John Chrysostom on Divine Pedagogy: The Coherence of his Theology and Preaching David Rylaarsdam 2014-10-30 Contrary to the portrayals of Chrysostom as a theologically impaired, moralizing sophist, this book argues that his thinking is remarkably coherent when it is understood on his own terms and within his culture. Chrysostom depicts God as a teacher of philosophy who adaptably guides people toward salvation. Since the theme of divine adaptability influences every major area of Chrysostom's thought, tracing this concept provides a thorough introduction to his theology. It also explains, at least in part, several striking features of his homilies, including his supposed inconsistencies, his harsh rhetoric and apparent political naïveté, his intentionally abridged and exoteric theological discussions, and his lack of allegiance to an "Antiochene school." In addition to illuminating such topics, the concept of adaptability stands at one of the busiest intersections of Late Antique culture, for it is an important idea found in rhetoric and discussions about the best methods of teaching philosophy. Consequently, adaptability is an ingredient in the classical project of paideia, and Chrysostom is a Christian philosopher who seeks to transform this powerful tradition of formation. He gives his Christianized paideia a theological foundation by adapting and seamlessly integrating traditional pedagogical methods into his reading and communication of Scripture. David Rylaarsdam provides an in-depth case study of one prominent leader's attempt to transform culture by forming a coherent theological discourse that was adapted to the level of the masses.

Preaching and Popular Christianity James Daniel Cook 2018-11-23 The vast homiletic corpus of John Chrysostom has received renewed attention in recent years as a source for the wider cultural and historical context within which his sermons were preached. Scholars have demonstrated the exciting potential his sermons have to shed light on aspects of daily life, popular attitudes, and practices of lay piety. In short, Chrysostom's sermons have been recognised as a valuable source for the study of 'popular Christianity' at the end of the fourth century. This study, however, questions the validity of some recent conclusions. James Daniel Cook illustrates that Chrysostom is often seen as at odds with the congregations to whom he preached. On this view, the Christianity of élites such as Chrysostom had made little inroads into popular thought beyond the fairly superficial, and congregations were still living with older, more culturally traditional views about religious beliefs which preachers were doing their utmost to overcome. Cook argues that such a portrayal is based on a misreading of Chrysostom's sermons and fails to explain satisfactorily the apparent popularity that Chrysostom enjoyed as a preacher. Preaching and Popular Christianity: Reading the Sermons of John Chrysostom reassesses how we read Chrysostom's sermons, with a particular focus on the stern language which permeated his preaching, and on which the image of the contrary congregation is largely based. In doing this, Cook recovers a neglected portrayal of Chrysostom as a pastor and of preaching as a pastoral and liturgical activity, and it becomes clear that his use of critical language says more about how he understood his role as preacher than about the nature of popular Christianity in late-antique society. Thus, a very different picture of late-antique Christianity emerges, in which Chrysostom's congregations are more willing to listen and learn from their preacher than is often assumed.

Reading the Old Testament in Antioch Robert C. Hill 2005-08-01 The work examines the approach of the Antioch Fathers to the Old Testament. If they shared an ignorance of the original language with the Fathers generally, their form of the Greek Bible was distinctive, as was their style of commentary and in particular their accent on the factual and historical character of the authors' message.

The majority are short papers dealing with some small and manageable point; they raise and sometimes resolve questions about the authenticity of documents, dates of events, and such like, and some unveil new texts. The smaller number of longer papers put such matters into context and indicate wider trends. The whole reflects the state of Patristic scholarship and demonstrates the vigour and popularity of the subject.

Commentary on Daniel Theodoret (Bishop of Cyrrhus.) 2006 Early Christians were fed by their pastors a solidly scriptural diet from both the Old and the New Testaments. The commentary on Daniel by Theodoret, a member of the school of Antioch and fifth-century bishop of Cyrus, illustrates the typically Antiochene approach to biblical texts and shows the commentator posing key questions such as, What is prophecy? or What does a prophet do? While demonstrating the moderation for which his approach to the Bible became proverbial, Theodoret here instructs his readers to see in the dreams and visions of Daniel the pattern of prediction and fulfillment that guarantees for an Antiochene the authenticity of true prophecy. This commentary, with Greek text and English translation on facing pages, will be valuable to biblical and patristic scholars, theologians, and church historians.

Dialogo di Papisco e Filone Immacolata Aulisa 2005 Analyzes the text of the "Dialogo", an anti-Jewish polemical work composed in 7th-century Egypt by an unknown author (pp. 181-226 contain the Greek text and an Italian translation). It was written in the form of a fictitious dialogue between two Jewish sages and a Christian monk. It focuses on the idea that the messianic prophecies contained in the Bible were realized by the coming of Jesus and accuses the Jews of deicide, using traditional arguments and stereotypes. The work was copied and translated many times during the 11th-18th centuries, in the geographic area ranging from the eastern Mediterranean to Italy in the west, and went through some changes over the years. The version presented here is based mainly on the edition by Arthur McGiffert, "Dialogue between a Christian and a Jew, Entitled 'Antibolē Papikou kai Pilōnos Ioudiaōn pros monachon tina'" (1899).
