Evaluation of World Preparedness Regarding the Outbreak of Emerging Zoonotic Pathogens

Christine Crudo 2015 This study examines the threat of emerging infectious disease in the modern world and uses mathematical modeling to develop an entirely new way to respond to infectious disease outbreaks. The study begins with two comparative case studies: one of the 2003 SARS outbreak and one of the 2009 Influenza A(H1N1) outbreak. The case studies examine the time line of each outbreak as well as the communication strategies and disease management policies implemented by China and Canada for the SARS case and Mexico and the United States for the H1N1 case. Next, information gathered from the case studies is quantified and integrated into an SIR model through communication and policy parameters. This model shows how the social elements of disease response impact the biological characteristics and change the trajectory of an outbreak. The intervention impact model developed in Chapter Six of this study provides an entirely new way of addressing infectious disease outbreaks and can help practitioners contain outbreaks more efficiently.

Ethan Stowell's New Italian Kitchen Ethan Stowell 2010-09-21 Welcome to Ethan Stowell's New Italian Kitchen--not so much a place as a philosophy. Here food isn't formal or fussy, just focused, with recipes that honor Italian tradition while celebrating the best ingredients the Pacific Northwest has to offer. We're talking about a generous bowl of steaming handmade pasta--served with two forks for you and a friend. Or perhaps an impeccably fresh crudo, crunchy cucumber and tangy radish accenting impossibly sweet spot prawns. Next up are the jewel tones of a beet salad with lush, homemade ricotta, or maybe a tangle of white beans and clams spiked with Goat Horn pepper--finished off with a whole roasted fish that begs to be sucked off the bones. Oh, some cheese, a gooseberry compote complementing your Robiola, or the bittersweet surprise of Campari sorbet. This layered approach is a hallmark of Ethan's restaurants, and in his New Italian Kitchen, he offers home cooks a tantalizing roadmap for re-creating this style of eating. Prepare a feast simply by combining the lighter dishes found in "Nibbles and Bits"--from Sardine Crudo with Celery Hearts, Pine Nuts, and Lemon to Crispy Young Favas with Green Garlic Mayonnaise--or adding recipes with complex flavors for a more sophisticated meal. Try the luscious Corn and Chanterelle Soup from "The Measure of a Cook;" or the Cavatelli with Cuttlefish, Spring Onion, and Lemon from "Wheat's Highest Calling." Up the ante with a stunning Duck Leg Farrotto with Pearl Onions and Bloomsdale Spinach from "Starches to Grow On," or choose one of the "Beasties of the Land," like Skillet-Roasted Rabbit with Pancetta-Basted Fingerlings. Each combination will nudge you and your guests in new, unexpected, and unforgettable directions. Every page of Ethan Stowell's New Italian Kitchen captures the enthusiasm, humor, and imagination that make cooking one of life's best and most satisfying adventures. It's got to be good--but it's also got to be fun.

Crudo: A Novel Olivia Laing 2018-09-11 A New York Times Notable, Washington Post, NPR, Guardian, and Bustle Best Book of 2018 A brilliant, funny, and emphatically raw novel of love on the brink of the apocalypse, from the acclaimed author of *The Lonely City*. "She had no idea what to do with love, she experienced it as invasion, as the prelude to loss and pain, she really didn't have a clue." Kathy is a writer. Kathy is getting married. It's the summer of 2017 and the whole world is falling apart. Fast-paced and frantic, *Crudo* unfolds in real time from the full-throttle perspective of a commitment-phobic artist who may or may not be Kathy Acker. From a Tuscan hotel for the superrich to a Brexit-paralyzed United Kingdom, Kathy spends the first summer of her forties adjusting to the idea of a lifelong commitment. But it's not only Kathy who's changing. Fascism is on

the rise, truth is dead, the planet is heating up, and Trump is tweeting the world ever-closer to nuclear war. How do you make art, let alone a life, when one rogue tweet could end it all? In *Crudo*, her first work of fiction, Olivia Laing radically rewires the novel with a fierce, compassionate account of learning to love when the end of the world seems near.

Mediterranean Summer David Shalleck 2008-06-10 An alluring, evocative summer voyage on the Mediterranean and into the enchanting seaside towns of France and Italy by a young American chef aboard an Italian billionaire couple's spectacular sailing yacht. Having begun his cooking career in some of New York's and San Francisco's best restaurants, David Shalleck undertakes a European culinary adventure, a quest to discover what it really means to be a chef through a series of demanding internships in Provence and throughout Italy. After four years, as he debates whether it is finally time to return stateside and pursue something more permanent, he stumbles upon a rare opportunity: to become the chef on board *Serenity*, the classic sailing yacht owned by one of Italy's most prominent couples. They present Shalleck with the ultimate challenge: to prepare all the meals for them and their guests for the summer, with no repeats, comprised exclusively of local ingredients that reflect the flavors of each port, presented flawlessly to the couple's uncompromising taste—all from the confines of the yacht's small galley while at sea. Shalleck invites readers to experience both place and food on *Serenity's* five-month journey. He prepares the simple classics of Provençal cooking in the French Riviera, forages for delicate *frutti di mare* in Liguria to make *crudo*, finds the freshest fish along the Tuscan coast for *cacciucco*, embraces the season of sun-drenched tomatoes for *acqua pazza* in the Amalfi Coast, and crosses the Bay of Naples to serve decadent dark chocolate-almond cake at the Isle of Capri. Shalleck captures the distinctive sights, sounds, and unique character of each port, the work hard/play hard life of being a crew member, and the challenges of producing world-class cuisine for the stylish and demanding owners and their guests. An intimate view of the most exclusive of worlds, *Mediterranean Summer* offers readers a new perspective on breathtaking places, a memorable portrait of old world elegance and life at sea, as well recipes and tips to re-create the delectable food.

So who is this manual for? To all! Starting from newbies, who are approaching the world of RPG for the first time, up to the more experienced players who want to undertake a light, unpretentious one shot, or to a Master who wants to introduce their friends to role-playing, without traumatize them.

Antenatal Glucocorticoid Treatment and the Epigenome Ariann Crudo 2013 "In late gestation, fetal endogenous glucocorticoids increase exponentially. This dramatic increase in glucocorticoids acts to mature several organ systems. As a result, synthetic glucocorticoids (sGCs) are administered to pregnant women at risk of delivering pre-term (>10% of all pregnancies). While this treatment is highly effective in the fetal lung, little is known concerning its long-term consequences in humans. Animal studies have demonstrated that offspring prenatally exposed to sGCs are at risk of behavioral abnormalities and modifications in hypothalamic-pituitary-adrenal (HPA) axis and endocrine function; this involves long-term changes in gene expression.

Never Too Late To Rebuild Relationship Wm Crudo 2021-05-13 Has your marriage been hit by the harsh reality of adultery? Are you looking for marriage rebuilding ideas but feel hopeless that they'll work? Maybe you're thinking your marriage is beyond repair. That's a common feeling after a spouse has been unfaithful. And I can't promise it will survive. But I do believe it is possible and the rewards are worth all the hard work. My marriage survived my affair. Are you both willing to try to save yours? Here's some of what you'll discover in this very personal memoir: Why sometimes the only way to find yourself is to lose yourself. The reason all marriages are vulnerable to affairs no matter how strong, smart or educated you are. What "marriage creep" is and how to know when your relationship is slowly creeping away. Why attention is like crack cocaine when you're starved for it. How and why I missed all the red flags. The very intimate text messages between me and the two men I had affairs with. How I got stuck in the "waiting place"... waiting for an email, waiting for a text, waiting for a call, waiting for a plane to arrive, waiting for our next rendezvous, waiting to feel safe, waiting to feel loved, waiting to feel protected, waiting to be saved. The slow and steady steps we took to rebuild our marriage after the destruction of two affairs.

Preparing for Pandemics in the Modern World Christine Crudo Blackburn 2020-11-15 The Black Death. Cholera. Spanish flu. Swine flu. HIV/AIDS. COVID-19/SARS-CoV-2. Each of these pandemics has made (or, is making) a lasting impact on humanity. From the immediate mental image of the beaked masks worn in the Middle Ages (bubonic plague) and the birth of epidemiology (cholera) to recognizing the benefits of social distancing (1918 flu) and the harm of prejudice and misinformation (HIV/AIDS), pandemics have shown us how to survive infectious disease, as long as we heed their lessons. *Preparing for Pandemics in the Modern World*, edited by Christine Crudo Blackburn, brings together experts on pandemic preparedness and biosecurity to explore areas of weakness in pandemic prevention, preparedness, detection, and response. Even as COVID-19 makes its way around the world, leaders and policymakers are tasked with thinking ahead and preparing to effectively respond to the next such event--which experience shows us to be a matter of "when," not "if." Inside, chapters are divided into sections on the lessons learned from the 1918 influenza pandemic, the application of the One Health concept, and the role of the private sector in responding to potentially devastating disease outbreaks. A chapter on the impacts of supply chain disruption--in light of COVID-19--and an epilogue that discusses the current outbreak make *Preparing for Pandemics in the Modern World* a timely and accessibly written compilation on pandemic prevention, preparedness, detection, and response.

The Lonely City Olivia Laing 2016-03 There is a particular flavor to the loneliness that comes from living in a city, surrounded by thousands of strangers. This roving cultural history of urban loneliness centers on the ultimate city: Manhattan, that teeming island of gneiss, concrete, and glass. How do we connect with other people, particularly if our sexuality or physical body is considered deviant or damaged? Does technology draw us closer together or trap us behind screens? Laing travels deep into the work and lives of some of the century's most original artists in a celebration of the state of loneliness.

Everybody: A Book about Freedom Olivia Laing 2021-05-04 "Astute and consistently surprising critic" (NPR) Olivia Laing investigates the body and its discontents through the great freedom movements of the twentieth century. The body is a source of pleasure and of pain, at once hopelessly vulnerable and radiant with power. In her ambitious, brilliant sixth book, Olivia Laing charts an electrifying course through the long struggle for bodily freedom, using the life of the renegade psychoanalyst Wilhelm Reich to explore gay rights and sexual liberation, feminism, and the civil rights movement. Drawing on her own experiences in protest and alternative medicine, and traveling from Weimar Berlin to the prisons of McCarthy-era America, Laing grapples with some of the most significant and complicated figures of the past century—among them Nina Simone, Christopher Isherwood, Andrea Dworkin, Sigmund Freud, Susan Sontag, and Malcolm X. Despite its many burdens, the body remains a source of power, even in an era as technologized and automated as our own. Arriving at a moment in which basic bodily rights are once again imperiled, *Everybody* is an investigation into the forces arranged against freedom and a celebration of how ordinary human bodies can resist oppression and reshape the world.

Poverty and Neglected Tropical Diseases in the American Rural South Christine Crudo Blackburn 2020-10-27 In Poverty and Neglected Tropical Diseases in the American Rural South, Christine Crudo Blackburn and Macey T. Lively study regions of the United States rarely acknowledged by the average American. These are regions of extreme poverty in the rural American South where a mixture of historical discrimination, structural discrimination, lack of opportunities, and decaying infrastructure conspire to create an environment conducive to chronic, debilitating diseases known as Neglected Tropical Diseases (NTDs). Blackburn and Lively explore the conditions that allow NTDs to thrive in a wealthy nation like the United States when such diseases are typically associated with the poorest communities in Africa, Asia, and South America. Poverty and Neglected Tropical Diseases pulls back the curtain on the reality of poverty and disease in America and tell the story of failing sanitation infrastructure, the lack of clean water, the inability to access healthcare, and the lack of financial security through the eyes of those living it every day.

Dalí: lo crudo y lo podrido Juan Antonio Ramírez 2018-06-30 "Dalí: lo crudo y lo podrido" es un libro tripartito que se centra en algunos temas fundamentales: su visión del cuerpo y del amor, de la podredumbre, el excremento, la dureza mineral, el camuflaje, la guerra y la historia, etc. Se complementa con otros análisis específicos dedicados a su concepción de la arquitectura y a las complejas implicaciones morales e intelectuales del método paranoico-crítico. Four Minutes Past Ten Ben Lerner 2014-12 In the past year, the narrator of '10:04' has enjoyed unexpected literary success, been diagnosed with a potentially fatal heart condition, and been asked by his best friend to help her conceive a child, despite the fact that he's dating a rising star in the visual arts. Now, in a New York of increasingly frequent super storms and political unrest, he must reckon with his biological mortality, the possibility of a literary afterlife, and the prospect of (unconventional) fatherhood in a city that might soon be under water...In prose that Jonathan Franzen has called 'hilarious... cracklingly intelligent... and original in every sentence', Lerner's new novel charts an exhilarating course through the contemporary landscape of sex, friendship, memory, art and politics, and captures what it is like to be alive right now.

Funny Weather: Art in an Emergency Olivia Laing 2020-05-12 “One of the finest writers of the new nonfiction” (Harper’s Bazaar) explores the role of art in our tumultuous modern era. In this remarkable, inspiring collection of essays, acclaimed writer and critic Olivia Laing makes a brilliant case for why art matters, especially in the turbulent political weather of the twenty-first century. *Funny Weather* brings together a career’s worth of Laing’s writing about art and culture, examining their role in our political and emotional lives. She profiles Jean-Michel Basquiat and Georgia O’Keeffe, reads Maggie Nelson and Sally Rooney, writes love letters to David Bowie and Freddie Mercury, and explores loneliness and technology, women and alcohol, sex and the body. With characteristic originality and compassion, she celebrates art as a force of resistance and repair, an antidote to a frightening political time. We’re often told that art can’t change anything. Laing argues that it can. Art changes how we see the world. It makes plain inequalities and it offers fertile new ways of living.

A Qualitative and Quantitative Survey Design of the Benefits of Intrinsic Motivation in Softball Players Katherine M. Crudo 2014 Identifies the benefits of intrinsically versus extrinsically motivated softball players, and the impact their coaches' behavior plays on their motivation throughout the Northern Sun Intercollegiate Conference (NSIC). This study was drawn through a Qualtrics survey that was sent out and open to all current members of the NSIC. Subjects were reached via email survey from their current head coach asking/giving them the option to participate in the voluntary survey. The data was collected from each of the 15 participating schools in the NSIC. Throughout this paper it will be noticed that the results are from both the athletes and coaches who have used intrinsic motivation while competing. Intrinsic motivation describes an

individual who participates in an activity (sport) for internal reasons or benefits (e.g., personal pleasure, excitement, finding the challenge fun or interesting, or personal health benefits.). This paper also analyzes the effects coaching behavior plays on an intrinsically motivated athlete (softball player). The purpose is to help collegiate coaches keep their athletes away from the constant "what can I get?" idea and to help them build a more intrinsically-based motivation for a lifetime.
