**The Mamluks in Egyptian and Syrian Politics and Society** Michael Winter 2004 This volume is a collection of studies by leading historians on central aspects of the Mamluk Empire of Egypt and Syria (1250-1517), and of Ottoman Egypt (16th-18th century) where the Mamluks survived under the Ottoman suzerainty.

**Cairo** Max Rodenbeck 2017-10-04 From a noted journalist who has spent much of his life in Cairo, here is a dazzling cultural excavation of that most ancient, colorful, and multifaceted of cities. The seat of pharaohs and sultans, the prize of conquerors from Alexander to Saladin to Napoleon, Cairo--nicknamed "the Victorious"--has never ceased reinventing herself. With intimate knowledge, humor, and affection, Rodenbeck takes us on an insider's tour of the magnificent city: its backstreets and bazaars, its belly-dance theaters and hashish dens, its crowded slums and fashionable salons, its incomparably rich past and its challenging future. Cairo: The City Victorious is a unique blend of travel and history, an epic, resonant work that brings one of the world's great metropolises to life in all its dusty, chaotic beauty.

*The Mamluks in Egyptian Politics and Society* Thomas Philipp 1998-02-12 In this book, distinguished scholars provide an accessible introduction to the structure of political power under the Mamluks and its economic foundations.

*Byzantium* Metropolitan Museum of Art (New York, N.Y.) 2004 The fall of the Byzantine capital of Constantinople to the Latin West in 1204 during the Fourth Crusade abruptly interrupted nearly nine hundred years of artistic and cultural traditions. In 1261, however, the Byzantine general Michael VIII Palaiologos triumphantly re-entered Constantinople and reclaimed the seat of the empire, initiating a resurgence of art and culture that would continue for nearly three hundred years, not only in the waning empire itself but also among rival Eastern Christian nations eager to assume its legacy. Byzantium: Faith and Power (1261-1557), and the groundbreaking exhibition that it accompanies, explores the artistic and cultural flowering of the last centuries of the "Empire of the Romans" and its enduring heritage. Conceived as the third of a trio of exhibitions dedicated to a fuller understanding of the art of the Byzantine Empire, whose influence spanned more than a millennium, "Byzantium: Faith and Power (1261-1557)" follows the 1997 landmark presentation of "The Glory of Byzantium," which focused on the art and culture of the Middle Byzantine era—the Second Golden Age of the Byzantine Empire (843-1261). In the late 1970s, "The Age of Spirituality" explored the early centuries of Byzantium's history. The present concluding segment explores the exceptional artistic accomplishments of an era too often considered in terms of political decline. Magnificent works—from splendid frescoes, textiles, gilded metalwork, and mosaics to elaborately decorated manuscripts and liturgical objects—testify to the artistic and intellectual vigor of the Late and Post-Byzantine era. In addition, forty magnificent icons from the Holy Monastery of Saint Catherine, Sinai, Egypt, join others from leading international institutions in a splendid gathering of these powerful religious images. While the political strength of the empire weakened, the creativity and learning of Byzantium spread farther than ever before. The exceptional works of secular and religious art produced by Late Byzantine artists were emulated and transformed by other Eastern Christian centers of power,

among them Russia, Serbia, Bulgaria, and Cilician Armenia. The Islamic world adapted motifs drawn from Byzantium's imperial past, as Christian minorities in the Muslim East continued Byzantine customs. From Italy to the Lowlands, Byzantium's artistic and intellectual practices deeply influenced the development of the Renaissance, while, in turn, Byzantium's own traditions reflected the empire's connections with the Latin West. Fine examples of these interrelationships are illustrated by important panel paintings, ceramics, and illuminated manuscripts, among other objects. In 1557 the "Empire of the Romans," as its citizens knew it, which had fallen to the Ottoman Turks in 1453, was renamed Byzantium by the German scholar Hieronymus Wolf. The cultural and historical interaction and mutual influence of these major cultures—the Latin West and the Christian and Islamic East—during this fascinating period are investigated in this publication by a renowned group of international scholars in seventeen major essays and catalogue discussions of more than 350 exhibited objects.

**Eunuchs, Caliphs and Sultans** David Ayalon 1999 The book covers a period from the beginning of Islam, up to the beginning of the sixteenth century, and deals mainly with the eunuchs in the major centres of Islam in the East (Umayyads, 'Abbasids, Seljuks, Zengids, Ayyubids and Mamluks and to some extent, the Fatimids of Egypt). It is not a history of the eunuchs in that wide area but rather is mainly concerned with the power accumulated by the eunuchs, military, socially and even economically (especially as trustees of financial affairs and property). The ultimate aim of the study is to bring out the close ties connecting it to the harem, the eunuchs and the Mamluks. In all of these three areas, the dominant element had been slaves (Islamised and often enfranchised) who were imported beyond the lands of Islam. The eunuchs were usually the upbringers of the young Mamluks and quite often their commanders. The Mamluks themselves, in various and changing forms, constituted the mainstay of Islam to the harem, the eunuchs and the Mamluks. In all of these three areas, the dominant element had been slaves (Islamised and often enfranchised) who were imported beyond the lands of Islam. The eunuchs were usually the upbringers of the young Mamluks and quite often their commanders. The Mamluks themselves, in various and changing forms, constituted the mainstay of Islam's military might through the greatest part of its existence. Other subjects discussed are castrations, the eunuchs' prices, and their so-called sexual life, romances as well as their marriages.

**Egyptian Society Under Ottoman Rule, 1517-1798** Michael Winter 2003-09-02 Michael Winter's book presents a panoramic view of Ottoman Egypt from the overthrow of the Mamluk Sultanate in 1517 to Bonaparte's invasion of 1798 and the beginning of Egypt's modern period. Drawing on archive material, chronicle and travel accounts from Turkish, Arabic, Hebrew and European sources as well as up-to-date research, this comprehensive social history looks at the dynamics of the Egyptian-Ottoman relationship and the ethnic and cultural clashes which characterised the period. The conflicts between Ottoman pashas and their Egyptian subjects and between Bedouin Arabs and the more sedentary population are presented, as is the role of women in this period and the importance of the doctrinal clash of Islam both orthodox and popular, Christianity and Judaism. Winter's broad survey of a complex and dynamic society draws out the central theme of the emergence, from a period of ethnic and religious tension, of an Egyptian consciousness fundamental to Egypt's later development.

**The Ottomans and the Mamluks** Cihan Yuksel Muslu 2014-07-25 Beginning on the eve of oceanic exploration, and the first European forays into the Indian Ocean and the Middle East, *The Ottomans and the Mamluks* traces the growth of the Ottoman Empire from a tiny Anatolian principality to a world power, and the relative decline of the Mamluks—historic defenders of Mecca and Medina and the rulers of Egypt and Syria. Cihan Yuksel Muslu traces the intertwined stories of these two dominant Sunni Muslim empires of the early modern world, setting out to question the view that Muslim rulers were historically concerned above all with the idea of Jihad against non-Muslim entities. Through analysis of the diplomatic and

military engagements around the Mediterranean and Indian Ocean, Muslu traces the interactions of these Islamic super-powers and their attitudes towards the wider world. This is the first detailed study of one of the most important political and cultural relationships in early-modern Islamic history.

*Ottoman War and Peace* 2020-01-13 Blending micro and macro approaches, the volume covers topics from the sixteenth to twentieth centuries related to the Ottoman military and warfare, biography and intellectual history, and inter-imperial and cross-cultural relations.

*Eunuchs in the Ming Dynasty, The Shih-shan* Henry Tsai 1996-01-01 This book is the first on Chinese eunuchs in English and presents a comprehensive picture of the role that they played in the Ming dynasty, 1368-1644. Extracted from a wide range of primary and secondary source material, the author provides significant and interesting information about court politics, espionage and internal security, military and foreign affairs, tax and tribute collection, the operation of imperial monopolies, judiciary review, the layout of the palace complex, the Grand Canal, and much more. The eunuchs are shown to be not just a minor adjunct to a government of civil servants and military officers, but a fully developed third branch of the Ming administration that participated in all of the most essential matters of the dynasty. The veil of condemnation and jealousy imposed on eunuchs by the compilers of official history is pulled away to reveal a richly textured tapestry. Eunuchs are portrayed in a balanced manner that gives due consideration to able and faithful service along with the inept, the lurid, and the iniquitous.

**The Nature of the Early Ottoman State** Heath W. Lowry 2012-02-01 A revisionist interpretation of the early origins of the Ottoman Empire. Drawing on surviving documents from the fourteenth and fifteenth centuries, *The Nature of the Early Ottoman State* provides a revisionist approach to the study of the formative years of the Ottoman Empire. Challenging the predominant view that a desire to spread Islam accounted for Ottoman success during the fourteenth-century advance into Southeastern Europe, Lowry argues that the primary motivation was a desire for booty and slaves. The early Ottomans were a plundering confederacy, open to anyone (Muslim or Christian) who could meaningfully contribute to this goal. It was this lack of a strict religious orthodoxy, and a willingness to preserve local customs and practices, that allowed the Ottomans to gain and maintain support. Later accounts were written to buttress what had become the self-image of the dynasty following its incorporation of the heartland of the Islamic world in the sixteenth century. Heath W. Lowry is Atatürk Professor of Ottoman and Modern Turkish Studies at Princeton University and the author of *Studies in Deftology: Ottoman Society in the Fifteenth and Sixteenth Centuries*.

*The Sultan's World* Palais des beaux-arts (Bruxelles). 2015 "...The aim of our exhibition is to focus on the Ottoman Empire...and to explore the different ways the Ottomans, or 'Turks' as they were already called by their contemporaries, impacted the art and culture of the Renaissance.

**The Mamluk-Ottoman Transition** Stephan Conermann 2022-07-11 While the Ottoman conquest of the Mamluk realm in 1516-17 doubtlessly changed the balance of political power in Egypt and Greater Syria, the changes must be seen as a wide-ranging transition process. The present collection of essays provides several case studies on the changing situation during the fifteenth and sixteenth centuries and explains how the reconfiguration of political power affected both Egypt and Greater Syria. With reference to the first volume (2017), this second volume continues the debate on key issues of the transition period with contributions by scholars from both Mamluk and Ottoman studies. By combining these perspectives, the authors provide a more comprehensive and nuanced picture of the process of transformation from Mamluk to Ottoman rule.

Historicizing Sunni Islam in the Ottoman Empire, C. 1450-c. 1750 Tijana Krstić 2021 "Articles collected in *Historicizing Sunni Islam in the Ottoman Empire, c. 1450-c. 1750* engage with the idea that "Sunnism" itself has a history and trace how particular Islamic genres-ranging from prayer manuals, heresiographies, creeds, hadith and fatwa collections, legal and theological treatises, and historiography to mosques and Sufi convents-developed and were reinterpreted in the Ottoman Empire between c. 1450 and c. 1750. The volume epitomizes the growing scholarly interest in

historicizing Islamic discourses and practices of the post-classical era, which has heretofore been styled as a period of decline, reflecting critically on the concepts of 'tradition', 'orthodoxy' and 'orthopraxy' as they were conceived and debated in the context of building and maintaining the longest-lasting Muslim-ruled empire. **A Turning Point in Mamluk History** Amalia Levanoni 2021-11-22 Based on a fresh look at the contemporary Mamluk sources, this study challenges the conventional periodization of Mamluk history by dating the onset of the decline of the Mamluk state to the third reign of al-Nāsir Muḥammad. It furthermore reveals the Mamluk system as dynamic in nature, susceptible to change throughout its history.

**The Ottoman Empire, 1300-1650** Colin Imber 2019-01-05 This highly-praised and authoritative account surveys the history of the Ottoman Empire from its obscure origins in the 14th century, through its rise to world-power status in the 16th century, to the troubled times of the 17th century. Going beyond a simple narrative of Ottoman achievements and key events, Colin Imber uses original sources and research, as well as the rapidly growing body of modern scholarship on the subject, to show how the Sultans governed their realms and the limits on their authority. A helpful chronological introduction provides the context, while separate chapters deal with the inner politics of the dynasty, the court and central government, the provinces, the law courts and legal system, and the army and fleet. Revised, updated and expanded, this new edition now also features a separate chapter on the Arab provinces and incorporates the most recent developments in the field throughout. New to this Edition: - An increased focus on religion, and on non-Muslim communities - More on the provinces and culture - An expanded taxation chapter, with more on charitable trusts, trade and the economy - Updated references throughout

**The Last Centuries of Byzantium, 1261-1453** Donald M. Nicol 1993-10-14 The Byzantine Empire, fragmented and enfeebled by the Fourth

Crusade in 1204, never again recovered its former extent, power and influence. Its greatest revival came when the Byzantines in exile reclaimed their capital city of Constantinople in 1261 and this book narrates the history of this restored empire from 1261 to its conquest by the Ottoman Turks in 1453. First published in 1972, the book has been completely revised, amended, and in part rewritten, with its source references and bibliography updated to take account of scholarly research on this last period of Byzantine history carried out over the past twenty years.

*The Second Formation of Islamic Law* Guy Burak 2015-01-12 The Second Formation of Islamic Law is the first book to deal with the rise of an official school of law in the post-Mongol period. The author explores how the Ottoman dynasty shaped the structure and doctrine of a particular branch within the Hanafi school of law. In addition, the book examines the opposition of various jurists, mostly from the empire's Arab provinces, to this development. By looking at the emergence of the concept of an official school of law, the book seeks to call into question the grand narratives of Islamic legal history that tend to see the nineteenth century as the major rupture. Instead, an argument is formed that some of the supposedly nineteenth-century developments, such as the codification of Islamic law, are rooted in much earlier centuries. In so doing, the book offers a new periodization of Islamic legal history in the eastern Islamic lands.

**Ottoman Diplomacy** A. Nuri Yurdusev 2016-01-28 This book provides a general understanding of Ottoman diplomacy in relation to the modern international system. The origins of Ottoman diplomacy have been traced back to the Islamic tradition and Byzantine Inner Asian heritage. The Ottomans regarded diplomacy as an institution of the modern international system. They established resident ambassadors and the basic institutions and structure of diplomacy. The book concludes with a review of the legacy of Ottoman diplomacy.

**The History of the Seljuq Turks from the Jāmi' Al-tawārīkh** Rāashid al-Dāin ibn Tabib 2001 Nishapuri flourished in the 12th century and wrote a succinct history in Persian of the Saljuq Turks, a tribal group from Central Asia who in the 11th century established a vast empire, enduring for some century and a half and bringing about lasting changes to the ethnic composition and the patterns of land utilisation in the northern tier of the Middle East.

*Dangerous Gifts* Ozan Ozavci 2021 From Napoleon Bonaparte's invasion of Egypt in 1798 to the foreign interventions in the ongoing civil wars in Syria, Yemen, and Libya today, global empires or the so-called Great Powers have long assumed the responsibility to bring security in the Middle East. The past two centuries have witnessed their numerous military occupations to 'liberate', 'secure' and 'educate' local populations. They staged first 'humanitarian' interventions in history and established hitherto unseen international and local security institutions. Consulting fresh primary sources collected from some thirty archives in the Middle East, Russia, the United States, and Western Europe, *Dangerous Gifts* revisits the late eighteenth and nineteenth century origins of these imperial security practices. It explicates how it all began. Why did Great Power interventions in the Ottoman Levant tend to result in further turmoil and civil wars? Why has the region been embroiled in a paradox-an ever-increasing demand despite the increasing supply of security-ever since? It embeds this highly pertinent genealogical history into an innovative and captivating narrative around the Eastern Question, emancipating the latter from the monopoly of Great Power politics, and foregrounding the experience of the Levantine actors. It explores the gradual yet still forceful opening up of the latter's economies to global free trade, the asymmetrical implementation of international law in their perspective, and the secondary importance attached to their threat perceptions in a world where political and economic decisions were ultimately made through the filter of global imperial interests.

*Slavery in the History of Muslim Black Africa* Humphrey J. Fisher 2001-08 Utilizing the accounts of observers and those who participated in the institution of slavery--slavers, travellers, and slaves themselves-- and the records kept by the judicial institutions of Islam, Fisher (African history, U. of London) explores the political, religious, economic, and social forces surrounding the growth and legitimization of the institution of slavery in

Muslim Africa from the 10th century to the 19th century. He explains how the institution differed in nature and harshness both geographically and across time, offering stories where slaves were relatively well treated and rose to prominent places in society, as well as stories in which slaves were treated brutally and often rebelled. **Mamluk Cairo, a Crossroads for Embassies** Frédéric Bauden 2019-01-07 Mamluk Cairo, a Crossroads for Embassies gathers twenty-eight essays that offer the most up-to-date insight into the diplomacy and diplomatics of the Mamluk sultanate with Muslim and non-Muslim powers.

**The Politics of Households in Ottoman Egypt** Jane Hathaway 2002-04-04 In a lucidly argued revisionist study of Ottoman Egypt, first published in 1996, Jane Hathaway challenges the traditional view that Egypt's military elite constituted a revival of the institutions of the Mamluk sultanate. The author contends that the framework within which this elite operated was the household, a conglomerate of patron-client ties that took various forms. In this respect, she argues, Egypt's elite represented a provincial variation on an empire-wide, household-based political culture. The study focuses on the Qazdagli household. Originally, a largely Anatolian contingent within Egypt's Janissary regiment, the Qazdaglis dominated Egypt by the late eighteenth century. Using Turkish and Arabic archival sources, Jane Hathaway sheds light on the manner in which the Qazdaglis exploited the Janissary rank hierarchy, while forming strategic alliances through marriage, commercial partnerships and the patronage of palace eunuchs.

*Practising Diplomacy in the Mamluk Sultanate* Doris Behrens-Abouseif 2014-05-16 Elaborate and sensational gifts were the hallmark of Mamluk diplomacy. In firm control of the medieval spice trade as well as the holy sites of Christianity and Islam, the Sultanate's capital at Cairo became a diplomatic crossroads in the medieval world and the seat of a new Islamic caliphate. Already victorious over both the Crusaders and the Mongols, their military success and lavish religious patronage were not enough to ensure the dynasty's prestige: the Mamluk Sultans were often reminded of their slave origins, impugned by rivals as 'pagans' recruited to faith and service by purchase. In response, the sultans staged brilliant performances in Cairo and dispatched carefully designed diplomatic gifts all over the medieval world. These marvellous displays were the crowning ornament of Mamluk legitimacy, celebrated from Europe to the Far East. Drawing on extensive primary sources and fieldwork in museums across the world, Doris Behrens-Abouseif is the first to treat this important subject in depth and here reveals an unexplored aspect of Middle Eastern material culture. Composed of spectacular elements such as spices, exotic animals, Chinese porcelain, ceremonial textiles and military and equestrian objects - not to mention humans, either living or as severed heads - the regal offering varied in combination and emphasis according to the status and circumstances of giver and receiver, but always created a sensation. Acknowledging the established historical precedents of diplomacy and regal gift-giving, the author examines the nuance of cultural and political realities in period diplomacy as well as the transmission of encrypted messages, illuminating the subtle conveyance of self-representation and identity in medieval Cairo and the world beyond. With ground-breaking new research, this book - richly illustrated in colour - provides a comprehensive view of the art and politics of the Mamluk diplomatic gift, by which these sultans of humble origins created a magnificent image of themselves in the courts of their Muslim rivals and allies worldwide. It will prove essential reading for both students and scholars.

**The Mamluk-Ottoman Transition** Stephan Conermann 2022-07-11 While the Ottoman conquest of the Mamluk domain in 1516-17 doubtlessly changed the balance of political power in Egypt and Greater Syria, the changes must be seen as a wideranging transition process. The present

volume provides several case studies on the changing situation during the 15th and 16th centuries and explains how the reconfiguration of political power affected both Egypt and Greater Syria. The concept of transition has been introduced in the first volume (2017) in order to shed a new light on 16th-century Mamluk Sultanate and the Ottoman Empire. This second volume continues to examine continuities and changes during the transitional process with contributions both by scholars from Mamluk and Ottoman studies. By combining both perspectives, the authors provide a more comprehensive, but nuanced picture of the process of transformation.
