BUCKLEY, BATMAN & MYNDIE: Echoes of the Victorian culture-clash frontier 2021-01-01 Sounding 7 begins with Echo 107 titled CONTEMPORARY EUROPEAN EYES ON THE OZ CULTURE-CLASH FRONTIER followed by echoes on BUCKLEY REVISITED, AFTER THE PROTECTORATE CRUMBLLED and WHAT OF PROTECTOR ROBINSON? Echoes follow on salvaging tribal ways, the Merri Creek black orphanage, 'going round the bend' at the Asylum and Echo 114: THE CELESTIALS OF VICTORIA, being the resented Chinese gold miners. Exploring the contrasting fate of Batman, La Trobe and Derrimut, leads into echoes on fringe-dwelling, cultural resistance and Oz racism, in particular the mass psychology of racist ideology that culminated with World War 2. After the gold rush era, life and right behaviour at the Healesville Coranderrk mission station and re-thinking William Thomas the Aboriginal Guardian lead to the pleasant notion of civilizing British colonies through sport. The life and exploits of Tom Wills is celebrated in Echo 122: THE

MAKING & BREAKING OF VICTORIA'S FIRST SPORTING HERO. Turning to political history, Oz class struggles - convicts, capitalism and nation-building asks the question with Echo 124: WHITHER MARXISM [?] and then BRITISH EMPIRE POLICY REFORMS IN THE 1840s to contain a Chartist-led revolution. Facets of Victorian 'quality of life' since the land grab are followed by echoes on the astrology of the 1802 Port Phillip Crown possession claim and an echo titled TOWARDS AN ASTROLOGY OF CIVILIZATION. The Sounding concludes with approaches to researching Aboriginal society, an undergraduate essay on the Dreamtime and finally with Echo 130: A RAINBOW SERPENT BRIDGE. Today in the 21st century, I wonder how differently Oz would have developed if the then ruling British government in Sydney and London had not used censorship to delay the gold rush for almost 40 years! Sounding 8 begins with Echo 131: HISTORY DISTORTION & CENSORSHIP and is backed up with a critique of Britannia's pirate empire that together spawn two more echoes of doubtful but controversial polemics in 1421 - THE YEAR CHINA DISCOVERED THE WORLD suggesting they were here in Oz many centuries before Captain Cook. Echo 135: THE KADAITCHA SUNG MEETS THE DRUID INHERITANCE pits Palm Islander Sam Watson's 1990s fiction The Kadaitcha Sung [the 'clever' occult Oz Dreamtime] in occult war with the equally ancient European / Celtic / Druid magic in the psyche of the Aryan 'race', so to speak. Going even further out on a limb, the focus shifts to recent light shed on 'dark ages barbarians' now considered by some historians to have been more culturally refined than the modern city individual. Back in Oz with Echo 137: WHITE MAN'S LAW - BLACKFELLOW LAW and Echo 138: McLEOD'S BUCKET FROM SKULL CREEK brings Western Australia after WW2 into wider awareness with the Pilbara pastoral workers strike of 1946-49 that won half-decent wage rights for Aboriginal stockmen. Moving further north, Echo 141: RECENT ARNHEMLAND CONNECTIONS Part 1: Taming the NT

is the stuff of White Australia's race-based patriotism as depicted in Ion Idriess's once-mainstream fascist fictions counterpointed by Part 2: James Gaykamangus's Striving to bridge the chasm: my cultural learning journey. The final echo 142 talks treaty.

How can we collaborate in our organizations—and with outside partners—to solve problems, innovate, and succeed? Smarter Collaboration offers groundbreaking solutions. This indispensable new book lays out a pragmatic action plan blending rich stories, new empirical research, and loads of practical advice to help companies thrive by collaborating more effectively. As Harvard professor Heidi K. Gardner and senior executive Ivan A. Matviak show, firms that collaborate smarter consistently generate higher revenues and profits, boost innovation, strengthen client relationships, and attract and retain better talent. In this successor to Gardner's bestselling first book, Smart Collaboration, the authors expand their mandate, illustrating the fundamental dynamics of collaborating well across industries like financial services, health care, biotech/pharma, consumer products, automotive, and technology. Based on their research with thousands of executives from around the world, they share deep insights on how to implement smarter collaboration and avoid the potential pitfalls. They also help leaders troubleshoot thorny challenges like misaligned incentives, collaboration overload, and unintended consequences on diversity and inclusion. Complete with how-tos and cases, the book concludes with inspiring examples of groups harnessing smarter collaboration to tackle society's biggest challenges such as saving the oceans, eradicating diseases, and tackling global warming. Smarter Collaboration is the essential

guide for forward-thinking leaders to transform their organizations, reshape the way they work, and increase impact and success.

The 17 Indisputable Laws of Teamwork John C. Maxwell 2013-04-01 Learn how to build and maintain champion level teams, then lead your team to the peak level of success regardless of the field you're in. Individual all-stars can only take you so far. Ultimately, success--whether in business, family, church, athletic teams, or any other organization--is entirely dependent on teamwork. But how does one build that team? Leadership expert and bestselling author John C. Maxwell knows that building and maintaining a successful team is no simple task. Even people who have taken their teams to the highest level in their field have difficulty re-creating what accounted for their successes. In his practical, down-to-earth style, Maxwell shares the vital principles of team building that are necessary for success in any type of organization. In *The 17 Indisputable Laws of Teamwork*, Dr. Maxwell shows how: The Law of High Morale inspired a 50-year-old man who couldn't even swim to train for the toughest triathlon in the world; The Law of the Big Picture prompted a former US president to travel across the country by

bus, sleep in a basement, and do manual labor; Playing by The Law of the Scoreboard enabled one web-based company to keep growing and make money while thousands of other Internet businesses failed; Ignoring The Law of the Price Tag caused one of the world's largest retailers to close its doors after 128 years in business; And much more! Building a successful team has plagued leaders since the beginning of time. Is the key a strong work ethic? Is it "chemistry"? The 17 Indisputable Laws of Teamwork will empower you--whether coach or player, teacher or student, CEO or non-profit volunteer--with the "how-tos" and attitudes for building a successful team.

The Boomerang Principle Lee Caraher 2017-03-16 It is rare today for employees to stay with one organization for the long tenures that were the norm before the Great Recession. In fact, "job hopping" is the new norm, especially for Millennials. In The Boomerang Principle, companies learn how to leverage this fact rather than fear it. By engendering a lifetime of loyalty from former employees, leaders can see them "return" in the form of customers, partners, clients, advocates, contractors, and even returning employees. Author Lee Caraher has built several companies and managed many Millennials along the way. In her first book, Millennials & Management, she shared her wisdom on

how to get an intergenerational workforce to contribute to the larger goals of the organization. In this follow-up book, she shifts the emphasis to creating valuable, long-lasting relationships with your employees to ensure they remain your biggest fans, even if they leave the company. The Boomerang Principle is a pragmatic answer to the outdated corporate mindset around employee turnover. Instead, it shifts the focus to creating lifetime loyalty from your alumni who will bring back business again and again.

Unstoppable Teams Alden Mills 2019-03-26 Three-time Navy SEAL platoon commander and founder of Perfect Fitness reveals how to put together teams that can accomplish any objective—by leveraging an unexpected set of values and priorities. SEALs and civilians operate in extremely different environments, but what makes both kinds of teams excel comes down to the same thing: service to others, trust, empathy, and a caring environment. Alden Mills has experience working in both the military and the private sector, as a SEAL platoon commander and as a startup founder of Perfect Fitness. He's seen firsthand what it takes to lead an unstoppable team of individuals. Teams are nothing more than a series of interconnected relationships with a collective, single-minded focus. Success almost never depends on individual talent and valor; instead, Alden Mills shows, it depends, first, on creating a strong foundation for yourself and, second, using that

foundation to help others go beyond their individual pursuits and talents to create something bigger and better—an unstoppable team. Unstoppable Teams show managers at every level, at both large and small organizations, including private, public, and nonprofit, how to inspire, motivate, and lead the people around them. Mills draws on stories from his own experiences to impart these surprising team-building lessons: Too many people mistake groups of individuals for a team. No two people are alike, but we all have the same genetic drivers that motivate us—our will to survive, our ego-driven desire for personal gain, and our soul-driven yearning to be a part of something greater than ourselves. When we override our fears about survival, we can focus on our desire to thrive. The more you care for your teammates, the more they will dare for the team. Great ideas are not reserved for a select few—true teams embrace diversity of thought to find winning ideas. These lessons aren't exclusive to the Navy SEALs; they are used by successful entrepreneurs, nonprofit leaders, coaches, and sport captains—and now you can master them too. Unstoppable Teams is the handbook for how to build care-based teams that will push people to achieve more than they ever thought possible.

10 Discussions for Effective Leadership R. Perras 2012-11

INTRODUCTION This is the second book from the lead author,

Raymond Perras. Teaming up with two leadership coaching clients (Marcel Bellefeuille from the world of professional sports, and Bruno Lindia, a CEO and business owner), Raymond has developed a unique and groundbreaking effort to bring forward some issues that do not often get dealt with in a leadership book. Based on the concept of Peak Performance (the right stuff, in the right amount, at the right time(TM)), this work provides a leader with insight into how to maximize results while reducing stress. It is not meant to confirm what a leader already knows but rather to serve as a basis to "contemplate" how a person who leads a team can help create an atmosphere that enables people to exceed expectations on a routine basis. Tapping their experiences in leading and coaching leaders, the authors have shared insights into some of the less glamorous aspects of leadership. The goal is to raise a leader's awareness to the fact that the team results can be improved when attention is paid to specific aspects of leadership in order to increase effectiveness. The implementation of a thinking process that ensures a continuous effort to seek peak performance ultimately enables everyone to exceed expectations. The book provides insight into the state of leadership, highlighting the results of research done in 2011 by Development Dimensions International, to guide the reader's focus toward some leadership traps that can torpedo the best efforts to be an effective leader. In a "three distinct statement" approach, the 10 chapters each address one of the activities or issues that the authors have identified as mission-critical for a leader based on their professional experience. Through a prioritized list from a brainstorm exercise on usual traps that can create a barrier to leadership success, the authors selected 10 activities that may make or break a leader on the journey to leadership excellence. The 10 activities are not in order of priority, only proposed as cautionary subjects for the leader who seeks to be effective in leading a team. The 10 activities are discussed by each of the authors on the basis of their work

experience and are listed as follows in the Table of Content: 1 - The Right Stuff in the Right Amount at the Right Time: in an effort to minimize waste and maximize result, the leader is encouraged to make judicious choices in order to have sufficient resources to address the priority issues. 2 - The Myth of Empowerment: reflections are shared on how this term is used extensively but often is not reflected in the actual leadership activities. People are said to be empowered but the end result is responsibility without authority - delegation is not true delegation. 3 - Trust and The Boomerang Theory: this critical quality of a leader is discussed to bring awareness to the fact that a person cannot expect trust if he or she does not trust first. In the end, results are greatly reduced when trust is not in the mix. 4 Telling The Truth: the discussion centres on the common difficulty for a leader to tell it like it is. In a place where trust is lacking, stories are usually made up to cover or twist the truth with a negative impact on the team. 5 - Optimize Results with Joint Planning: too often, projects do not bring the desired end results and expectations are not fulfilled because information is held back or key people are not involved at the planning stage. Taking the time to listen and involve people usually will optimize results. 6 - Clarity of Vision Leads to Success: the point is that when a leader is not clear on the shape and form of a successful outcome, it is very difficult to provide guidance and leadership in an effective way. A clear vision takes time to formulate and a leader will do well to define his vision and share it with the team. Here we are talking about a vision of HOW we will work as a team. A project's outcome is usually quite clearly define
