the conference. The first section of the volume outlines a Pan-European perspective of colour names; the second section is devoted to the categorisation and lexicographic description of colour terms.

Sadhana Anthony De Mello 1984-09-01 *Christian Exercises in Eastern Form Truly a one-of-a-kind, how-to-do-it book*, this small volume responds to a very real hunger for self-awareness and holistic living. It consists of a series of spiritual exercises for entering the contemplative state -- blending psychology, spiritual therapy, and practices from both Eastern and Western traditions. Anthony de Mello offers here an unparalleled approach to

inner peace that brings the whole person to prayer -- body and soul, heart and mind, memory and imagination. In forty-seven exercises that teach things such as awareness of physical sensations, stillness, healing of hurtful memories, and consciousness of self and world, de Mello succeeds in helping all who have ever experienced prayer as difficult, dull, or frustrating. The essential key, he notes, is to journey beyond mere thought-forms and discover satisfying new depths in prayer from the heart. This allows for a greater sense of awareness amid silence, and disposes the one who prays to untold riches, spiritual fulfillment, and ultimately, a mystical experience of God-centeredness. Drawing on Scripture, as well as insights from Eastern and Western spiritual masters, the author has a unique appeal that transcends time, culture, and religious background. For many years a bestseller in the English language, *Sadhana* has now been translated into more than two dozen foreign languages. Readers the world over have eagerly received this sincere spiritual leader, who has led many toward the wealth of insight and spirit that dwells within them.

Post-Digital Print Alessandro Ludovico 2019-04-23 Digital technology is now a normal part of everyday life. The mutation of music and film into bits and bytes, downloads and streams is now taken for granted. For the world of book and magazine publishing however, this transformation has only just begun. Still, the vision of this transformation is far from new. For more than a century now, avant-garde artists, activists and technologists have been anticipating the development of networked and electronic publishing. Although in hindsight the reports of the death of paper were greatly exaggerated, electronic publishing has now certainly become a reality. How will the analog and the digital coexist in the post-digital age of publishing? How will they transition, mix and cross over? In this book, Alessandro Ludovico rereads the history of the avant-garde arts as a prehistory of cutting through the so-called dichotomy between paper and electronics. Ludovico is the editor and publisher of *Neural*, a magazine for critical digital culture and media arts. For more than 20 years now, he has been working at the cutting edge (and the outer fringes) of both print publishing and politically engaged digital art.

Separate Rooms Pier Vittorio Tondelli 2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity. Structured in three musical movements, *Separate Rooms* is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. *Separate Rooms*, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

Auschwitz Report Leonardo De Benedetti 2015-01-05 While in a Russian-administered holding camp in Katowice, Poland, in 1945, Primo Levi was asked to provide a report on living conditions in Auschwitz. Published the following year, it was subsequently forgotten and remained unknown to a wider public. Dating from the weeks and months immediately after the war, *Auschwitz Report* details the authors' harrowing deportation to Auschwitz, and how those who disembarked from the train were selected for work or extermination. As well as being a searing narrative of everyday life in the camp, and the organization and working of the gas chambers, it constitutes Levi's first lucid attempts to come to terms with the raw horror of events that would drive him to create some of the greatest works of twentieth-century literature and testimony. *Auschwitz Report* is a major literary and historical discovery.

Censorship and Literature in Fascist Italy Guido Bonsaver 2007-01-01 The history of totalitarian states bears witness to the fact that literature and

print media can be manipulated and made into vehicles of mass deception. *Censorship and Literature in Fascist Italy* is the first comprehensive account of how the Fascists attempted to control Italy's literary production. Guido Bonsaver looks at how the country's major publishing houses and individual authors responded to the new cultural directives imposed by the Fascists. Throughout his study, Bonsaver uses rare and previously unexamined materials to shed light on important episodes in Italy's literary history, such as relationships between the regime and particular publishers, as well as individual cases involving renowned writers like Moravia, Da Verona, and Vittorini. *Censorship and Literature in Fascist Italy* charts the development of Fascist censorship laws and practices, including the creation of the Ministry of Popular Culture and the anti-Semitic crackdown of the late 1930s. Examining the breadth and scope of censorship in Fascist Italy, from Mussolini's role as 'prime censor' to the specific experiences of female writers, this is a fascinating look at the vulnerability of culture under a dictatorship.

Descriptive Translation Studies and Beyond Gideon Toury 1995 A replacement of the author's well-known book on Translation Theory, *In Search of a Theory of Translation* (1980), this book makes a case for Descriptive Translation Studies as a scholarly activity as well as a branch of the discipline, having immediate consequences for issues of both a theoretical and applied nature. Methodological discussions are complemented by an assortment of case studies of various scopes and levels, with emphasis on the need to contextualize whatever one sets out to focus on. Part One deals with the position of descriptive studies within TS and justifies the author's choice to devote a whole book to the subject. Part Two gives a detailed rationale for descriptive studies in translation and serves as a framework for the case studies comprising Part Three. Concrete descriptive issues are here tackled within ever growing contexts of a higher level: texts and modes of translational behaviour □ in the appropriate cultural setup; textual components □ in texts, and through these texts, in cultural constellations. Part Four asks the question: What is knowledge accumulated through descriptive studies performed within one and the same framework likely to yield in terms of theory and practice? This is an excellent book for higher-level translation courses.

A History of Reading Alberto Manguel 2014-08-26 At one magical instant in your early childhood, the page of a book—that string of confused, alien ciphers—shivered into meaning, and at that moment, whole universes opened. You became, irrevocably, a reader. Noted essayist and editor Alberto Manguel moves from this essential moment to explore the six-thousand-year-old conversation between words and that hero without whom the book would be a lifeless object: the reader. Manguel brilliantly covers reading as seduction, as rebellion, and as obsession and goes on to trace the quirky

and fascinating history of the reader's progress from clay tablet to scroll, codex to CD-ROM.

The L2 Acquisition of Tense-Aspect Morphology M. Rafael Salaberry 2002-10-24 The present volume provides a cross-linguistic perspective on the development of tense-aspect in L2 acquisition. Data-based studies included in this volume deal with the analysis of a wide range of target languages: Chinese, English, Italian, French, Japanese, and Spanish. Theoretical frameworks used to evaluate the nature of the empirical evidence range from generative grammar to functional-typological linguistics. Several studies focus on the development of past tense markers, but other issues such as the acquisition of a future marker are also addressed. An introductory chapter outlines some theoretical and methodological issues that serves as relevant preliminary reading for most of the chapters included in this volume. Additionally, a preliminary chapter offers a substantive review of first language acquisition of tense-aspect morphology. The analysis of the various languages included in this volume significantly advances our understanding of this phenomenon, and will serve as an important basis for future research.

Competition in Inflection and Word-Formation Franz Rainer 2019-09-17 This is the first volume specifically dedicated to competition in inflection and word-formation, a topic that has increasingly attracted attention. Semantic categories, such as concepts, classes, and feature bundles, can be expressed by more than one form or formal pattern. This departure from the ideal principle "one form - one meaning" is particularly frequent in morphology, where it has been treated under diverse headings, such as blocking, Elsewhere Condition, Pāṇini's Principle, rivalry, synonymy, doublets, overabundance, suppletion and other terms. Since these research traditions, despite the heterogeneous terminology, essentially refer to the same underlying problems, this volume unites the phenomena studied in this field of linguistic morphology under the more general heading of competition. The volume features an extensive state of the art report on the subject and 11 research papers, which represent various theoretical approaches to morphology and address a wide range of aspects of competition, including morphophonology, lexicology, diachrony, language contact, psycholinguistics, sociolinguistics and language acquisition.
