**Testimonios: Stories of Latinx and Hispanic Mathematicians** Pamela E. Harris 2021-08-16

Testimonios brings together first-person narratives from the vibrant, diverse, and complex Latinx and Hispanic mathematical community. Starting with childhood and family, the authors recount their own individual stories, highlighting their upbringing, education, and career paths. Their particular stories, told in their own voices, from their own perspectives, give visibility to some of the experiences of Latinx/Hispanic mathematicians. Testimonios seeks to inspire the next generation of Latinx and Hispanic mathematicians by featuring the stories of people like them, holding a mirror up to our own community. It also aims to provide a window for mathematicians (and aspiring mathematicians) from all ethnicities, with the hope of inspiring a better understanding of the

diversity of the mathematical community.

Understanding Ukraine and Belarus David R Marples 2020-06-24 This book describes the author's academic journey from an undergraduate in London to his current research on Ukraine and Belarus as a History professor in Alberta, Canada. It highlights the dramatic changes of the late Soviet and post-Soviet periods, his travel stories, experiences, and the Stalinist legacy in both countries. It includes extended focus on his visits to Chernobyl and the contaminated zone in the late 1980s and 1990s, as well as a summer working with indigenous groups in eastern Siberia. Visiting Belarus more than 25 times since the 1990s, he was banned for seven years before the visa rules were relaxed in 2017. In the case of Ukraine, it chronicles a transition from a total outsider to one of the best-known scholars in Ukrainian studies, commenting on aspects of the coalescence of scholarship and politics, and the increasing role of social media and the Diaspora in the analysis of crucial events such as the Euromaidan uprising and its aftermath in Kyiv. David R. Marples is a Distinguished University Professor of Russian and East European History at the Department of History and Classics, University of Alberta, Canada.

Introducing Intercultural Communication Shuang Liu 2010-11-09 Books on intercultural communication are rarely written with an intercultural readership in mind. In contrast, this multinational team of authors has put together an introduction to communicating across cultures that uses examples and case studies from around the world. The book further covers essential new topics, including international conflict, social networking, migration, and the effects technology and mass media play in the globalization of communication. Written to be accessible for international students too, this text situates communication theory in a truly global perspective. Each chapter brings to life the links between theory and practice and between the global and the local,

introducing key theories and their practical applications. Along the way, you will be supported with first-rate learning resources, including: • theory corners with concise, boxed-out digests of key theoretical concepts • case illustrations putting the main points of each chapter into context • learning objectives, discussion questions, key terms and further reading framing each chapter and stimulating further discussion • a companion website containing resources for instructors, including multiple choice questions, presentation slides, exercises and activities, and teaching notes. This book will not merely guide you to success in your studies, but will teach you to become a more critical consumer of information and understand the influence of your own culture on how you view yourself and others.

**Froggy Goes to Bed** Jonathan London 2002-06-10 There are so many ways to postpone going to bed--and Froggy knows them all! First he has to find the lost boat that's essential to his bath, next the toothbrush that finally turns up in the cookie jar. Then he moves on to the familiar routine of a last drink of water, a favorite bedtime story and one more goodnight kiss. With inventive antics every child will recognize, Froggy makes bedtime rituals hilariously his own. Jonathan London and Frank Remkiewicz collaborated on the seven popular previous Froggy books: Froggy Gets Dressed, Let's Go, Froggy!, Froggy Learns to Swim, Froggy Goes to School, Froggy's First Kiss, Froggy Plays Soccer, and the latest, Froggy's Halloween.

**Collected Works of Velimir Khlebnikov: Letters and theoretical writings** Велимир Хлебников 1987 Dubbed by his fellow Futurists the "King of Time," Velimir Khlebnikov (1885-1922) spent his entire brief life searching for a new poetic language to express his convictions about the rhythm of

history, the correspondence between human behavior and the "language of the stars." The result was a vast body of poetry and prose that has been called hermetic, incomprehensible, even deranged. Of all this tragic generation of Russian poets (including Blok, Esenin, and Mayakovsky), Khlebnikov has been perhaps the most praised and the more censured. This first volume of the Collected Works, an edition sponsored by the Dia Art Foundation, will do much to establish the counterimage of Khlebnikov as an honest, serious writer. The 117 letters published here for the first time in English reveal an ebullient, humane, impractical, but deliberate working artist. We read of the continuing involvement with his family throughout his vagabond life (pleas to his smartest sister, Vera, to break out of the mold, pleas to his scholarly father not to condemn and to send a warm overcoat); the naive pleasure he took in being applauded by other artists; his insistence that a young girl's simple verses be included in one of the typically outrageous Futurist publications of the time; his jealous fury at the appearance in Moscow of the Italian Futurist Marinetti; a first draft of his famous zoo poem ("O Garden of Animals!"); his seriocomic but ultimately shattering efforts to be released from army service; his inexhaustibly courageous confrontation with his own disease and excruciating poverty; and always his deadly earnest attempt to make sense of numbers, language, suffering, politics, and the exigencies of publication. The theoretical writings presented here are even more important than the letters to an understanding of Khlebnikov's creative output. In the scientific articles written before 1910, we discern foreshadowings of major patterns of later poetic work. In the pan-Slavic proclamations of 1908-1914, we find explicit connections between cultural roots and linguistic ramifications. In the semantic excursions beginning in 1915, we can see Khlebnikov's experiments with consonants, nouns, and definitions spelled out in accessible, if arid, form. The essays of 1916-1922 take us into the future of Planet Earth, visions of universal order and

accomplishment that no longer seem so farfetched but indeed resonate for modern readers.

Ancient Mesopotamia A. Leo Oppenheim 2013-01-31 "This splendid work of scholarship . . . sums up with economy and power all that the written record so far deciphered has to tell about the ancient and complementary civilizations of Babylon and Assyria."—Edward B. Garside, New York Times Book Review Ancient Mesopotamia—the area now called Iraq—has received less attention than ancient Egypt and other long-extinct and more spectacular civilizations. But numerous small clay tablets buried in the desert soil for thousands of years make it possible for us to know more about the people of ancient Mesopotamia than any other land in the early Near East. Professor Oppenheim, who studied these tablets for more than thirty years, used his intimate knowledge of long-dead languages to put together a distinctively personal picture of the Mesopotamians of some three thousand years ago. Following Oppenheim's death, Erica Reiner used the author's outline to complete the revisions he had begun. "To any serious student of Mesopotamian civilization, this is one of the most valuable books ever written."—Leonard Cottrell, Book Week "Leo Oppenheim has made a bold, brave, pioneering attempt to present a synthesis of the vast mass of philological and archaeological data that have accumulated over the past hundred years in the field of Assyriological research."—Samuel Noah Kramer, Archaeology A. Leo Oppenheim, one of the most distinguished Assyriologists of our time, was editor in charge of the Assyrian Dictionary of the Oriental Institute and John A. Wilson Professor of Oriental Studies at the University of Chicago.

**Logical Reasoning** Bradley Harris Dowden 1993 This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

**Critiquing Whole Language and Classroom Inquiry** Sibel Boran 2001 This book, part of the Whole Language Umbrella Series, offers a critical reexamination of "inquiry" and "whole language" as tools for rethinking literacy, schooling, and humanistic citizenship in the complexities of today's multicultural world. The essays in the book explore the political implications of literacy theories and practices by asking what kinds of inquiries promote or hinder the acquisition of literacies as tools for envisioning, critically exploring, and reconstructing knowledge and societies that are socially just. After an introduction ("The Inquirers and Their Questions" by the editors), essays in the book are: (1) "What Education as Inquiry Is and Isn't" (Jerome C. Harste); (2) "Curriculum as Inquiry" (Kathy G. Short and Carolyn L. Burke); (3) "The Journey from Pedagogy to Politics: Taking Whole Language Seriously" (Susan M. Church); (4) "What's It Going To Be?" (Patrick Shannon); (5) "Critical Inquiry

or Safe Literacies: Who's Allowed To Ask Which Questions?" (Barbara Comber); (6) "Writing for Critical Democracy: Student Voice and Teacher Practice in the Writing Workshop" (Timothy J. Lensmire); (7) "Classrooms in the Community: From Curriculum to Pedagogy" (Timothy Shannon and Patrick Shannon); (8) "'I Knew That Already': How Children's Books Limit Inquiry" (Jennifer O'Brien); (9) "Examining Poverty and Literacy in Our Schools: Janice's Story" (Connie L. White); (10) "Classroom Inquiry into the Incidental Unfolding of Social Justice Issues: Seeking Out Possibilities in the Lives of Learners" (Vivian Vasquez); (11) "Our Kinds of Questions You Wouldn't Find in a Book" (Robyn Jenkin); (12) "Young Researchers in Action" (David Wray, Maureen Lewis, with Carolyn Cox); (13) "Different Cultural Views of Whole Language" (Lee Gunderson); and (14) "Inviting Reflective Global Inquiries: Politicizing Multicultural Literature, Mediated Student Voices, and English Literacies" (Sibel Boran). *Educational Psychology* Robert E. Slavin 2013-07-26 From renowned educational psychologist, Robert Slavin, the Tenth Edition of this popular text translates theory into practices that teachers can use in their classrooms with deeper inquiry into the concept of intentionality and a thorough integration of standards. This new edition highlights the most current issues and emerging trends in the field of educational psychology, while continuing to have in-depth, practical coverage with a focus on the intentional teacher. An intentional teacher, according to Slavin, is one who constantly reflects on his or her practice and makes instructional decisions based on a clear conception of how these practices affect students. To help readers become intentional teachers, the author offers a set of questions to guide them and models best practices through classroom examples.

**Barack Obama's America** John White 2018-03-22 "White's Barack Obama's America eloquently captures both the important nuances of the current political scene and its long-term consequences." ---Richard Wirthlin, former pollster for Ronald Reagan "This delightfully written and accessible book is the best available account of the changes in culture, society, and politics that have given us Barack Obama's America." ---Stan Greenberg, pollster for Bill Clinton and Chairman and CEO of Greenberg Quinlan Rosner Research "From one of the nation's foremost experts on how values shape our politics, a clear and compelling account of the dramatic shifts in social attitudes that are transforming American political culture. White's masterful blend of narrative and data illuminates the arc of electoral history from Reagan to Obama, making a powerful case for why we are entering a new progressive political era." ---Matthew R. Kerbel, Professor of Political Science, Villanova University, and author of *Netroots* "John Kenneth White is bold. He asks the big questions . . . Who are we? What do we claim to believe? How do we actually live? What are our politics? John Kenneth White writes compellingly about religion and the role it played in making Barack Obama president. White's keen insight into America's many faiths clarifies why Barack Obama succeeded against all odds. It is a fascinating description of religion and politics in twenty-first-century America---a must-read." ---Kathleen Kennedy Townsend, former Lieutenant Governor of Maryland and author of *Failing America's Faithful* "In Barack Obama's America, John Kenneth White has written the political equivalent of Baedeker or Michelin, the definitive guide to and through the new, uncharted political landscape of our world. White captures and explains what America means---and what it means to be an American---in the twenty-first century." ---Mark Shields, nationally syndicated columnist and political commentator for PBS NewsHour "John White has always caught important trends in

American politics that others missed. With his shrewd analysis of why Barack Obama won, he's done it again." ---E. J. Dionne, Jr., Senior Fellow, Brookings Institution, and University Professor in the Foundations of Democracy and Culture at Georgetown University The election of Barack Obama to the presidency marks a conclusive end to the Reagan era, writes John Kenneth White in Barack Obama's America. Reagan symbolized a 1950s and 1960s America, largely white and suburban, with married couples and kids at home, who attended church more often than not. Obama's election marks a new era, the author writes. Whites will be a minority by 2042. Marriage is at an all-time low. Cohabitation has increased from a half-million couples in 1960 to more than 5 million in 2000 to even more this year. Gay marriages and civil unions are redefining what it means to be a family. And organized religions are suffering, even as Americans continue to think of themselves as a religious people. Obama's inauguration was a defining moment in the political destiny of this country, based largely on demographic shifts, as described in Barack Obama's America. John Kenneth White is Professor of Politics at the Catholic University of America in Washington, D.C. Cover image: "Out of many, we are one: Dare to Hope: Faces from 2008 Obama Rallies" by Anne C. **Preventing Reading Difficulties in Young Children** National Research Council 1998-07-22 While most children learn to read fairly well, there remain many young Americans whose futures are imperiled because they do not read well enough to meet the demands of our competitive,

technology-driven society. This book explores the problem within the context of social, historical, cultural, and biological factors. Recommendations address the identification of groups of children at risk, effective instruction for the preschool and early grades, effective approaches to dialects and bilingualism, the importance of these findings for the professional development of teachers, and gaps that remain in our understanding of how children learn to read. Implications for parents, teachers, schools, communities, the media, and government at all levels are discussed. The book examines the epidemiology of reading problems and introduces the concepts used by experts in the field. In a clear and readable narrative, word identification, comprehension, and other processes in normal reading development are discussed. Against the background of normal progress, Preventing Reading Difficulties in Young Children examines factors that put children at risk of poor reading. It explores in detail how literacy can be fostered from birth through kindergarten and the primary grades, including evaluation of philosophies, systems, and materials commonly used to teach reading.
