Outliers Malcolm Gladwell 2008-11-18 From the bestselling author of *Blink* and *The Tipping Point*, Malcolm Gladwell's *Outliers: The Story of Success* overturns conventional wisdom about genius to show us what makes an ordinary person an extreme overachiever. Why do some people achieve so much more than others? Can they lie so far out of the ordinary? In this provocative and inspiring book, Malcolm Gladwell looks at everyone from rock stars to professional athletes, software billionaires to scientific geniuses, to show that the story of success is far more surprising, and far more fascinating, than we could ever have imagined. He reveals that it's as much about where we're from and what we do, as who we are - and that no one, not even a genius, ever makes it alone. *Outliers* will change the way you think about your own life story, and about what makes us all unique. 'Gladwell is not only a brilliant storyteller; he can see what those stories tell us, the lessons they contain' Guardian 'Malcolm Gladwell is a global phenomenon ... he has a genius for making everything he writes seem like an impossible adventure' Observer 'He is the best kind of writer - the kind who makes you feel like you're a genius, rather than he's a genius' The Times

King Leopold's Ghost Adam Hochschild 2019-05-14 With an introduction by award-winning novelist Barbara Kingsolver In the late nineteenth century, when the great powers in Europe were tearing Africa apart and seizing ownership of land for themselves, King Leopold of Belgium took hold of the vast and mostly unexplored territory surrounding the Congo River. In his devastatingly barbarous colonization of this area, Leopold stole its rubber and ivory, pummelled its people and set up a ruthless regime that would reduce the population by half. . While he did all this, he carefully constructed an image of himself as a deeply feeling humanitarian. Winner of the Duff Cooper Prize in 1999, *King Leopold's Ghost* is the true and haunting account of this man's brutal regime and its lasting effect on a ruined nation. It is also the inspiring and deeply moving account of a handful of missionaries and other idealists who travelled to Africa and unwittingly found themselves in the middle of a gruesome holocaust. Instead of turning away, these brave few chose to stand up against Leopold. Adam Hochschild brings life to this largely untold story and, crucially, casts blame on those responsible for this atrocity.

Augustus Anthony Everitt 2007-10-09 He found Rome made of clay and left it made of marble. As Rome's first emperor, Augustus transformed the unruly Republic into the greatest empire the world had ever seen. His consolidation and expansion of Roman power two thousand years ago laid the foundations, for all of Western history to follow. Yet, despite Augustus's accomplishments, very few biographers have concentrated on the man himself, instead choosing to chronicle the age in which he lived. Here, Anthony Everitt, the bestselling author of *Cicero*, gives a spellbinding and intimate account of his illustrious subject. Augustus began his career as an inexperienced teenager plucked from his studies to take center stage in the drama of Roman politics, assisted by two school friends, Agrippa and Maecenas. Augustus's rise to power began with the assassination of his great-uncle and adoptive father, Julius Caesar, and culminated in the titanic duel with Mark Antony and Cleopatra. The world that made Augustus-and that he himself later remade-was driven by intrigue, sex, ceremony, violence, scandal, and naked ambition. Everitt has taken some of the household names of history-Caesar, Brutus, Cassius, Antony, Cleopatra-whom few know the full truth about, and turned them into flesh-and-blood human beings. At a time when many consider America an empire, this stunning portrait of the greatest emperor who ever lived makes for enlightening and engrossing reading. Everitt brings to life the world of a giant, rendered faithfully and sympathetically in human scale. A study of power and political genius, *Augustus* is a vivid, compelling biography of one of the most important rulers in history.

The Black Jacobins C. L. R. James 2001-05-31 In 1789 the West Indian colony of San Domingo supplied two-thirds of the overseas trade of France. The entire structure of what was arguably the most profitable colony in the world rested on the labour of half a million slaves. In 1791 the waves of unrest inspired by the French Revolution reached across the Atlantic dividing the loyalties of the white population of the island. The brutally treated slaves of Saint Domingo seized at this confusion and rose up in rebellion against masters. In this classic work, CLR James chronicles the only successful slave revolt in history and provides a critical portrait of their leader, Toussaint L'Ouverture, 'one of the most remarkable men of a period rich in remarkable men'.

Fully Automated Luxury Communism Aaron Bastani 2020-06-16 A different kind of politics for a new kind of society--beyond work, scarcity and capitalism In the twenty-first century, new technologies should liberate us from work. Automation, rather than undermining an economy built on full employment, is instead the path to a world of liberty, luxury and happiness—for everyone. Technological advance will reduce the value of commodities—food, healthcare and housing—towards zero. Improvements in renewable energies will make fossil fuels a thing of the past. Asteroids will be mined for essential minerals. Genetic editing and synthetic biology will prolong life, virtually eliminate disease and provide meat without animals. New horizons beckon. In *Fully Automated Luxury Communism*, Aaron Bastani conjures a vision of extraordinary hope, showing how we move to energy abundance, feed a world of 9 billion, overcome work, transcend the limits of biology, and establish meaningful freedom for everyone. Rather than a final destination, such a society merely heralds the real beginning of history.

Voyage of Mercy Stephen Puleo 2020-03-03 "Puleo has found a new way to tell the story with this well-researched and splendidly written chronicle of the Jamestown, its captain, and an Irish priest

who ministered to the starving in Cork city...Puleo's tale, despite the hardship to come, surely is a tribute to the better angels of America's nature, and in that sense, it couldn't be more timely." —The Wall Street Journal

The remarkable story of the mission that inspired a nation to donate massive relief to Ireland during the potato famine and began America's tradition of providing humanitarian aid around the world More than 5,000 ships left Ireland during the great potato famine in the late 1840s, transporting the starving and the destitute away from their stricken homeland. The first vessel to sail in the other direction, to help the millions unable to escape, was the USS Jamestown, a converted warship, which left Boston in March 1847 loaded with precious food for Ireland. In an unprecedented move by Congress, the warship had been placed in civilian hands, stripped of its guns, and committed to the peaceful delivery of food, clothing, and supplies in a mission that would launch America's first full-blown humanitarian relief effort. Captain Robert Bennet Forbes and the crew of the USS Jamestown embarked on a voyage that began a massive eighteen-month demonstration of soaring goodwill against the backdrop of unfathomable despair—one nation's struggle to survive, and another's effort to provide a lifeline. The Jamestown mission captured hearts and minds on both sides of the Atlantic, of the wealthy and the hardscrabble poor, of poets and politicians. Forbes' undertaking inspired a nationwide outpouring of relief that was unprecedented in size and scope, the first instance of an entire nation extending a hand to a foreign neighbor for purely humanitarian reasons. It showed the world that national generosity and brotherhood were not signs of weakness, but displays of quiet strength and moral certitude. In *Voyage of Mercy*, Stephen Puleo tells the incredible story of the famine, the Jamestown voyage, and the commitment of thousands of ordinary Americans to offer relief to Ireland, a groundswell that provided the collaborative blueprint for future relief efforts, and established the United States as the leader in international aid. The USS Jamestown's heroic voyage showed how the ramifications of a single decision can be measured not in days, but in decades.

[The impact of disasters and crises on agriculture and food security: 2021](#) Food and Agriculture Organization of the United Nations 2021-03-17 On top of a decade of exacerbated disaster loss, exceptional global heat, retreating ice and rising sea levels, humanity and our food security face a range of new and unprecedented hazards, such as megafires, extreme weather events, desert locust swarms of magnitudes previously unseen, and the COVID-19 pandemic. Agriculture underpins the livelihoods of over 2.5 billion people - most of them in low-income developing countries - and remains a key driver of development. At no other point in history has agriculture been faced with such an array of familiar and unfamiliar risks, interacting in a hyperconnected world and a precipitously changing landscape. And agriculture continues to absorb a disproportionate share of the damage and loss wrought by disasters. Their growing frequency and intensity, along with the systemic nature of risk, are upending people’s lives, devastating livelihoods, and jeopardizing our

entire food system. This report makes a powerful case for investing in resilience and disaster risk reduction – especially data gathering and analysis for evidence informed action – to ensure agriculture’s crucial role in achieving the future we want.

Spearhead of Logistics Benjamin King 2016-02-25 *Spearhead of Logistics* is a narrative branch history of the U.S. Army's Transportation Corps, first published in 1994 for transportation personnel and reprinted in 2001 for the larger Army community. The Quartermaster Department coordinated transportation support for the Army until World War I revealed the need for a dedicated corps of specialists. The newly established Transportation Corps, however, lasted for only a few years. Its significant utility for coordinating military transportation became again transparent during World War II, and it was resurrected in mid-1942 to meet the unparalleled logistical demands of fighting in distant theaters. Finally becoming a permanent branch in 1950, the Transportation Corps continued to demonstrate its capability of rapidly supporting U.S. Army operations in global theaters over the next fifty years. With useful lessons of high-quality support that validate the necessity of adequate transportation in a viable national defense posture, it is an important resource for those now involved in military transportation and movement for ongoing expeditionary operations. This text should be useful to both officers and noncommissioned officers who can take examples from the past and apply the successful principles to future operations, thus ensuring a continuing legacy of Transportation excellence within Army operations. Additionally, military science students and military historians may be interested in this volume.

Amusing Ourselves to Death Neil Postman 2005-12-27 What happens when media and politics become forms of entertainment? As our world begins to look more and more like Orwell's 1984, Neil's Postman's essential guide to the modern media is more relevant than ever. "It's unlikely that Trump has ever read *Amusing Ourselves to Death*, but his ascent would not have surprised Postman." -CNN Originally published in 1985, Neil Postman's groundbreaking polemic about the corrosive effects of television on our politics and public discourse has been hailed as a twenty-first-century book published in the twentieth century. Now, with television joined by more sophisticated electronic media—from the Internet to cell phones to DVDs—it has taken on even greater

significance. *Amusing Ourselves to Death* is a prophetic look at what happens when politics, journalism, education, and even religion become subject to the demands of entertainment. It is also a blueprint for regaining control of our media, so that they can serve our highest goals. "A brilliant, powerful, and important book. This is an indictment that Postman has laid down and, so far as I can see, an irrefutable one." -Jonathan Yardley, *The Washington Post Book World*

Wonder, Horror, Mystery Morgan Meis 2021-12-22 *Wonder, Horror, Mystery* is a dialogue between two friends, both notable arts critics, that takes the form of a series of letters about movies and religion. One of the friends, J.M. Tyree, is a film critic, creative writer, and agnostic, while the other, Morgan Meis, is a philosophy PhD, art critic, and practicing Catholic. The question of cinema is raised here in a spirit of friendly friction that binds the personal with the critical and the spiritual. What is film? What's it for? What does it do? Why do we so intensely love or hate films that dare to broach the subjects of the divine and the diabolical? These questions stimulate further thoughts about life, meaning, philosophy, absurdity, friendship, tragedy, humor, death, and God. The letters focus on three filmmakers who challenged secular assumptions in the late 20th century and early 21st century through various modes of cinematic re-enchantment: Terrence Malick, Lars von Trier, and Krzysztof Kieslowski. The book works backwards in time, giving intensive analysis to Malick's *To The Wonder* (2012), Von Trier's *Antichrist* (2009), and Kieslowski's *Dekalog* (1988), respectively, in each of the book's three sections. Meis and Tyree discuss the filmmakers and films as well as related ideas about philosophy, theology, and film theory in an accessible but illuminating way. The discussion ranges from the shamelessly intellectual to the embarrassingly personal. Spoiler alert: No conclusions are reached either about God or the movies. Nonetheless, it is a fun ride.

A People's History of the World Chris Harman 2017-05-02 The best-selling comprehensive history of the world, from the perspective of struggling peoples throughout the ages—now with new material and a foreword by Howard Zinn From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of "Great Men," of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of "history from below." In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress. "I have had many people ask me if there is a book which does for world history what my book *A People's History of the United States* does for this country.
