Asymmetry Adam Zagajewski 2018-11-20 A stunning new

collection from Poland's leading poet Give me back my childhood, republic of loquacious sparrows, measureless thickets of nettles and the timid wood owl's nightly sobs. One of the most vibrant voices of our time, Adam Zagajewski is a modern master of the poetic form. In *Asymmetry*, his first collection of poems in five years, he revisits the themes that have long concerned him: the enduring imprint of history, the beauty of nature, the place of the exile. Though as sanguine as ever, Zagajewski often turns to elegy in this deeply powerful collection, remembering loved ones he's lost: a hairdresser, the philosopher Krzysztof Michalski, and, most poignantly, his parents. A moving reflection on family, the sublimity of everyday life, death, and happiness, *Asymmetry* is a magnificent distillation of an astounding poetic voice.

Tom of Finland: Made in Germany Juerg Judin 2020 A spectacular book showing life and work of the Finnish icon from an unknown perspective with around 150 illustrations and well researched texts. Tom of Finland has become the most famous and influential Finnish artist of the 20th century. Born Touko Laaksonen in 1920, his iconic depiction of self-confident and life-affirming gayness gave decisive impulses to the international gay movements from the 1960s onwards. But although we clearly associate his portrayals of sensual and powerful cowboys, farm hands, soldiers and leathermen with the USA, Tom of Finland's rise to gay icon received the game-changing impetus neither in his native Finland nor in the USA. It was, of all places, the city of Hamburg and Tom's friendship with key exponents of the local gay scene in the early 1970s that helped him to his first exhibition ever. He even created a grand mural for the legendary "Tom's Bar", until today the only one legitimately named after him. Regular commissions to design posters and ads for gay events in Hamburg allowed him to launch his artistic career after quitting his day job as advertising executive, and led to the creation of the most extensive private collection of his drawings to date. Galerie Judin is now devoting an exhibition and a comprehensive

publication to these seminal, but thus far little researched years, the art they generated and the friendships they formed. The book includes texts by Juerg Judin, Pay Matthis Karstens, Kati Mustola and Alice Delage, conversations with Durk Dehner and Michael P. Hartleben - and a facsimile of the artist's German travel diary from 1955.

History of the Alps, 1500-1900 Jon Mathieu 2009 In the 1700s, Jean-Jacques Rousseau celebrated the Alps as the quintessence of the triumph of nature over the "horrors" of civilization. Now available in English, *History of the Alps, 1500-1900: Environment, Development, and Society* provides a precise history of one of the greatest mountain range systems in the world. Jon Mathieu's work disproves a number of commonly held notions about the Alps, positioning them as neither an inversion of lowland society nor a world apart with respect to Europe. Mathieu's broad historical portrait addresses both the economic and sociopolitical -exploring the relationship between population levels, development, and the Alpine environment, as well as the complex links between agrarian structure, society, and the development of modern civilization. More detailed analysis examines the relationship between various agrarian structures and shifting political configurations, several aspects of family history between the late Middle Ages and the turn of the twentieth century, and exploration of the Savoy, Grisons, and Carinthia regions.

Cuttlefish Bones Eugenio Montale 1994 Eugenio Montale's epoch-making first book, *Cuttlefish Bones* (1925), has been hailed as one of the truly important works of poetry in the twentieth century. At once an earned poetic manifesto and spiritual autobiography, its dialogue between self and others, hope and despair, is sustained with absolute musical mastery and that simplicity-in-complexity that marks only the greatest poetry. -- W.W. algorithms are already well on their way to making white collar jobs obsolete: travel agents, data-analysts, and paralegals are currently in the firing line. In the near future, doctors, taxi-drivers and ironically even computer programmers are poised to be replaced by 'robots'. Without a radical reassessment of our economic and political structures, we risk the very implosion of the capitalist economy itself. In *The Rise of the Robots*, technology expert Martin Ford systematically outlines the achievements of artificial intelligence and uses a wealth of economic data to illustrate the terrifying societal implications. From health and education to finance and technology, his warning is stark - all jobs that are on some level routine are likely to eventually be automated, resulting in the death of traditional careers and a hollowed-out middle class. The robots are coming and we have to decide - now - whether the future will bring prosperity or catastrophe.

La danza Alessandro Pontremoli 2015-02-01T00:00:00+01:00

Nel corso del Novecento la danza è stata sottoposta ad attenta e minuziosa indagine e a un radicale ripensamento. Se si esamina il progredire nel corso del secolo delle idee sull'uomo e sulle sue possibilità di comunicazione e di espressione attraverso il movimento, emergono le caratteristiche e le peculiarità della danza come esperienza sociale e di partecipazione rituale collettiva, come evento artistico e realtà spettacolare. Il volume ripercorre la storia della danza moderna e contemporanea dal punto di vista sociale e fenomenologico, dai grandi precursori all'avanguardia degli ultimi anni, e ne mette in luce la dialettica costante e produttiva con le prassi teatrali, le tecniche e le pedagogie del movimento.

Revolt Against the Modern World Julius Evola 2018-07-13

With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world. As a gadfly, Evola spares no one and nothing in his survey of what we have lost and where we are headed. At turns prophetic and provocative, Revolt against the Modern World outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being. The revolt advocated by Evola does not resemble the familiar protests of

either liberals or conservatives. His criticisms are not limited to exposing the mindless nature of consumerism, the march of progress, the rise of technocracy, or the dominance of unalloyed individualism, although these and other subjects come under his scrutiny. Rather, he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values, ideals, beliefs, and codes of conduct--the world of Tradition--that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo-Europeans. Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga, the age of dissolution and decadence, Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century. Through a sweeping study of the structures, myths, beliefs, and spiritual traditions of the major Western civilizations, the author compares the characteristics of the modern world with those of traditional societies. The domains explored include politics, law, the rise and fall of empires, the history of the Church, the doctrine of the two natures, life and death, social institutions and the caste system, the limits of racial theories, capitalism and communism, relations between the sexes, and the meaning of warriorhood. At every turn Evola challenges the reader's most cherished assumptions about fundamental aspects of modern life. A controversial scholar, philosopher, and social thinker, JULIUS EVOLA (1898-1974) has only recently become known to more than a handful of English-speaking readers. An authority on the world's esoteric traditions, Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West. Other books by Evola published by Inner Traditions include *Eros and the Mysteries of Love*, *The Yoga of Power*, *The Hermetic Tradition*, and *The Doctrine of Awakening*.

Literature and the Gods Roberto Calasso 2010-06-16 Brilliant, inspired, and gloriously erudite, *Literature and the Gods* is the culmination of Roberto Calasso's lifelong study of the gods in the human imagination. By uncovering the divine whisper that lies behind the best poetry and prose from across the centuries, Calasso gives us a renewed sense of the mystery and enchantment of great literature. From the banishment of the classical divinities during the Age of Reason to their emancipation by the Romantics and their place in the literature of our own time, the history of the gods can also be read as a ciphered and splendid history of literary inspiration. Rewriting that story, Calasso carves out a sacred space for literature where the presence of the gods is discernible. His inquiry into the nature of "absolute literature" transports us to the realms of Dionysus and Orpheus, Baudelaire and Mallarmé, and prompts a lucid and impassioned defense of poetic form, even when apparently severed from any social function. Lyrical and assured, *Literature and the Gods* is an intensely engaging work of literary affirmation that deserves to be read alongside the masterpieces it celebrates.

the other side of unamendability: a notion, described in his previous books, according to which reality is "unamendable", it cannot be corrected at will. This "resistance" of the real is what ultimately tells us that, in opposition to the claims of post-Kantian philosophy, the world is not a result of our conceptual work: if it were so, our power over reality would be much greater. Now, the often disappointing limits that the real sets against our expectations are also a resource: and this is the key point of the present book. Things exist, and therefore undoubtedly resist us, but in doing so they offer affordances, resources, opportunities. And that the greatest opportunity, which underlies all the other ones, is the fact that we share a world that is far from liquid: on the contrary, it provides the solid ground on which everything rests, starting from our happiness or unhappiness.

The Celestial Hunter Roberto Calasso 2020-04-28 A New York Times Book Review Editors' Choice "[Calasso's] flow of associations leaves you feeling not out of your depth, but smarter and better read." --The New York Times Book Review The eighth part of Roberto Calasso's monumental series on the primal forces of civilization The eighth part of Roberto Calasso's singular work in progress that began in 1983 with *The Ruin of Kasch*, *The Celestial Hunter* is an inspired and provocative exploration of mankind's relationship with myth, the divine, and the idea of transformation. There was a time, even before prehistory, when man was simply a defenseless animal. The gods he worshiped took the form of other beasts or were the patterns of the stars he saw above him each night in the sky, which he transformed into figures and around which he created stories. Soon, however, man learned to imitate the animals that attacked him and he became a hunter. This transformation, Calasso posits, from defenseless victim to hunter was a key moment, the first step on man's ascendance to power. Suddenly the notion of the hunter became fundamental. It would be developed over thousands of years

through the figures that became central to Greek mythology, including the constellations. Among them was Orion, the celestial hunter, and his dog, Sirius. Vivid and strikingly original, and expertly translated from the Italian by Richard Dixon, *The Celestial Hunter* traces how man created the divine myths that would become the cornerstones of Western civilization. As Calasso demonstrates, the repercussions of these ideas would echo through history, from Paleolithic to modern times. And they would be the product of one thing: the human mind.

Physiognomy in Profile Melissa Percival 2005 "Physiognomy in Profile affirms and assesses Lavater's contribution to European culture in the two hundred years after his death. It examines how Lavater's vision of physiognomy as a viable method of interpreting the modern world has been repeatedly affirmed and challenged. Previous monographs on Lavater have tended to focus on one particular theme, discipline, or historical period, but this study deliberately adopts a cross-disciplinary approach, and covers a broad historical time frame. Some widely different material is juxtaposed (painting, photography, fiction, journalism, medical texts) in order to explore recurring issues in physiognomical thought." "Essays are arranged in chronological order so that the reader can gain a sense of the shared preoccupations of Lavater's contemporaries and successors. But the book may also be read thematically."--BOOK JACKET.

The Butlers of Iberville Parish, Louisiana David D. Plater 2015-11-18 In 1833, Edward G. W. and Frances Parke Butler moved to their newly constructed plantation house, Dunboyne, on the banks of the Mississippi River near the village of Bayou Goula. Their experiences at Dunboyne over the next forty years demonstrated the transformations that many land-owning southerners faced in the nineteenth century, from the evolution of agricultural practices and commerce, to the destruction wrought by the Civil War and the transition from slave to free labor, and finally to the social, political, and economic upheavals of Reconstruction. In this comprehensive biography of the Butlers, David D. Plater explores the remarkable lives of a Louisiana family during one of the most tumultuous periods in American history. Born in Tennessee to a celebrated veteran of the American Revolution, Edward Butler pursued a military career under the mentorship of his guardian, Andrew Jackson, and, during a posting in Washington, D.C., met and married a grand-niece of George Washington, Frances Parke Lewis. In 1831, he resigned his commission and relocated Frances and their young son to Iberville Parish, where the couple began a sugar cane plantation. As their land holdings grew, they amassed more enslaved laborers and improved their social prominence in Louisiana's antebellum society. A staunch opponent of abolition, Butler voted in favor of Louisiana's withdrawal from the Union at

the state's Secession Convention. But his actions proved costly when the war cut off agricultural markets and all but destroyed the state's plantation economy, leaving the Butlers in financial ruin. In 1870, with their plantation and finances in disarray, the Butlers sold Dunboyme and resettled in Pass Christian, Mississippi, where they resided in a rental cottage with the financial support of Edward J. Gay, a wealthy Iberville planter and their daughter-in-law's father. After Frances died in 1875, Edward Butler moved in with his son's family in St. Louis, where he remained until his death in 1888. Based on voluminous primary source material, *The Butlers of Iberville Parish, Louisiana* offers an intimate picture of a wealthy nineteenth-century family and the turmoil they faced as a system based on the enslavement of others unraveled.
